## **RENTOKIL INITIAL PLC AGM - 09-05-2018**

### *1. Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.9, Abstain: 0.1, Oppose/Withhold: 0.1,

### *2. Approve Remuneration Policy*

The current policy was approved on 11 May 2016 and was not due for a vote this year. However, the Remuneration Committee undertook a review in light of recent financial progress and consulted with Shareholders. Subsequently, various changes to the current remuneration framework were proposed which led to the proposal of a new policy subject to shareholder approval at this year's AGM.

The proposed policy changes are as follows: (i) increase in the maximum opportunity for the annual bonus from 100% to 150% of salary; (ii) upon application of the individual performance modifier the bonus payout for corporate financial performance will be increased by up to 25%, capped at an overall maximum of 180% of salary; (ii) Executive Directors will defer 40% of annual bonus (beginning with bonus earned in relation to 2018 performance) into a new Deferred Bonus Plan, with a minimum

deferral period of three years; (iv) annual share awards under the PSP will be increased from 200% to 250% of salary for the Chief Executive - may be increased to 300% of salary (versus 250% under the current policy) in exceptional circumstances; (v) a two year post-vesting holding period will apply to any awards granted in or after 2018; (vi) Executive Directors' shareholding guidelines will increase from 200% to 300% of annual base salary for the Chief Executive and from 150% to 200% of annual base salary for the Chief Financial Officer; (vii) lastly, future Executive Directors appointed will be eligible for a pension contribution or cash equivalent of 15% of salary.

Overall disclosure is satisfactory. The proposed limit of 15% of salary for the pension contributions of newly appointed Executive Directors is welcomed. However, this change does not apply to current Executive Directors or internal appointments; the CEO's current pension contribution is considered excessive at 25% of salary. The portion of the annual bonus which is subject to share deferral is not considered adequate, as it is recommended that at least half of the annual bonus is deferred into shares. The increase in the maximum opportunity for the annual bonus is not a welcomed change. With respect to the PSP, the three year performance period is not considered to be sufficiently long term. However, the introduction of a two year post-vesting holding period under the new policy is welcomed. The Company uses more than one performance condition, though they are both financial based and do not operate interdependently. It is recommended that at least one non-financial KPI is used, and that performance conditions operate interdependently. The proposed increase in the maximum opportunity from 200% to 250% of salary for the CEO is an inappropriate change. Moreover, the limit can be increased to 300% of salary in exceptional circumstances, which is contrary to best practice.

Total potential variable pay is excessive at 400% of salary for the CEO. Furthermore, when taking into account the effects of the individual performance modifier for the annual bonus, and the exceptional limit under the PSP, variable pay can reach 480% of salary. This is considered excessive, especially when compared to the recommended limit of variable pay of 200% of salary.

Shareholding requirements have been increased for Executives under the new policy, which is welcomed. At 300% of salary for the CEO, and 200% of salary for other Executives, which are to be built over five years, the shareholding guidelines are considered adequate and the changes promote better alignment with shareholder interests.

In relation to contracts, there is no guarantee that the Committee does not have the power to exercise upside discretion to dis-apply time pro-rating and performance conditions on termination of employment or on a change of control. On recruitment the Committee can exercise discretion to make variable pay awards of up to 480% of salary, which is excessive. In addition, this limit excludes any awards made to compensate the Executive Director for remuneration forfeited from their previous employer, which is inappropriate. Different measures and targets may be applied to a new appointment's annual bonus in the year of joining, which is contrary to best practice.

Rating: BDD.

### *3. Approve the Remuneration Report*

Overall disclosure is adequate. The change in the CEO's salary is in line with the change in the salaries of UK employees, as the CEO's salary rose by 1% while UK employees salaries increased by 0.6%. However, it is recommended that a more comprehensive group of employees is used when comparing the change in CEO's salary to the change in the salaries of the rest of the workforce. The change in CEO total pay over the last five years is not in line with the change in TSR over the same period. Total variable pay for the year under review is excessive, amounting to 465.8% of salary for the CEO. The ratio of CEO pay compared to average employee pay is not acceptable at 50:1.

Rating: AD.

Based on this rating it is recommended that West Midlands oppose.

#### *4. Amend the Performance Share Plan 2016 (the 2016 PSP)*

Authority sought to amend the Performance Share Plan (PSP), which was first approved by shareholders at the AGM in 2016. The Company seeks approval for some minor amendments to its existing terms. The amendments are as follow: proposal to increase the maximum opportunity from 200% of salary to 250% of salary, and to 300% of salary in exceptional circumstances; introduction of a two year post-vesting holding period, applying after the three year performance period; permit the application of clawback to five years; permit the accrual of dividends between the grant date and the actual date of vest or exercise; it is proposed that the Remuneration Committee are given discretion to also allow early vesting in the event of any other exceptional circumstance; proposed amendments have been made throughout the rules for compliance with legislative changes, which include the Market Abuse Regulations which came into effect in 2016 and the General Data Protection Regulation which applies in full from 25 May 2018; allow an addendum to be added to the 2016 PSP (which will be valid until the expiry of the 2016 PSP) to allow the granting of awards to participants in France under an approved plan; proposed amendments have been made to the US Schedule to ensure that the awards to US tax payers are in accordance with US tax rules following the changes to the main body of the PSP.

The introduction of a two year holding period is a welcomed change. However, the increase in the maximum opportunity is considered inappropriate and can lead to excessive payouts. It is recommended that total variable pay is limited to 200% of salary, yet PSP awards alone can exceed this limit. In light of this concern, an oppose vote is recommended.

#### *9. Re-elect Richard Burrows*

Senior Independent Director. Not considered independent owing to a tenure of over nine years. It is considered that a Senior Independent Director should be independent, in order to fulfill the responsibilities assigned to that role.

In light of the unacceptable rating of the Remuneration Policy, the Remuneration policy is considered to fall well below best practice according to West Midlands guidelines. As a result, West Midlands takes the opportunity to register its disapproval by voting against the re-election of the Chair of the Remuneration Committee.

#### *10. Re-elect John McAdam*

Incumbent Chairman. Not independent upon appointment as he participated in a one-off incentive arrangement approved by shareholders in 2008 in connection with the recruitment at that time of a new leadership team for the business. In addition we note his previous connection to the current chief executive, who he worked alongside in an executive capacity at ICI. Furthermore, he is also Chairman of United Utilities Group plc, a FTSE 100 company. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company. The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. ## **CK INFRASTRUCTURE AGM - 09-05-2018**

### *3.1. Elect Li Tzar Kuoi*

Executive Chairman. It is a generally accepted norm of good practice that the Chairman of the Board should act with a proper degree of independence from the Company's management team when exercising his or her oversight of the functioning of the Board. Holding an executive position is incompatible with this and a vote to oppose is recommended.

Vote Cast: *Oppose*

### *3.2. Elect Fok Kin Ning*

Executive Vice-Chairman. It is noted that Susan Chow Woo is an alternate to Fok Kin Ning. It is considered that the use of alternate directors is not appropriate as they are not accountable to shareholders. Furthermore, there are concerns over his aggregate time commitments.

Vote Cast: *Oppose*

### *3.4. Elect Cheong Ying Chew*

Non-Executive Director. Not considered to be independent as he is a director of Cheung Kong (Holdings) Limited, a member of the controlling shareholder group, and has served on the Board for more than nine years. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

### *3.6. Elect Angela Lee Pui Ling*

Non-Executive Director. Not considered to be independent as she has served on the Board for more than nine years. There is insufficient independent representation on the Board. An oppose vote is recommended.

## *4. Appoint the Auditors and Allow the Board to Determine their Remuneration*

Deloitte proposed. Non-audit fees represented 127.54% of audit fees during the year under review and 91.09% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

### *5.3. Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 5.1 those shares repurchased under the authority granted by proposal 5.2. The effect

of the proposal, if approved, would be to extend the limit for issuance of shares from 10% to 20% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

*Vote Cast: Oppose*

### *3.5. Elect Barrie Cook*

Non-Executive Director. Not considered to be independent as he is a former executive director of the Company (re-designated as non-executive in 2003). He has served on the Board for more than nine years. There is insufficient independent representation on the Board. An oppose vote is recommended.

*Vote Cast: Oppose*

## **POWER ASSETS HOLDINGS LTD AGM - 09-05-2018**

### *4. Approve KPMG as Auditors and Authorize Board to Fix Their Remuneration*

KPMG proposed. Non-audit fees represented 125.00% of audit fees during the year under review and 100.00% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Oppose*

### *5. Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights*

The authority is limited to 20% without pre-emptive rights. The mandate expires at the next Annual General Meeting. However, a limit exceeding 10% of shares issued without pre-emptive rights is deemed unacceptable. An oppose vote is recommended.

*Vote Cast: Oppose*

### *3d. Elect Wong Chung Hin as Director*

Non-Executive Director. Not considered to be independent as he previously served on the Board of the Hutchison Whampoa Limited, which controls the Company through its holding in the Company's largest shareholder, Hyford Limited. There is insufficient independent representation on the Board. An oppose vote is recommended.

### 1. Receive the Annual Report

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

### 2. Approve the Remuneration Report

Overall disclosure is adequate. Total variable pay for the year under review only consisted of the annual bonus, which amounted to 59.3% of salary, which is acceptable. The ratio of CEO pay compared to average employee pay is acceptable at 13:1. However, the change in the CEO's salary is not in line with the rest of the Company, as the CEO's salary increased by 10% while average employee salary rose by only 2%. Such a significant difference in the salary change of the CEO compared to average employees is not considered appropriate.

### 6. *Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. On balance, abstention is recommended.

#### 8. *Approve Authority to Increase Authorised Share Capital*

The Board requests shareholder authorization to increase the share capital by up to one-half of the current share capital (EUR 34,508,442), with or without pre-emptive rights during the five year period following approval. The possibility to increase share capital up to 50% without pre-emptive rights exceeds guidelines. No lower limit on issues with pre-emptive rights has been established. It is recommended shareholders oppose.

Vote Cast: *Oppose*

#### 9. *Approve Restricted Stock Plan*

The Board proposes the approval of a new incentive plan. Under the plan, executives Directors and Senior Management staff will be awarded rights to shares, which will start vesting after three years from the date of award. The Company does not disclose clear performance criteria but only a list of indicators, which makes it impossible to assess clearly the link between pay and performance and is deemed a serious frustration of shareholder accountability.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

#### 11. *Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive Directors. The Company discloses all elements of remuneration for Executives and Non-Executives. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely that shareholders reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

**4. *Approval of the Alcoa Corporation 2016 Stock Incentive Plan***

The Company has put forward a resolution requesting shareholders to approve the Alcoa Corporation 2016 Stock Incentive Plan (Amended Plan). The proposed amendments include an enhanced claw back provision, limits of share recycling, double-trigger equity vesting upon a change in control and a minimum vesting requirement. The Plan is awarded in the form of stock options, stock appreciation rights (SARs), restricted shares, restricted share units, performance awards and other awards. Employees of the Company and its subsidiaries and the non-employee directors of the Company are eligible to be selected as participants. The Amended Plan will be administered by the Compensation and Benefits Committee which has the power to select employees to whom it will grant awards, to determine the types of awards and the number of shares covered, to set the terms and conditions of the awards, to cancel or suspend awards and to modify outstanding awards. As performance conditions may be attached to awards at the Committee's discretion, there are concerns that the Committee will have considerable flexibility in the payout of discretionary awards and as a result awards may not be subject to robust enough performance targets, and be insufficiently challenging. As a result an oppose vote is recommended.

**2. *Ratify Ernst & Young LLP as Auditors***

EY proposed. Non-audit fees represented 6.67% of audit fees during the year under review and 3.24% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### *3. Advisory Vote to Ratify Named Executive Officers' Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BCC. Based on this rating, abstention is recommended.

Vote Cast: *Abstain*

Results: For: 93.6, Abstain: 0.2, Oppose/Withhold: 6.2,

### *4. Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** Not Disclosed.

Shareholders request that the board of directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. More than 100 Fortune 500 companies provide for shareholders to call special meetings and to act by written consent.

**Board's Opposing Argument:** The Board is against this proposal as without proper procedural protections, stockholder action by written consent can deprive stockholders of information, a voice and a vote on the matter approved in the written consent; stockholder meetings are a better method to present important matters for consideration by stockholders, and the Company's stockholders may effect change by calling a special meeting to raise matters for the review and approval of all stockholders; and the Company's existing corporate governance policies and practices provide stockholders with meaningful access to the Board and significant rights and protections. Currently, the Company's Certificate of Incorporation and By-Laws provide that stockholders holding 25% or more of the Company's outstanding common stock may call a special meeting. This is less than the percentage of stockholders that would be necessary to act by written consent under the Stockholder Proposal. Thus, stockholders proposing to act by written consent may propose any proper matter for a vote either through a special meeting or at our annual meeting.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders, regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis an oppose voted is recommended.

## **E.ON SE AGM - 09-05-2018**

### *5.1. Ratify PricewaterhouseCoopers GmbH as Auditors for Fiscal 2018*

PwC proposed. Non-audit fees represented 10.53% of audit fees during the year under review and 12.90% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

#### 7. *Create Conditional Capital*

The company requests the authority to cancel the existing conditional capital, create a new conditional capital and make the relevant amendments to the Articles. The authority would allow the company to increase the share capital up to 50% of the share capital, by issuing shares against contribution in cash by 8 May 2023. Shareholders will not be granted pre-emptive rights and the potential dilution exceeds guidelines. Therefore, opposition is recommended.

Vote Cast: *Oppose*

Results: For: 73.8, Abstain: 1.9, Oppose/Withhold: 24.3,

#### 8. *Issue Bonds/Debt Securities*

Authority is sought to issue convertible debt. Allocation of such instruments can take place without pre-emptive rights. As such, the cap to the authorized issuance (50% of the share capital) is considered to be excessive.

Vote Cast: *Oppose*

Results: For: 74.1, Abstain: 3.6, Oppose/Withhold: 22.3,

#### 9. *Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

Results: For: 91.4, Abstain: 0.2, Oppose/Withhold: 8.4,

#### 10. *Authorize Use of Financial Derivatives when Repurchasing Shares*

It is proposed to approve authority to use financial derivatives to repurchase and use capital stock within legal boundaries for 18 months. This authority seeks to increase the limit of 5% of total shares issued proposed in the previous resolution.

Within EU regulation, companies are required to maintain safe harbour conditions, which generally limit share buybacks with derivatives from within by limiting the possibilities of derivatives used. However, under this authority, the limit to share repurchase would exceed guidelines.

Vote Cast: *Oppose*

Results: For: 90.2, Abstain: 0.2, Oppose/Withhold: 9.6,

### VIRGIN MONEY HOLDINGS (UK) PLC AGM - 09-05-2018

#### 13. *Approve the Remuneration Report*

**Disclosure:** Overall disclosure is considered acceptable.

**Balance:** The total realised variable remuneration for the CEO in the year under review was 201.5% of salary, which is considered to be slightly excessive. Although the Remuneration Committee maintains discretionary powers in making awards, it does not appear that discretion was used in the year under review. The ratio of CEO pay compared to average employee pay has been estimated and found to be unacceptable at 39:1. It is disappointing to see the Company circumvented the spirit of the CRD IV regulations by creating a Role Based Pay allowance (fixed pay allowance) which is delivered quarterly in shares, subject to a holding period with restrictions lifting over five years (20% each year). The sum of £100,000 was paid to the CEO as her role based allowance for the year. The use of Fixed Pay is not considered appropriate as it increases indirectly the maximum variable opportunity for the Executives (as variable pay is capped as % of fixed pay).

Rating: AC

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

Results: For: 83.7, Abstain: 1.5, Oppose/Withhold: 14.8,

#### *19. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

Vote Cast: *Oppose*

Results: For: 90.8, Abstain: 0.0, Oppose/Withhold: 9.2,

#### *21. Issue Additional Tier 1 Securities*

Authority is sought to allot shares and grant rights to subscribe for or to convert any security into ordinary shares in the Company up to an aggregate nominal amount of £11,123 representing approximately 25% of the Company's issued ordinary share capital as at 22 March 2018, such authority to be exercised in connection with the issue of Additional Tier 1 Securities. The authority expires at the next AGM. The Directors believe it is in the best interests of the Company to have the flexibility to issue AT1 Securities from time to time. Being a general authority, this is considered significantly dilutive. Furthermore, it is not clear that this authority excludes the use of Contingent Convertible securities or Cocos. Based on these concerns, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 99.1, Abstain: 0.0, Oppose/Withhold: 0.8,

#### *22. Issue Additional Tier 1 Securities for cash*

Authority to issue shares for cash pursuant to any proposal to issue Additional Tier 1 Instruments. This is limited to 25% of the share capital of the Company and expires at the next AGM. Being a general authority, this is considered significantly dilutive. In line with the vote recommendation in resolution 21, an oppose vote is recommended.

Vote Cast: *Oppose*

### **SKYWORKS SOLUTIONS INC AGM - 09-05-2018**

#### *1.1. Elect Director David J. Aldrich*

Executive Chairman. It is a generally accepted norm of good practice that the Chairman of the Board should act with a proper degree of independence from the Company's management team when exercising his or her oversight of the functioning of the Board. Holding an executive position is incompatible with this and a vote to Oppose is recommended.

## 2. *Ratify KPMG LLP as Auditors*

KPMG proposed. Non-audit fees represented 3.42% of audit fees during the year under review and 2.12% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 97.5, Abstain: 0.2, Oppose/Withhold: 2.2,

## 3. *Advisory Vote to Ratify Named Executive Officers' Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects

the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BDE. Based on this rating, it is recommended that shareholders oppose.

Vote Cast: *Oppose*

Results: For: 93.2, Abstain: 0.4, Oppose/Withhold: 6.4,

#### 5. *Amend Articles: Provide Right to Call Special Meeting*

It is proposed to amend the bylaw on a non-binding basis to provide shareholders of the Company in the aggregate at least 25% of the outstanding shares, and who have held such shares continuously for at least one year prior to their request. In January 2018, the Board adopted a newly revised Article II, Section 3, of the By-laws (the "Stockholder Special Meeting Provision"), which requires the Company to call a special meeting of stockholders upon written request from record shareholders who own shares that represent at least 25% of the outstanding shares of the Company and who have held such shares continuously for at least one year. Due to this proposal, the Company has omitted a shareholder proposal from the Proxy Statement requesting that it take the steps necessary to amend its governing documents to give the power to call special stockholder meetings to holders in the aggregate of 10% of the outstanding shares of the Company's outstanding shares. The Company believes the shareholder proposal is excludable as it directly conflicts with this proposal due to the different ownership thresholds proposed.

It is believed that the right to call a special shareholder meeting provides shareholders with a way of communicating with the Board and debating and voting on issues with the rest of shareholders, which in itself enhances shareholders' rights. As this proposal has negated the inclusion of the shareholder proposal, opposition is recommended.

Vote Cast: *Oppose*

### **BOSKALIS WESTMINSTER NV AGM - 09-05-2018**

#### 11. *Authorize Repurchase of Up to 10 Percent of Issued Share Capital*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

### **INVESTMENT AB LATOUR AGM - 09-05-2018**

#### 13. *Appoint the Auditors*

PwC proposed. Non-audit fees represented 28.57% of audit fees during the year under review and 52.63% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor.

Vote Cast: *Oppose*

#### 14. *Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. This resolution will not

be supported unless the Board has set forth a clear, cogent and compelling case demonstrating how the authority would benefit long-term shareholders. As no clear justification was provided by the Board, an oppose vote is recommended.

*Vote Cast: Oppose*

#### *15. Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

#### *16. Approve Stock Option Plan for Key Employees*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted stock options, each of which will give right to one share. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure. LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

*Vote Cast: Oppose*

#### *9.C. Approve Discharge of Board and President*

Standard resolution. Under the new Whistleblowing Act in Sweden, companies are to adopt internal whistleblowing procedures. No sanctions are provided for companies found in non-compliance, yet employees may be allowed to sue companies for damage, in case of retaliation. As the Company does not discuss the new Whistleblowing Act and does not seem to have implemented a whistleblowing hotline, it is considered that the Company may be exposed to serious legal risks and discharge should not be supported. In addition, the Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

*Vote Cast: Abstain*

## **KION GROUP AG AGM - 09-05-2018**

### *5. Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 4.76% of audit fees during the year under review and 22.73% on a three-year aggregate basis. This level of non-audit

fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

## **BPOST SA AGM - 09-05-2018**

### *5. Approve the Remuneration Report*

It is proposed to approve the remuneration report with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not disclosed the underlying targets or quantified performance criteria for its variable remuneration component. Although common practice in this market as this is deemed sensitive information, this may lead to overpayment against underperformance. Additionally, here are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

### *6. Discharge the Board*

The discharge of the Board of Directors is a legal requirement for Belgian companies. However shareholders who voted in favour of the discharge are precluded from bringing suit against the company. Though no concerns have been identified, opposition is recommended in order to conserve the right to decide to pursue future legal action against the Company.

Vote Cast: *Oppose*

### *7. Discharge the Auditors*

The discharge of the Auditors is a legal requirement for Belgian companies. However shareholders who voted in favour of the discharge are precluded from bringing suit against the company. Though no concerns have been identified, opposition is recommended in order to conserve the right to decide to pursue future legal action against the Company.

Vote Cast: *Oppose*

### *9. Appoint the Auditors*

EY proposed. Non-audit fees represented 22.76% of audit fees during the year under review and 28.84% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### *10. Approve Related Party Transaction*

It is proposed to approve the Revolving Facility Agreement and its provisions in the event of a change in control. Article 8.2 of the Revolving Facility Agreement provides

that in case a person or group of persons acting in concert gains control of Bpost, (i) a Lender shall not be obliged to fund a Loan (except for a Rollover Loan) and (ii), upon request of a Lender, this may also lead to the cancellation of the Commitment of that Lender and the declaration of the participation of that Lender in all outstanding Loans, together with accrued interest, and all other amounts accrued under the Finance Documents (including any Ancillary Outstandings) immediately due and payable, whereupon the Commitment of that Lender will be cancelled and all such outstanding Loans and amounts will become immediately due and payable. This is an anti take over device, which may be used to entrench under performing management. Opposition is recommended.

## 888 HOLDINGS PLC AGM - 09-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place. The Company disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. However, relevant, up-to-date, quantified, environmental reporting has not been disclosed. West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 98.8, Abstain: 1.1, Oppose/Withhold: 0.1,

### 2. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. Performance conditions and targets for long term incentives are disclosed and all share incentive awards are fully disclosed with award dates and prices. However, dividend accrual is not separately categorised.

**Balance:** The CEO's salary is in the upper quartile of the comparator group which raises concerns over excessiveness. Also, the increase in CEO salary is not in line with the rest of the Company. The CEO realised an increase of 5% whilst the average employee saw an increase of 2%. Furthermore, The ratio of CEO pay compared to the average employee has been estimated and found to be excessive at 34:1. The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over the last five years is not aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 71.2% whereas, on average, TSR has increased by 27.58%. Also, The total realised reward made under all variable incentive schemes to the CEO during the year under review is considered excessive as it represents 279.75% (Annual Bonus: 155% LTIP: 124.75%).

Rating: AD

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

##### *3. Approve the Remuneration Report*

It is proposed to approve the remuneration policy with an advisory vote. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to over payment against under performance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. On Balance abstention is recommended.

##### *6.3. Approve Revised Compensation Budget for Remuneration of Executive Management for Fiscal 2017 and Fiscal 2018*

It is proposed to approve the remuneration policy for the Executives for the fiscal years 2017 and 2018. Although the remuneration policy cap which is followed had a steady decline for the variable remuneration from CHF 41.6 million to CHF 22 million for the year 2017 and from the CHF 64 million to CHF 47.4 million (because of the adjustments for new directors) and finally to zero variable compensation for 2018. The lack of quantified targets for the variable remuneration may lead to over payment or under performance. On balance opposition is recommended.

## **DOMINION ENERGY INC AGM - 09-05-2018**

### *1.4. Elect Director Thomas F. Farrell, II*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

### *5. Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** Not Disclosed.

Shareholders request that the Board of Directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written

consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are 2 complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. More than 100 Fortune 500 companies provide for shareholders to call special meetings and to act by written consent.

**Board's Opposing Argument:** The Board is against this proposal as the Board believes that the implementation of this proposal is unnecessary and is not in the best interests of Dominion Energy's shareholders. Dominion Energy has an existing Bylaw provision that provides shareholders holding 25% or more of the company's outstanding common stock with the right to call special meetings. The Board believes that this provision offers a transparent and equitable mechanism for shareholders to raise matters for consideration by the Company outside of the setting of annual meetings and special meetings called by the Board. Permitting action by written consent would enable a limited group of shareholders to act without the same required transparency to all shareholders. Specifically, the proposal could allow a dissident shareholder group to disenfranchise other shareholders – particularly its many smaller shareholders – by sidestepping a full debate of the merits or consequences such a proposed action presents.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the Company. On this basis shareholders are advised to oppose.

## KONINKLIJKE (ROYAL) DSM NV AGM - 09-05-2018

### 11.B. *Authorise the Board to Waive Pre-emptive Rights*

The board requests shareholder approval to exclude pre-emption rights on shares issued over a period of 18 months. The corresponding authority for issuing shares without pre-emptive rights, requested in a previous proposal, does not exceed guidelines 10%. However it is considered that shareholders should be allowed to vote on such resolutions annually. Opposition is recommended.

The compensation rating is: ADD. Based on this rating, it is recommended to oppose.

*Vote Cast: Oppose*

### *3. Approval of the 2018 Stock Plan for Non-Employee Directors*

The Company has put forward a resolution requesting shareholders approve the 2018 Stock Plan for Non-Employee Directors (the "2018 Plan"). The maximum number of Shares subject to awards which may be issued pursuant to the 2018 Plan will be 500,000 Shares. The 2018 Plan will be granted in the form of Non-qualified Stock Options, Restricted Stock and Restricted Stock Units. The 2018 Plan will be administered by the Committee which has the power to determine select participants. All non-employee directors are eligible to receive awards under the 2018 Plan (currently 11).

Given that, there is no meaningful way that shareholders can approve or re-approve performance 'goals' of which they have scant prior knowledge. Accordingly, a vote to oppose is recommended.

*Vote Cast: Oppose*

### *4. Approval of the 2018 Long-Term Incentive Plan*

The Company has put forward a resolution requesting shareholders to approve the 2017 Annual Incentive Plan (2017 Plan) to replace the 2012 Plan. The 2017 Plan has been designed to provide compensation opportunities qualifying as performance-based compensation. The maximum number of Shares subject to Awards which may be issued pursuant to the 2018 LTIP will be 6,750,000 Shares. The LTIP will be granted in the form of Non-qualified Stock Options, Stock Appreciation Rights, Restricted Stock and Restricted Stock Units, Performance Units and Performance Shares and Other Stock-Based Incentives.

It is considered that, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, it is recommended to oppose the resolution.

*Vote Cast: Oppose*

### *5. Appoint the Auditors*

KPMG proposed. Non-audit fees represented 2.80% of audit fees during the year under review and 4.28% on a three-year aggregate basis. ## **ARCELORMITTAL SA AGM - 09-05-2018**

### *V. Discharge the Board*

Standard proposal. In September 2017, The Metallurgical Workers' Union Zhaktau and Mineworkers' Union Korgau at ArcelorMittal Temirtau in Kazakhstan initiated a lawsuit against the company for failure to conclude a new collective agreement and for not respecting social benefits and guarantees of employees. The Company has not disclosed how is going the process. Therefore, abstain is recommended.

*Vote Cast: Abstain*

### VII. *Re-elect Tye Burt*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

Vote Cast: *Abstain*

### VIII. *Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 2.54% of audit fees during the year under review and 3.24% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### IX. *Authorisation of grants of share based incentives*

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives will be awarded rights to shares, which will start vesting after three years from the date of award. The Company discloses clear performance criteria, which is above market practice. However, three year period is not considered sufficiently long term and the performance target do not seems challenging enough as the 50% is rewarded for the achievement of a median position within the peer group.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

### 5. *Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** Mr. James McRitchie.

The Proponent requests the Board of Directors to undertake necessary steps to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law. The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Taking action by written consent saves the expense of holding a special shareholder meeting.

**Board's Opposing Argument:** The Board argues that the proposal is contrary to the best interests of shareholders. The Board states that its current practices are designed to ensure that notice and the ability to be heard occur prior to shareholder votes, which enables a meaningful discourse before key decisions are made. The Board recommends shareholders oppose and argues that currently, shareholders of 20% of common stock have the right to call a special meeting which is an appropriate threshold, particularly when viewed together with the Company's robust corporate governance practices. The Board argues that adoption of the proposal could allow a relatively small minority of shareholders with narrow interests to call an unlimited number of special meetings to consider matters that may not be in the best interests of all of shareholders. Finally, the Board argues that its active engagement with shareholders and strong corporate governance practices make the proposal unnecessary.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result, up to 49% of the Company's shareholders could be prevented from voting, or even receiving accurate and complete information, on important pending actions. While it is considered that the Board should remain accountable to its shareholders, regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

## ADIDAS AG AGM - 09-05-2018

### 5. *Approve Remuneration System for Management Board Members*

It is proposed to approve the remuneration policy. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. On balance, abstention is recommended.

Vote Cast: *Abstain*

### 9.1. *Appoint the Auditors*

KPMG proposed. Non-audit fees represented 12.50% of audit fees during the year under review and 9.52% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. However, the current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

## STANDARD CHARTERED PLC AGM - 09-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

### 3. *Approve the Remuneration Report*

The CEO salary is in the median of its comparator group. A 238% increase in the CEO's annual incentive is not in line with a 10% increase for all employees. Upon engagement the Company stated that the 238% increase in annual incentive for the CEO takes into account the change in incentives mix for the annual incentive (the maximum annual incentive opportunity was 40% of fixed remuneration in 2016, and 80% of fixed remuneration in 2017) but does not take into account the corresponding reduction in LTIP opportunity (from 160% in 2016, to 120% in 2017). Overall, total incentives increased from 178% of fixed remuneration in 2016 to 181% of fixed remuneration in 2017. The changes in CEO pay over the last five years are not considered in line with the Company's TSR performance over the same period. The Fixed Pay Allowance (FPA), which amounts to 100% of salary for the CEO, is included in the fixed remuneration and therefore significantly increases the variable award opportunity for executive directors, whose incentives are capped as percentage of fixed pay. With reference to salary, the CEO's LTIP award is equivalent to 288% of salary, which is deemed excessive. The total variable remuneration rewarded to the CEO in the year under is 146% which is considered acceptable. Finally, the ratio of CEO to average employee pay is considered inappropriate at 98:1.

Rating: AD.

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

Results: For: 97.5, Abstain: 1.1, Oppose/Withhold: 1.4,

### 17. *Appoint the Auditors*

KPMG proposed. Non-audit fees represented 8.19% of audit fees during the year under review and 14.78% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are

concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

PIRC issue: The Company disclosed that a full tender took place in 2017 following which EY will be appointed auditor for the year ending 31 December 2020. During the intervening period, EY and the Group will start the transition process.

#### *21. Extend the Authority to Allot Shares to Include the Shares Repurchased by the Company*

It is proposed to extend the authority to issue shares for cash up to 10% of the issued share capital (as permitted by Hong-Kong Listing Rules and which is included in the resolution 20) by authorising the Board to issue share repurchased by the Company under resolution 26. This represent an additional 10% of the issued share capital and is considered excessive. It is noted that this extension would not result in the authority to allot shares or grant rights to subscribe for or convert securities into shares pursuant to resolution 20 exceeding two-third of the issued share capital. The authority and limits given through resolution 20 are considered sufficient and an oppose vote is therefore recommended.

Vote Cast: *Oppose*

Results: For: 96.3, Abstain: 0.5, Oppose/Withhold: 3.1,

#### *22. Allot Shares in Relation to any Issue of Equitable Convertible Additional Tier 1 Securities*

Authority to allot Equity Convertible Additional Tier 1 Securities (ECAT1s), or shares issued upon conversion or exchange of ECAT1s, up to an aggregate nominal amount of US\$330,063,429 (or 660,126,858 shares), representing approximately 20 per cent of the Company's issued ordinary share capital. This authority expires at next AGM.

The use of Contingent Convertible Securities or CoCos is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Recent events at Deutsche Bank has led to others voicing their concerns about the destabilising effect of CoCos on both the CoCo price and the share price. Based on these concerns, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 97.9, Abstain: 0.5, Oppose/Withhold: 1.6,

#### *24. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

**4. *Approve New Long Term Incentive Plan***

The Board is requesting the approval from shareholders of the Arch Capital Group Ltd. 2018 Long-Term Incentive and Share Award Plan. The Board plans to gain an additional 11.5 million shares to fund the plan along with the existing plans in place for approximately four to five years. The plan is eligible to officers, other employees and directors of Arch Capital and its subsidiaries and affiliates. Administration of the plan will be conducted by the compensation committee. LTIPs are not considered an effective means of incentivising performance. These schemes are not considered to be properly long term and are subject to manipulation due to their discretionary nature. Shareholders are advised to oppose.

### 3. *Amend Omnibus Stock Plan*

It is proposed to approve the the amendments to the 2013 Incentive Plan , which include: an increase in the pool of shares available under the 2013 Incentive Plan from 48,124,434 shares, the re-approval of the performance criteria; an increase in the maximum number of shares of common stock that may be granted under awards to any individual in any calendar year from six million to 15 million; and an increase in the maximum cash award for any individual in any calendar year from USD 10 million to USD 20 million per calendar year covered by the award.

Employees, officers, consultants and advisors and those of our subsidiaries are eligible to be granted awards under the 2013 Incentive Plan. The 2013 Incentive Plan is administered by the Compensation Committee. The Committee has the authority to adopt, amend and repeal the administrative rules, guidelines and practices relating to the 2013 Incentive Plan and to interpret the provisions of the 2013 Incentive Plan. Subject to any applicable limitations contained in the 2013 Incentive Plan, the Compensation Committee, or any other committee to whom the Board delegates authority, as the case may be, selects the recipients of awards and determines the terms of such awards.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards. We also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

## RATHBONE BROTHERS PLC AGM - 10-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board and within the whole organisation.

West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic

level procedures for information and consultation.

PIRC issue: The proportion of women in senior management positions is not disclosed.

Vote Cast: *Oppose*

Results: For: 98.9, Abstain: 1.1, Oppose/Withhold: 0.1,

## 2. Approve the Remuneration Report

**Disclosure:** Overall disclosure is acceptable.

**Balance:** The CEO's realised reward for the year under review is not considered excessive at 128% of salary. The ratio of CEO to average employee pay has been estimated and is found acceptable at 11:1. However, changes in CEO pay over the last five years are not considered in line with Company's financial performance over the same period.

Rating: AC.

Based on this rating it is recommended that West Midlands abstain.

Vote Cast: *Abstain*

Results: For: 86.0, Abstain: 1.0, Oppose/Withhold: 13.0,

## 3. Approve Remuneration Policy

**Policy changes:** (i) Increased level of disclosure for the EIP; (ii) Increase in the maximum opportunity under the EIP from 200% to 300% of salary; (iii) Increase in the weighting of performance metrics linked to both the long-term and financial performance, whilst removing personal objectives and (iv) increase in the current shareholding requirements applied to 200% from the current 100% of base salary. In addition, new post-cessation holding requirements will also apply, requiring executive directors to continue to meet the shareholding requirements in full for at least one year post-cessation, and to continue to meet 50% of the shareholding requirements for the second year post-cessation.

**Disclosure:** Overall policy disclosure is acceptable.

**Balance:** The Company has a sole incentive plan, the Executive Incentive Plan with awards paid in cash (40%) and deferred Rathbones shares (60%) which vest over a five-year period in equal tranches of 20% per annum. The maximum opportunity under this plan is considered excessive at 300% of salary. A three year performance period is not considered sufficiently long-term however there is a full five year sale restriction period.

**Contracts:** A mitigation statement is made. Termination provisions are fully disclosed and not excessive.

Rating: ACB.

Based on this rating it is recommended that West Midlands abstain.

Disclosure is considered adequate and was made available sufficiently before the meeting. The financial statements have been audited and certified. A final dividend of USD 1.20 per share is proposed, which brings the total dividend for the year under review to USD 1.60 cents per share. The dividend is covered by earnings. However, Adam Keswick and Lord Sassoon, both Executive Directors, sit on the Audit Committee. This is a breach of best practice as the Committee should only comprise independent Non-Executive Directors. This concern is exacerbated by the fact that there is no independent representation on the Board. An oppose vote is recommended.

**3. Re-elect Anthony Nightingale**

Executive Director. Member of the Audit Committee. It is considered best practice that the committee should only comprise independent non-executive directors. An oppose vote is recommended.

Vote Cast: *Oppose*

**5. Re-elect Percy Weatherall**

Non-Executive Director. Not considered to be independent as he was previously an employee of the Company and he was the Managing Director of the Company up to 2006. In addition he has a family relationship with Henry Keswick, Adam Keswick, Ben Keswick and Simon Keswick. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

**6. Appoint the Auditors and Allow the Board to Determine their Remuneration**

PWC proposed. Non-audit fees represented 21.05% of audit fees during the year under review and 21.05% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

**KEYCORP AGM - 10-05-2018**

**1.12. Elect Director Beth E. Mooney**

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

## THE UNITE GROUP PLC AGM - 10-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.8, Abstain: 0.1, Oppose/Withhold: 0.1,

### 2. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. Performance conditions and targets for long term incentives and annual bonus are disclosed and all share incentive awards are fully disclosed with award dates and prices. However, dividend accrual is separately categorised which is welcome.

**Balance:** The CEO salary is in the median of the comparator group. Changes in CEO pay over the last five years are in line with Company's financial performance over the same period. However, total variable pay of the CEO was slightly excessive at 201% of base salary (Annual Bonus 91.82% and LTIP 109.02%). Also, the ratio of CEO pay compared to average employee pay is excessive at 27:1.

The payments made to the former CEO, Mark Allan, were appropriate and fully explained. As part of the leaver arrangements the Committee preserved the first two-thirds of his 2013 LTIP award (which vested in full based on performance to 31 December 2015). These awards became capable of exercise on 1 April 2017, being an increased deferral period from the original vesting date.

Rating:AC

Based on this rating it is recommended that West Midlands abstain.

Vote Cast: *Abstain*

### 17. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### 2. *Approve the Remuneration Report*

**Disclosure:** Overall disclosure is acceptable however non-financial performance targets for the annual bonus are not disclosed.

**Balance:** The CEO's realised variable pay for the year under review is not excessive as his sole reward was the annual bonus of 70% of his pro-rated salary. The ratio of CEO to average employee pay has been estimated and is found unacceptable at 22:1. Mr S.R. Mitchell stepped down from the Board as Group Chief Executive on 11 November 2016, and Mr D.G. Robertson retired from the Board as Group Finance Director on 31 January 2017. Given the overstatements, malus and clawback should be applied to their payments. Mr D.G. Robertson was eligible to receive a pro-rated bonus in respect of the period 1 January 2017 to 28 February 2017, subject to performance as determined and approved in the normal manner. The Committee noted that investigations relating to the historical overstatement of profit had concluded that Mr Robertson was not aware of or involved in the irregularities identified but decided that, due to his position of responsibility, no bonus should be payable to Mr Robertson for 2017. The Committee concluded that there was no reason to apply clawback for previous years. Regarding Mr. Mitchell, the Company states that he had no involvement in the matters investigated and which were included in the two announcements made in January and February. Consequently there

was no requirement for any consideration in respect of malus or clawback for him. Mr M. Oldersma was appointed as Chief Executive Officer on 3 April 2017 and Mr N.W. Maddock was appointed as Chief Financial Officer on 1 February 2017. It is noted the CEO was awarded an LTIP of 200% of salary which is considered excessive.

Senior Independent Director since 9 March 2018. Not considered independent as he was appointed as Interim Chief Executive from 11 November 2016 until 1 May 2017 on a full-time basis. It is considered that a Senior Independent Director should be independent, in order to fulfil the responsibilities assigned to that role.

PIRC issue: Furthermore he sits on the Audit and Remuneration Committees which should be solely comprised of independent non-executive directors. Also, given the accounting irregularities discovered and his membership of the audit committee as at the time the events occurred, his re-election cannot be supported.

#### 11. *Appoint the Auditors*

Deloitte proposed. There were no non-audit fees during the year under review and 2% on a three year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Furthermore, given the accounting irregularities discovered, the continued appointment of the auditors raises concerns.

**3. Approve the Remuneration Report**

**Disclosure:** All elements of each director's cash remuneration and pension contribution are disclosed. All share incentive awards are fully disclosed with award dates and prices. Information concerning the determination of non-executive directors' fees is also disclosed. However, actual performance targets for the annual bonus are not disclosed due to their commercial sensitivity.

**Balance:** The new CEO's salary is in the median of the Company's comparator group. The change in CEO total pay over the last five years is considered to be in line with the change in TSR over the same period. However, total variable pay for the year under review is excessive amounting to 256.48% (or 210% if you base the calculation on the eight months worked until Mr Wanecq stepped down) of base salary (Annual Bonus 101.52%; LTIP 154.96%). Also, the ratio of CEO pay compared to average employee pay is considered to be unacceptable at 30:1. The Company state that the ratio is pay impacted by the international nature of the Group.

François Wanecq, ex-CEO, was treated as a good leaver, the awards made under the Vesuvius Share Plan will vest on a pro-rated basis subject to the achievement of the applicable performance criteria over the full performance period. These provisions are considered to be acceptable.

**2. Approve New Omnibus Plan**

It is proposed to approve the 2018 Stock Incentive Plan. Under the 2018 Plan, the Board has authorised 3,500,000 shares for issuance thereunder, plus the number of shares remaining available for issuance under the 2009 Plan as of the date of the 2018 annual meeting. The 2018 Plan is administered by our compensation committee. The compensation committee has full power to select, from among the individuals eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to participants, and to determine the specific terms and conditions of each award, subject to the provisions of the 2018 Plan. Persons eligible to participate in the 2018 Plan are employees, officers, directors, consultants and advisors of Alnylam as selected from time to time by the compensation committee in its discretion. The maximum number of shares with respect to which awards may be granted to non-employee directors in the aggregate is 10% of the total number of shares reserved for issuance under the 2018 Plan.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan). An oppose vote is recommended.

## **ENI SPA AGM - 10-05-2018**

### *3. Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. On balance, abstention is recommended.

Vote Cast: *Abstain*

## **SWIRE PACIFIC LTD AGM - 10-05-2018**

### *1.A. Elect M B Swire as Director*

Newly appointed Executive Chairman. It is a generally accepted norm of good practice that the Chairman of the Board should act with a proper degree of independence from the Company's management team when exercising his or her oversight of the functioning of the Board. Holding an executive position is incompatible with this and a vote to oppose is recommended.

Vote Cast: *Oppose*

### *1.B. Elect S C Swire as Director*

Non-Executive Director. Not considered to be independent as he is a member of the Swire Family. Also, he is a shareholder and Director of John Swire & Sons Limited, the controlling shareholder. He is brother to M B Swire, a Non-Executive Director of the Company. There is insufficient independent representation on the Board. An oppose vote is recommended.

**12. Approve the Remuneration Report**

It is proposed to approve the annual report on remuneration of Executive and Non-Executive directors with an advisory vote. There are excessiveness concerns as the total variable remuneration exceeded 200% of the salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, opposition is recommended based on excessive remuneration.

**DIRECT LINE INSURANCE GROUP PLC AGM - 10-05-2018****2. Approve the Remuneration Report**

**Disclosure:** All elements of each director's cash remuneration are disclosed and next year's salaries are clearly stated. However, Performance targets for the AIP are not fully disclosed as they are deemed to be commercially sensitive. Also, dividend accrual is not separately categorised.

**Balance:** The CEO salary is in the median of the comparator group. However, the ratio between the CEO pay and the average employee pay is not appropriate at 61:1. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 23% whereas, on average, TSR has increased by 21.4%. However, the CEO's total variable pay for the year under review is considered highly excessive as it amounts to 409.5% of his salary.

The recruitment package for Penny James, newly-appointed Chief Financial Officer, is considered to be excessive in nature.

Deloitte proposed. Non-audit fees represented 5.26% of audit fees during the year under review and 16.07% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**20. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment**

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

**22. Authority to allot new shares in relation to an issue of Solvency II RT1 Instruments**

Authority is sought to allot shares and grant rights to subscribe for or to convert any security into ordinary shares in the Company up to an aggregate nominal amount

of £23,250,000, representing approximately 15.5% of the Company's issued ordinary share capital as at 15 March 2017, such authority to be exercised in connection with the issue of Solvency II (SII) Restricted Tier 1 (RT1) instruments. The authority expires at the next AGM. The Company explains that this authority is needed so that the Company has the flexibility to manage and maintain its and the Group's capital structure more effectively in the light of evolving regulatory capital requirements, market conditions and appetite for different instruments and their cost-effectiveness.

The use of Contingent Convertible Securities (or CoCos) is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Recent events at Deutsche Bank has led to others voicing their concerns about the destabilising effect of CoCos on both the CoCo price and the share price. Based on these concerns, an oppose vote is recommended.

### *9. Approve the proposed annual remuneration for routine business for each Director*

Shareholders are being asked to approve the proposed remuneration payable to each Director for the year to 31 December 2017 for routine business. The Company proposes to introduce an increase in base aggregate fees for the Chairman of 11.9%, an increase of 14.6% for Non-Executive Directors and Chair of the Audit Committee. This increase is considered excessive, though the Company have provided an explanation that the Company has grown significantly and the workload of Directors' has also increased. It is noted that Directors are also entitled to an additional fee, where the Company requires Directors to work on specific corporate actions such as further equity raisings.

### *2. Approve the Remuneration Report*

Overall disclosure is adequate. Changes in the CEO's total remuneration over the past three years are considered to be in line with changes in TSR during the same period. The change in the CEO's salary is in line with the change in the salaries of UK employees, as the CEO's salary rose by 9.1%, while the salaries of the latter increased by 7.9%. Total variable pay for the year under review was excessive, amounting to 229% of salary for the CEO. The ratio of CEO pay compared to average

employee pay is not considered acceptable at 26:1.

The Company's remuneration report received 10.29% opposition at last year's AGM. Upon engagement with the Company, it was revealed that there was shareholder consultation, and changes were made to the remuneration policy in response.

### *3. Approve Remuneration Policy*

The proposed changes to the policy are as follows: maximum opportunity for the annual bonus increased to 150% of salary; the proportion of bonus based on the Business Balanced Scorecard and personal performance changed from 75:25 to 90:10; a two year post-vesting holding period introduced on PSP awards made from 2018; the share ownership guidelines increased by 50% of salary to 250% of salary for the CEO and 200% of salary for the CFO; the maximum pension contribution remains at 13% of salary, however the individual will not be required to make a contribution into the plan to receive this.

Overall disclosure is satisfactory. Bonus awards are paid to the Executive Directors, 50% in cash and 50% in shares, which is within guidelines. The deferral period is adequate. However, performance conditions do not operate in an interdependent manner. Awards under the PSP are subject to performance conditions which work independently of each other. This is against guidelines as they should work in an interdependent manner. Also, no non-financial indicator is used. The three-year performance period is not considered sufficiently long term, though the introduction of a two year holding period is welcomed. Total potential variable pay is excessive at 350% of salary. The increase in shareholding requirements is welcomed, however they do not meet best practice guidelines as no time-frame is set. A dividend or dividend equivalents may be accrued on vesting awards from the date of grant. Such rewards are not supported as they mis-align shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not. The policy on recruitment does not raise serious concerns. However, in the event of termination of employment, the Remuneration Committee has overall discretion on the treatment of outstanding awards. The Committee can dis-apply time pro-rating on PSP awards if an Executive is awarded good leaver status, which is inappropriate.

### *9. Issue Shares with Pre-emption Rights in relation to the issue of Regulatory Capital Convertible Instruments*

Shareholders are being asked to give the Board the authority to allot shares or grant rights to subscribe for or convert any security into ordinary shares up to an aggregate nominal amount of £293,187 in connection with the issue of Regulatory Capital Convertible Instruments. This is equivalent to approximately 12% of the issued ordinary share capital of the Company as at 23 March 2018. Regulatory Capital Convertible Instruments are debt securities which convert into ordinary shares in certain prescribed circumstances. Resolutions 8 and 12 are intended to provide the Directors with the flexibility to authorise the issue of Regulatory Capital Convertible Instruments which contain contractual debt to equity conversion features.

The use of Regulatory Capital Convertible Instrument is not considered appropriate as they put investors at significant risk of dilution in the event that conversion

occurs. They are relatively new instruments and there are concerns that they may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. The right to call a special shareholder meeting provides shareholders with a way of communicating with the Board and debating and voting on issues with the rest of shareholders, which in itself enhances shareholders' rights. As the threshold recommended by the Board is considered to be higher than the 10% Delaware provisions, opposition is recommended.

The Board of Directors request shareholders approval of the 2018 Long-Term Incentive Plan. Equity will be awarded in the form of stock options, stock appreciation rights, performance-based restricted stock units (Performance Units), and Other Stock-Based Awards. The maximum number of shares of common stock that is

available for the Plan Awards each year is equal to 2% of the total number of issued shares of common stock. As of December 31, 2017, the total number of issued shares of common stock was 3,987,071,864 shares and 2% of such number is 79,741,437 shares. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards. Given that there is no meaningful way that shareholders can approve or re-approve performance goals, a vote to oppose is recommended.

## SERCO GROUP PLC AGM - 10-05-2018

### 2. Approve Remuneration Policy

#### Policy Changes.

A reduction in the maximum opportunity of the pension from 30% to 20% of salary for new directors has been implemented. However, the maximum opportunity under the Annual Bonus will increase from 150% to 175% for the CEO and from 130% to 155% for the CFO which is considered inappropriate. The Deferred Bonus Plan is being removed from the remuneration policy which will lower potential reward levels particularly given the share matching element of this plan.

**Disclosure:** Overall disclosure is considered adequate

**Balance:** The maximum potential award under all incentive schemes is 375% of base salary which is excessive. Furthermore, the maximum pension contribution for current executives is considered excessive at 30% of salary. However, the policy being proposed at the 2018 AGM has reduced the maximum opportunity to 20% of salary for all new directors. There is compulsory deferral into shares vesting after three years of any bonus earned over 100% of salary. PIRC would prefer to see at least half of any cash bonus earned to be deferred in the form of deferred shares. Also, the shareholding requirement is the build-up of shares to at least 200% of salary which, although welcome, does not require a time period within which this accumulation must occur; and only 50% of the net value of any performance shares must be retained. If no time deadline is attached, PIRC would prefer to see 100% of vested shares retained until adequate shareholdings have been achieved. The

performance metrics for both the Annual Bonus and PSP awards are not operating interdependently, such that vesting under the incentive plan is only possible where all threshold targets are met which does not meet best practice.

**Contracts:** There does not appear to be an 'Exceptional' limit for recruitment included in the policy which is welcome. However, the Remuneration Committee has the discretion to determine whether a director qualifies as a "good leaver" which is not considered appropriate.

### *3. Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration table are adequately disclosed and next year's fees and salaries are clearly stated. Performance conditions and targets for long term incentives are disclosed. However, the Company does not disclose the future performance conditions for the Annual Bonus as it deems the specific details of the performance measures and targets to be commercially sensitive.

**Balance:** The CEO salary is in the upper quartile of a peer comparator group which raises concerns over the excessiveness of the salary. Furthermore, the balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over the last five years is not aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 40.96% whereas, on average, TSR has decreased by 15.74%. The CEO's total realised pay for the year under review is considered excessive at 246.43% of his salary (Annual Bonus: 112.53% & PSP: 133.9%). Also, the ratio of CEO pay compared to average employee pay is 59:1, which is not acceptable.

Overall disclosure is adequate. The change in the CEO's salary is in line with the change in the salaries of average UK employees, as the CEO's salary decreased by 5.5% while the salaries of the latter increased by 2.9%. However, it is recommended that a more comprehensive group is used to reflect employee salary change, rather than just UK employees. The LTIP awards granted to the newly appointed CEO, Charles Woodburn, are considered excessive at 489% of salary; this is considered particularly excessive when considering that the recommended limit on total variable pay is 200% of salary. The total variable pay received by the newly appointed CEO was not excessive, although for the departing CEO, Ian King, total realised variable pay is 274% of salary, which is excessive. The ratio of CEO pay compared to

average employee pay is unacceptable at 33:1.

The plan is eligible to all employee, director or consultant. Under the plan, eligible participants will be able to receive Options and Stock Appreciation Rights. There are concerns with the Plan as it has various elements bundled together and can be used as a vehicle for potentially excessive executive payments. Furthermore, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards may not

be subject to robust enough performance targets and the Committee will have considerable flexibility in the payout of discretionary awards. In addition, maximum award limits are excessive. As a result, shareholders are advised to oppose.

## ITV PLC AGM - 10-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.1, Oppose/Withhold: 0.2,

### 2. *Approve the Remuneration Report*

**Disclosure:** All elements of Executive and Non-Executive Director remuneration are adequately disclosed as are next year's salaries and fees for directors. However, performance conditions and targets for the 2018 LTIP have not been disclosed. The Company have stated that the conditions will be published upon completion of its strategy.

**Balance:** The CEO's salary is considered in the median of a peer comparator group. Changes in CEO pay under the last five years are considered in line with changes in TSR during the same period which is welcome. However, the CEO's total realised variable pay is considered excessive at 240.07% of salary (Annual Bonus: 171.65%, LTIP: 68.42%). Also, The ratio of CEO to average employee pay has been estimated and is found inappropriate at 34:1.

The buy-out awards made in respect to Carolyn McCall joining ITV PLC are, for the most part, considered acceptable although the Company have not disclosed the performance conditions that will be attached to the 2016 LTIP awards which is of concern.

Payments made to Adam Crozier upon stepping down from the board are mostly acceptable. There are concerns with the arrangement for the 2017 annual bonus which will not be subject to a deferral period

Rating: BD

Based on this rating it is recommended that West Midlands oppose.

### *12. Re-appoint the Auditors KPMG LLP*

KPMG proposed. There were no non-audit fees during the year under review and 20.59% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 98.6, Abstain: 0.0, Oppose/Withhold: 1.4,

### *16. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

## **LEONARDO SPA AGM - 10-05-2018**

### *3. Appoint Chairman of the Board of Statutory Auditors*

As per the Company's Articles, the Chair of the Board of Statutory Auditors will be the first of the candidates from the majority list. In terms of best practice, it is considered best practice that the Board Statutory Auditors be chaired by the first of the candidates from the minority list. On this basis, opposition is recommended.

Vote Cast: *Oppose*

### *4. Approve Remuneration of Board of Statutory Auditors*

No proposal is available at the present time. As per market practice, the proposed remuneration is likely to be made available only at the meeting. Although this is a common practice for a standard item in this market, support will not be suggested for resolutions concerning remuneration when sufficient information has not been made available for shareholders in sufficient time prior to the meeting, as such practice prevents shareholders from reaching an informed decision. Abstention from voting this resolution is recommended.

Vote Cast: *Abstain*

### *5. Approve Long-Term Incentive Plan*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. Performance targets have not been fully quantified at this time. which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure. LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

#### 6. *Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not fully disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. On balance, abstention is recommended.

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. Next year's fees and salaries are clearly stated. Performance measures and past targets for annual bonus are stated.

**Balance:** The CEO's realised variable pay for the year under review is not considered excessive as his sole reward was the annual bonus at approximately 18% of salary. The Company stated in the report that one-third of the annual bonus earned will be compulsorily deferred into shares for a period of three years if performance criteria are met. The ratio of CEO to average employee pay has been estimated and is found unacceptable at 31:1. The CEO realised a gain of £256,000 under the first tranche of restricted shares. Mitigation statement was made during the year and applied in practice.

### 2. *Approve Omnibus Stock Plan*

The Board asks shareholders to approve the 2018 Omnibus Incentive Compensation Plan (2018 Plan). The 2018 Plan permits the grant of options, stock appreciation rights, restricted stock, restricted stock units, restricted performance shares, restricted performance units, management incentive awards and other cash awards. The shares issuable pursuant to awards granted under the 2018 Plan will be shares of class A common stock. The maximum number of shares that may be issued pursuant to awards granted under the 2018 Plan is 26,000,000, subject to adjustment. Any shares granted under the 2015 Plan after December 31, 2017 will reduce the number of shares available for grant under the 2018 Plan. The maximum number of shares that can be issued upon the exercise of incentive stock options is 26,000,000. Each share issued pursuant to restricted stock, a restricted stock unit, a restricted performance share, a restricted performance unit, an option or a share subject to the exercised portion of a stock appreciation right (regardless of the form of payment of the stock appreciation right) will reduce the share reserve by one share. No participant may be granted in any one calendar year: options to purchase more than 600,000 shares; stock appreciation rights with respect to more than 600,000 shares; restricted stock in excess of 600,000 shares and restricted stock units covering more than 600,000 shares; restricted performance shares or restricted performance units with a payout greater than the value of 600,000 shares; awards or other cash awards with a payout greater than the value of 600,000 shares; shares granted or subject to an award greater than 600,000; and dividends or dividend equivalents paid with respect to awards in an amount greater than the value of 600,000 shares.

There are concerns with the Plan as it has various elements bundled together and can be used as a vehicle for potentially excessive executive payments. Furthermore, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards may not be subject to robust enough performance targets and the Committee will have considerable flexibility in the payout of discretionary awards. In addition, maximum award limits are excessive. As a result, shareholders are advised to oppose.

**MELROSE INDUSTRIES PLC AGM - 10-05-2018**

*2. Approve the Remuneration Report*

Disclosure is substandard. There is inadequate disclosure regarding the specific performance conditions and targets for the annual bonus. There is a concern that share incentive awards under the Value Incentive Plan cannot be estimated, and there is therefore a lack of transparency. In addition, there is no information provided regarding the reasons for the significant opposition to the remuneration policy put forward at the extraordinary general meeting on 11 May 2017, nor is there any mention of shareholder engagement and steps taken to address shareholder concerns.

The change in the CEO's salary is in line with the rest of the Company. However, the Company disclosed only the change in the salaries of senior head office employees, which is inappropriate, as this is not reflective of the change in the salaries of the general workforce. The changes in CEO pay over the last five years are

not considered in line with the changes in the Company's TSR performance over the same period. The ratio of CEO pay compared to average employee pay is not acceptable at 25:1. Total variable pay for the year under review was highly excessive, amounting to £42,198,280 for the CEO, which is 8884% of his salary. Given that the recommended limit for total variable pay is 200% of salary, such an award is considered inappropriate. The majority of this was from the Value Incentive Plan (£41,770,280). The Company explained that they created £3.6 billion in value for shareholders in that five year period equating to an annual average of 22% and this remuneration strategy has directly driven historical outperformance. In spite of the Company's explanation, the amount is considered highly excessive. Moreover, the Executive Directors received pay under the annual bonus, which is inappropriate.

Senior Independent Director. Considered independent. Chairman of the Remuneration Committee. There was significant shareholder opposition (17.96%) for the policy, which was approved at the extraordinary general meeting on 11 May 2017. There is no information provided regarding the reasons for such significant opposition, nor is there any mention of shareholder engagement and steps taken to address shareholder concerns. The use of Deloitte, who act as the Company's audit firm, as a consultant to the Remuneration Committee is considered inappropriate and raises concerns. Furthermore, the lack of disclosure as well as the excessiveness of the Company's remuneration for the year under review is unacceptable. As Chairman of the Remuneration Committee he harbours the responsibility for addressing the aforementioned issues. An oppose vote is recommended.

## **CALTEX AUSTRALIA LTD AGM - 10-05-2018**

### *3. Approve the Remuneration Report*

In accordance with Section 250R of the Australian Corporations Act, the directors are seeking approval of the remuneration report. The Act does not require directors to act on approval of the resolution and the vote is advisory.

Concerns are raised as CEO variable awards have the potential to be excessive as combined grants under the Short Term Incentive (68% of base salary) and Long Term Incentive (182% of base salary) plans exceed the acceptable limit of 200% of base salary. This is the case for the FY2017 pay for the CEO. Features of the Long Term Incentive Plan are not considered adequate as awards are based on performance conditions which are not applied interdependently. The three-year performance period is not considered sufficiently long term. Disclosure with regards to the strategic performance specific targets is limited. Based on these concerns, opposition is recommended.

Vote Cast: *Oppose*

### *4. Approve Equity Grant to Executive Director*

The Boards is seeking shareholder approval for the purposes of ASX Listing Rule 10.14 for the grant of 103,890 performance shares Julian Segal, Chief Executive And Managing Director, under the Company's Long-term Incentive Plan. The proposed grant has an approximate value of AUD 3,22,750 which equates to 150% of his base salary.

Concerns over the plan are raised as the size of the grant is potentially excessive when combined with the annual short term incentives. Awards will vest based on (1) relative total shareholder return (TSR) which is assessed against a comparator group of S&P/ASX 100 companies determined at the start of the performance period, (2) a fuels & infrastructure growth measure, with a 20% weighting and (3) the convenience retail strategic measure, with a 20% weighting. Also, specific targets are only disclosed for one of the performance elements. LTI awards have a three-year performance period, which is not considered sufficiently long term. A holding period will only apply to 25% of vesting awards for a further period of 4 years and Mr Segal already holds shares equivalent to 100% of his base salary. An oppose vote is thus recommended.

### 4. *Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** John Chevedden.

The proposal requests that the board of directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that the right to act by written consent won majority shareholder support at 13 major companies in a single year. This included 67%-support at both Allstate and Sprint. Taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle and it saves the expense of holding a special shareholder meeting. The Proponent notes that the Company requires 20% of shares to aggregate their holdings to call a special meeting - a higher level than the 10% of shares permitted by many states of incorporation. The Proponent concludes that dozens of Fortune 500 companies provide for both shareholder rights - to act by written consent and to call a special meeting.

**Board's Opposing Argument:** The Board is against this proposal as 20% threshold for calling a special meeting is reasonable and is lower than the threshold at many S&P 500 companies. A majority of companies that have adopted provisions giving shareholders the ability to call special meetings have adopted the same or higher thresholds. The Board argues that shareholder action by written consent imposes meaningful costs on the Company related to the significant time and attention the Board and management will spend reviewing and responding to the written consent proposal. The Board also argues that administrative costs related to holding a special meeting to consider a shareholder proposal are warranted to ensure that all shareholders, and not just those conducting the solicitation, have the ability to express their views on the proposal being considered, which is believed to be an important shareholder protection.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. It is considered any matters to be decided by shareholders should take place in the context of a shareholder meeting where all shareholders have adequate notice and the right to participate. On this basis shareholders are advised to oppose.

### *2. Approve the Remuneration Report*

Overall disclosure is adequate. Changes in CEO pay over the last five years are in line with the Company's financial performance over the same period. The ratio of CEO pay compared to average employee pay is acceptable, at 9:1. The change in the CEO's salary is not in line with the rest of the Company, as the CEO's salary rose by 9% while average employee pay increased by 5.6%; such a difference in the change of salaries is not considered acceptable. The Company only compares the change in CEO salary with the change in the salaries of the senior management, which is inappropriate. Awards granted under the transformation LTIP are considered very excessive, with a maximum attainable value of £15 million, which is the equivalent of 2500% of the CEO's salary. Total variable pay for the year under review was also excessive, amounting to 287% of salary. Lastly, the CEO's salary is in the upper quartile of the Company's comparator group.

### 2. Approve the Remuneration Report

**Disclosure:** Next year's fees and salaries are clearly disclosed. All outstanding share incentive awards are also fully disclosed with award dates and prices. However accrued dividends on share incentive awards are not separately categorised. The terms of Maurice Tulloch's appointment to the Board as Executive Director have not been adequately disclosed.

**Balance:** The CEO's salary is ranked in the upper quartile of a peer comparator group which raises concerns over the excessiveness of the salary. The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over five years is not commensurate with the change in TSR over the same period. Also, The CEO's realised variable pay has been estimated and is found excessive at 283.16% of salary (Annual Bonus: 189.2%, LTIP: 93.96%). Furthermore, the ratio of CEO to average employee pay has been estimated and is found unacceptable at 75:1.

### 3. Approve Remuneration Policy

**Policy Change:** (i) The introduction of phased vesting over three years while leaving deferral at 67%.

(ii) Pension contributions will be reduced for future ED appointments.

(iii) Shareholding requirements are being increased for EDs 150% to 200%.

(iiii) Metrics relating to the LTIP award will be changed. 50% of the award will remain linked to Operating EPS, however, vesting of this portion of the LTIP can only commence after two hurdles are met; return on equity and SII Shareholder Cover Ratio. The other 50% will continue to be determined by Total Shareholder Return (TSR). PIRC is disappointed to note that the Company decided not to introduce the proposed non-financial metrics relating to the LTIP. Non-financial parameters allow the remuneration policy to focus on the operational performance of the business as a whole and the individual roles of each of the senior executives in achieving that performance.

**Disclosure:** Policy disclosure with regards to Directors' salaries and fees is considered adequate. Pension contributions and entitlements are provided and they are considered excessive

**Balance:** Total potential variable incentive award is considered excessive at 550% of salary. Bonus awards are paid to the Executive Directors, partly in cash and partly in shares which is within guidelines. Two-thirds of any bonus awarded is deferred into shares which vest after three years which is considered adequate. Awards under the LTIP are subject to performance conditions which work independently of each other. This is against guidelines as they should work in interdependent manner. No non-financial indicators are used, non-financial parameters allow the remuneration policy to focus on the operational performance of the business as a whole and

the individual roles of each of the senior executives in achieving that performance. Also, the three-year performance period is not considered sufficiently long term, although a holding period of two years applies on vesting awards which is welcome. Dividend or dividend equivalents may be accrued on vesting awards from the date of grant. Such rewards are not supported as they misalign shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not.

**Contracts:** In the event of termination of employment for a "good leaver", a pro rata bonus may become payable for the period of active service. LTIP awards may vest at original dates, subject to applicable performance conditions which is considered in line with acceptable practice. However, the Committee has discretion to disapply pro rata for actual time in service. This is against best practice as Directors may be rewarded for performance not obtained. The Company also states that the Remuneration Committee has overriding discretion on how awards vest in the case of a change of control which is inappropriate.

#### *22. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### *23. Issue Shares with Pre-emption Rights in relation to any issuance of Solvency II (SII) Instruments*

Authority is sought to allot shares and grant rights to subscribe for or to convert any security into ordinary shares in the Company up to an aggregate nominal amount of £100,000,000, representing approximately 9.97% of the Company's issued ordinary share capital as at 10 March 2017, such authority to be exercised in connection with the issue of Solvency II (SII) instruments. The authority expires at the next AGM. The Company explains that this authority is needed so that the Company has the flexibility to manage and maintain its and the Group's capital structure more effectively in the light of evolving regulatory capital requirements, market conditions and appetite for different instruments and their cost-effectiveness. It is noted that these SII instruments include Tier 1 instruments such as Equity Convertible Instruments or ECIs.

The use of Contingent Convertible Securities or CoCos is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Recent events at Deutsche Bank has led to others voicing their concerns about the destabilising effect of CoCos on both the CoCo price and the share price. Based on these concerns, an oppose vote is recommended.

### *24. Issue Shares for Cash in relation to any issuance of Solvency II (SII) Instruments*

Authority is sought to allot equity shares for cash up to an aggregate nominal amount of £100,000,000, representing approximately 9.97% of the Company's issued ordinary share capital as at 10 March 2017, such authority to be exercised in connection with the issue of Solvency II (SII) instruments. The authority expires at the next AGM. The Company explains that this authority is needed to give it the flexibility necessary to allot equity securities pursuant to any proposal to issue SII Instruments without the need to comply with the strict preemption requirements of the UK statutory regime.

The use of Contingent Convertible Securities or CoCos is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. ### *5. Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment

against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

## JOHN WOOD GROUP PLC AGM - 11-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and quantified, environmental reporting is disclosed. It is disappointing to see that the Company only discloses quantified data relating to emission usage, the minimum requirement. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

### 3. *Approve the Remuneration Report*

**Disclosure:** All elements of each director's cash remuneration and pension contribution are disclosed All share incentive awards are fully disclosed with award dates and prices. Information concerning the determination of non-executive directors' fees is disclosed.

**Balance:** Executive salaries during 2017 have remained unchanged, however, it is noted that the Remuneration Committee intends to increase the CEO's salary by 15% in 2018. The CEO salary is in the median of its comparator group. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average the CEO salary has decreased by approximately 2.16% whereas, on average, TSR has increased by 3.09%. The CEO's realised variable pay is not considered excessive at 119.3% of salary (Annual Bonus: 103.8%, LTIP: 15.5%). Also, the ratio of CEO to average employee pay has been estimated and is found appropriate at 15:1.

**RSA INSURANCE GROUP PLC AGM - 11-05-2018****2. Approve the Remuneration Report**

**Disclosure:** All elements of each directors remuneration package are disclosed as are next year's fees and salaries. Performance conditions for all multi-year share based incentives are disclosed. However, the targets on the Business Review Scorecard for outstanding awards made in 2017 are not disclosed as they are deemed as commercially sensitive. Also, payments of dividend equivalents are not separately categorised.

**Balance:** The CEO's salary is considered to be in the upper quartile of peer group, which raises concerns about the excessiveness of his base salary. The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over five years is not commensurate with the change in TSR over the same period. Furthermore, the CEO's total realised variable pay is considered excessive at 361% of salary. Also, the ratio of CEO to average employee pay has been estimated and is at unacceptable level of 46:1.

### 4. *Approve Omnibus Stock Plan*

It is proposed to approve the National Oilwell Varco, Inc. 2018 Long-Term Incentive Plan. The 2018 Equity Plan will be administered by the Compensation Committee, which is and will be composed of independent directors of the Company. The Board will administer the 2018 Equity Plan as to awards to members of the Board. The Compensation Committee will have full authority, subject to the terms of the 2018 Equity Plan, to establish rules and regulations for the proper administration of the 2018 Equity Plan, to select the employees, consultants and directors to whom awards are granted, and to set the date of grant, the type of award that shall be made and the other terms of the awards. All employees, consultants and directors of the Company and its affiliates are eligible to participate in the 2018 Equity Plan. A total of 17,800,000 shares will be available for future grants under the 2018 Equity Plan. The 2018 Equity Plan permits the granting of any or all of the following types of awards: (1) stock options, (2) restricted stock, (3) restricted stock units, (4) performance awards, (5) phantom shares, (6) stock appreciation rights, (7) stock payments, and (8) substitute awards.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

### *2. Approve Remuneration Policy*

**Policy changes:** (i) Executive directors' salaries will be capped at the CEO's current level of \$1.1m for the duration of the policy period (i.e the three years commencing

May 2018); (ii) The pension contribution available to executive directors will be capped at the same level as the maximum available under the employee policy, currently 14%, representing a reduction from the current maximum opportunity of 20% of salary; (iii) increase in shareholding requirements to 300% and 200% of salary for the CEO and other Executive Directors respectively; (iv) the maximum available under the annual bonus plan will be 250% of salary with half deferred into Man Group plc shares; (v) the introduction of a new forward looking Long Term Incentive Plan at a maximum of 350% of salary to replace the Deferred Executive Incentive Plan with a three year performance period and two year holding period; (vi) reduction in maximum from 767% of salary to 600% of salary and (vii) review and enhancement of malus and clawback provisions. While welcome changes have been made, concerns remain over quantum of variable incentive pay and the introduction of an LTIP is particularly unwelcome.

**Disclosure:** Overall disclosure is acceptable however take-over provisions attached to incentive schemes are not disclosed.

**Balance:** Total variable awards that can be made to Directors exceed the recommended guideline of 200% of base salary at 600% of salary. The DEIP has been replaced by a long term incentive plan. Under this plan, awards are subject to a three year performance period, which is not considered sufficiently long-term. However, a two year holding period is in place. Performance conditions do not operate interdependently. Award holders may receive a payment in cash or shares equal in value to any dividends that would have been paid. Such rewards misalign shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not.

**Contracts:** In the event of termination of employment, the bonus may become payable at the Board's discretion following a recommendation from the Remuneration Committee. This high level of discretion attributed to the Board is against best practice and negates the purpose of a policy. For 'good leavers' long term awards may continue to vest at original dates, subject to applicable performance conditions however time pro rating for time in service may be disapplied which is inappropriate.

Rating: ADC.

Based on this rating it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

Results: For: 97.2, Abstain: 0.0, Oppose/Withhold: 2.8,

### 3. Approve the Remuneration Report

**Disclosure:** Overall disclosure is acceptable.

**Balance:** The CEO's total realised variable pay is considered excessive at 451% of salary (Annual Bonus: 236%, DEIP: 215%). The balance of CEO realized pay with financial performance is unacceptable as the change in CEO total pay over five years is not commensurate with the change in TSR over the same period. There was no increase in the CEO's salary. In addition, under the new policy, there is to be no increase in salary for the life of the policy. The CEO's salary is in the upper quartile of a peer comparator group. The freeze in salary therefore potentially keeps him in the upper quartile for a further three year period. Upon engagement, the Company stated that the peer group it has selected are group of large UK (FTSE 100 and 250) listed asset manager and other financial institutions, a group of similar businesses listed on the NYSE and NASDAQ, and a range of privately owned hedge fund managers.

Rating: AD.

### 19. *Approve the Man Group Long Term Incentive Plan*

Shareholder approval is sought for the Man Group Long Term Incentive Plan (LTIP). Under the LTIP, awards will take the form of either: a conditional right to receive ordinary shares in the Company ('Shares') or a cash equivalent (in whole or in part), which will be delivered automatically to the participant at vesting, or for awards subject to a retention period, at the expiry of such two year retention period following vesting (a 'Conditional Award'); or a nil or nominal-cost option over Shares (or a cash equivalent, in whole or in part), exercisable by the participant during a permitted exercise period (extending not later than the tenth anniversary of the date of award) from vesting, or for awards subject to a retention period, from the expiry of such retention period following vesting.

Features of the plan do not meet best practice. The maximum award is 350% of salary, which is considered excessive. Awards are subject to a three year performance period which is not considered sufficiently long-term however a two year holding period is to be used. Performance conditions do not operate interdependently nor is any non-financial KPI utilised. Dividend equivalent payments are permitted under the plan. Such payments misalign shareholder and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not. The scheme also permits the use of upside discretion by the Committee in determining the level and timing of vesting for good leavers and on a change of control.

Overall, LTIPs are not considered an effective means of incentivising performance. These schemes are not considered to be properly long term and are subject to manipulation due to their discretionary nature.

### *O.6. Appoint the Auditors and Allow the Board to Determine their Remuneration*

Deloitte proposed. Non-audit fees represented 29.90% of audit fees during the year under review and 19.30% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

### *S.1. Approve Equity Grant to Peter Botten, Managing Director of the Company*

The Board is seeking shareholder approval for the grant of 302,200 performance shares to Managing Director Mr Peter Botten, under the Company's Long-term Incentive Plan.

Awards have the potential to be excessive. The monetary value of the grant has not been provided. Awards will vest based on the TSR performance condition measured against two comparator groups. This runs against best practice as multiple interdependent performance conditions should be used, including a non-financial performance condition. The awards have a three-year performance period, which is not considered sufficiently long term and no further holding period is used. The TSR vesting scales are not considered to be sufficiently broad as they do not allow for three deciles between performance levels. Also, 50% of awards vest for threshold targets. This level is considered excessive. The Board retains discretion to allow vesting of all outstanding awards and to waive any restrictions in the event of termination of employment or a takeover. This is considered inappropriate as awards should be linked to performance conditions in all circumstances. An oppose vote is thus recommended.

Vote Cast: *Oppose*

### *S.3. Approve Grant of Share Rights to Peter Botten*

It is proposed to award 203,984 share rights to Managing Director, Mr Peter Botten, in accordance with the LNG Expansion Incentive Plan. The Long Term Incentive Plan is capped at 200% of base salary, and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria of its LTIP, which may lead to overpayment against underperformance. There are claw back clauses in place over the LTIP, which is welcomed. Nevertheless, opposition is recommended based on potential excessive variable remuneration.

### 15. *Approve Remuneration Policy*

**Policy changes:** (i) LTIP: TSR compared to the FTSE 250 introduced as a performance condition. In addition, a two year holding requirement has been introduced; (ii) Shareholding requirement: increased from 200% of salary to 300% of salary; (iii) Simplification: the Extended LTIP will not operate in 2017 which reduces the maximum incentive opportunity under the new policy from just over 360% of salary to 340% which is not a significant enough reduction.

**Disclosure:** Overall policy disclosure is acceptable.

**Balance:** Total possible awards under all schemes are considered excessive at 340% of salary (Annual Cash Bonus: 65%, LTIP: 150% and Deferred Stock Plan: 125%). Performance conditions under the LTIPs are not appropriately linked to non-financial KPIs. The LTIP performance period is 3 years which is not considered sufficiently long term however a two year holding period is introduced.

**Contracts:** The Committee can exercise upside discretion with regards to 'good leavers' and on a change of control under the variable incentive plans. Time and performance pro-rating may be disappplied.

#### 16. *Approve changes to the Deferred Stock Plan*

Shareholders are being asked to approve the proposed change to the BBA 2015 Deferred Stock Plan. The proposed change is an increase in the maximum opportunity under the plan from 72.5% to 125% of salary. It is stated that this increase is to support future delivery of the revised Directors' remuneration policy. Overall changes to the remuneration policy are considered insufficient, particularly a reduction in quantum from over 360% of salary to 340% and the policy in turn is not supported. Given that, the proposed change, which is an increase in the maximum opportunity cannot be supported. Further, while the Extended LTIP has been discontinued, this increase in the maximum opportunity for the deferred stock plan could amount to an attempt to cover the gap caused by this removal.

Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. ## 2. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. Performance conditions and targets for the annual bonus and LTIP are clearly disclosed. Face values of all outstanding share awards are fully disclosed.

**Balance:** The changes in the CEO's pay are not considered in line with the changes in the Company's TSR over the last five years. The CEO's variable pay for the Year Under Review is approximately 121% of salary (Annual Bonus: 107% : LTIP: 14%) which is well within the acceptable limit of 200% of salary. The CEO's salary is considered to be below the lower quartile of the comparator group, which is welcomed. The ratio of CEO pay compared to average employee pay is considered inappropriate at 31:1. Termination payments made during the year are within policy guidelines and all unvested share awards are pro-rated for time and subject to performance condition.

The Recruitment policy tolerates payments which compensate external recruits for forfeit awards in circumstances where the performance period or holding period or the performance conditions for such awards haven't been fulfilled. The buying out of awards undermines any retentive effect such awards might have and distorts the market for executive talent

#### 5. *Shareholder Resolution: Independent Director with Human Rights Expertise*

**Proposed by:**The Episcopal Church.

The Proponent requests that, as elected board directors' terms of office expire, the Motorola Solutions Board Nominating Committee nominate for Board election at least one candidate who: has a high level of human rights expertise and experience in human rights matters relevant to Company production and supply chain, related risks, and is widely recognized in business and human rights communities as such, as reasonably determined by the Board, and will qualify, subject to exceptions in extraordinary circumstances explicitly specified by the Board, as an independent director

**Proponent's Supporting Argument:** The Proponent believes that the Company would benefit by electing to its Board independent specialists versed in all business aspects of human rights. Human rights expertise at both management and board levels is critical to industrials companies' success because of the significant environmental issues that are associated with their operations. Motorola Solutions conducts business in countries with human rights challenges including China, Singapore, Middle East, Israel and occupied Palestinian territories. Also; the Proponent argues that an authoritative figure with acknowledged expertise and standing could perform a valuable role in ways that would enable the Board to address more effectively the issues and risks inherent in its present business model regarding human rights.

**Board's Opposing Argument:** The Board recommends shareholders oppose and believes that its current membership possesses significant skill set that is experience capable of adapting to shifting trends within the industry and corporate environment; the elected members of the Board Nominating and Governance Committee should not be arbitrarily constrained in their assessment of which skills and experience best serve the present and expected future needs of the Board. The board also states that it already has in place a comprehensive set of policies and procedures that address human rights in our business. The Company's policies include: the Motorola Solutions Code of Business Conduct, the Motorola Solutions Human Rights Policy, the Motorola Solutions Supplier Code of Conduct, the Anti-Human Trafficking Statement, the Anti-Human Trafficking Compliance Plan and the Motorola Solutions Environment, Health & Safety Policy. Also; the Board believes that the proposal is unnecessary and would narrow the pool of eligible Directors for consideration.

**PIRC Analysis:** It is considered that the Board might benefit from a director with relevant experience in human rights which is an increasingly significant issue for the company. The issue of human rights is of high priority to a significant number of shareholders and the Board could benefit from the election of a director to strengthen the capability of the Board to determine the company's strategic direction and response to the issue of human rights. There are no members of the board that are well versed aspects regarding human rights. It is also considered that such issues should be a matter for consideration for the Board as a whole. However, directors are expected to represent the interests of all shareholders and requiring that a new director have a highly specific background or skill set may not be in the best interests of all shareholders. On this basis, an abstain vote is recommended.

## CENTRICA PLC AGM - 14-05-2018

### 2. *Approve the Remuneration Report*

Overall disclosure is adequate. The change in the CEO's salary is in line with the rest of the Company as the CEO's salary rose by 1.62%, while employee salaries increased by 2.20%. Total variable pay for the year under review is acceptable at 47.8% of salary. However, the balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over five years is not commensurate with the change in TSR over the same period. Awards granted during the year under review were excessive at 296% of salary. The ratio of CEO pay compared to average employee pay is not acceptable at 21:1; it is recommended that the ratio does not exceed 20:1.

It is noted that the remuneration report received 13.24% opposition from shareholders at last year's AGM. There is no mention of the reason for the significant level of opposition, nor is there any mention of shareholder engagement regarding this opposition.

### 3. *Approve Remuneration Policy*

**Proposed Policy Changes:** The weighting of the financial performance condition in the Annual Incentive Plan (AIP) will be increased to 75%. Total shareholder return (TSR) will be included as a financial performance condition in the Long Term Incentive Plan (LTIP). The shareholding requirement for Executives will be increased from 200% to 300% of salary. A post-cessation shareholding of 50% of requirement for 24 months will be introduced. The maximum pension salary supplement for newly recruited Executives will be reduced to 25% of salary.

Overall disclosure is adequate. The setting of a maximum limit for benefits is welcomed. Pension contributions and entitlements are disclosed, though they are considered excessive, including the new limit of 25% of salary for new appointments. Half of the annual bonus is deferred into shares for three years, which is considered adequate. The Company is using more than one performance condition, though they do not operate interdependently. With regard to the LTIP, the Company uses more than one performance conditions and includes non-financial KPIs, which is welcomed. However, the performance conditions do not operate interdependently. At three years the performance period is not considered to be sufficiently long-term, though a two year post-vesting holding period applies, which is welcomed. Total potential variable pay is excessive at 500% of salary; it is recommended that variable pay is limited to 200% of salary. The increase in the shareholding requirements is welcomed. Termination provisions are within guidelines. However, the Committee has an overriding discretion in the event of a takeover. With respect to recruitment, the maximum opportunity is ordinarily within normal policy limits, though the Committee may exercise discretion to increase overall maximum opportunity of incentive awards by up to 25%.

PIRC issue: However, the Board lacks sufficient female representation and no target has been set to address this imbalance. As he is the Chairman of the Nomination Committee, responsibility lies with him to address this. However, on engaging with the Company, it was made clear that throughout 2017 there were three female directors, representing 25% of the Board. #### 22. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

**K+S AG AGM - 15-05-2018****3. Approve Remuneration System for Management Board Members**

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

**4. Approve Discharge of Management Board for Fiscal 2017**

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

**6. Ratify Deloitte GmbH as Auditors for Fiscal 2018**

Deloitte proposed. Non-audit fees represented 57.14% of audit fees during the year under review and 33.33% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**EQUINOR ASA AGM - 15-05-2018****9. Shareholder Resolution: transformation from producing energy from fossil sources to renewable energy**

Proposal from the shareholder Guttorm Grundt, regarding business transformation from producing energy from fossil sources to renewable energy.

The filing shareholder proposes that the shift will consist of the following steps: first, full phasing out of all new exploration activity and exploratory drilling for fossil energy resources by 2021; second, full focus on renewable energy development and production offshore and onshore, aiming at an energy balance between produced

fossil and renewable energy by 2030. Last, funds saved through reduced investments in and farm-down of fossil energy production should be transferred to investments in renewable energy production. The Board does not support the proposal.

The Board recognises climate change as a major risk and states the company will further develop a position within renewable energy in order to continue to create value for shareholders in a sustainable way. The Board further stress that in line with principles of good corporate governance, the company's strategy should be determined by the board. Support would be provided to a request asking for a scenario setting out a low-carbon transition in line with the goals set out in the Paris agreement. Such scenario planning would enable the disclosure of consistent climate-related financial risk disclosure to shareholders (in line with the Taskforce on Climate-Related Disclosure). However, the action called for by the requisitioner is asking for the board to present a specific strategy and environmental impact assessment in the 2018/2019 annual report. Whilst there is recognition of the validity of the requisitioner's overall goal that the company be in compliance with the Paris Agreement, this request is considered too prescriptive and does not allow for the Board to determine the best approach. On this basis, opposition is recommended.

#### 10. *Shareholder Resolution: Abstain from exploration drilling in the Barents Sea*

It is proposed that Statoil refrains from drilling exploration wells in PL859 (Korpfjell) and PL855 (Gemini North) until the writ against the licenses granted in the 23rd licensing round is settled.

##### **Background:**

On 18 May 2016, the Government of Norway represented by the Ministry of Petroleum and Energy resolved to offer 13 companies 10 production licenses for petroleum. The production licenses were awarded and ratified by Cabinet Order in June 2016. Two of the license blocks include the prospects Korpfjell located in PL859 and Gjøkåsen in PL857. In October 2016 the validity of this Licensing Decision became subject to a legal Challenge and a writ was filed to the Oslo District Court against the decision of the Government of Norway represented by the Ministry of Petroleum and Energy. The Plaintiffs in the case are Greenpeace Norden and Natur og Ungdom. The lawsuit was heard in November 2017 with the district court affirming that Norwegian citizens have a right to a healthy environment by §112 in the Norwegian Constitution. However, the judgement acquitted the Norwegian state's decision to distribute the licenses. In the judgement, the Oslo district Court ruled that the emissions associated with the incineration of Norwegian-produced oil abroad are not covered by the Constitution's environmental act. In February 2018, the Plaintiffs appealed the judgement, which is at this time not enforceable. The Supreme Court appeals committee is considering the direct appeal.

The requisitioner asserts it would be irresponsible for Statoil to initiate further drilling operations until the validity of the licenses is settled in court. The Board does not support the proposal and argues that the Company has made the necessary preparations to ensure that the operations are carried out in the best possible manner, and that environmental risks are reduced to the lowest possible level. The Board state that the appeal does not imply any order to stop the activity. Through its agreements with Norwegian authorities, the company has committed to undertake a fixed work programme, and must comply with this legally binding commitment, including drilling wells in these two licences. In the annual report, Statoil recognizes 'government regulations and actions; including changes in energy and climate policies' as a material risk. Such resolutions are considered on the basis of evidence that the action called for is both possible and necessary given the company's disclosure. Whilst the action is called for is possible, it is not regarded as necessary given the current status of existing agreements. On balance, opposition is recommended.

*O.8. Approve Compensation of Jean-Marc Janaillac, Chairman and CEO*

It is proposed to approve the remuneration paid or due to Jean-Marc Janaillac, Chairman and CEO. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

### 2. Approve the Remuneration Report

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. Performance conditions and targets for the annual bonus and the LTIP are disclosed. Face values of all outstanding share awards are disclosed. The increase in CEO salary is in line with the rest of the Company.

**Balance:** The ratio of CEO pay compared to average employee pay is acceptable at 8:1. The CEO's salary is considered in the lower quartile of PIRC's comparator

group. Total variable pay for the year under review was excessive at approximately 412% (Annual Bonus: 96% : LTIP: 316%). Furthermore, the LTIP was granted at 250% of salary which is excessive. Changes in CEO pay over the last five years are not considered in line with Company's financial performance over the same period. The TSR at a decrease of 0.68% versus CEO realised pay at 34.18% over the last five years is not balanced.

Rating: AD.

### 4. *Amend Articles: Call Special Meeting*

The Board is proposing the amendment of the Certificate of Incorporation to permit shareholders holding 20% or more of the common shares to cause the Company to call special meetings of shareholders. The Board believes that lowering the ownership threshold from 25% to 20% is in the interests of shareholders.

The right to call a special shareholder meeting provides shareholders with a way of communicating with the Board and debating and voting on issues with the rest of shareholders, which in itself enhances shareholders' rights. However, the limit recommended by the board exceeds the limit called for in the following shareholder resolution and exceeds the limit called for in Delaware law which permits shareholders holding 10% of the shares to call a special meeting. Given that the Company is seeking a higher limit than called for in company law, opposition is recommended.

*2. Amend Articles: Ratify Existing Ownership Threshold for Shareholders to Call Special Meeting*

The Board proposes the amendment of the bylaws so that any such special meeting shall be called by the Board upon the written request or requests of shareholders holding shares representing in the aggregate at least 20% of the outstanding shares.

The right to call a special shareholder meeting provides shareholders with a way of communicating with the Board and debating and voting on issues with the rest of shareholders, which in itself enhances shareholders' rights. However, the limit proposed by the Company of 20% is greater than that allowed under Delaware law. Implementing a limit higher than that required by state law is not viewed as being in the best interests of shareholders. On this basis, an oppose vote is recommended.

#### *4. Approval of Amended and Restated Long-Term Incentive Plan*

The Board is proposing the renewal of the Company's Amended and Restated Long-Term Incentive Plan, which was previously approved in May 2015. The plan is scheduled to commence on 15 May 2018 and end 31 May 2022. Along with the renewal of the plan, a primary purpose of the plan is to authorize an additional 24 million shares, bringing the number of shares authorized for grant to be in the amount of 85 million shares of common stock (representing approximately 2.5% of the Company's outstanding shares). Incorporation of non-management director compensation program is another primary provision of the plan. The Board plans to establish the annual board retainer at \$350,000, increasing by up to \$25,000 during the 2018 Plan term, beginning January 2020. Other provisions include establishing annual retainers of (i) \$30,000 for serving as the Lead Independent Director; (ii) \$25,000 for chairing the JPMorgan Chase Bank, N.A., Audit Committee or Directors' Risk Policy Committee (DPRC), and (iii) \$15,000 for chairing any other principal standing committee or for serving on any of the Bank board, Audit Committee or DRPC. Shares subject to award include stock options, stock appreciation rights, performance-based awards and other stock-based awards. The plan is eligible to employees selected by the administrator of the plan, the Compensation Committee. There are concerns with the establishment of the annual Board retainer, which is awarded in both cash and equity. It is unclear how these retainers will be divided between cash and equity, and what factors will dictate the award of equity. It is believed that the award of equity should be pre-determined by a rule and not subject to discretionary over-ride. On this basis, opposition is recommended.

#### *5. Ratify PricewaterhouseCoopers LLP as Auditors*

PwC proposed. Non-audit fees represented 1.48% of audit fees during the year under review and 1.24% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

#### *8. Shareholder Resolution: Institute Procedures to Prevent Investments in Companies that Contribute to Genocide or Crimes Against Humanity*

**Proposed by:** William L. Rosenfeld.

The Proponent proposes that the Company report to shareholders, at reasonable expense and excluding confidential information, an analysis of how JPMorgan's published corporate values align with its policies regarding investments in companies tied to genocide or crimes against humanity.

**Proponent's Supporting Argument:** The Proponent argues that the Company should reconcile its investment practices with its published values for various reasons including: In 2011 - 2014, JPMorgan opposed the "genocide-free investing" proposal which asks the firm to avoid investments in companies that, in management's judgment, substantially contribute to genocide or crimes against humanity; the Company's resistance to "genocide-free investing" is inconsistent with its corporate values; the Company inadequately protects its shareholders from investment in companies connected to genocide.

**Board's Opposing Argument:** The Board is against this proposal as the Company already publishes information about the policies and practices which reflect their support and respect for the protection of fundamental human rights and the prevention of crimes against humanity. The asset management business has established a dedicated team to implement a coordinated strategy for sustainable investing, including integration of environmental, social and governance ("ESG") factors, into select investment offerings. However, as a fiduciary, the asset management business must act in the best financial interests of its clients. To that end, it is required to abide by those fiduciary duties and therefore cannot exclude specific assets or types of assets from portfolios solely on the basis of environmental or social issues in

contradiction of those duties unless specifically requested by clients or required by law.

**PIRC Analysis:** Reporting on investments tied to human rights issues allows shareholders to make an informed judgement on social and ethical risks related to their investment. The Company would not dispute this and have developed policies and a reporting structure on human rights and security. However, the Proponent has not, on balance, demonstrated how the proposed report would improve on the Company's existing policy, practices and reporting. Opposition is recommended.

#### *9. Shareholder Resolution: Restore or Provide for Cumulative Voting*

**Proposed by:** John Chevedden.

The Proponent request that the Board take the steps necessary to adopt cumulative voting .

**Proponent's Supporting Argument:** The Proponent argues that cumulative voting also allows a significant group of shareholders to elect a director of its choice - to safeguard minority shareholder interests and to bring a greater independent risk management perspective to Board decisions. Cumulative voting can be used to elect one director with a highly focused specialization in banking risk management.

**Board's Opposing Argument:** The Board is against this proposal as one share, one vote best serves shareholder interests. Cumulative voting is inconsistent with majority voting for directors and can increase the risk of special interests and partisanship.

**PIRC Analysis:** It is considered that cumulative voting systems can potentially allow small shareholder groups to have a disproportionate influence over the election of directors. As the principle of 'one share; one vote' is supported as best practice. An oppose vote is recommended.

### **PIRELLI & CO AGM - 15-05-2018**

#### *4. Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. On balance, abstention is recommended.

Vote Cast: *Abstain*

#### *5. Approve new long term incentive scheme*

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives will be awarded shares or options on shares, which will start vesting after three years from the date of award. At this time, it seems that this plan will not be based on any performance criteria but only on the beneficiaries continued employment. As a result, they may receive bonuses unrelated to their performance or even the performance of the Company as a whole, which is considered a serious frustration of shareholder accountability.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

### **BUREAU VERITAS SA AGM - 15-05-2018**

#### *E.19. Authorize up to 1.5 Percent of Issued Capital for Use in Stock Option Plans*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted stock options, each of which will give right to one share. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure. LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). #### *O.13. Approve Compensation of Didier Michaud-Daniel, CEO*

It is proposed to approve the remuneration paid or due to Mr Didier Michaud-Daniel with an advisory vote. There are excessiveness concerns as the total variable remuneration exceeded 200% of the salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although common practice in this market as this is deemed sensitive information, it prevents from an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

#### *O.10. Approve Remuneration Policy for the CEO*

It is proposed to approve the remuneration policy for the CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

#### *O.14. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

#### *E.18. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

*Vote Cast: Oppose*

#### *O.6. Re-elect Aldo Cardoso*

Newly appointed Non-Executive Chairman. Chairman of Audit Committee. Not considered independent as he has been on the Board for more than nine years. In this market, it is recommended by the local corporate governance code (15.1) recommends that 66% of the Audit Committee should be independent. As there is insufficient independent representation on the Audit Committee, and there is no separate election for this director as member of the Audit Committee, opposition is recommended to the election as director.

*Vote Cast: Oppose*

#### *O.8. Re-elect Jean-Michel Ropert as Director*

Non-Executive Director, not considered to be independent as he previously served as CFO of Wendel, the controlling shareholder. In addition, he is not considered independent owing to a tenure of over nine years. There is insufficient independent representation on the Board.

*Vote Cast: Oppose*

#### *E.15. Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for less than 10% of the current share capital. However, the duration of the authority exceeds 12 months (26 months). It is considered that shareholders should have the occasion to vote on such resolutions annually.

*Vote Cast: Oppose*

#### *E.16. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

Vote Cast: *Oppose*

*E.17. Approve Issue of Shares Deviating from Price Fixing Conditions*

The Board requests authority to issue capital related securities without adhering to the general pricing conditions. Under this authority, the company would be authorised to issues shares at a discount of 10% up to a total of 10% of the issued share capital over a period of 12 months. Given concerns over the level of discount and the amount of the authority, opposition is recommended.

*2. Approve the Remuneration Report*

**Disclosure:** Overall disclosure is acceptable. However the annual bonus performance conditions are not fully provided as targets for personal objectives are not disclosed.

**Balance:** The increase in CEO salary is considered in line with the rest of the Company. However an 11.4 increase in benefits for the CEO is not considered in line

with a 4.7% increase for other UK employees. The CEO's total realised variable pay is considered excessive at 362% of salary (Annual Bonus: 125%, LTIP: 237%). The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over five years is not commensurate with the change in TSR over the same period. The ratio of CEO to average employee pay has been estimated and is found unacceptable at 27:1.

Rating: AD.

This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

PIRC issue: However, it is noted that the Committee conducted an audit tender process for the 31 December 2018 year-end audit will be undertaken in 2017. In light of the offer by Informa, in February 2018 the Company decided to postpone the appointment of KPMG until the 2019 financial year. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company.

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

#### 2. *Approve the Remuneration Report*

**Disclosure:** All elements of each Director's cash remuneration are disclosed as are the performance conditions and targets for the the LTIP. However, some details concerning the personal objectives for Tim Weller's Annual Bonus have not been disclosed as they are deemed to be commercially sensitive. Also, dividend equivalents paid on vested shares are not separately categorised.

**Balance:** The CEO's salary is in the upper quartile of the comparator group which raises concerns over the excessiveness of the salary. Furthermore, the ratio of CEO pay compared to average employee pay is 269:1, which is unacceptable. The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over the last five years is not aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 36.32% whereas, on average, TSR has increased by 5.23%. What's more, the ratio of CEO pay compared to average employee pay is 263:1, which is unacceptable. There are further concerns that annual bonus targets include health and safety targets, when ensuring the health and safety of colleagues should be a bare minimum and Executives should not be financially incentivised for achieving this.

#### 18. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a

specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

#### 20. *Adopt New Articles of Association*

The Company is proposing 12 amendments to its Articles of Association. Although the majority of amendments are considered to be acceptable, there are concerns over the proposed increase to the cap on NED fees. The current limit is an aggregate amount of £1,000,000 each year rising to £1,500,000 if supported. The proposed limit is considered unnecessarily excessive especially given that the justification for the proposal, to provide sufficient headroom and flexibility to the Board, remains appropriate with the current limit of £1,000,000. Therefore an oppose vote is recommended.

#### 2. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed as are the targets for the PSP award. However, there is no specific disclosure of targets for the annual bonus as the Company consider such information to be commercially sensitive. Also, dividend accrual is not separately categorised.

**Balance:** The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 2.90% whereas, on average, TSR has increased by 28.81%. Furthermore, the total variable pay for the year under review was not considered to be excessive, amounting to approximately 27.98% of the CEO's salary (Annual Bonus: 0% CIP: 27.97%). The CEO's salary is in the upper quartile of the Company's comparator group which raises concerns over the excessiveness of the salary. Furthermore, the ratio of CEO pay compared to average employee pay is unacceptable, standing at 26:1.

**O.5. Approve Transactions Re: Share Transfer of New NP (Framatome)**

It is proposed to the shareholders meeting to Approve the share sale agreement relating to the acquisition by the Company of 75.5% of the share capital of the company New NP. The amended sale share agreement relating to the sale by Areva NP to MHI of 19.5% of the share capital of the company New NP, entered into on 22 December 2017, between MHI, Areva NP and EDF.

Such transactions are considered on the basis of whether the transaction has been adequately explained and whether there is sufficient independent oversight of the recommended transaction. *E.17. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase up to an additional 15%, in case of exceptional demand.

A green shoe authorization enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorization is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

**4. Approve Omnibus Stock Plan**

It is proposed to approve the Essex Property Trust, Inc. 2018 Stock Award and Incentive Compensation Plan. The 2018 Plan will allow the Board to grant equity and equity-linked long-term incentive compensation awards and performance-based cash incentive awards to key employees and directors. With respect to awards granted to employees and consultants, the 2018 Plan will be administered by the plan administrator, which is the Board or a committee designated by the Board. The Administrator determines in its discretion the persons to whom awards will be granted from time to time, to determine whether and to what extent awards are granted, to determine the number of Shares or the amount of other consideration to be covered by each award, to approve award agreements for use under the 2018 Plan, to determine the terms and conditions of any award, and to construe and interpret the 2018 Plan. The Administrator may, subject to certain limitations, amend the terms of any award, provided that the Administrator must get a participant's written consent for any amendment that would materially and adversely affect the participant's rights under an outstanding award.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

**AMUNDI SA AGM - 15-05-2018****O.5. Approve Compensation of Yves Perrier, CEO**

It is proposed to approve the remuneration paid or due to Mr Yves Perrier, Chief Executive Officer, with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to

overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

#### *4. Shareholder Resolution: Written Consent*

**Proposed by:** John Chevedden.

The Proponent requests that the Board undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** Taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call special meeting are two complimentary ways to bring an important matter to the

attention of both management and shareholders outside the annual meeting cycle. Taking action by written consent saves the expense of holding a special shareholder meeting.

**Board's Opposing Argument:** The Board believes that stockholder action by written consent is not necessary in light of stockholders' existing ability to call a special meeting. The Board carefully evaluates each shareholder proposal submitted in the Company's proxy materials and has decided to remain neutral on this matter.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result shareholders could be prevented from voting or even receiving accurate and complete information on important pending actions. While it is considered that the Board should remain accountable to its shareholders regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

## NEWFIELD EXPLORATION COMPANY AGM - 15-05-2018

### 1a. *Elect Director Lee K. Boothby*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

## **TEMENOS GROUP AG AGM - 15-05-2018**

### 7.2. *Approve Maximum Remuneration of Executive Committee in the Amount of USD 23.1 Million for 2019*

It is proposed to approve the prospective remuneration for members of the Executive Management of the Company, which means that the proposed amount will not be the actual amount to be paid, but only the total remuneration cap. The voting outcome of this resolution will be binding for the Company.

It is proposed to fix the remuneration of members of the Executive Committee until next AGM at USD 23.1 million (USD 18.5 million was proposed last year). This proposal includes fixed and variable remuneration components. Although there are no clear guidelines with this respect, it would be preferred that the Company submitted two separate resolutions for executive's fixed and variable remuneration components (which is the model that most companies adopted in this market). Nevertheless, the Company has submitted its compensation structure to an advisory vote, which is recommended by the local Corporate Governance Code.

Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration cap is higher than 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. On balance, abstention is recommended.

#### 2. *Ratify PricewaterhouseCoopers LLP as Auditors*

PwC proposed. Non-audit fees represented 11.56% of audit fees during the year under review and 23.26% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 98.5, Abstain: 0.1, Oppose/Withhold: 1.4,

### 3. *Advisory Vote to Ratify Named Executive Officers' Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BDC. Based on this rating, it is recommended that shareholders oppose.

Vote Cast: *Oppose*

Results: For: 93.5, Abstain: 0.2, Oppose/Withhold: 6.2,

Vote Cast: *Oppose*

Results: For: 95.2, Abstain: 0.5, Oppose/Withhold: 4.3,

## SPIRAX-SARCO ENGINEERING PLC AGM - 15-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.1, Abstain: 0.6, Oppose/Withhold: 0.3,

### 2. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. Performance conditions and targets for the annual bonus and the LTIP are disclosed. Face values of all outstanding share awards are disclosed. The increase in CEO salary is not in line with the rest of the Company.

**Balance:** The ratio of CEO pay compared to average employee pay is unacceptable at 28:1. The CEO salary is considered to be below the median of PIRC's comparator group. The changes in CEO pay over the last five years are in line with the changes in Company's TSR performance over the same period. The CEO's total variable pay for the year under review amounts to 282% of salary (Annual bonus: 125% : PSP: 157%), which is excessive.

Rating: AC.

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

Results: For: 97.7, Abstain: 1.3, Oppose/Withhold: 1.0,

### 6. *Re-elect Mr J. Pike as a Director*

Chairman. Independent on appointment. However he is Chair of RPC Group Plc, another FTSE 350. The role of the Chairman is considered to be crucial to good governance as they are primarily responsible for the culture of the board, and by extension the organisation as a whole and for ensuring that the board operates effectively. The possibility of having to commit additional time to the role in times of crisis is ever present, particularly in diverse international, complex and heavily regulated groups or groups which are undergoing significant governance changes. As such the Chairman should be expected to commit a substantial proportion of his or her time to the role.

The Company has answered 'No Opinion' to the CDP's question on whether it supports an international agreement on climate change

Vote Cast: *Abstain*

Results: For: 89.2, Abstain: 4.1, Oppose/Withhold: 6.7,

#### 11. *Re-elect Mr C.G. Watson as a Director.*

Senior Independent Director. Considered independent. However, he is an Executive of Spectris Plc, another FTSE 350 Company and sits on the Remuneration Committee.

Vote Cast: *Abstain*

Results: For: 97.8, Abstain: 0.6, Oppose/Withhold: 1.6,

### VIFOR PHARMA AGM - 15-05-2018

#### 7.1.5. *Re-elect Dr. Sylvie Gregoire*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

Vote Cast: *Abstain*

#### 7.1.1. *Re-elect Etienne Jornod*

Executive Chairman. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. Combining the two functions in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

Vote Cast: *Oppose*

#### 5.2. *Approve Remuneration of Executive Committee*

It is proposed to approve the prospective remuneration for members of the Executive Management of the Company, which means that the proposed amount will not be the actual amount to be paid, but only the total remuneration cap. The voting outcome of this resolution will be binding for the Company.

It is proposed to fix the remuneration of members of the Executive Committee until next AGM at CHF 13 million. This proposal includes fixed and variable remuneration components. Although there are no clear guidelines with this respect, it would be preferred that the Company submitted two separate resolutions for executive's fixed and variable remuneration components (which is the model that most companies adopted in this market). Nevertheless, the Company has submitted its compensation structure to an advisory vote, which is recommended by the local Corporate Governance Code.

Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration cap is higher than 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, opposition is recommended based on potential excessive remuneration.

Vote Cast: *Oppose*

#### 4. *Approve the Remuneration Report*

It is proposed to approve the remuneration policy with an advisory vote. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, opposition is recommended based on potential excessive remuneration.

Vote Cast: *Oppose*

*7.2.1. Elect Remuneration Committee Member: Daniela Bosshardt-Hengartner*

Non-Executive Director, candidate to the Remuneration Committee on this resolution. It is considered that the Remuneration Committee should consist exclusively of independent members. Opposition is recommended.

Vote Cast: *Oppose*

*7.2.3. Elect Remuneration Committee Member: Fritz Hirsbrunner*

Non-Executive Director, candidate to the Remuneration Committee on this resolution. It is considered that the Remuneration Committee should consist exclusively of independent members. Opposition is recommended.

Vote Cast: *Oppose*

*7.4. Ratify Ernst & Young AG as Auditors*

EY proposed. Non-audit fees represented 78.29% of audit fees during the year under review and 39.71% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

**LI & FUNG LTD AGM - 15-05-2018**

Non-Executive Director. Not considered to be independent owing to a tenure of over nine years. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

*4. Appoint the Auditors and Allow the Board to Determine their Remuneration*

PwC proposed. Non-audit fees represented 83.62% of audit fees during the year under review and 87.80% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

**FIRST REPUBLIC BANK AGM - 15-05-2018****1.1. *Elect Director James H. Herbert, II***

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

Vote Cast: *Oppose*

### 5. *Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** Mr. John Chevedden.

The Proponent request that the Board of Directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. Written consent would also put shareholders in a better position to give input on improving director assignments after the 2018 annual meeting. The proponent mentions concerns with three directors who have served on the Board for over 14 years: Nancy Loeffler, John Montford, and William Cunningham.

**Board's Opposing Argument:** The Board is against this proposal as they believe that permitting Shareholders to act by the written consent of a majority of

the Company's outstanding shares would undermine Shareholder democracy and could disenfranchise many Shareholders by enabling one or more substantial Shareholders to take a corporate action without action by, or even notice to, other Shareholders. The Board believes that Shareholders are best served by holding meetings in which all Shareholders are provided with notice of the meeting and an opportunity to consider and discuss the proposed actions and vote their shares.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders, regardless of the method of communication chose; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

Vote Cast: *Oppose*

### *O.9. Re-elect Pierre Vareille*

Senior Independent Director. Not considered independent as has been in the Board for more than nice years. It is believed that the senior independent director should be considered independent, irrespective of the level of independence of the Board.

*Vote Cast: Oppose*

*O.12. Approve Compensation of Gonzalve Bich, Vice-CEO*

It is proposed to approve with an advisory vote the remuneration paid or due for the year to the Gonzalve Bich.

There is lack of disclosure with respect of targets and measurable criteria for variable remuneration, which prevents shareholders from making an informed assessment. As per market practice, quantified targets for the variable remuneration are not disclosed as they are considered confidential information. Variable remuneration consists of an annual bonus and long term incentives. The bonus corresponds to 79.48% of fixed salary and 93.50% of the target bonus. The LTIP doesn't seem to be capped. There are no claw back clauses in place which is against best practice.

Opposition is advised.

*Vote Cast: Oppose*

*O.13. Approve Compensation of James DiPietro, Vice-CEO*

It is proposed to approve with an advisory vote the remuneration paid or due for the year to the James DiPietro.

There is lack of disclosure with respect of targets and measurable criteria for variable remuneration, which prevents shareholders from making an informed assessment. As per market practice, quantified targets for the variable remuneration are not disclosed as they are considered confidential information. Variable remuneration consists of an annual bonus and long term incentives. The bonus corresponds to 66.76% of fixed salary and 89% of the target bonus. The LTIP doesn't seem to be capped. There are no claw back clauses in place which is against best practice.

Opposition is advised.

*Vote Cast: Oppose*

It is proposed to approve with an advisory vote the remuneration paid or due for the year to the Marie-Aimee Bich Dufour.

There is lack of disclosure with respect of targets and measurable criteria for variable remuneration, which prevents shareholders from making an informed assessment. As per market practice, quantified targets for the variable remuneration are not disclosed as they are considered confidential information. Variable remuneration consists of an annual bonus and long term incentives. The bonus corresponds to 40.06% of fixed salary and 89% of the target bonus. The LTIP doesn't seem to be capped. There are no claw back clauses in place which is against best practice.

Opposition is advised.

*Vote Cast: Oppose*

*O.15. Approve Remuneration Policy of Chairman, CEO and Vice-CEOs*

It is proposed to approve the remuneration policy of Chairman & CEO and Vice CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

*E.18. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

The Board seeks authority to increase the initial amount of securities to be issued over a 26 month period. In this case, the authorization would increase the issuance in 15% at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, it is recommended to oppose.

Vote Cast: *Oppose*

*E.20. Approve capital increases reserved for employees*

The company requests general approval to issue up to 3% of the issued share capital, to employees and management over a period of 26 months. As the level of dilution under this and all plans authorised by the company exceed guidelines, Opposition is recommended.

Vote Cast: *Oppose*

*E.21. Eliminate Preemptive Rights Pursuant to Item 20 Above*

It is proposed to authorize the Board to cancel pre-emptive rights in the share capital increase proposed in resolution 20. The maximum amount of shares to be issued corresponds to 3% of the current share capital and the price of the shares shall not be higher than the average share price for the twenty trading sessions preceding the date of the decision setting the subscription period opening date, nor more than 20% lower than this average. As the level of dilution under this and all plans authorised by the company exceed guidelines, opposition is recommended.

Vote Cast: *Oppose*

*E.22. Approve distribution of free shares to employees and executives*

Proposal to authorize for 38 months the Board to allot shares free of charge to managers and key executives. The Company requests general approval to issue up to 4% of the issued share capital in free shares. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

Vote Cast: *Oppose*

*E.23. Approve granting of subscription options and purchase of shares to employees and executives*

Proposal to authorize for 38 months the Board to grant options to subscribe or to purchase BIC shares to managers and key executives. The authority corresponds to 2% of the share capital, and to 6% in aggregate with proposal 22. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

#### 2. *Approve Remuneration Policy*

The proposed policy changes are not considered appropriate as they will either directly increase the total compensation of executive directors or increase their total potential remuneration. There remain important concerns about the overall remuneration structure. The maximum potential opportunity under all incentive schemes is considered excessive at 350% of salary. For the Annual bonus, any reward earned above 100% of salary deferred into shares for a period of two years, whilst the introduction of a deferral period is welcomed, best practice would require at least 50% of the entire bonus to be deferred. The LTIP is measured over a three

year period, which is not considered sufficiently long term. Moreover, there is no additional post vesting holding period attached. Also, the LTIP is measured using only one performance condition, which is not appropriate. Best practice would require multiple performance criteria including the use of non-financial measure(s) that operate in an interdependent manner. In relation to the contract element of the policy, upside discretions can be used to waive performance conditions in the event of a takeover. Furthermore, the Committee are able to use their discretion when determining the status of a departing director and can therefore award "good leaver" status in circumstances they decide it to be appropriate. Also, the recruitment policy allows for the Committee to offer notice periods of longer than 12 months to new directors which is inappropriate.

### 3. *Approve the Remuneration Report*

**Disclosure:** All elements of each director's cash remuneration and pension contribution are disclosed as are the performance criteria and specific targets attached to the PSP awards. However, an adequate description of individual objectives for the Annual Bonus is not provided, stating only that they will be based on the delivery of synergy benefits as a result of the acquisition of Regal Entertainment.

**Balance:** The increase in CEO salary is in line with the rest Company, during 2017, the salary of the CEO was increased by 2.5% whilst average salaries across the Group were also increased 2.5%. However it is noted that the CEO's salary will increase by 10.3% during FY18. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 29.59% whereas, on average, TSR has increased by 25.67%. However, the CEO's total realised variable pay under all incentive schemes for the year under review is considered excessive at 285.11% of salary (Annual Bonus: 78.46% - PSP: 206.65%). Furthermore, The ratio of CEO pay to employee average pay has been estimated and is considered excessive. Although we note this might partially be due to the high level of part-time or seasonal employees, we consider 100:1 to be significantly excessive.

#### 4. *Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** John Chevedden.

The Proponent requests the Board of Directors to undertake necessary steps to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Taking action by written consent saves the expense of holding a special shareholder meeting.

**Board's Opposing Argument:** The Board argues that the proposal is contrary to the best interests of shareholders. The Board states that its current practices are designed to ensure that notice and the ability to be heard occur prior to shareholder votes; which enables a meaningful discourse before key decisions are made. The Board recommends shareholders oppose and argues that currently; shareholders of 10% of common stock have the right to call a special meeting which is an appropriate threshold; particularly when viewed together with the Company's robust corporate governance practices. The Board argues that adoption of the proposal could allow a relatively small minority of shareholders with narrow interests to call an unlimited number of special meetings to consider matters that may not be in the best interests of all of shareholders. Finally, the Board argues that its active engagement with shareholders and strong corporate governance practices make the proposal unnecessary.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis it is advised to oppose.

### *5. Shareholder Resolution: Prepare a Report Regarding the Impact of Plant Closures*

**Proposed by:** AFL-CIO Reserve Fund.

The proponent request that the Board of Directors create a committee, with members drawn from representatives of the employee work force and the management of

Mondelz, to prepare a report regarding the impact on communities from the closure of Mondelz manufacturing facilities and alternatives that can be developed to help mitigate the impact of such closures in the future. The report shall be prepared at reasonable cost and omit proprietary information, and shall be made available on the Mondelz website no later than the 2018 annual meeting of shareholders.

**Proponent's Supporting Argument:** The Proponent argues that the board should create a committee that is able to properly assess the impact of the plant closures on the communities in which the plants were located. Over the past two decades Mondelz has closed a significant number of plants across the United States and Canada. Employees who have lost their jobs as a result of these plant closures had often been employees with Mondelz for decades. Many of them were not able to gain comparable employment and were forced to take low wage jobs, retire early, or move to another town or city in the hope of better opportunities. The proponent argues that establishing the proposed committee will be a first step toward understanding the impact of future plant closings, and the consideration of alternatives measures that can be developed to help mitigate the impact of such plant closures in the future.

**Board's Opposing Argument:** The Board is against this proposal as the Board does not believe that forming an employee-management committee to produce a report to the Board on plant closures as requested by the proponents would enhance our decision-making process or facilitate progress toward our goals. When the board makes the decision they carefully consider a variety of factors – including the impact the decision might have on our employees, our communities and other stakeholders. The company currently provides termination pay, outplacement assistance, retraining and continuation of various benefits.

**PIRC Analysis:** The Proponent's request is considered overly prescriptive as it means the formation of a new standing committee. An oppose vote is recommended.

### 5. Shareholder Resolution: Preparation of a Report Regarding Methane Emissions

**Proposed by:** Unitarian Universalist Association

The Proponent requests for the board of directors to issue a report (by September 2018, at reasonable cost, omitting proprietary information) that reviews the Company's policies, actions and plans related to methane emissions management, including efforts to: measure, monitor, mitigate, disclose, utilize leak detection and repair (LDAR) technologies (including frequency, scope, and methodology).

**Proponent's Supporting Argument:** Methane gas emissions is a significant contributor to climate change. The oil and gas sector in the U.S. is the largest industrial source of methane emissions, contributing to 31% of U.S. methane emissions. Methane is a climate pollutant 84 times more powerful than carbon dioxide over a 20 year period and is responsible for one quarter of today's global warming. The potency of methane can undermine the positive environmental profile of natural gas and therefore harm its ability to play a positive role. This can have negative long-term implications for demand, particularly when considering the growing competition from renewable energy. The proponent believes that a strong program of measurement, mitigation, target-setting, and disclosure supports continued market share and bolsters shareholder value.

**Board's Opposing Argument:** The Board recommends shareholders oppose the resolution and argues the Company proactively discloses information regarding methane emissions from the Company's operations. The report discloses policies and procedures designed to mitigate potential releases field measured volumes of emissions. In addition, the board believes using additional, unnecessary equipment to attempt measurement of such small volumes that Range already manages would be uneconomic and impracticable. The Board argues the proposal will do nothing to advance the Company's continuous improvement efforts in this area or the reporting of such efforts and the effects to stockholders.

**PIRC Analysis:** It is considered that reporting on sustainability issues is in shareholders' interests both as a means of informing shareholders of potential risks and opportunities faced by the Company; but also as a means of ensuring that the management and board of a company gives due consideration to these issues. The Proponent has raised valid arguments against Range's management of this issue; and therefore the production of this report is in the best interest of shareholders. However, the timescale appears onerous (less than five months). An abstain vote is recommended.

## XCEL ENERGY INC. AGM - 16-05-2018

### 1b. Elect Ben Fowke

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

### 2. *Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 127.75% of audit fees during the year under review and 49.87% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

## **ILIAD AGM - 16-05-2018**

### O.1. *Approve Financial Statements*

At this time, the Company has not published an English language version of the Reference Document, which is regrettable as the Company is a large entity as defined by the EU Audit Directive, which has legislative relevance for the European Economic Area (EEA). Although there is no legal obligation in this market, it is considered that larger entities should publish also an English language version of their annual report, for consideration by international investors. On this basis, abstention is recommended. However, as abstain is not a valid voting option for this meeting, opposition is recommended.

*O.18. Approve Remuneration Policy of Chairman of the Board*

It is proposed to approve the remuneration policy of Chairman of the Board with a binding vote. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. Although the Company has disclosed quantified targets or performance criteria for its variable remuneration component (performance shares awarded free of charge), the vesting period is not considered to be sufficiently long-term, and there are concerns regarding whether the two factors work interdependently; in addition, it would have been preferred that at least one criterion, or set of criteria, would be linked more effectively with non-financial performance. Lastly, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

#### *O.20. Approve Compensation of Philippe Brassac, CEO*

It is proposed to approve the remuneration paid or due to Philippe Brassac with an advisory vote. The payout is in line with best practice, being under 200% of the fixed salary. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to over payment against under performance. On balance, opposition is advised.

#### *E.33. Authorize Board to Increase Capital in the Event of Additional Demand Related to Delegation Submitted to Shareholder Vote Under Items 30-32, 34, 35, 38 and 39*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

*Vote Cast: Oppose*

#### *E.35. Approve Issue of Shares Deviating from Price Fixing Conditions*

The Board requests authority to issue capital related securities without adhering to the general pricing conditions. Under this authority, the company would be authorised to issues shares at a discount of 50% up to a total of 10% of the issued share capital over a period of 12 months. Given concerns over the level of discount and the amount of the authority, opposition is recommended.

*Vote Cast: Oppose*

#### *E.38. Authorise Capital Issuances for Use in Employee Stock Purchase Plans*

Authority for a capital increase for more than 2% of the share capital for employees participating to saving plans. The maximum discount applied will be 20% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the amount of the authorisation exceeds guidelines (2%). Opposition is therefore recommended.

#### *4. Appoint the Auditors and Allow the Board to Determine their Remuneration*

Deloitte Touche Tohmatsu proposed. Non-audit fees represented 110.77% of audit fees during the year under review and 118.87% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

*Vote Cast: Oppose*

#### *5.C. Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 5.A those shares repurchased under the authority granted by proposal 5.B. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 10% to 20% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

## **JUPITER FUND MANAGEMENT PLC AGM - 16-05-2018**

### 1. *Receive the Annual Report*

The Strategic Review is considered adequate. There are adequate environmental and employment policies in place. Quantified environmental data has been published. It is noted that the Company has not provided shareholders with an opportunity to approve dividends paid during the year. Given the lack of opportunity to approve the dividend, shareholders are recommended to oppose.

West Midlands is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 98.9, Abstain: 0.0, Oppose/Withhold: 1.1,

## 2. Approve the Remuneration Report

**Disclosure:** All elements of each director's cash remuneration and pension contribution are disclosed, as are all share incentive awards, with award dates and prices. However, dividend accrual is not separately categorised.

**Balance:** The CEO's total realised awards during the year under review is equivalent to 1407.2% of salary (Annual Bonus: 820% and LTIP: 587.2%). Although the high percentage in variable remuneration is as a result of the salary cap, the total reward remains highly excessive. There has been no increase in salaries for Executive Directors under the review period and the CEO's salary is considered below the lower quartile of a peer comparator group which is welcome. Although, it is noted that the removal of the cap, as proposed under the new policy, will result in a base salary increase for the CEO of 70%. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 23.14% whereas, on average, TSR has increased by 25.52%. The ratio of CEO to average employee pay has been estimated and is found acceptable at 14:1.

Rating: BD

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

Results: For: 95.7, Abstain: 0.0, Oppose/Withhold: 4.3,

## 3. Approve Remuneration Policy

For the most part, the proposed changes to the policy are welcome. For example, the introduction of a two year post-vesting holding period on LTIP rewards. As is the introduction of a policy which sees 50% of the total annual bonus deferred into shares over three years and half of the remaining 50% subject to a six month holding period. The increase in the shareholding requirement for the CEO to 300% of salary is also welcomed. However, there remain some important concerns. Although the introduction of a cap on the maximum opportunity of variable remuneration is in line with best practice, the combined cap for both the annual bonus and LTIP is considered highly excessive at 800% of base salary. It is noted that the 5 year average for total remuneration of the highest paid director is £2,606,600, whilst the maximum opportunity under the new policy is £3,400,000. Therefore, there are concerns that the new policy has increased the potential overall quantum of directors remuneration packages. Furthermore, the change in policy has removed non-financial parameters to assess Executives' long-term performance which is considered contrary to best practice as such factors allow the remuneration policy to focus on the operational performance of the business as a whole and the individual roles of each of the senior executives in achieving that performance. Financial parameters are generally beyond an individual director's control. It is noted that business performance underpin operates on the LTIP which ensures that overall business success is relative to the awards made. Also, the performance metrics for both variable incentive schemes are not operating interdependently, such that vesting under the incentive plan is only possible where all threshold targets are met. With regards to the contracts, on termination, upside discretion may be used to waive performance conditions for a 'Good Leaver' status. Moreover, there is no mitigation statement in reference to cessation of employment.

#### 17. *Approve the Jupiter Fund Management plc 2018 Long Term Incentive Plan*

Shareholders are being asked to approve the Jupiter Fund Management plc 2018 Long Term Incentive Plan. The maximum opportunity under the plan is 375% of salary for the CEO, 50% of the award is based on EPS Growth, which must achieve at least 20% growth over the performance period, and 50% is based on Jupiter's investment outperformance relative to a peer group. Awards will be subject to an additional two-year post-vesting holding period, unless the Committee determines otherwise. These schemes are not considered to be properly long term and are subject to manipulation due to their discretionary nature. Therefore an oppose vote is recommended.

## TRITAX BIG BOX REIT PLC AGM - 16-05-2018

### 2. *Approve the Remuneration Report*

Shareholders are being asked to approve the Company's annual report on remuneration. Disclosure of figures and policy is adequate. A total aggregate fee of £240,000 was paid to the Directors for the year under review. Directors' remuneration does not comprise any performance-related element, which is welcomed. No additional discretionary payments were made in the year. The fee payable to the Chairman increased by 26%, while the fees payable to other Directors increased by 16%. Such increase is considered excessive. Based on this concern, a vote to oppose is recommended.

Vote Cast: *Oppose*

Results: For: 95.6, Abstain: 0.5, Oppose/Withhold: 3.9,

### 6. *Re-elect Mark Shaw*

Non-Executive Director. Not considered independent as he is the Chairman of the Investment Manager. A director with significant links to the investment advisor cannot be supported on the Board. An oppose vote is therefore recommended.

## INDIVIOR PLC AGM - 16-05-2018

### 2. *Approve the Remuneration Report*

Overall disclosure is adequate. The change in the CEO's salary is in line with the rest of the Company as the salaries of both the CEO and the chosen group rose by 3%. The chosen group of employees are US based only; it is recommended that the salary change for the employees throughout the entire group is used, rather than the figures that relate to one portion. The changes in CEO pay over the last three years are commensurate with the Company's TSR performance over the same period. The ratio of CEO pay compared to average employee pay is acceptable at 12:1. However, LTIP awards granted during the year under review are highly excessive at 618% of salary for the CEO. Furthermore, total variable pay for the year under review is also inappropriately excessive at 959% of salary for the CEO; given that the recommended limit for total variable pay is 200% of salary, such a payment is considered particularly excessive.

Rating: AD.

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

Results: For: 94.9, Abstain: 0.0, Oppose/Withhold: 5.1,

### 3. *Approve Remuneration Policy*

**Proposed Policy Changes:** The maximum opportunity for the LTIP will be reduced from 600% to 500% of salary. Threshold vesting will result in 15% of the maximum award vesting. This applies in practice for LTIP awards made in 2018 onwards. Provisions which require deferral into shares for 25% of any bonus for a period of at least two years will be introduced. This will operate in practice for the bonus for the year ending December 31, 2018. The post-vesting holding period under the LTIP will be formally incorporated into the policy, which is already in operation in practice. Malus and clawback provisions in respect of the Annual Incentive Plan and the LTIP will also be strengthened (i.e. to include serious reputational damage).

Pension contributions and entitlements are fully disclosed and are not considered excessive. Compulsory deferral of shares under the annual bonus is welcomed. However, the amount subject to deferral is not considered adequate at 25%, as it is recommended that at least half of the bonus is deferred into shares. The Company uses multiple performance conditions, though they do not operate interdependently. The post-vesting holding period under the LTIP will be formally incorporated into the policy, which is welcomed. However, the performance period of three years is not considered to be sufficiently long-term. The Company uses more than one performance condition and includes non-financial KPIs which is welcomed. However, the performance conditions do not operate interdependently. Although the maximum opportunity for LTIP awards has been reduced in the new policy, total potential variable pay is still considered highly excessive at 700% of salary, with the LTIP alone having being set a limit of 500% of salary. It is recommended that total variable pay is limited to 200% of salary. The shareholding requirements set for Executive Directors are considered adequate at 500% of salary to be built over five years. Payments in lieu of notice are limited to one year's remuneration based on base salary and benefits in kind and pension rights during the notice period. On termination, the annual bonus or the outstanding LTIP awards will be, at maximum, be pro-rated and based on performance conditions. However, on a change of control the Committee has the discretion to allow the full vesting of LTIP awards.

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a

specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. ### *O.5. Reelect Benoit Potier as Director*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

### *O.9. Approve Termination Package of Benoit Potier*

The Board proposed to approve the Termination Package of Mr Benoit Potier. The payment of the termination indemnity is based on conditions related to the beneficiary performance of the Company. The conditions are, that the amount of the indemnity paid will be adjusted on the basis of the average of the annual gap between the Return On Capital Employed after tax (ROCE) and the Weighted Average Cost of Capital (WACC) for the last three fiscal years prior to the fiscal year the departure occurs. The gap between ROCE and WACC will be measured with regard to each fiscal year, and will be calculated the average of the three annual gaps for the last three fiscal years prior to the fiscal year during which such departure takes place. The Board of Directors decided to consolidate the intermediate thresholds. Thus, in particular, the average ROCE - WACC gap should be at least equal to 200 basis points (instead of 150 basis points previously) in order for half the indemnity to be due. Moreover, for a minimum gap of 100 basis points, the proportion of the indemnity due was decreased and is now 25% (rather than 33% previously). The inclusion of variable payment with financial performance criteria for a severance or termination payment could lead to over payment. Opposition is recommended.

### *O.10. Approve Additional Pension Scheme Agreement with Benoit Potier*

The Board of Directors proposed to approve the following Additional Pension Scheme Agreement for Mr Potier. In accordance with the Macron law, only the cases of forced departure of Benoît Potier from his offices may give rise to an indemnity. The amount of the indemnity in any of these cases is set at 12 months of gross fixed and variable remuneration. The amount of the indemnity due decreases gradually as Benoît Potier, in his capacity as Chairman and Chief Executive Officer, approaches the age limit. The right to payment of the indemnity is subject to the achievement of the performance conditions, the proportion of the indemnity due decreasing depending

on the rate of achievement of such conditions. The inclusion of variable pay within the calculation of contribution rates is not considered acceptable. Opposition is recommended.

#### *O.11. Approve Compensation of Benoit Potier*

It is proposed to approve the remuneration paid or due to the Chairman and CEO with an advisory vote. The payout is in line with best practice, although awarded stock options and performance shares raise excessiveness concerns. The Company has not disclosed quantified targets and achievements in full. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to over payment against under performance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

Results: For: 87.0, Abstain: 0.4, Oppose/Withhold: 12.5,

#### *O.12. Approve Compensation of Pierre Dufour*

It is proposed to approve the remuneration paid or due to Mr Pierre Dufour. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration (including bonus and LTIPs) may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets in full all of its variable remuneration components, which may lead to overpayment against underperformance. Lastly, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

#### *O.7. Approve Remuneration Policy of Thierry de la Tour d'Artaise, Chairman and CEO and Bertrand Neuschwander, Vice- CEO*

It is proposed to approve the remuneration policy for Thierry de la Tour d'Artaise, Chairman and CEO and Bertrand Neuschwander, Vice- CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

#### *O.8. Approve Compensation of Thierry de la Tour d'Artaise, Chairman and CEO*

It is proposed to approve the remuneration paid or due to Thierry de la Tour d'Artaise, the Chairman and CEO. The payout is in line with best practice. The variable remuneration paid was 139.5% of the fixed salary. However, the Company has not disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although common practice in this market as this is deemed sensitive information, it prevents from an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

#### *O.9. Approve Compensation of Bertrand Neuschwander, Vice-CEO*

It is proposed to approve the remuneration paid or due to Bertrand Neuschwander, the Vice-CEO. The payout is in line with best practice. The variable remuneration paid was 106.9% of the fixed salary. However, the Company has not disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although common practice in this market as this is deemed sensitive information, it prevents from an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

#### *E.14. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 14 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

*Vote Cast: Oppose*

#### *E.17. Approve New Executive Share Option Plan*

Proposal to authorize up to 196,000 Shares of Issued Capital for Use in Restricted Stock Plans. Under the plan, the CEO and other executives will be allotted performance shares, each of which will give right to one share. Performance targets are not quantified, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

*Vote Cast: Oppose*

#### *E.18. Approve Issue of Shares for Employee Saving Plan*

Authority for a capital increase for up to 1% of share capital for employees participating to saving plans. The maximum discount applied will be 30% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the discount to be applied exceeds guidelines (20%). Opposition is therefore recommended.

#### 4. Shareholder Resolution: Written Consent

**Proposed by:** John Chevedden.

The Proponent requests that the Board undertake the necessary steps to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** Taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Taking action by written consent saves the expense of holding a special shareholder meeting. This proposal topic won majority shareholder support at 13 major companies in a single year. This included 67%-support at both Allstate and Sprint. Increasing the rights of shareholders through written consent is all the more important since the company's stock fell from 175 USD to 100 USD in one year.

**Board's Opposing Argument:** The Board believes that stockholder meetings provide stockholders with important protections and advantages that are lost with the written consent process. The Board believes that a special meeting is a more appropriate method than action by written consent for stockholders to take action between regular annual meetings; as a special meeting ensures that all stockholders receive notice; adequate time to review proposals and a forum for expressing their views. By contrast; stockholder action by written consent may not result in all stockholders receiving notice of a proposed action and does not permit a variety of views on a proposal to be exchanged. Action by written consent can also create confusion and disruption; as stockholder groups may solicit multiple written consents simultaneously; some of which may be duplicative or contradictory. The Board believes that matters of sufficient importance to warrant action between annual stockholder meetings should not be decided without notification to all stockholders and an opportunity for all stockholders to be heard and to vote at a meeting.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result shareholders could be prevented from voting; or even receiving accurate and complete information; on important pending actions. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

### COCA-COLA AMATIL LTD AGM - 16-05-2018

#### 1. Approve the Remuneration Report

In accordance with Section 250R of the Australian Corporations Act, the directors are seeking approval of the remuneration report. The Act does not require directors to act on approval of the resolution and the vote is advisory.

Concerns are raised as CEO variable awards have the potential to be excessive as combined grants under the Short Term Incentive and Long Term Incentive plans might exceed the acceptable limit of 200% of base salary. CEO's realised variable pay for the FY2017 is however not considered to be excessive at 135% of base salary. Features of the Long Term Incentive Plan are not considered adequate as awards are based on performance conditions which are not applied interdependently, also no non-financial metric is used. The three-year performance period is not considered sufficiently long term. On balance, an oppose vote is therefore recommended.

Vote Cast: *Oppose*

### 3. Approve Equity Grant to Executive Director

The Board is seeking shareholder approval for the purposes of ASX Listing Rule 10.14 for the grant of 207,102 to a maximum of 414,204 performance shares to A M Watkins, Chief Executive And Managing Director, under the Company's Long-term Incentive Plan 2017-2019. The proposed grant has an approximate value of AUD 1.75 million which equates to 80% of her fixed remuneration and AUD 3.75 million in case of exceptional performance equating 172% of the fixed salary which is considered excessive. Additionally, awards will vest based on performance conditions which are not applied interdependently contrary to best practice. No non-financial performance criterion will be used. The awards have a three-year performance period, which is not considered sufficiently long term and no further holding period is used. Based on these concerns opposition is recommended.

## PLAYTECH PLC AGM - 16-05-2018

### 1. Receive the Annual Report

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 98.9, Abstain: 0.3, Oppose/Withhold: 0.9,

### 2. Approve the Remuneration Report

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. Performance conditions and targets for the annual bonus and the LTIP are disclosed. Face values of all outstanding share awards are disclosed. The increase in CEO salary is not in line with the rest of the Company.

**Balance:** The ratio of CEO pay compared to average employee pay is unacceptable at 51:1. The CEO salary is considered to be in the upper quartile of PIRC's comparator group. The changes in CEO pay over the last five years are not in line with the changes in Company's TSR performance over the same period. The CEO's total variable pay for the year under review amounts to 320% of salary (Annual bonus: 184% : LTIP: 136%), which is excessive.

Overall disclosure is adequate. The change in the CEO's salary is in line with the change in the salaries of average UK employees, and the CEO's salary rose by 3% while the salaries of the latter increased by 4.2%. The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over three years is not commensurate with the change in TSR over the same period. Total variable pay for the year under review was excessive at 336% of salary. The ratio of CEO pay compared to average employee pay is not acceptable at 93:1.

## CHARTER COURT FINANCIAL SERVICES GROUP PLC AGM - 16-05-2018

### 2. *Approve Remuneration Policy*

**Disclosure:** Performance conditions are not clearly stated and there is no evidence to suggest that performance conditions operate interdependently. It is disclosed that the Committee has retained some flexibility on the specific measures which will be used in order to ensure that any measures are fully aligned with the strategic focus prevailing at the time. While understandable, this leads to uncertainty under the policy.

**Balance:** Total potential awards under all schemes are considered excessive at 300% of salary (Annual Bonus: 150%, LTIP: 150%). The LTIP performance period is three years which is not considered sufficiently long-term however a two year holding period is in place. There is no evidence that dividends may not accrue on vesting awards from the date of grant. Such rewards misalign shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not.

**Contracts:** A mitigation statement is made. The Committee can exercise upside discretion for 'good leavers' and on a change of control under the LTIP as it may disapply pro-rating.

Rating: BDC.

Based on this rating it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

### 3. *Approve the Remuneration Report*

**Disclosure:** Past targets for the annual bonus are not fully disclosed as some targets are considered commercially sensitive.

**Balance:** The CEO's total realised variable pay is not considered excessive as his sole reward was the annual bonus at 156% of salary. The ratio of CEO to employee pay has been estimated and is found unacceptable at 22:1. The CEO's salary is considered in the upper quartile of a peer comparator group.

Rating: BC

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

## **INGENICO SA AGM - 16-05-2018**

### O.11. *Approve Compensation of Philippe Lazare, Chairman and CEO*

It is proposed to approve the remuneration paid or due to Mr. Philippe Lazare with an advisory vote. The Company has not disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although common practice in this market as this is deemed sensitive information, it prevents from an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes is unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

### O.12. *Approve Remuneration Policy for the Chairman & CEO*

It is proposed to approve the the principles and criteria of the remuneration policy for the CEO and the Chair with an advisory vote. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes is unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these grounds, opposition is recommended.

Vote Cast: *Oppose*

### O.13. *Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

### E.15. *Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for less than 10% of the current share capital. However, the duration of the authority exceeds 12 months (24 months). It is considered that shareholders should have the occasion to vote on such resolutions annually.

Vote Cast: *Oppose*

### *E.17. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

Vote Cast: *Oppose*

### *E.18. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

The Board requests shareholder authority for a capital increase of an undisclosed amount in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

Vote Cast: *Oppose*

### *E.22. Approve New Executive Share Option Scheme/Plan*

Proposal to authorize the Board to allot shares free of charge to employees and executives for 38 months. Shares issued under this authorization will not enjoy pre-emptive rights and will be attributed free of charge to management or employees. The Board would maintain full discretion over the beneficiaries. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

#### 4. *Amend Existing Omnibus Plan*

It is proposed to approve the 2013 Arconic Stock Incentive Plan, as Amended and Restated. The Plan currently contains a limit of USD 250,000 on the value of equity awards that may be granted to a non-employee director in a one-year period. The Board is proposing to replace this equity-specific limit with a new overall limit such that the aggregate value of equity awards or other awards granted under the amended Plan and any other cash compensation paid to any individual non-employee director as compensation for services as a director may not exceed USD 750,000 for any calendar year. Under the Amended 2013 Plan, the Compensation and Benefits Committee of the Board has authority to grant awards to employees of the Company and its subsidiaries, and the full Board of Directors has authority to grant awards to non-employee directors upon the recommendation of the Governance and Nominating Committee. The Committee has the authority, subject to the terms of the Amended 2013 Plan, to select employees to whom it will grant awards, to determine the types of awards and the number of shares covered, to set the terms and conditions of the awards, to cancel or suspend awards and to modify outstanding awards. The Committee also has authority to interpret the Amended 2013 Plan, to establish, amend and rescind rules applicable to the Amended 2013 Plan or awards under the Amended 2013 Plan, to approve the terms and provisions of any agreements relating to Amended 2013 Plan awards, to determine whether any corporate transaction, such as a spin-off or joint venture, will result in a participant's termination of service and to make all determinations relating to awards under the Amended 2013 Plan.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

#### 13. *Mondi Limited: Approve Remuneration Policy*

Maximum potential awards under all incentive schemes are considered excessive at 400% of salary. Performance conditions for the LTIP are clearly stated but awards are not linked to any non-financial KPIs. Also, best practice would be for the performance metrics to operate interdependently. Pension entitlements for the CEO are considered slightly excessive at 25% of salary (reduced from 30%).

Based on the above, an oppose vote is recommended.

*14. Mondi Limited: Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of executive and non-executive directors. The Company discloses all elements of remuneration for executives and non-executives. The payout for executives is considered excessive, as it is above 200% of the fixed salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. On balance, opposition is recommended.

Vote Cast: *Oppose*

*27. Mondi plc: Approve the Remuneration Report*

**Disclosure:** Overall disclosure could be improved as there is inadequate disclosure of financial targets. 2016 financial annual bonus targets were disclosed while full disclosure of the 2017 bonus ranges and outcomes will be included in the 2018 report.

**Balance:** The changes in CEO pay over the last five years are in line with the changes in Company's TSR performance over the same period. The new CEO's realised rewards are considered excessive at 211% of salary (Annual bonus: 98%, LTIP: 113%). The ratio of CEO to average employee pay has been estimated and is found excessive at 68:1. There are concerns over payment made to Andrew King. Leaving arrangements for the former CEO, David Hathorn do not raise concerns.

## **AGEAS NV AGM - 16-05-2018**

*2.3.1. Approve Discharge of Directors*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

Vote Cast: *Abstain*

*2.3.2. Discharge the Auditors*

In this market, auditors discharge may prevent lawsuits or claims for activities carried out during the year relating to facts that have not been disclosed to shareholders.

As a consequence, releasing auditors from liability will weaken the governance framework and introduce great risks for investors. On this basis, opposition is recommended.

*Vote Cast: Oppose*

### *3.2. Approve Remuneration of Chairman*

It is proposed to increase the amount payable to the Chairman by more than 10% on annual basis. The increase is considered material and exceeds guidelines, but the Company has duly justified it as the pay has not increased since 2010. Therefore, opposition is recommended.

*Vote Cast: Oppose*

### *3.3. Approve Remuneration of Directors*

It is proposed to increase the amount payable to the Board of Directors by more than 10% on annual basis. The increase is considered material and exceeds guidelines, but the Company has duly justified it as the directors pay has not increased since 2013. Therefore, opposition is recommended.

*Vote Cast: Oppose*

### *4.1. Elect Sonali Chandmal as Independent Director*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

*Vote Cast: Abstain*

### *4.2. Ratify PwC as Auditors and Approve Auditors' Remuneration*

KPMG proposed. Non-audit fees represented 8.33% of audit fees during the year under review and 8.00% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Abstain*

### *5.3.2. Renew Authorization to Increase Share Capital up to EUR 148 Million within the Framework of Authorized Capital*

Authority to issue shares without pre-emptive rights is proposed for less than 10% of the current share capital. However, the duration of the authority exceeds 12 months. It is considered that shareholders should have the occasion to vote on such resolutions annually.

*Vote Cast: Oppose*

## *6. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

**MTR CORP LTD AGM - 16-05-2018****5. Appoint the Auditors and Allow the Board to Determine their Remuneration**

KPMG proposed. Non-audit fees represented 11.11% of audit fees during the year under review and 34.00% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

**NATIONAL EXPRESS GROUP PLC AGM - 16-05-2018****2. Approve the Remuneration Report**

**Disclosure:** Overall disclosure is acceptable. Contrary to best practice, accrued dividends are not separately categorised.

**Balance:** The CEO's total realised variable pay for the year under review is considered excessive at 521% of salary (LTIP: 331, Annual Bonus: 190). The ratio of CEO to average employee pay has been estimated and is found unacceptable at 83:1. The changes in CEO pay over the last five years are not considered in line with Company's TSR performance over the same period. Recruitment packages for the new and the outgoing CFOs raise concerns.

Rating: AE.

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

Results: For: 94.4, Abstain: 0.3, Oppose/Withhold: 5.3,

**3. Approve Remuneration Policy**

**Policy changes:** –a reduction in the maximum pension contribution for new Executive Directors to no more than 25% of salary; –revision of the safety underpin for the annual bonus and the introduction of a similar safety underpin for the LTIP; and – removal of the ability to use the Listing Rules to make exceptional LTIP awards, and the introduction of the flexibility to grant LTIP awards up to 200% of salary for all Executives in special circumstances; –reduction in the threshold level of LTIP vesting from 30% to 25% for the TSR and EPS elements; – extension of the application of malus and clawback to the whole of the annual bonus award, not just the deferred share element; and – reduction in the Group Chief Executive's annual pension allowance from 35% to 30% of salary in three equal tranches commencing from 2019.

**Disclosure:** Overall policy disclosure is appropriate.

**Balance:** Overall maximum opportunity is considered excessive as the CEO can receive a variable award of up to 400% of his salary.

**Contracts:** The possibility to grant a longer notice period on recruitment is not considered appropriate. The removal of the ability to make use of the Listing Rules provision to make exceptional awards in retention or recruitment scenarios is highly welcomed. On termination, the upside discretion given to the Board not to pro-rate outstanding share awards under the LTIP raises concerns.

#### 2. *Advisory Vote to Ratify Named Executive Officers' Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BED. Based on this rating, it is recommended that shareholders oppose. At the AGM in 2017, the vote to ratify NEO's compensation received 18.91% votes against.

Vote Cast: *Oppose*

Results: For: 69.8, Abstain: 0.2, Oppose/Withhold: 30.0,

#### 3. *Ratify Deloitte & Touche LLP as Auditors*

Deloitte proposed. Non-audit fees represented 59.47% of audit fees during the year under review and 58.56% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

#### 4. *Amend Existing Long Term Incentive Plan*

The Board is proposing that shareholders approve the extension of the amendment and restatement of the Wyndham Worldwide Corporation 2006 Equity and Incentive Plan. The plan currently expires on 30 March 2019 and the Board is seeking to extend the plans term until March 2028. It is considered that, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, shareholders are recommended to oppose the resolution.

### 4. *Shareholder Resolution: Written Consent*

**Proposed by:** Not Disclosed.

Shareholders request that the board of directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. More than 100 Fortune 500 companies provide for shareholders to call special meetings and to act by written consent.

**Board's Opposing Argument:** The Board is against this proposal and states that the proposal would allow critical actions to be approved without notice to other stockholders and without an opportunity for discussion at a stockholder meeting. This proposal, if adopted, could disenfranchise stockholders and may deprive them of these rights, while enabling other short-term or special interest investors with no fiduciary duties to stockholders to approve proposals that are not in the best interest of all stockholders. Because of these deficiencies, the Board believes that the written consent process is not appropriate for a widely held public company.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis it is advised to oppose.

**7. *Approve Remuneration System for Management Board Members***

It is proposed to approve the remuneration policy. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. The Financial Year 2017, the variable remuneration of the CEO has been 445% of the fixed salary. In addition, the Company has not disclosed quantified targets for the performance criteria for its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these grounds, opposition is recommended.

**O.10. *Approve Remuneration Policy of Chairman of the Management Board and of Management Board Members***

It is proposed to approve the remuneration policy of Executives with a binding vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component. Although common practice in this market as this is deemed sensitive information, it prevents from an accurate assessment and may lead to overpayment against underperformance. In addition, there do not seem to be claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

**O.12. *Non-Binding Vote on Compensation of Jean-Charles Decaux, Chairman of the Management Board***

It is proposed to approve the remuneration paid or due to Jean-Charles Decaux with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although common practice in this market as this is deemed sensitive information, it prevents from an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

**O.14. *Non-Binding Vote on Compensation of Members of the Management Board***

It is proposed to approve the remuneration paid or due to Jean-Francois Decaux, Jean-Sebastien Decaux, Emmanuel Bastide, David Bourg and Daniel Hofer, with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although common practice in this market as this is deemed sensitive information, it prevents from an accurate assessment and may lead to overpayment against underperformance. *O.15. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

*E.17. Approve Issue of Shares for Employee Saving Plan*

Authority for a capital increase for up to 0.9% of share capital for employees participating to saving plans. The maximum discount applied will be 30% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the discount to be applied exceeds guidelines (20%). Opposition is therefore recommended.

Vote Cast: *Oppose*

*E.18. Authorize up to 4% of Issued Capital for Use in Stock Option Plans*

It is proposed to approve a stock option plan for employees and corporate officers for up to 4% of the share capital in aggregate. The Board would receive the authority to set beneficiaries and other conditions. There seem to be no performance criteria besides employment and tenure.

Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clearly performance criteria and conditions. On balance, opposition is recommended.

Vote Cast: *Oppose*

*E.19. Authorize up to 0.5% of Issued Capital for Use in Restricted Stock Plans*

Proposal to authorize for 26 months the Board to allot shares free of charge to employees and executives. Share issued under this authorization will not enjoy pre-emptive rights and will be attributed free of charge to management or employees. The Board would maintain full discretion over the beneficiaries. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

Vote Cast: *Oppose*

*O.8. Appoint the Auditors*

KPMG proposed. Non-audit fees represented 14.08% of audit fees during the year under review and 14.06% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

## HILL & SMITH HOLDINGS PLC AGM - 17-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.3, Abstain: 0.1, Oppose/Withhold: 0.7,

### 4. *Re-elect Mr J F Lennox*

Incumbent Chairman. Independent on appointment. However there are concerns over his aggregate time commitments.

He is chair of the Nomination Committee and less than 20% of the Board are women which does not meet Central guidelines.

Vote Cast: *Oppose*

Results: For: 86.4, Abstain: 0.6, Oppose/Withhold: 13.0,

### 8. *Re-elect Mr M J Reckitt*

Independent Non-Executive Director.

The Company has received an 'E' rating for Audit.

Vote Cast: *Oppose*

Results: For: 99.1, Abstain: 0.0, Oppose/Withhold: 0.9,

### 10. *Appoint the Auditors*

KPMG proposed. Non-audit fees represented 15.46% of audit fees during the year under review and 29.75% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 98.4, Abstain: 0.0, Oppose/Withhold: 1.6,

### 16. *Approve Increase in Non-executives Fees*

It is proposed that the maximum aggregate remuneration per annum of the Non-executive Directors be increased to £500,000 from £350,000. This amounts to a 42% increase, which is considered excessive, without any adequate justification provided. Upon engagement, the Company stated that the total fees payable to the Chairman and other Non-executive directors in 2018 will total £334,950, some £15,000 below the current £350,000 limit. Thus the appointment of any future new Non-executive director would instantly push the Company above that current maximum. The Company confirmed that the request to increase the fees that can be

payable to Non-executive directors is driven by desire to be able to appoint new members to the Board, rather than to increase fees for existing members. On balance, an abstain vote is recommended.

Vote Cast: *Abstain*

Results: For: 98.8, Abstain: 0.9, Oppose/Withhold: 0.3,

## **SUEZ ENVIRONNEMENT SA COMBINED - 17-05-2018**

### *O.7. Reelect Guillaume Pepy as Director*

Non-Executive Director, not considered to be independent as he was the CEO of SNCF, company owned by the French State which is the first shareholder of ENGIE. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

### *O.9. Elect Franck Bruel as Director*

Non-Executive Director, not considered to be independent as Not considered independent as the director is an Executive director of ENGIE, the controlling shareholder. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

### *O.10. Renew Appointment of Ernst & Young et Autres as Auditor*

EY proposed. Non-audit fees represented 18.22% of audit fees during the year under review and 15.24% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

#### *O.11. Approve Auditors' Special Report on Related-Party Transactions*

The report of the auditors was made available sufficiently before the meeting. The two new related-party agreements submitted for approval, which concern a bridge loan agreement and a placement and underwriting agreement, were entered into with Société Générale, a company within which Gérard Mestrallet, the Chairman of the Board of Directors of Suez Environment is on the Board of Directors. There is not enough independence representation on the Board of Directors to oversee the transactions. Opposition is recommended.

*Vote Cast: Oppose*

#### *O.14. Approve Remuneration Policy for CEO*

It is proposed to approve the remuneration policy for the CEO with an advisory vote. Variable remuneration is capped at 245% of the fixed salary (145% for the annual bonus and 100% for the long term incentive), which exceed guidelines. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. Furthermore, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these grounds, opposition is recommended.

*Vote Cast: Oppose*

#### *O.15. Approve Compensation of Jean-Louis Chaussade, CEO*

An advisory vote on the compensation paid to Jean-Louis Chaussade, CEO, is proposed. His base salary has not been increased since 1 January 2009 (EUR 750,000). The annual bonus can amount to up to 145% of base salary and amounted to 85% of fixed salary during the year. No Long Term Incentive shares were allotted during the year under review. The payout is in line with best practice. However, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. Furthermore, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these grounds, opposition is recommended.

*Vote Cast: Oppose*

#### *O.16. Authorize Repurchase of Up to 10 Percent of Issued Share Capital*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

#### *E.23. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

Proposed authority to issue up to 10% of the share capital to be used in exchanges in times of public offer initiated by the Company. At this time, the Company has not disclosed specific plans to future exchange offers. As the proposed authority exceeds guidelines, and in absence of specific reasons, opposition is recommended.

*Vote Cast: Oppose*

*E.21. Authorise Board to Increase Capital in the Event of Additional Demand Related to Delegation Submitted to Shareholder Vote Above*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

*Vote Cast: Oppose*

*E.20. Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights for Private Placements, up to Aggregate Nominal Amount of EUR 248 Million*

The Board requests authority to approve a global authority for the issue of capital related securities without preemptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

*Vote Cast: Oppose*

*E.25. Authorise Capital Issuances for Use in Employee Stock Purchase Plans Reserved for, Employees of International Subsidiaries*

Authority to issue up to 0.48% of the share capital for employee savings plans for international employees. The shares can be issued at a maximum discount of 20%. As the aggregate share capital increase exceed the guidelines limit of 2% in aggregate, an oppose vote is recommended.

*Vote Cast: Oppose*

*E.26. Approve Restricted Stock Plan in Connection with Employee Stock Purchase Plans*

Proposal to authorize for 26 months the Board to allot shares free of charge to employees and executives under the conditions of the Macron Law. Share issued under this authorization will not enjoy pre-emptive rights and will be attributed free of charge to management or employees. The Board would maintain full discretion over the beneficiaries. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

*Vote Cast: Oppose*

*E.27. Authorize the Board of Directors to proceed with freely allocating performance shares*

It is proposed to renew the authority granted in 2016 to allocate, on one or more occasions, bonus shares. The authority, which would grant performance shares to its beneficiaries is limited to 0.5% of the share capital. There is limited disclosure on the performance targets underlying the Plan allowing the grant of shares, which does not permit an assessment of their effectiveness. Opposition is recommended.

**2. Amend Existing Omnibus Plan**

It is proposed to approve the amendment and restatement of 2014 Omnibus Incentive Plan. The Amended Plan adds 2.2 million shares of common stock to the share pool previously available under the Omnibus Plan. The Amended Plan makes certain other minor changes to the plan, including the addition of minimum vesting requirements. Awards may be granted under the Amended Plan to affiliates, officers, employees, consultants and advisors and to non-employee directors. The

Amended Plan may be administered by the Board of Directors or the Compensation Committee. The Compensation Committee, in its discretion, selects the individuals to whom awards may be granted, the time or times at which such awards are granted, and the terms of such awards. No more than USD 500,000 may be granted in equity-based awards during any one year to a non-employee director, based on the grant date fair value for accounting purposes in the case of stock options or stock appreciation rights and based on the fair market value of the common stock underlying the award on the grant date for other equity-based awards.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

### 1.11. *Elect Howard A. Willard III*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

### 4. *Shareholder Resolution: Written Consent*

**Proposed by:** John Chevedden.

Shareholders request that the Board undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent is a complimentary way to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. The Proponent states that taking action by written consent saves the expense of holding a special shareholder meeting.

**Board's Opposing Argument:** The Board believes that the Company's existing Bylaw provision that provides stockholders with the right to call special meetings offers a transparent and equitable mechanism for stockholders to raise matters for consideration by the Company; whereas this proposal's written consent right would enable a limited group of stockholders to act without the same required transparency to all stockholders. The Board argues that the written consent process; as set forth in

this proposal; is less transparent and less democratic than holding a stockholders meeting; and thus deprives stockholders of a forum for discussion or opportunity to ask questions about proposed actions. The Board therefore recommends a vote against this proposal.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. It is considered any matters to be decided by shareholders should take place in the context of a shareholder meeting where all shareholders have adequate notice and the right to participate. On this basis shareholders are advised to oppose. This proposal topic received a 42% in support at the 2016 annual meeting.

Vote Cast: *Oppose*

Results: For: 40.1, Abstain: 0.7, Oppose/Withhold: 59.3,

#### 6. *Shareholder Resolution: Political Donations*

**Proposed by:** Stockholder NorthStar Asset Management, Inc.

The proponent is requesting that the Board of Directors report to shareholders (at reasonable expense, excluding confidential information) a cost-benefit analysis of the most recent election cycle's political and electioneering contributions by Intel and IPAC, examining the effectiveness, benefits, and risks to shareholder value associated with those contributions.

**Proponent's Supporting Argument:** The Proponent argues that Intel should minimize risk to the firm's reputation regarding possible future missteps in corporate political contributions, including Intel PAC contributions. The New York Times reported that in 2014, anonymous donors to 501(c) nonprofits, businesses, unions and others amounted to 173 million USD. The Proponent appreciates Intel's efforts to strengthen internal oversight of political contributions, however analysis of 2015-2017 political contributions indicate misaligned contributions, including: 51 Members of Congress who have been identified as climate change deniers and 20 Members of Congress that voted against an amendment to the Justice for Victims of Trafficking Act.

**Board's Opposing Argument:** The Board is against this proposal as Intel already provides significant disclosure regarding its policies, processes, and oversight of political contributions in line with current best practices advocated by a number of leading organizations. In 2017, Intel was highlighted as one of the 'trendsetter companies' by CPA-Zicklin Index of Corporate Political Disclosure and Accountability. The board believes that there is sufficient disclosure as Intel publishes data on its direct and indirect political contributions on its web site and in its annual Corporate Responsibility Report.

**PIRC Analysis:** While there is always room for improvement in the Company's disclosure of political donations, the Company already provides a market best practice level of disclosure in comparison to the S&P500, and scored 94.3% in the CPA-Zicklin Index of Corporate Political Disclosure and Accountability. On this basis, shareholders are advised to oppose.

### PRUDENTIAL PLC AGM - 17-05-2018

#### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. However, the Company paid interim dividends during the year. Same have not been put forward for shareholder approval.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 96.4, Abstain: 2.2, Oppose/Withhold: 1.4,

## 2. Approve the Remuneration Report

**Disclosure:** Overall disclosure could be improved as performance targets attached to the Annual Incentive Plan (AIP) payments are not fully disclosed. Dividends accrued on vested share awards are not separately categorized.

**Balance:** The Group CEO's total realised variable pay is considered excessive at 619% of salary (Annual Bonus: 188%, LTIP: 431%). The Chairman & CEO, NABU, Barry Stowe's bonus amounts to 608% of salary. The ratio of CEO to average employee pay has been estimated and is found unacceptable at 56:1.

Rating: BD.

As the CEO's bonus exceeded his salary, it is recommended that Central oppose.

Vote Cast: *Oppose*

Results: For: 93.7, Abstain: 1.3, Oppose/Withhold: 5.0,

## 9. Re-elect Mr Paul Manduca

Incumbent Chairman. Independent on appointment.

The Company has answered 'No Opinion' to the CDP's question on whether it supports an international agreement on climate change.

However he is Chairman of the Nomination Committee and no target has been set to increase the level of female representation on the Board, currently insufficient at 12.5%.

Vote Cast: *Oppose*

Results: For: 91.5, Abstain: 2.3, Oppose/Withhold: 6.2,

## 19. Appoint the Auditors

KPMG proposed. Non-audit fees represented 25.00% of audit fees during the year under review and 30.58% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 97.3, Abstain: 0.0, Oppose/Withhold: 2.7,

## 25. Renewal of Authority to Issue Mandatory Convertible Securities (MCS)

Shareholders are being asked to give the Board the authority to issue mandatory convertible securities ('MCS'). This authority is limited to shares representing approximately 20 per cent of the issued ordinary share capital of the Company. The Company explains that this authority is needed so that the Company has the flexibility to manage and maintain its and the Group's capital structure more effectively in the light of evolving regulatory capital requirements, market conditions and appetite for different instruments and their cost-effectiveness.

The use of Contingent Convertible Securities (or CoCos) is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Recent events at Deutsche Bank has led to others voicing their concerns about the destabilising effect of CoCos on both the CoCo price and the share price. Based on these concerns, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 97.9, Abstain: 0.3, Oppose/Withhold: 1.8,

### *26. Renewal of Authority to Issue Mandatory Convertible Securities (MCS) for Cash*

Shareholders are being asked to give the Board the authority to issue mandatory convertible securities ('MCS') on a non-pre-emptive basis. In line with the recommendation on resolution 25, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 97.0, Abstain: 0.0, Oppose/Withhold: 3.0,

## **NITORI HOLDINGS CO LTD AGM - 17-05-2018**

### *2.1. Appoint a Director as Supervisory Committee Members: Kubo Takao*

Executive Director. The Company operates under the corporate governance structure with a board of directors and an audit & supervisory committee, which should only comprise outside non-executive directors. As an executive director is proposed as a member of the Committee, opposition is recommended.

Vote Cast: *Oppose*

## **ADELAIDE BRIGHTON LTD AGM - 17-05-2018**

### *3. Elect Geoff Tarrant*

Non-Executive Director. Not considered to be independent as he was nominated by Barro Properties, a significant shareholder in the Company. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

### *4. Elect Raymond Barro*

Non-Executive Director. Not considered to be independent as he is the Managing Director of Barro Group, which together with Barro Properties Pty Ltd and other parties associated with Barro Group, is the largest shareholder of the company. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

### *5. Approve Equity Grant to Executive Director*

The Board is seeking shareholder approval for the purposes of ASX Listing Rule 10.14 for the grant of 233,063 performance shares to Martin Brydon, Chief Executive and Managing Director, under the Company's Long-term Incentive Plan. The proposed grant has an approximate value which equates to 100% of his fixed remuneration. Concerns over the plan are raised as LTIs are based on the achievement of performance conditions which do not run interdependently and which do not include a non-financial element. The vesting scales for the LTIs are not considered to be sufficiently broad. Also, 50% of awards vest for threshold targets, for all performance conditions. This level is considered excessive. Lastly, awards are subject to a four-year performance period without any further holding period, which is not considered sufficiently long term.

Based on these concerns, opposition is recommended.

Vote Cast: *Oppose*

#### 6. *Approve the Remuneration Report*

In accordance with Section 250R of the Australian Corporations Act, the directors are seeking approval of the remuneration report. The Act does not require directors to act on approval of the resolution and the vote is advisory.

Maximum limits for the variable pay are within acceptable limits and the CEO's variable pay for the for the year under review amounts to 20% of his fixed remuneration which was solely the long term incentive payout as there was no short term incentive payout for the year, which is considered to be within recommended limits. However, there are concerns over the features of the LTIPs including, performance conditions not operating interdependently, and no non-financial performance metric being used. Nonetheless, there is evidence of a claw-back policy in place. On the balance, abstention is recommended.

Vote Cast: *Abstain*

## **WENDEL AGM - 17-05-2018**

### *O.6. Approve Severance Payment Agreement with Andre François-Poncet, Chairman*

Proposal to approve the related party agreement with Andre François-Poncet, Chairman, relating to the severance agreement as required by French Corporate Law. In the event of departure between 2018- 2020, Andre François-Poncet, is entitled to a maximum of two years' compensation. The value of the proposed agreement may exceed one year fixed salary on aggregate, as it incorporates elements of the variable remuneration, opposition is recommended.

Vote Cast: *Oppose*

### *O.9. Approve Remuneration Policy Attributable to the Chairman of the Executive Board*

It is proposed to approve the remuneration policy to Frederic Lemoine, Chairman of the Management Board. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

### *O.10. Approve Remuneration Policy Attributable to the Executive Board*

It is proposed to approve the remuneration policy of Management Board Members. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. The upper limit for variable compensation is 115% of fixed compensation. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

### *O.12. Approve Compensation Owed or Paid to Mr. Frederic Lemoine, Chairman of the Executive Board*

It is proposed to approve the remuneration paid or due to Mr. Frederic Lemoine. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance.

In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

*O.13. Approve Compensation Owed or Paid to Mr. Bernard Gautier, Member of the Executive Board*

It is proposed to approve the remuneration paid or due to Mr. Bernard Gautier. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

*O.15. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

*E.17. Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for less than 10% of the current share capital. However, the duration of the authority exceeds 12 months. It is considered that shareholders should have the occasion to vote on such resolutions annually.

*Vote Cast: Oppose*

*E.18. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

*Vote Cast: Oppose*

*E.19. Approve Issue of Shares Deviating from Price Fixing Conditions*

The Board requests authority to issue capital related securities without adhering to the general pricing conditions. Under this authority, the company would be authorised to issues shares at a discount of 10% up to a total of 10% of the issued share capital over a period of 26 months. Given concerns over the level of discount and the amount of the authority, opposition is recommended.

*Vote Cast: Oppose*

#### *E.20. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

*Vote Cast: Oppose*

#### *E.22. Authorize Capital Increase for Future Exchange Offers*

Proposed authority to issue up to 10% of the share capital to be used in exchanges in times of public offer initiated by the Company. At this time, the Company has not disclosed specific plans to future exchange offers. As the proposed authority exceeds guidelines, and in absence of specific reasons, opposition is recommended.

*Vote Cast: Oppose*

#### *E.26. Authorize up to 1 Percent of Issued Capital for Use in Stock Option Plans*

It is proposed to issue stock options, corresponding to 1% of the issued share capital, to employees and management over a period of 14 months. Performance conditions to be applied to those options awarded to the beneficiaries are not disclosed. Opposition is recommended.

*Vote Cast: Oppose*

#### *E.27. Authorize up to 0.5 Percent of Issued Capital for Use in Restricted Stock Plans*

It is proposed to allocate performance shares, corresponding to 0.5% of the issued share capital, to employees and management over a period of 14 months. Performance conditions to be applied to those shares awarded to the beneficiaries are not disclosed. Opposition is recommended.

### **BIOMERIEUX AGM - 17-05-2018**

#### *O.3. Discharge the Board*

This proposal is not required by law and is increasingly uncommon at French general meetings. Voting in favour of a discharge resolution may have legal consequences regarding the ability of shareholders to pursue subsequent actions against the Board. On this basis, opposition is recommended.

*Vote Cast: Oppose*

#### *O.5. Approve Additional Pension Scheme Agreement with Alexandre Merieux*

Proposed retirement arrangement for Alexandre Merieux, in compliance with the Macron Law.

Although it is welcomed that shareholder approval will be required for all new retirement agreements, it is believed that top hat retirement compensation are not an appropriate way of compensating executives, as they remunerate beyond the executive's term and are mostly unrelated to the impact on company value that the executive may have enhanced.

*Vote Cast: Oppose*

*O.7. Approve Transaction with Institut Merieux and Merieux Nutrisciences Re: Losses of Merieux University*

The Board proposed to distribute losses from the program 'Formation interne, Coaching & Locatif' by the university of Mérieux proportionally to the partners of Mérieux University during the financial year, and not proportionally according to their voting rights. The Board provide the following reason: since the 95% of the invoices issued by the 'Formation interne, Coaching & Locatif' are issued by the Mérieux University, 95% of the losses from this activity shall be borne by the Company. It is considered that each shareholder should bear risks, gains and losses proportionally to their investment into the Company. The Company's proposal to distribute losses equally would eventually be unequal against minority shareholders. Opposition is recommended.

*Vote Cast: Oppose*

*O.8. Approve Remuneration Policy of Chairman and CEO*

It is proposed to approve the remuneration policy for the Chairman and CEO with a binding vote. Variable remuneration appears to be consistently capped and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria for its variable remuneration component. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there do not seem to be claw back clauses in place over the entirety of the variable remuneration component, which makes is unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

*O.9. Approve Remuneration Policy of Vice-CEOs*

It is proposed to approve the remuneration policy for the Deputy General Managers with a binding vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not fully disclosed quantified targets or performance criteria for its variable remuneration component. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there do not seem to be claw back clauses in place over the entirety of the variable remuneration component, which makes is unlikely for shareholders to reclaim that variable remuneration unfairly paid out. *O.10. Approve Compensation of Jean Luc Belingard, Chairman and CEO until Dec. 15, 2017*

It is proposed to approve the remuneration paid or due to Jean Luc Belingard with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

Vote Cast: *Oppose*

*O.11. Approve Compensation of Alexandre Merieux, Vice-CEO until Dec. 15, 2017*

It is proposed to approve the remuneration paid or due to Alexandre Merieux with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. *O.12. Approve Compensation of Alexandre Merieux, Chairman and CEO since Dec. 15, 2017*

It is proposed to approve the remuneration paid or due to Alexandre Merieux for his role as Chairman and CEO since Dec. 15, 2017, with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. *O.13. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

*E.15. Authorize up to 0.95 Percent of Issued Capital for Use in Restricted Stock Plans*

It is proposed to approve a restricted stock plan for employees and corporate officers for up to 0.95% of the share capital in aggregate. The Board would receive the authority to set beneficiaries and other conditions. There seem to be no performance criteria besides employment and tenure.

Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clearly performance criteria and conditions. On balance, opposition is recommended.

*E.17. Approve Issue of Shares for Employee Saving Plan*

Authority for a capital increase for more than 2% of the share capital for employees participating to saving plans. The maximum discount applied will be 20% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the amount of the authorisation exceeds guidelines (2%). Opposition is therefore recommended.

**2. Approve the Remuneration Report**

**Disclosure:** All elements of each director's fixed and variable remuneration are adequately disclosed. The Company has provided the change in salary for the CEO and the UK-employee base, which are 2.5% and 2.6% respectively. However, the use of a selective employee base is not considered appropriate and due to the lack of disclosure of employee numbers, PIRC cannot estimate this for the whole employee population. The remuneration report received a significant level of opposition at last years AGM at 18.64%. The Company does appear to have disclosed some positive steps to address shareholder concern, for example, increased transparency over bonus outcomes. However, concerns remain in relation to the overall disclosure of the report.

**Balance:** The CEO's total realised variable pay, which is solely comprised of the LTIP reward, is considered excessive at 273.45% of base salary. The ratio of CEO to average employee pay cannot be estimated as the Company has not provided employee numbers in the annual report, this lack of disclosure is not appropriate. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 3.91% whereas, on average, TSR has increased by 27.94%.

### *20. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

## **DRILLISCH AG AGM - 17-05-2018**

### *3.1. Discharge Management Board Member Vlasios Choulidis*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

Vote Cast: *Abstain*

### *3.. Appoint the Auditors*

PwC proposed. Non-audit fees represented 36.99% of audit fees during the year under review and 18.66% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### *4.. Approve General Share Issue Mandate*

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

Vote Cast: *Oppose*

### *6.. Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 4 those shares repurchased under the authority granted by proposal 5. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

## **CBOE GLOBAL MARKETS INC AGM - 17-05-2018**

### *1.01. Re-elect Edward T. Tilly*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

**ESURE GROUP PLC AGM - 17-05-2018****1. *Receive the Annual Report***

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 98.8, Abstain: 0.0, Oppose/Withhold: 1.2,

**2. *Approve the Remuneration Report***

Overall disclosure is adequate. The CEO's salary is in line with the rest of the Company, as the CEO's salary remained the same while the increase in employee salaries was 3.8%. Total variable pay for the year under review was not excessive, amounting to 143% of salary for the CEO. Changes in CEO pay over the last four years are not considered in line with changes in TSR during the same period. Strategic Leadership Plan Awards granted during the year under review were excessive, amounting to 250% of salary for the CEO. The ratio of CEO pay compared to average employee pay is not acceptable at 27:1.

It is noted that at last year's AGM the remuneration report received significant shareholder opposition (15.73%). There is no mention of the reasons behind the level of opposition, nor is there any mention of measures taken to engage with shareholders and address any concerns.

Rating: AD.

Based on this rating it is recommended that Central oppose.

**15. *Issue Solvency II RT1 Instruments with Pre-emption Rights***

Authority sought to issue shares with pre-emption rights up to an aggregate nominal amount equal to £59,523 (representing 71,428,571 Ordinary Shares) in connection

with the issue of Solvency II RT1 Instruments. This amount represents approximately 17.04 per cent of the issued Ordinary Share capital of the Company as at 12 April 2018. The Board believes it is in the best interests of the Company to have the flexibility to issue Solvency II RT1 Instruments from time to time and the authority sought in Resolution 15 may be used if, in the opinion of the Directors, at the relevant time such an issuance of Solvency II RT1 Instruments would benefit shareholders.

The use of Contingent Convertible Securities or CoCos is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Recent events at Deutsche Bank has led to others voicing their concerns about the destabilising effect of CoCos on both the CoCo price and the share price. Based on these concerns, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.0, Oppose/Withhold: 0.3,

#### *18. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

Vote Cast: *Oppose*

#### *19. Issue Solvency II RT1 Instruments for Cash*

Authority sought to dis-apply pre-emption rights and issue shares for cash, in connection with the issue of Solvency II RT1 Instruments, up to a nominal value of £59,523 equivalent to 17.04 per cent of the total issued Ordinary Share capital of the Company as at 12 April 2018. This is to permit the Company the flexibility necessary to allot equity securities pursuant to any proposal to issue Solvency II RT1 Instruments without the need to comply with the pre-emption requirements of the UK statutory regime. Together with Resolution 15, Resolution 19 is intended to provide the Directors with the flexibility to issue Solvency II RT1 Instruments which may convert into Ordinary Shares of the Company.

The use of Contingent Convertible Securities or CoCos is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Overall disclosure is acceptable. The change in the CEO's salary is in line with the rest of the workforce, as the CEO's salary rose by 1% while the salary change for UK/Eire employees was an increase of 5.8%. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. However, the ratio of CEO pay compared to average employee pay is unacceptable at 39:1. In addition, the CEO's salary is in the upper quartile of the Company's comparator group.

Newly appointed Chairman. Independent upon appointment. However, he is also Chairman of Grafton Group plc, a FTSE 250 company. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company.

The Company has answered 'No opinion' to the CDP's question on whether it supports an international agreement on climate change.

**17. *Authorise Share Repurchase***

The authority is limited to 14.99% of the Company's issued share capital and will expire at the next AGM.

PIRC issue: This resolution will not be supported unless the Board has set forth a clear, cogent and compelling case demonstrating how the authority would benefit long-term shareholders.

Vote Cast: *Oppose*

Results: For: 99.4, Abstain: 0.1, Oppose/Withhold: 0.5,

#### 18. *Authorise the off-market purchases of own shares*

As in previous years, the company seeks authority to enter into off-market contingent purchase contracts with any of Goldman Sachs International, UBS AG, Deutsche Bank AG, HSBC Bank plc and Barclays Bank plc under which shares may be purchased off-market at a discount to the market price prevailing at the date each contract is entered into. The maximum which the Company would be permitted to purchase pursuant to this authority would be the lower of 3,000,000 shares or a total cost of £200 million. The contracts would enable the company to make share purchases at all times, including close periods, such as prior to the announcement of interim and full year results, under contingent forward trades.

The authority represents approximately 2% of the issued share capital. This authority will be subject to the 14.99% limit subject to shareholders approval in resolution 17 above. There is a concern regarding the potential repurchase of shares during a closed trading period, as this off market authority may potentially allow for transactions to still occur. Therefore an oppose vote is recommended.

Overall disclosure is adequate. The changes in CEO total pay over the last three years are in line with the change in TSR Company's financial performance over the same period. The CEO's salary is in the lower quartile of the Company's comparator group. The change in the CEO's salary is not in line with the rest of the Company, as the CEO's salary rose by 6.3% while average employee salary rose by 3.8%; such a difference is not considered to be equitable. Total variable pay for the year under review was excessive, amounting to 247% of salary for the CEO. The ratio of CEO pay compared to average employee pay stands at 21:1, which exceeds the recommended ratio of 20:1.

Rating: AC.

#### 4. *Re-elect Chris Gibson-Smith*

Incumbent Chairman. Independent upon appointment.

The Company does not have a board member or committee with responsibility for sustainability/ESG matters.

He is the Chairman of the Nomination Committee and no target has been set to increase the level of female representation on the Board, which is currently insufficient at 9.1%.

PIRC issue: Last year an abstain vote was recommended because of the Chairman's noted intention of increasing female representation on the Board. In such circumstances an oppose vote would be recommended. However, upon engaging with the Company it was made clear that the Board is in process of recruiting an additional female Non-Executive Director. This process is reportedly at an advanced phase and will be followed by an appointment announcement in due course.

## TI FLUID SYSTEMS PLC AGM - 17-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

### 2. *Approve the Remuneration Report*

Overall disclosure is adequate. The CEO's salary is in line with the rest of the Company, as the CEO's salary did not change while the salaries of the employees increased by 2.4%. Total variable pay for the year under review is highly excessive, amounting to approximately 805% of salary for the CEO. This is considered particularly excessive, given that the recommended limit for variable pay is 200% of salary. The annual bonus alone amounted to 421% of salary for the CEO, which exceeds the maximum opportunity of 300% of salary. In addition, the Executives were granted cash awards in light of the IPO, with the CEO receiving an award of €2,500,000. A one-off reimbursement of €857,457 was also paid to the CEO. The ratio of CEO pay compared to average employee pay is unacceptable at 324:1, and significantly exceeds the recommended ratio of 20:1. The CEO's salary is in the upper quartile of the Company's comparator group.

### 3. *Approve Remuneration Policy*

This is the first policy put forward for shareholder approval since the Company's IPO in October 2017 and Admission to trading on the London Stock Exchange. Overall disclosure is adequate, although Company does not disclose the length of the notice period from its part. There is no overall maximum set for benefits, however the Company limits prerequisite allowances to €28k per year, and car allowances to €17k per year. The setting of such limits is welcomed. With regard to the annual bonus, the first 100% of salary bonus will be paid fully in cash, with any element payable above 100% of salary deferred into ordinary shares of the Company for two years. This is not considered adequate, as it is recommended that at least half of the annual bonus is deferred into shares. The Company uses multiple performance conditions which, contrary to best practice, do not operate interdependently. At three years the LTIP is not considered to be sufficiently long-term. However, a two year post-vesting holding period applies, which is welcomed. The Company uses two performance conditions, though they are both financial based. It is recommended that at least one non-financial KPI is used, and that performance conditions operate interdependently. The policy permits the payment of dividend equivalents on awards, which is not in line with best practice. Malus and clawback provisions apply for both the annual bonus and LTIP. The combined maximum opportunity under all incentive awards is excessive at 600% of salary, or 750% of salary in exceptional circumstances. The shareholding requirements for Executives, 300% of salary to be built over five years, are considered adequate. In relation to contracts, termination payments can exceed one year, as the CEO can receive termination payments for up to 18

months. Although it is the intention of the Committee to pro-rate LTIP and annual bonus awards for time in the case of a good leaver, the Committee can exercise upside discretion and dis-apply time pro-rating, which is inappropriate. With regard to recruitment, the Committee can raise the maximum opportunity of the LTIP to 450% of salary, which is contrary to best practice.

**Disclosure:** All elements of each director's cash remuneration and pension contribution are disclosed as are share incentive awards are with award dates and prices.

**Balance:** The Group CEO's realised variable pay for the year under review is considered excessive at 261.97% of salary (Annual Bonus: 128.6%, April 2013 LTIP: 133.37%). Furthermore, the ratio of CEO to average employee pay has been estimated and is found unacceptable at 35:1. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. **17. Issue Shares with Pre-emption Rights in respect of Contingent Convertible Securities**

Authority is sought to allot shares and grant rights to subscribe for or to convert any security into ordinary shares in the Company up to an aggregate nominal amount of £20,000,000 representing approximately 13.4% of the Company's issued ordinary share capital as at 31 March 2018, such authority to be exercised in connection with the issue of Solvency II (SII) Restricted Tier 1 (RT1) instruments. The authority expires at the next AGM. The Company explains that this authority is needed so

that the Company has the flexibility to manage and maintain its and the Group's capital structure more effectively in the light of evolving regulatory capital requirements, market conditions and appetite for different instruments and their cost-effectiveness.

The use of Contingent Convertible Securities (or CoCos) is not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. CoCos are relatively new instruments and there are concerns that CoCos may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Past events at Deutsche Bank has led to others voicing their concerns about the destabilising effect of CoCos on both the CoCo price and the share price. Based on these concerns, an oppose vote is recommended.

## 6. Shareholder Resolution: Clawback of Incentive Payments

**Proposed by:** Service Employees International Union Pension Plans Master Trust

Shareholders of XPO Logistics, Inc. urge the Board of Directors' Compensation Committee to amend the Company's clawback policy, as applied to senior executives, to add that the Committee will review and determine whether to seek recoupment of incentive compensation paid, granted or awarded to a senior executive if, in the Committee's judgment, certain conduct resulted in a violation of law or Company policy and caused financial or reputation harm to the Company, and if a senior executive either engaged in the conduct or failed in his or her responsibility to manage or monitor the conduct or risks, with the Company to disclose to shareholders the circumstances of any recoupment or decision not to pursue recoupment in these situations.

**Proponent's Supporting Argument:** The Proponent argues that it agrees with former GE general counsel Ben Heineman Jr. that recoupment policies are "a powerful mechanism for holding senior leadership accountable to the fundamental mission of the corporation: proper risk taking balanced with proper risk management and the robust fusion of high performance with high integrity." The Company's current clawback policy allows recoupment of certain incentive pay from a corporate officer if he or she engaged in fraud or other willful misconduct that contributes materially to any significant financial restatements or material loss to the Company or any of its affiliates. In the Proponent's view, a recoupment policy that is limited to accounting and financial reporting noncompliance or an undefined 'material loss' is too narrow. The Proponent views recoupment as an important remedy for other kinds of conduct that may not lead to a restatement, but may nonetheless harm the Company's reputation and prospects, as well as its shareholders. It also believes a clawback policy should apply without regard to 'materiality,' an element of the current policy.

**Board's Opposing Argument:** The Board is against this proposal as the Company's clawback policies are already sufficiently robust and promote long-term, sustainable value creation for stockholders. The Board adds that the proposed clawback policy is overly prescriptive and would inhibit its ability to attract and retain talented executive officers. The Board states that the absence of any 'materiality' threshold analysis would require the Compensation Committee to apply an undefined, ambiguous and arbitrary clawback policy every time a senior executive is alleged to have possibly violated a Company policy, however minor, or possibly failing to monitor a risk, regardless of the materiality of the financial harm.

**PIRC Analysis:** The proposal brought forward by the Proponent raises some relevant points relating to holding the executives accountable for decisions that may lead to a loss of shareholder value in the future. However, the request lacks specified definitions for amendment to the current clawback policy. An oppose vote is recommended.

## **UNIBAIL RODAMCO WESTFIELD AGM - 17-05-2018**

*O.5. Approve Compensation of Christophe Cuvillier, Chairman of the Management Board*

It is proposed to approve the remuneration paid or due to Christophe Cuvillier, Chairman of the Management Board with an advisory vote. Variable remuneration appears to be consistently capped, albeit at an excessive level; however, the payout is in line with best practice. The Company has not disclosed quantified targets or performance criteria for its variable remuneration component. Although common practice in this market as this is deemed sensitive information, this may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

#### *E.17. Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for less than 10% of the current share capital. However, the duration of the authority exceeds 12 months. The Company claims that 18 months would leave the Company sufficient flexibility to call for the next AGM. However, it is considered that in such case, a formula for granting the authority "until next AGM or 18 months, whichever comes first" would have been considered the most appropriate. Leaving the authority at 18 de facto leaves what is considered to be excessive discretion to the Board, as it is considered that shareholders should have the occasion to vote on such resolutions annually.

Vote Cast: *Oppose*

#### *E.18. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

Vote Cast: *Oppose*

#### *E.20. Issue Stock options for the Benefit of Salaried Employees and Executive Officers*

Proposal to authorize for 38 months the Board to allot stock options to employees and executives. The Board would maintain full discretion over the beneficiaries. Targets are quantified and disclosed, although the performance period of four years without additional holding is not considered sufficiently long term.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure. Opposition is recommended.

The Board would maintain full discretion over the beneficiaries. Targets are quantified and disclosed, although the performance period of four years without additional holding is not considered sufficiently long term.

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. Performance targets have been quantified at this time. Targets are quantified and disclosed, although the performance period of three years and a two year holding period is not considered sufficiently long term, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

#### *E.23. Authorize up to 0.07 Percent of Issued Capital for Use in Restricted Stock Plans Re: Westfield Shares*

It is proposed to authorise the Management Board to grant Performance Shares as part of the acquisition and integration of Westfield in respect of Company shares and/or Stapled Shares to the benefit of employees and corporate officers of the Company and/or its subsidiaries.

The proposal to authorise for 12 months the Board to allot shares free of charge to employees and executives. This delegation may be implemented for a number of shares that may not exceed 0.07% of the fully diluted capital. Shares issued under this authorization will not enjoy pre-emptive rights and will be attributed free of charge to management or employees. The Board would maintain full discretion over the beneficiaries. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

#### *O.24. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

#### *O.25. Approve Remuneration Policy for Chairman of the Management Board*

It is proposed to approve the remuneration policy for the Chairman of the Management Board with a binding vote. Variable remuneration appears to be consistently capped, although the potential payout may become excessive (300% of salary). The Company has disclosed most of the targets in a quantified manner (except those of the qualitative component of short term incentives). Although this is above market practice, there remain lack of full disclosure of quantified targets and potential excessive variable remuneration. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On balance, opposition is recommended.

*Vote Cast: Oppose*

#### *O.26. Approve Remuneration Policy for Management Board Members*

It is proposed to approve the remuneration policy for Management Board Members with a binding vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. The Company has disclosed most of the targets in a quantified manner (except those of the qualitative component of short term

incentives). Although this is above market practice, support may not be granted where there remains lack of full disclosure of quantified targets. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On balance, opposition is recommended.

## KANSAS CITY SOUTHERN AGM - 17-05-2018

### 1.12. *Elect Director Rodney E. Slater*

Non-Executive Director. Not considered independent due to tenure. There is sufficient independent representation on the Board. However, as there are concerns over the director's potential aggregate time commitments, an abstain vote is recommended.

Vote Cast: *Abstain*

Results: For: 98.4, Abstain: 0.3, Oppose/Withhold: 1.3,

### 2. *Appoint the Auditors*

KPMG proposed. Non-audit fees represented 2.22% of audit fees during the year under review and 1.14% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 98.9, Abstain: 0.1, Oppose/Withhold: 1.0,

### 3. *Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: ACC. Based on this rating, it is recommended to abstain.

Vote Cast: *Abstain*

Results: For: 93.9, Abstain: 0.4, Oppose/Withhold: 5.7,

### 4. *Shareholder Resolution: Written Consent*

**Proposed by:** Mr. James McRitchie and Ms. Myra K. Young

The Proponent requests that our board of directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** Taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. This is important because there could be 15-months between annual meetings. The company requires 25% of shareholders to aggregate their shares to call a special meeting. This is much higher than the 10% of shareholders permitted by other companies. This proposal topic won majority shareholder support at 13 major companies in a single year. This included 67%-support at both Allstate and Sprint.

**Board's Opposing Argument:** The Board believes that stockholder action by written consent is not necessary in light of stockholders' existing ability to call a special meeting. The Board believes that a special meeting is a more appropriate method than action by written consent for stockholders to take action between regular annual meetings; as a special meeting ensures that all stockholders receive notice; adequate time to review proposals and a forum for expressing their views. By contrast; stockholder action by written consent may not result in all stockholders receiving notice of a proposed action and does not permit a variety of views on a proposal to be exchanged. Action by written consent can also create confusion and disruption; as stockholder groups may solicit multiple written consents simultaneously; some of which may be duplicative or contradictory. The Board believes that matters of sufficient importance to warrant action between annual stockholder meetings should not be decided without notification to all stockholders and an opportunity for all stockholders to be heard and to vote at a meeting.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result; up to 49% of the Company's shareholders could be prevented from voting; or even receiving accurate and complete information; on important pending actions. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

## VERTEX PHARMACEUTICALS INCORPORATED AGM - 17-05-2018

### 3. *Amend Existing Long Term Incentive Plan*

It is proposed to amend the 2013 Stock and Option Plan. On April 2, 2018, the Board of directors amended and restated the 2013 Plan, subject to shareholder approval, to, among other things, increase the number of shares of common stock authorised for issuance under the 2013 Plan by 8.0 million shares. The 2013 Plan is administered by the Board of directors or any committee to which it delegates all or a part of its administrative responsibilities under the 2013 Plan. The Board has delegated the administration of the 2013 Plan to the MDCC. Subject to the provisions of the 2013 Plan, the board, or an authorised committee of the Board, determines the persons to whom awards under the 2013 Plan will be granted, the number of shares to be covered by each award, the exercise price per share and the manner of exercise, the terms and conditions upon which awards are granted, whether to accelerate the vesting or extend the date of exercise of any installment of any award and how to interpret the provisions of the 2013 Plan. Awards may be granted under the 2013 Plan to employees, including officers and directors who are employees, and to consultants, advisors and non-employee directors.

It is considered that, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, it is recommend to oppose the resolution.

Vote Cast: *Oppose*

Results: For: 96.7, Abstain: 0.1, Oppose/Withhold: 3.2,

### 4. *Ratify Ernst & Young LLP as Auditors*

EY proposed. Non-audit fees represented 26.01% of audit fees during the year under review and 32.23% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

### 1.2. *Elect Director Jeffrey M. Leiden*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

Vote Cast: *Oppose*

#### 4. *Amend Existing Long Term Incentive Plan*

The Board is proposing the amendment to the Amended and Restated 2010 Equity and Long-Term Compensation Plan. The amendment shall increase the number of shares reserved under the plan by 23 million from 77 million to 90 million. The Board is also seeking to amend the award vesting limitation so that grants made under the plan shall vest no earlier than the first anniversary of the grant date, notwithstanding the grants that result in the issuance of an aggregate of up to 5% of the shares available may be granted to any participant without respect to such minimum vesting provisions. Other amendments to the plan are administrative in nature. It is considered that, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, shareholders are recommended to oppose the resolution.

**AEGON NV AGM - 18-05-2018****4.1. Approve Discharge of Management Board**

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organization, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

**6. Issue Shares for Cash**

Authority to issue shares without pre-emptive rights is proposed for up to 30% of the share capital and the duration of the authority would be for 5 years starting from the AGM at 18-May-2018. It is considered that share issuance without pre-emptive rights should be limited to 10% of the issued share capital and shareholders should have the occasion to vote on such resolutions annually. Opposition is recommended.

Vote Cast: *Oppose*

Results: For: 93.7, Abstain: 0.0, Oppose/Withhold: 6.3,

**7.4. Authorise Share Repurchase**

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

## HIKMA PHARMACEUTICALS PLC AGM - 18-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.8, Abstain: 0.1, Oppose/Withhold: 0.0,

### 3. *Appoint the Auditors*

PwC proposed. No non-audit fees were paid during the year under review, and on a three-year aggregate basis non-audit fees represented 56.67% of audit fees. This level of non-audit fees raises major concerns about the independence of the statutory auditor.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.0, Oppose/Withhold: 0.3,

### 6. *Re-elect Said Darwazah*

Executive Chairman. Not independent upon appointment, as he was the former Chief Executive until February 2018. It is a generally accepted norm of good practice that the Chairman of the Board should act with a proper degree of independence from the Company's management team when exercising his or her oversight of the functioning of the Board. Holding an executive position is incompatible with this.

The Company has answered 'No' to the CDP's question on whether it supports an international agreement on climate change.

Vote Cast: *Oppose*

Results: For: 96.8, Abstain: 0.0, Oppose/Withhold: 3.2,

### 11. *Re-elect Dr. Jochen Gann*

Non-Executive Director. Not considered independent as he is a senior executive of Boehringer Ingelheim GmbH. Boehringer Ingelheim holds 16.6% of the Company's share capital. There is sufficient independent representation on the Board, however, he missed two out of eight Board meetings with no adequate justification provided. An oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 99.2, Abstain: 0.0, Oppose/Withhold: 0.8,

### 13. *Re-elect Dr. Pamela Kirby*

Independent Non-Executive Director. However, she missed one out of eight Board meetings, and one out of six Audit Committee meetings with no adequate justification provided. It is also noted that at last year's AGM both the remuneration policy and the extension of the Executive Incentive Plan received significant opposition from shareholders (13.46% and 13.88% opposition respectively). There is no mention of any shareholder engagement with regard to the high level of opposition, nor is there any mention of measures taken to address shareholder concerns. As Chair of the Remuneration Committee, Dr Kirby harbours the responsibility to address such issues. In light of the concerns raised, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 96.7, Abstain: 0.0, Oppose/Withhold: 3.3,

#### 14. *Re-elect Nina Henderson*

Independent Non-Executive Director. However, she missed one out of six Audit Committee meetings and one out of six Remuneration Committee meetings, with no adequate justification provided. An oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 98.0, Abstain: 0.0, Oppose/Withhold: 2.0,

#### 15. *Approve the Remuneration Report*

Overall disclosure is acceptable. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. Total variable pay for the year under review was acceptable at 161% of salary for the CEO. However, the change in the CEO's salary is not in line with the rest of the Company, as the CEO's salary rose by 3%, while the average employee salary did not rise. The ratio of CEO pay compared to average employee pay is not acceptable at 36:1.

Rating: AC.

As the Executive Chairman's bonus exceeded his salary, it is recommended that West Midlands oppose.

Vote Cast: *Oppose*

Results: For: 86.3, Abstain: 0.1, Oppose/Withhold: 13.6,

#### 16. *Approve the 2018 Management Incentive Plan (MIP)*

The MIP enables the Remuneration Committee to grant share awards in the form of Conditional Share Awards or Nil Cost Options to members of senior management below the executive level. Executives participating in the 2014 Executive Incentive Plan are not eligible to participate in the MIP. The MIP Awards vest two years after the date of award remaining in employment with the Group during this period. Once MIP Awards have been made, the continued employment requirement is the only condition for vesting.

There are some concerns regarding the MIP. Firstly, this plan does not have a strong participation rate, as not all employees can participate on an equal basis. There is no disclosure of maximum opportunity for awards, nor is there any disclosure of performance conditions and targets. Lastly, dividend equivalents may be paid, which are not in line with best practice. In light of the concerns raised, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 99.4, Abstain: 0.0, Oppose/Withhold: 0.6,

#### 19. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

Vote Cast: *Oppose*

## *8. Approve the Computacenter Performance Share Plan 2005 (the 'PSP')*

Shareholders are asked to approve the Computacenter Performance Share Plan 2005 (the 'PSP') which was extended in 2015 for a further 10 years. The Company states that free share award plans which comply with the provisions of the French Commercial Code could benefit from a favourable tax treatment due to a recent change in French law. These awards may be granted within 76 months of shareholders approving the French Sub-Plan and shall only be settled in shares. The awards cannot vest and cannot be transferred to the employee before the end of a minimum of one year and no dividend can be paid to the employee before vesting, including in the form of a dividend equivalent. Where shares are delivered to an employee before the end of a two-year period, shares cannot be sold until the second anniversary of the award date. Once delivered, the shares cannot be cancelled or rescinded and an employee cannot be forced to return the shares. Clawback provisions do not apply.

#### 3. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total remuneration table are disclosed as is the performance criteria and specific targets attached to PSP awards. However, certain targets relating the the annual bonus are deemed to be commercially sensitive and are therefore not disclosed. Also, it is noted that figures under the cash in lieu of pension are in fact in respect of housing, utilities and transport. These benefits should be classified under the taxable benefits.

**Balance:** The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over the last five years is not aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 0.91% whereas, on average, TSR has decreased by 13.36%. Furthermore, the CEO's salary is in the upper quintile of a comparator group which raises concerns over excessiveness. Also, the ratio of CEO pay compared to the average employee has been estimated and found to be unacceptable at 25:1. However, the total realised variable pay for the year under review is not considered excessive at 120.83% of salary.

**WESTLAKE CHEMICAL CORPORATION AGM - 18-05-2018****2. Appoint the Auditors**

PwC proposed. Non-audit fees represented 23.87% of audit fees during the year under review and 12.55% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

#### 9E. Approve Stock Option Plan

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives will be allotted stock options, each of which will give right to one share. Performance criteria are not quantified, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure. LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

#### 9F. Approve new long term incentive scheme

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives will be awarded options to shares, which will start vesting after three years from the date of award. At this time, it seems that this plan will not be based on any performance criteria but only on the beneficiaries continued employment. As a result, they may receive bonuses unrelated to their performance or even the performance of the Company as a whole, which is considered a serious frustration of shareholder accountability.

It is proposed to approve the remuneration paid or due to Xavier Martire, Chairman of the Management Board with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

*E.24. Authorize Issuance of Equity or Equity-Linked Securities without Preemptive Rights up to Aggregate Nominal Amount of EUR 22 Million or for Future Exchange Offers*

Proposed authority to issue up to 10% of the share capital to be used in exchanges in times of public offer initiated by the Company. At this time, the Company has not disclosed specific plans to future exchange offers. As the proposed authority exceeds guidelines, and in absence of specific reasons, opposition is recommended.

*E.25. Approve Issuance of Equity or Equity-Linked Securities for up to 10 Percent of Issued Capital Per Year for Private Placements*

The Board requests authority to approve a global authority for the issue of capital related securities without per-emptive rights by private placement. The authorization is valid up to 10% of the issued share capital over a period of 12 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

Vote Cast: *Oppose*

*E.26. Approve Issue of Shares Deviating from Price Fixing Conditions*

The Board requests authority to issue capital related securities without adhering to the general pricing conditions. Under this authority, the company would be authorized to issues shares at a discount of 10% up to a total of 10% of the issued share capital over a period of 12 months. Given concerns over the level of discount and the amount of the authority, opposition is recommended.

Vote Cast: *Oppose*

*E.27. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

Vote Cast: *Oppose*

*E.29. Authorize Capital Issuance for Use in Employee Stock Purchase Plans*

Authority for a capital increase for more than 2% of the share capital for employees participating to saving plans. The maximum discount applied will be 20% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the amount of the authorisation exceeds guidelines 2%. Opposition is therefore recommended.

**3. Approve the Remuneration Report**

**Disclosure:** All elements of each director's cash remuneration and pension contribution are disclosed as are the Performance conditions and targets for the LTIP and Annual bonus. Also, dividend accrual is separately categorised which is welcome. However, there are concern that the Company has not disclosed what constitutes a "good leaver" which is inappropriate particularly due to the departure of CEO Breon Corcoran.

**Balance:** The CEO's salary is considered in the median of a peer comparator group. Also, the balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has decreased by 9.87% whereas, on average, TSR has increased by 17.36%. However, Total realised awards made under incentive schemes during the year under review are considered excessive at 332% (Annual Bonus:108.2% and LTIP: 223.87%). Furthermore, The ratio of CEO pay compared to average employee pay has been estimated and found to be inappropriate at 39:1.

Loss of office payments made to Breon Corcoran are not considered appropriate. Breon Corcoran will be paid his salary, benefits and cash in lieu of pension for the period from 8 January to 10 August 2018, on a monthly basis. No payment in lieu of notice will be paid after he ceases employment with the Group. Breon Corcoran will receive an annual bonus of 108% of salary in relation to 2017, based on performance against the relevant targets for 2017 but will not receive a bonus for 2018. One-third of this annual bonus will be deferred as shares. All of these conditions, under "good leaver" status, are considered acceptable. However, there are concerns as to whether Breon Corcoran qualifies as a such. The Company discloses a table detailing the treatment of awards in specific circumstances, however, the usefulness of this table is very limited considering that the committee hold absolute discretion over loss of office payments. It does not appear that Breon Corcoran stepping down was by mutual consent rather Mr Corcoran deciding to leave of his own accord. It therefore seems inappropriate that the remuneration committee is allowing awards made under the DSIP and LTIP to become exercisable, particularly considering the effect the announcement of Breon Corcoran's departure had on the share price of the Company which decreased by as much as 8 percent as a result. Such practice is not considered appropriate or in shareholders' interests, a key purpose of long-term incentive pay is to deter executives from leaving and to rewarded continued loyalty and contribution to long-term performance.

The recruitment awards made to Peter Jackson are also considered inappropriate. Mr Jackson was granted a restricted share award in the Company's shares equivalent to 100% of his salary as to replace an award he forfeited upon leaving his previous role. This grant was not subject to any performance conditions.

Rating: BD

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

**4. Approve Remuneration Policy**

**Policy Changes** Overall the changes are acceptable. Maximum pension contribution reduced from 20% of total salary to 15% of total salary. A two-year post-vest holding period will apply to all future awards made under the LTIP (introduced for the 2017 LTIP). The Chief Executive Officer is required to build up and maintain a minimum holding equivalent to 300% of total salary (this requirement was introduced in 2017)

**Disclosure:** Policy disclosure with regards to Directors' salaries and fees is considered adequate. Pension contributions and entitlements are provided.

**Balance:** Bonus awards are paid to the Executive Directors, partly in cash and partly in shares which is within guidelines. However, only a third of the awards are deferred which is not considered adequate. Also, awards under the LTIP are subject to performance conditions which do not work interdependently of each other and can vest regardless of the performance in respect to other elements which is considered to be inappropriate. Furthermore, the three-year performance period is not considered sufficiently long term although a two year holding period has been introduced. There are acceptable levels of shareholding requirements in place. However, total variable awards that can be made to the Executive Directors under the LTIP plan is 300%, which exceeds the recommended limit of 200% of base salary.

**Contracts:** On recruitment, new appointees may be granted awards under the LTIP up to 400% of total salary in the case of critical recruitment, "critical" is not explained and the potential award of 400% is considered highly excessive. On termination, Executives Directors may also be entitled to a pro rata bonus for the year in which termination occurs at the discretion of the Company's Remuneration Committee, although this would only reflect a payment for the portion of the year worked. The payment in lieu of notice can be paid, at the employer's discretion, as a lump sum or in monthly instalments over the notice period. There is a mechanism to reduce the payment in lieu of notice if executives commence alternative employment while any instalments remain payable from which he receives an annual salary of at least £50,000 which is acceptable.

## INVOCARE LTD AGM - 18-05-2018

### 1. *Approve the Remuneration Report*

In accordance with Section 250R of the Australian Corporations Act, the directors are seeking approval of the remuneration report. The Act does not require directors to act on approval of the resolution and the vote is advisory.

The maximum potential award for the CEO under all incentive schemes is not considered excessive as it is below 200% of his salary. Variable remuneration of the CEO for the year under review is approximately 136% of base salary. There are concerns over the performance period of four years, which is not considered sufficiently long term. Furthermore, the use of remuneration consultants to determine payouts and performance targets is not considered to be acceptable. On balance, opposition is recommended.

Vote Cast: *Oppose*

### 4. *Approve Equity Grant to Executive Director*

The Board is seeking shareholder approval for the purposes of ASX Listing Rule 10.14 for the grant of performance shares and options to Martin Earp, the Chief Executive And Managing Director, under the Company's Long-term Incentive Plan. Earp is entitled to the grant of securities under the PLTIP equal to 85.0% (being AUD 756,092) of his Total Fixed Remuneration which is AUD 889,520, including salary, superannuation and car. The 2018 grant is made up of 75% Options (total value

AUD 567,069) and 25% Performance Rights (total value AUD 189,023).

The Options and Performance Rights will vest subject to satisfying of the following vesting conditions: Return on Invested Capital (ROIC) must exceed the weighted a minimum compound per annum Normalised Earnings Per Share (EPS) growth rate of 8%, which will result in 30% vesting, then increasing on a pro-rata basis to 100% vesting at EPS compound annual growth of 12% or more; and Mr Earp not having engaged in serious and wilful misconduct, wilful disobedience, gross negligence or incompetence, disqualification under Corporations Law or serious breaches of contract of employment (Proscribed Conduct) at the date of vesting. The vesting period will be 4 years from February 2018 until February 2022. There are clawback and malus provisions. There are no excessiveness concerns with the grant, the performance targets are adequately disclosed and there are clawback and malus provisions. However, the vesting period of four years is not considered to be sufficient. Therefore, abstention is recommended.

#### *5. Approve Potential Termination Benefits*

It is proposed to approve for the purposes of sections 200B and 200E of the Australian Corporations Act 2001 the termination benefits given of the InvoCare Group's Key Management Personnel (KMP) who hold, or held in the last three years prior to cessation of employment a managerial or executive office, as defined in the Act, in the Company or a related body corporate.

The terms include discretion not to apply time pro-rating for awards subject to a performance conditions where the executive leaves on or after the third anniversary of grant which is not considered appropriate. Also it is noted that the Committee has discretion to vary the vesting date and/or the number of awards that vest. As such, an oppose vote is recommended.

Authorize the Board to issue anti-takeover warrants up to EUR 225 million, corresponding to 9.2 % of the issued share capital over a period of 26 months.

This authority is considered to be counter to the best interests of shareholders. The poison pill enables management to offer warrants to shareholders during a period of public offer thus implying a threat of dilution to potential acquirers of the company. While this may cause potential acquirers to negotiate with the Board, it may also potentially prevent hostile takeovers and entrench management. Opposition is recommended.

#### *O.6. Approval of the Agreement Concerning the Potential Forward Repurchase From the Government of a Number of Shares Up to 11,111,111 Shares, Depending on the Number of Shares Acquired by the Employees in the Context of the Employee Shareholding Operation Link 2018*

It is proposed to approved the future purchase from the French State of up to 11,111,111 shares, depending on the number of shares acquired by the employees under the Link 2018 employee shareholding plan. Such transactions are considered on the basis of whether the transaction has been adequately explained and whether there is sufficient independent oversight of the recommended transaction. The circular does contains full details of the transaction, but there is insufficient balance of independence on the Board to grant an independent oversight. Opposition is recommended.

#### *E.19. Authorize Issuance of Equity or Equity-Linked Securities without Preemptive Rights up to Aggregate Nominal Amount of EUR 225 Million, Only in the Event of a Public Tender Offer or Share Exchange Offer*

Authorize the Board to issue anti-takeover warrants corresponding to 9.2% of the issued share capital over a period of 26months.

This authority is considered to be counter to the best interests of shareholders. The poison pill enables management to offer warrants to shareholders during a period of public offer thus implying a threat of dilution to potential acquirers of the company. While this may cause potential acquirers to negotiate with the Board, it may also potentially prevent hostile takeovers and entrench management. Opposition is recommended.

#### *E.20. Approve Adoption of Anti-takeover Measure (poison pill)*

Proposal to use the authorities sought under resolutions 13-19, 21 and 22 in time of public offer. This authority is considered to be counter to the best interests of shareholders. The poison pill enables management to offer warrants to shareholders during a period of public offer thus implying a threat of dilution to potential acquirers of the company. While this may cause potential acquirers to negotiate with the Board, it may also potentially prevent hostile takeovers and entrench management. Opposition is recommended.

### *E21. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand for resolutions 18-20*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

### *E.22. Approve Issue of Shares for Contribution in Kind*

The Board requests authority to issue shares and capital securities in consideration for contributions in kind up to 10% of the issued share capital over a period of 26 months. The proposal is within legal limits but can be used in time of public offer. Opposition is recommended.

Vote Cast: *Oppose*

### *E.29. Authorize up to 0.75 Percent of Issued Capital for Use in Restricted Stock Plans Reserved for Some Employees and Corporate Officers*

The company requests general approval to issue up to stock options, corresponding to 0.75 % of the issued share capital, to employees and management over a period of 38 months.

The level of dilution under this and all plans authorized by the company meet guidelines. However the the criteria for awarding shares to employees and corporate officers have not been outlined. Opposition is recommended.

#### *5. Appoint the Auditors and Allow the Board to Determine their Remuneration*

Deloitte proposed. Non-audit fees represented 3.53% of audit fees during the year under review and 4.05% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

#### *7. Approve General Share Issue Mandate*

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

Vote Cast: *Oppose*

#### *8. Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 6 those shares repurchased under the authority granted by proposal 7. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

Vote Cast: *Oppose*

#### *9. Approve Grant of Shares Under the Company's Share Scheme*

It is proposed to issue shares under the Company's Share Scheme which shall not exceed 2% of the total share capital. The Company does not describe individual maximum limits in absolute monetary value. There is no evidence other performance conditions are attached to the awards. The performance period has not been determined and there is no evidence a retention period is used. A clawback policy does not exist. Provisions in the event of termination of employment are not fully provided. Therefore, opposition is recommended.

### **KERRY PROPERTIES LTD AGM - 18-05-2018**

#### *3.A. Elect Wong Siu Kong*

Executive Chairman. It is a generally accepted norm of good practice that the Chairman of the Board should act with a proper degree of independence from the Company's management team when exercising his or her oversight of the functioning of the Board. Holding an executive position is incompatible with this and a vote to oppose is recommended.

Vote Cast: *Oppose*

#### *3.B. Elect Kuok Khoon Hua*

Non-Executive Director. Not considered to be independent as he is the brother in law of Mr Bryan Pallop Gaw who sits on the Board as an Executive Director. He

is also Chairman and Kerry Holdings Limited and a Director of Kerry Group Limited, both controlling shareholders of the Company. There is insufficient independent representation on the Board. An oppose vote is recommended.

### 4. *Appoint the Auditors and Allow the Board to Determine their Remuneration*

BDO proposed. Non-audit fees represented 12.38% of audit fees during the year under review and 7.80% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. This level of tenure would usually trigger an abstain vote recommendation. As there is no such option for the market in Hong Kong, an oppose vote is recommended.

Vote Cast: *Oppose*

### 5. *Approve General Share Issue Mandate*

## **ASTRAZENECA PLC AGM - 18-05-2018**

### **6. Approve the Remuneration Report**

Overall disclosure is satisfactory. However, one point of concern is that bonus targets for the year under review are not fully disclosed; this lack of disclosure is contrary to best practice. The change in the CEO's salary is in line with the rest of the Company as the CEO's salary rose by 2.5% while the average percentage change for the Company's chosen group of employees is an increase of 4.1%. It is noted that the chosen group comprises employees in the UK, US and Sweden. However, a more comprehensive comparator group that takes into account employees across the whole Company would be more appropriate and would provide a more accurate representation of the change in employee salaries. The balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over five years is not commensurate with the change in TSR over the same period. PSP awards granted during the year under review are excessive, amounting to 500% of salary for the CEO. In addition, total variable pay for the year under review was excessive, amounting to 626% of salary for the CEO. The ratio of CEO pay compared to average employee pay is not acceptable at 53:1.

Rating: BE.

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

### **7. Approve Political Donations**

Proposal to make political donations to political parties and/or independent election candidates, political organisations other than political parties, and to incur political expenditure up to USD 250,000 in total. The authority expires at the next AGM, however, it exceeds recommended limits. It is noted the Company does not have a policy of making donations to political parties and the Board has no intention of changing this policy. In spite of this policy, during the year under review, contributions, amounting to \$1,282,250, were made by the Group's US legal entities and were donated to national political organisations, state-level political party committees and to campaign committees of various state candidates. No specific information was provided regarding the nature of these donations. An oppose vote is recommended.

### **10. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment**

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### **13. Adopt New Articles of Association**

Authority is sought to adopt new Articles of Association. The principal changes are summarised below.

(i) The New Articles permit the Company to hold "hybrid" general meetings where shareholders have the option to attend and participate either in person (in a main

location or in specified satellite locations) or virtually by electronic means. (ii) The New Articles amend the provisions of the Current Articles relating to shareholders who are considered untraced after a period of twelve years to give the Company more flexibility. They replace the requirement to place notices in newspapers with a requirement for the Company to take reasonable steps to trace the shareholder (including, for example, engaging an asset reunification company or other tracing agent) and let the shareholder know that the Company intends to sell their shares. (iii) The New Articles remove the requirement for a Director to hold, within two months of the date of the Director's appointment, ordinary shares of the Company of an aggregate nominal amount of US\$125, which currently represents 500 ordinary shares. (iv) The New Articles widen the power of the chairman of the general meeting to adjourn a general meeting without the consent of the meeting where the chairman is of the opinion that the adjournment would facilitate the conduct of the business of the meeting. (v) The New Articles simplify the voting and quorum requirements applicable to committees to whom the Directors have delegated their powers, to streamline the operations of these committees. (vi) The provisions in the Current Articles authorising the Directors to exercise their power to allot new shares in the capital of the Company and to allot shares of the Company and to sell treasury shares for cash as if the pre-emption provisions of section 561 of the Act do not apply have been removed in the New Articles because the Directors, in line with investor guidance, have sought and intend to continue to seek these authorities from shareholders annually at the Annual General Meeting. The majority of the changes do not raise any serious governance concerns. However, the increase in the Chairman's power with regard to the adjournment of a general meeting without the consent of the meeting is placing excessive power in the hands of the Chairman. In the interest of safeguarding shareholder interests, an oppose vote is recommended.

*2. Approve the Remuneration Report*

**Disclosure:** Accrued dividends are not separately disclosed.

**Balance:** The CEO's variable pay, when compared with his salary, is considered excessive as it represents more than 200% of his salary. The CEO's reward under the deferred bonus schemes is equivalent to 295% of his salary. The ratio of CEO to average employee pay has been estimated and is found unacceptable at 409:1. A 17.8% increase in the CEO's salary is not considered in line with an 11.2 % increase for all employees. The Company attributes this to share price increase given the deferred share salary. The CEO's salary is considered in the median range of a peer comparator group.

Rating: AD.

Vote Cast: *Oppose*

Results: For: 86.5, Abstain: 12.8, Oppose/Withhold: 0.7,

### 3. *Approve Remuneration Policy*

**Policy changes:** It is disappointing to note that the Company under the new policy is introducing an LTIP. The fact that the Company did not operate any LTIP or cash bonus, with deferred share compensation being the dominant component of the overall remuneration structure for Executives, was seen as a positive. The maximum amount of deferred share salary and the annual bonus will be also fixed by reference to a cash amount rather than number of shares. The maximum amounts of annual cash salaries to be paid to CEO and CFO are determined to be US\$ 453,994 and US\$ 227,004 respectively. The new remuneration scheme takes effect from 1 January 2019.

**Disclosure:** Overall policy disclosure is acceptable.

**Balance:** Total potential awards are considered excessive, being over 200% of salary. Current maximum for the CEO is 296% of salary (Annual Bonus: 135%, LTIP: 161%). However, it should be noted that this is expressed as a percentage of both the cash salary and the deferred share salary. The CEO is entitled to a cash salary of \$453,994 and a salary given in the form of shares of \$510,000, making a total salary of \$963, 994. The Company has introduced an LTIP. LTIP based schemes are inherently flawed. There is a risk that they are rewarding volatility rather than the performance of the company. They can act as a complex and opaque hedge against absolute company under-performance and long term share price falls. They are also a significant factor in reward for failure.

**Contracts:** There are concerns over the level of discretion that may be exercised by the Remuneration Committee as for both 'bad leavers' and 'good leavers', the Committee has discretion to allow the executive to partially or fully retain bonus shares and/or LTIP awards. The treatment of deferred share awards upon change of control is not disclosed. No mitigation statement is made.

Rating: BDC.

Based on this rating it is recommended that Central oppose.

### 4. *Approve the TBC Bank Group PLC Long Term Incentive Plan*

Shareholders are being asked to approve the TBC Bank Group PLC Long Term Incentive Plan. Awards are initially intended to be in the form of conditional share awards, which are conditional rights to receive shares in the Company, but the LTIP also permits the grant of options and restricted share awards.

Certain features of the plan do not meet best practice. For instance, the individual award limit is 200% of salary normally and 250% of salary exceptionally. This limit is considered excessive given the existence of an annual bonus. Furthermore, the use of exceptional limits is not considered appropriate. The performance period is three years, which is not considered sufficiently long-term however a two year holding period is in use. There is discretion to provide dividend equivalents. Such rewards misalign shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not. Furthermore LTIP based schemes are inherently flawed. There is a risk that they are rewarding volatility rather than the performance of the company. They can act as a complex and opaque hedge against absolute company under-performance and long term share price falls. They are also a significant factor in reward for failure. An oppose vote is recommended.

Incumbent Chairman. Independent on appointment. Mr Svanberg is Chairman of the Board of Volvo AB, a significant listed Company (Eurofirst 100). It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one major listed company. This raises concerns about his external time commitments, as the Chairman should be expected to commit a substantial proportion of his time to the role.

#### **DINO POLSKA SA AGM - 21-05-2018**

##### *11. Adopt resolutions to grant a discharge to the Company's Management Board members on the performance of their duties in the financial year 2017*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

Vote Cast: *Abstain*

##### *12. Adopt resolutions to grant a discharge to the Company's Supervisory Board members on the performance of their duties in the financial year 2017*

##### *13. Elect Supervisory Board members and adopt resolutions to appoint Supervisory Board members for the next term of office*

It is proposed to approve the changes to the Supervisory Board. Shareholders can propose candidates at the meeting. No names of candidates have been disclosed at this time. It is therefore not possible to predict whether there will be any candidates and, if that is the case, make a proper assessment of the independence of the Supervisory Board after the meeting. Abstention is recommended.

#### **KINNEVIK AB AGM - 21-05-2018**

##### *15.C. Reelect Erik Mitteregger as Director*

Non-Executive Director. Not considered to be independent owing to a tenure of more than nine years. There is sufficient independent representation on the Board. However, as there are concerns over the director's potential aggregate time commitments, an abstain vote is recommended.

Vote Cast: *Abstain*

##### *15.G. Elect Charlotte Stromberg as New Director*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

Vote Cast: *Abstain*

*17. Authorize Representatives of at Least Three of Company's Largest Shareholders to Serve on Nominating Committee*

The Board is proposing that shareholders resolve to adopt the following guidelines for the appointment of a nominating committee: The Nomination Committee will consist of at least three members appointed by the largest shareholders of the company who have wished to appoint a member. Cristina Stenbeck (major shareholder, board member and chair of the Committee) will be a member of the Committee and will also act as its convener. The proposed guidelines for the election of the Nomination Committee do not meet the recommendations from the Corporate Governance Code. Opposition is recommended.

Vote Cast: *Oppose*

*18. Approve Remuneration Policy And Other Terms of Employment For Executive Management*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

*19. Approve Issuance of Shares to Participants of LTI 2018*

It is proposed to issue shares Class D,E,F and G to the participants of the LTI plan 2018. The number of shares should not exceed 709,500 shares or 0.25% of the share capital. Although the percentage of the share capital is within guidelines the LTI awards could lead to under-performance and over payment. On aggregate opposition is recommended.

Vote Cast: *Oppose*

*21. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

**TELE2 AB AGM - 21-05-2018**

*20A. Approve Restricted Stock Plan LTI 2018*

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives are required to hold Tele2 shares; the personal investment will thereafter be matched by the company through free of charge granting of retention and performance rights. Performance targets are quantified, which is welcomed, although the performance period is of three years, which is considered to be short term. In addition, while executive shareholding is considered a good practice, share matching de facto grants shares with a discount that may result in excessive compensation.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful

- dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

#### *17. Ratify Deloitte as Auditors*

Deloitte proposed. Non-audit fees represented 100.00% of audit fees during the year under review and 61.54% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

#### *18. Authorise Representatives of at Least Three of Company's Largest Shareholders to Serve on Nominating Committee*

The Nomination Committee will consist of at least three members appointed by the largest shareholders of the company who have wished to appoint a member. The Chairman of the Board will also be a member of the Committee, and will act as its convenor. The members of the Committee will appoint the Committee's Chairman at their first meeting. As it is not explicitly stated that the Chairman of the Board may not be the Chair of the Committee, the current guidelines may result in a composition of the Committee not in line with local corporate governance recommendations.

Vote Cast: *Oppose*

#### *19. Approve Remuneration Policy And Other Terms of Employment For Executive Management*

It is proposed to approve the remuneration policy with a binding vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not fully disclosed quantified targets for its variable remuneration component, which may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

#### *20.B. Approve Additional Allocation under LTI 2018 upon the Completion of the Merger with Com Hem*

Tele2 and Com Hem have agreed on a combination of Tele2 and Com Hem through a statutory merger in accordance with the Swedish Companies Act (the "Merger"). Subject to the Tele2 shareholders' approval at the Extraordinary General Meeting, which is intended to be held later this year, the Merger will be implemented by Tele2 absorbing Com Hem. If approved, the Merger is expected to close during the second half of 2018. Provided that the Merger is effectuated, the Board proposes that the Annual General Meeting resolves that, upon the completion of the Merger, there will be an additional allocation under LTI 2018 according to the same principles as set out under as item 20(a), to approximately 40 participants joining Tele2 from Com Hem, provided that such additional allocation is made before 31 December 2018. If the Merger is effectuated, Altice B, Swisscom, Telecom Italia, Modern Times Group MTG and Telenet Group Holding will be added to the TSR peer group.

It is considered reasonable that incentives are extended to new business segments that are progressively incorporated into the Company. However, as the conditions are substantially unmodified, from the LTI 2018, opposition is recommended.

Vote Cast: *Oppose*

#### *20.D. Authorise Class C Share Repurchase for Funding of LTIP*

The Board requests authority to repurchase and re-issue the shares to participants in the long term incentive plan proposed at the present meeting. Although companies have a legal duty to fund approved plans, this resolution is considered to be a proposal enabling the LTIP proposed. Based on the concerns on the resolution for the approval of the LTIP, opposition is also recommended on this resolution.

Vote Cast: *Oppose*

#### *20.C. Transfer of Treasury Shares within the LTIP*

The Board requests authority to repurchase and re-issue the shares to participants in the long term incentive plan proposed at the present meeting. Although companies have a legal duty to fund approved plans, this resolution is considered to be a proposal enabling the LTIP proposed. Based on the concerns on the resolution for the approval of the LTIP, opposition is recommended also on this resolution.

Vote Cast: *Oppose*

#### *21. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

#### *20F. Issue Class B Shares for Cash*

It is proposed to authorize the Board to issue shares without pre-emptive rights until next AGM. There is no given percentage of share capital that the authority extends to. The resolution states "The number of Class B shares to be sold may not exceed the number of Class B shares that the company holds at the point in time of the Board's resolution". The proposed amount of shares issued is less than 10% of the current share capital as of the 2017 Annual report, however the board has outstanding authorisation for the purchase and reclassification of more shares before the AGM. As the exact percentage can not be calculated, opposition is recommended.

Vote Cast: *Oppose*

#### *20E. Approve Transfer of Class B Shares to Participants under LTI 2018*

This is considered a technical resolution for the implementation of the LTIP proposed under a previous resolution, and companies have a legal duty to fund approved plans. However, as the LTIP has been proposed at this meeting, opposition is recommended based on the concerns on the proposed LTIP.

Vote Cast: *Oppose*

## **OMV AG AGM - 22-05-2018**

### *6. Appoint the Auditors*

EY proposed. Non-audit fees represented 8.47% of audit fees during the year under review and 7.25% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

### *7.1. Approve Long Term Incentive Plan 2018 for Key Employees*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. Performance targets have been quantified at this time (the structure appears simpler than in the past, with relative TSR and free cash flow in equal weightings). The Company has introduced a Health, Safety, Security or Environmental (HSSE) malus, which may be applied for Executive Board members and is considered a positive measure in a sector where HSSE-related factors can have a heavy impact on the performance. The HSSE malus is applied to the overall target achievement as follows. In situations where a severe health, safety and security or environmental breach has occurred, the Supervisory Board can reexamine the level of the LTI payout and, depending on the extent of the infraction, reduce it at its reasonable discretion, if necessary to zero.

However, there are some concerns with the vesting levels: namely, 100% of the awards will vest for executives, if the Company's relative TSR (against a disclosed peer group) performs at median level. This pay-out is not considered to be sufficiently challenging, as executives would be rewarded for median performance. The Senior Manager LTIP foresees a cap of 112.5% of annual base salary. In addition, the vesting period is not considered to be sufficiently long term. On balance, opposition is recommended.

### 4. *Amend Existing Omnibus Plan*

It is proposed to approve the amendment and restatement of our Amended and Restated 2011 Stock Incentive Plan. The proposed amendments to the 2011 Stock Incentive Plan would allow the committee to permit participants who incur a tax obligation in connection with an award under the plan to have Chipotle satisfy associated tax withholding obligations by withholding shares with a value greater than the statutory minimum. Currently, executive officers, officers, other employees, consultants, advisors and non-employee directors of Chipotle and our subsidiaries are eligible to participate in the plan. The Compensation Committee administers the 2011 Stock Incentive Plan, and has broad authority to do all things necessary or desirable, in its sole discretion, in connection with plan administration. The Committee will select who will receive equity awards; determine the number of shares covered thereby; and, subject to the terms and limitations expressly set forth in the plan, establish the terms, conditions, and other provisions of the equity awards.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

Vote Cast: *Oppose*

Results: For: 92.4, Abstain: 0.1, Oppose/Withhold: 7.5,

### 5. *Provide Right to Act by Written Consent*

**Proposed by:** Not Disclosed.

Shareholders request that the Board of Directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This

includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that shareholder rights to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. This is important because there could be 15-months between annual meetings. A shareholder right to act by written consent is one method to equalise the Company's restricted provisions for shareholders to call a special meeting. For instance it takes 25% of shareholders at our company to call a special meeting when many companies allow 10% of shareholders to do so.

**Board's Opposing Argument:** The Board is against this proposal as allowing shareholder action by written consent as advocated in the shareholder proposal could deprive minority shareholders of the opportunity to voice their views and vote on an action, or even to receive information regarding the matter approved by written consent until after the action has been taken. The proposal provides no procedural protections to provide safeguards for minority shareholders.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

### 4. *Shareholder Resolution: Report on Integrating Risks Related to Drug Pricing into Senior Executive Compensation*

**Proposed by:** Not Disclosed.

The Proponents requests that the company urge the Compensation Committee to report annually to shareholders on the extent to which risks related to public concern

over drug pricing strategies are integrated into Amgen's incentive compensation policies, plans and programs (together, arrangements) for senior executives. The report should include, but need not be limited to, discussion of whether incentive compensation arrangements reward, or not penalize, senior executives for adopting pricing strategies, or making and honoring commitments about pricing, that incorporate public concern regarding the level or rate of increase in prescription drug prices, and considering risks related to drug pricing when allocating capital.

**Proponent's Supporting Argument:** The Proponent argues that linking drug pricing to executive compensation could reduce risks related to drug pricing and contribute to long-term value creation. A recent report by Credit Suisse analyst identified Amgen as a company where net price increases accounted for at least 100% of net income growth in 2016. Public outrage over drug prices and their impact on patient access may force price rollbacks and harm corporate reputation. The proponent believes that excessive dependence on drug price increase is a risky strategy, especially when price hikes contribute to a large compensation payouts.

**Board's Opposing Argument:** The Board recommends shareholders to oppose and argues that it would be burdensome on the Company to generate a separate annual report that attempted to assess "the extent to which risks related to public concern over drug pricing strategies" are integrated into our compensation policies. The Board believes that there is already sufficient disclosure regarding the factors that are integrated into incentive compensation policies and the risks related to compensation. Within the 2017 Proxy Statement the recoupment provisions expressly allow the Compensation Committee to consider employee misconduct that caused serious financial or reputational damage to the Company. Also the annual report on Form 10-K explains that the Company's competitive position may be impacted by price and reimbursement, and identifies the risks that the Company could face as a result of intense public scrutiny of the price of drugs.

**PIRC Analysis:** The incorporation of a drug pricing into the Senior Executive Compensation is considered a market best practice, and is in the best interest of all shareholders given the current public focus over drug prices. However, the resolution is prescriptive, and would not allow the Board discretion in interpreting its scope and application. Shareholders are advised to abstain the proposal.

### 3. Ratify PricewaterhouseCoopers LLP as Auditors

PwC proposed. Non-audit fees represented 22.41% of audit fees during the year under review and 27.17% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

### 4. Provide Right to Act by Written Consent

**Proposed by:** Mr. Kenneth Steiner.

The Proponent requests the Board of Directors to undertake necessary steps to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Taking action by written consent saves the expense of holding a special shareholder meeting.

**Board's Opposing Argument:** The Board argues that the proposal is contrary to the best interests of shareholders. The Board states that its current practices are designed to ensure that notice and the ability to be heard occur prior to shareholder votes; which enables a meaningful discourse before key decisions are made. The Board recommends shareholders oppose and argues that currently, shareholders of 10% of common stock have the right to call a special meeting which is an appropriate threshold, particularly when viewed together with the Company's robust corporate governance practices. The Board argues that adoption of the proposal could allow a relatively small minority of shareholders with narrow interests to call an unlimited number of special meetings to consider matters that may not be in the best interests of all of shareholders.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result; up to 49% of the Company's shareholders could be prevented from voting; or even receiving accurate and complete information; on important pending actions. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

## DASSAULT SYSTEMES SE AGM - 22-05-2018

### O.6. Approve Renewal of Severance Payment Agreement with Bernard Charles, CEO

It is proposed to approve the agreement with Bernard Charles, CEO, related to the severance payment. The value of the proposed agreement may exceed one year fixed salary on aggregate, as it incorporates elements of the variable remuneration, opposition is recommended

Vote Cast: *Oppose*

Results: For: 83.8, Abstain: 0.2, Oppose/Withhold: 15.9,

### O.8. Approve Remuneration Policy of Vice Chairman of the Board and CEO

It is proposed to approve the remuneration policy for the Vice Chairman and CEO. Variable remuneration does not seem to be consistently capped and as such there

are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria for its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these grounds, opposition is recommended.

Vote Cast: *Oppose*

Results: For: 81.3, Abstain: 0.7, Oppose/Withhold: 18.0,

*O.10. Approve Compensation of Bernard Charles, Vice Chairman of the Board and CEO*

It is proposed to approve the remuneration paid or due to Bernard Charles, Vice Chairman of the Board and CEO. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

Vote Cast: *Oppose*

*E.17. Authorise the Board to allocate shares of the company to corporate officers and employees of the company and affiliated companies*

Proposal to grant shares to employee or executives for up to 2% of the share capital during 38 months. The maximum number of Options that may be granted to executive officers shall represent no more than 35% of the overall amount authorized by shareholders. Share issued under this authorization will not enjoy pre-emptive rights and will be attributed free of charge to management or employees. The Board would maintain full discretion over the beneficiaries. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

Vote Cast: *Oppose*

*E.18. Authorise Capital Issuances for Use in Employee Stock Purchase Plans*

Authority for a capital increase for up to 3.83% of share capital for employees participating to saving plans. The maximum discount applied will be 30% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the amount of the authorisation and the discount exceed guidelines. Opposition is therefore recommended.

**2. *Amendment of the 1997 Incentive Plan***

The Board of Directors is requesting shareholders approval to amend the Amended 1997 Incentive Plan. The amendment will increase the number of shares of Common Stock available for grant, to 3,000,000 shares. The plan will include a double-trigger change of control treatment, minimum vesting provisions and a limit on non-employee director compensation. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards.

**ALD SA AGM - 22-05-2018*****O.4. Approve Compensation of Michael Masterson, CEO***

It is proposed to approve the remuneration paid or due to Michael Masterson, CEO, with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. For 2017, the principle of an exceptional premium to reward the success of the initial public offer has also been validated (EUR 300,000 for the CEO). However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. This premium is in addition to the variable compensation related to 2017. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

*Vote Cast: Oppose*

***O.5. Approve Compensation of Tim Albertsen, Vice-CEO***

It is proposed to approve the remuneration paid or due to Tim Albertsen, Vice-CEO, with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. For 2017, the principle of an exceptional premium to reward the success of the initial public offer has also been validated (EUR 100,000 for the Vice-CEO). This premium is in addition to the variable compensation related to 2017. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. ***O.7. Approve Remuneration Policy of Michael Masterson, CEO***

It is proposed to approve the remuneration policy for Michael Masterson, CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. *O.10. Approve Auditors' Special Report on Related-Party Transactions*

It is proposed to approve the agreement with the CEO and the Vice-CEOs, related to the severance payment. The payment of the indemnity would be subject to the attainment of an overall achievement rate of the variable compensation objectives of at least 50% on average over the three financial years preceding the termination of the mandate; this calculation of the achievement rate would only be made as from the 2017 performance year. The value of the proposed agreement may exceed one year fixed salary on aggregate, as it incorporates elements of the variable remuneration, opposition is recommended

*Vote Cast: Oppose*

*O.11. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

*O.13. Authorize up to 0.3 Percent of Issued Capital for Use in Restricted Stock Plans*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

## ZARDOYA OTIS SA AGM - 22-05-2018

### 4. *Approve the Special Dividend*

It is proposed to distribute EUR 0.08 per share from reserves, including share premium. The share premium account is not distributable. It can be moved into distributable reserves only through a reduction of capital. As the Company does not plan to do so, opposition is recommended.

Vote Cast: *Oppose*

### 5. *Appoint the Auditors*

PwC proposed. Non-audit fees represented 30.06% of audit fees during the year under review and 25.83% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### 6. *Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive Directors. The Company discloses all elements of remuneration for Executives and Non-Executives. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

### *3. Amend Existing Omnibus Plan*

It is proposed to approve the Second Amended and Restated Mid-America Apartment Communities, Inc. 2013 Stock Incentive Plan to increase the number of shares available for issuance to 2,000,000; amend the annual limit on independent director compensation such that (i) the aggregate grant date fair value of all equity awards granted to an independent director during any single calendar year may not exceed USD 400,000 and (ii) the aggregate cash compensation paid to an independent director may not exceed USD 250,000; and amend the maximum performance-based award payable to any one Covered Employee for a Performance Cycle commencing after the effective date of the Amended Plan to 150,000 shares, or USD 5,000,000 in the case of a performance-based award that is a cash-based award.

The Amended Plan will be administered by the MAA Compensation Committee. The MAA Compensation Committee has full power to select, from among the individuals eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to participants, and to determine the specific terms and conditions of each award, subject to the provisions of the Amended Plan. The MAA Compensation Committee may delegate to MAA's Chief Executive Officer the authority to grant awards to employees who are not subject to the reporting and other provisions of Section 16 of the Exchange Act or "covered employees" within the meaning of Section 162(m) of the Code. Persons eligible to participate in the Amended Plan will be those full or part-time officers, employees, non-employee directors and other key persons of MAA and its subsidiaries (including Mid-America Apartments, LP) as selected from time-to-time by the MAA Compensation Committee.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

### 4. *Shareholder Resolution: Cease Charitable Contributions*

**Proposed by:** Thomas Strobhar.

The Proponent requests that the Board discontinue the charitable giving programme unless a majority of the Company's customers positively affirm it through a public vote.

**Proponent's Supporting Argument:** The Proponent argues that charitable contributions are made possible largely by the utility bills PG&E customers pay to keep their homes and businesses safe and comfortable. PG&E distributes over twenty million dollars a year to a long list of charities, most of which would not be recognisable to many of the Company's customers. In the past, the Company has given funds to LGBT groups to fund film festivals some might characterise as gay porn. PG&E have also contributed tens of thousands of dollars to the Center for American Progress. According to SourceWatch, the Center, "is a liberal think tank created and led by John Podesta, the head of Barack Obama's Presidential Transition Team and a former Chief of Staff for President Bill Clinton. Other controversial charities the Company might give to include Planned Parenthood, which does over 300,000 abortions a year, or the Human Rights Campaign, which often characterises people who oppose same-sex marriage as haters and bigots. This might include millions of the Company's customers.

**Board's Opposing Argument:** PG&E Corporation's charitable giving program supports PG&E's overall vision and values by making contributions and taking actions

that address the needs of the communities served by PG&E Corporation and the Utility, building community and civic partnerships, enhancing employee engagement, and furthering local involvement in the communities served by the Company. Furthermore, PG&E is proud of the breadth of its programme and the impact it has on communities. PG&E provides grants that support 501(c)(3) non-profit organisations, schools, and local governments across Northern and Central California every year. PG&E's charitable giving programmes specifically focus on the following four areas that are key to vigorous community health: education and workplace development, economic and community vitality, the environment, and emergency preparedness. In 2016, PG&E provided more than 1,600 grants totalling \$28 million in these areas, with a special focus on supporting underserved communities. Suspending the charitable giving program, even temporarily, would deprive PG&E and its shareholders of the many benefits provided by this program, could cause PG&E to violate any promises and signed contractual obligations to make future contributions, and would suspend needed support to the communities that PG&E serves. Further, giving customers approval rights over PG&E Corporation's charitable giving programme is not consistent with how the charitable giving programme is funded. Shareholder dollars are used to fund the charitable giving programme; the rates paid by customers cannot be used for charitable giving.

**PIRC Analysis:** The resolution is deemed to be too prescriptive and instead of focusing on investigating the possible implications of charitable donations to the overall profitability of the Company, and the cost implication to customers, focuses on Mr. Strobhar's moral views of the organisations that PG&E may donate money to. It is considered that companies should have a sense of responsibility towards the communities in which its customers and employees operate. Many institutional investors now favour companies with good CSR principles. On this basis, shareholders are advised to oppose the proposal.

## **BOVIS HOMES GROUP PLC AGM - 23-05-2018**

### *1. Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 98.7, Abstain: 0.0, Oppose/Withhold: 1.3,

### *2. Approve the Remuneration Report*

Overall disclosure is adequate. The ratio of CEO pay compared to average employee pay is unacceptable at 28:1. However, the changes in the CEO total pay under the last five years are considered in line with changes in TSR during the same period. Total variable pay for the year under review is acceptable at 182.2% of salary for the CEO. The change in the CEO's salary is in line with the rest of the Company, as the CEO's salary rose by 2.5% while the salaries of employees as a whole increased by 9.05%. The CEO's salary is in the lower quartile of the Company's comparator group. However, the recruitment award granted to the newly appointed CEO, GP Fitzgerald, raises some concerns. Such recruitment awards are considered inappropriate and appear to be a golden hello, rather than fulfilling the purpose of variable pay, which is to incentivise, reward and retain.

Rating: AC.

As the CEO's bonus exceeded his salary, it is recommended that Central oppose.

Vote Cast: *Oppose*

Results: For: 61.2, Abstain: 1.9, Oppose/Withhold: 36.9,

### *4. Re-elect Ian Paul Tyler*

Incumbent Chairman. Independent upon appointment. However, he is also Chairman of Cairn Energy plc, a FTSE 250 company. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company. In addition, Mr. Tyler is Chairman of the Nomination Committee and no target has been set to address the lack of female representation on the Board, which is currently insufficient at 14.3%.

The Company has failed to disclose data to the CDP although requested to do so.

### 12. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed as are the performance conditions and targets for the annual bonus and LTIP. However, dividend accrual is not separately categorised.

**Balance:** The CEO's total realised variable pay is considered excessive at 360.7% of salary (Annual Bonus: 145.7%, LTIP: 215%). However, The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 4.41% whereas, on average, TSR has increased by 29.49%. Furthermore, the CEO's salary is considered in the lower quartile of PIRC's chosen comparator group.

The overall remuneration arrangements of the retiring CEO and newly appointed executives are considered acceptable.

**3. Approve Omnibus Stock Plan**

It is proposed to approve the ONEOK, Inc. Equity Incentive Plan. The 2018 EIP will allow the Company to continue granting long-term equity incentive awards to employees and equity awards to non-employee directors of the Company. Eligible participants under the 2018 EIP will include our non-employee directors, executives and senior management, and key professional and technical employees who are responsible for the Company's day-to-day operations. The 2018 EIP will be administered by the Committee. The Committee's discretionary authority will include the power, subject to the terms and limitations expressly provided in the

2018 EIP, to: grant awards; determine the size and types of awards; establish terms and conditions for each award; accelerate the exercisability or vesting of all or part of any award; interpret the 2018 EIP and any agreement or instrument entered into pursuant to the 2018 EIP; establish, amend or waive the 2018 EIP administration rules; amend the terms and conditions of any outstanding award; delay issuance of common stock or suspend a participant's right to exercise an award to comply with applicable laws; determine the duration and purposes of leaves of absence that may be granted to a participant without constituting termination of his or her employment or service for 2018 EIP purposes; authorise any person to execute, on behalf of the company, any instrument required to carry out the 2018 EIP's purposes; correct any defect, supply any omission, or reconcile any inconsistency in the 2018 EIP or any award; make determinations that it deems necessary or advisable for the 2018 EIP administration; and address participants' claims, including resolving disputed issues of fact.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

### *5b. Report on Company's Billing Practices*

**Proposed by:** Thomas P. Swiler

Shareholders request that CenturyLink ensure adherence to the principle of truthfully conducting business by providing customers an itemised list, including taxes, of charges, credits, expected monthly costs, the value and duration of limited time promotions, and commitment period associated with any service change within seven days of their decision to change the service. Shareholders further request that customers shall be given the option to delay the service change until they have approved the costs by dialing a unique code listed on the itemised list, or, if an immediate service charge is desired, be able to revert to their previous service within seven days of receiving the itemized list. This procedure will ensure that customers receive what they expect, which will improve customer satisfaction and retention, and will ultimately benefit the company and its shareholders.

**Proponent's Supporting Argument:** The Proponent argues that as a CenturyLink customer, it has experienced instances in which the monthly cost, after initial charges and credits, that appeared on its bill after making a service change was not the monthly cost promised, and it becomes contingent on the Proponent to correct the problem, if it can be fixed at all. While this mode of operation may provide short-term benefits to the Company and employees who may receive bonuses by locking customers into a limited term commitment as a price higher than anticipated, it does so at a long-term expense to the company and shareholders due to the dwindling customer base that results when dissatisfied customers choose different telecommunications options.

**Board's Opposing Argument:** The Board is against this proposal and states that it has long recognised the need for strong customer relations. In recent years the Company has worked to reduce the complexity of its product offerings and bills, which it believes were largely an outgrowth of sweeping changes in the communications and technology industries, among other factors. The Board is confident that its recent actions have simplified its products and strengthened its processes. The Board further believes that these changes, coupled with the other changes they plan to implement, will improve the experience of customers, thereby attaining the goals

sought by the Proponent.

**PIRC Analysis:** The Company appears to have made efforts to conform to the Proponent's request through various actions. An abstain vote is recommended.

*Vote Cast: Abstain*

### *3. Approve New Omnibus Plan*

It is proposed to approve the CenturyLink 2018 Equity Incentive Plan in order to replace both of the Company's current equity plans with a single, state-of-the-art equity plan free of the limitations contained in its current equity plans. The Human Resources and Compensation Committee (or a subcommittee thereof) will generally administer the 2018 Plan and has the authority to make awards under the 2018 Plan, including setting the terms of the awards. The Committee also generally has the authority to interpret the 2018 Plan, to establish any rules or regulations relating to the 2018 Plan, and to make any other determination that it believes necessary or advisable for proper administration of the 2018 Plan. Key employees, officers, and directors of CenturyLink and consultants or advisors are eligible to receive awards ("Incentives") under the 2018 Plan. A total of 34,600,000 of Common Shares are authorized for issuance under the 2018 Plan. This figure represents approximately 3.2% of the outstanding Common Shares as of April 6, 2018.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

### *3. Amend Existing Long Term Incentive Plan*

The Board proposes shareholders vote on the amendment to the BlackRock, Inc. Second Amended and Restated 1999 Stock Award and Incentive Plan. The Board is seeking to increase the number of shares of common stock, authorised for issuance under the plan from 34,500,000 to 41,500,000 shares. The Board believes that the existing number of shares authorised for issuance will not be sufficient to meeting the Company's anticipated needs to support the equity compensation plan beyond 2018. The Plan is eligible to all employees and non-employee members of the Board. Under the plan, participants are eligible to receive stock options, stock appreciation rights and restricted stock units. The Compensation committee administers the stock plan. It is considered that, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, shareholders are recommend to oppose the resolution.

## ANTOFAGASTA PLC AGM - 23-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Vote Cast: *Oppose*

Results: For: 99.9, Abstain: 0.0, Oppose/Withhold: 0.0,

### 4. *Re-elect Jean-Paul Luksic*

Chairman. Not considered independent upon appointment as he is the former CEO. It is considered that a former executive may not have sufficient detachment to objectively assess strategy.

The Company has answered 'No Opinion' to the CDP's question on whether it supports an international agreement on climate change.

He is chair of the Nomination Committee and less than 25% of the Board are women which does not meet Central guidelines.

Vote Cast: *Oppose*

Results: For: 94.6, Abstain: 0.0, Oppose/Withhold: 5.4,

### 11. *Re-elect Andrónico Luksic*

Non-Executive Director. Not independent as he is the half-brother of Jean-Paul Luksic. In addition he is the Chairman of Quiñenco and holds other directorships at companies in the Quiñenco group, a group controlled by the Luksic family. Although there is sufficient independent representation on the Board there are concerns that this director missed three of eight Board meetings during the year. It is noted that this director missed two Board meetings in 2016. This level of attendance is not considered to be acceptable. Therefore, an oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 86.4, Abstain: 0.0, Oppose/Withhold: 13.6,

### 12. *Re-elect Vivianne Blanlot*

Independent Non-Executive Director. There are concerns that this director missed one Audit Committee meeting during the year. No justification has been provided by the Company. An oppose vote is therefore recommended.

Vote Cast: *Oppose*

Results: For: 99.6, Abstain: 0.0, Oppose/Withhold: 0.3,

### 19. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice

would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

Vote Cast: *Oppose*

## **SOCIETE GENERALE SA AGM - 23-05-2018**

### *O.6. Approve Remuneration Policy*

It is proposed to approve the remuneration policy of CEO and Vice CEOs. There are concerns regarding excess as the total variable remuneration cap at 135% for the CEO and 115% of the Vice CEO' of their salary in compliance with best practice. The Company has as performance criteria the increase in Total Shareholder Return (TSR) and the profitability of the Group. However the performance criteria are not fully quantified. Furthermore, there are no claw back clauses in place, which is against best practices. Opposition is recommended.

*E.23. Authorize Issuance of Convertible Bonds for Private Placements without Preemptive Rights, up to Aggregate Nominal Amount of EUR 100.98 Million*

Authority is sought to issue convertible debt. Allocation of such instruments can take place without pre-emptive rights. As such, the cap to the authorized issuance (7% of the share capital) is considered to be excessive.

Vote Cast: *Oppose*

Results: For: 96.2, Abstain: 3.4, Oppose/Withhold: 0.3,

*E.25. Authorize up to 1.4 Percent of Issued Capital for Use in Restricted Stock Plans Reserved for Regulated Persons*

It is proposed to approve a stock option plan for employees and corporate officers for up to 1.4 % of the share capital in aggregate. The Board would receive the authority to set beneficiaries and other conditions. There seem to be no performance criteria besides employment and tenure.

Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clearly performance criteria and conditions. On balance, opposition is recommended.

## **FISERV INC. AGM - 23-05-2018**

### *2. Amend Existing Omnibus Plan*

The Board of Directors are requesting for shareholder approval of the material terms of the performance goals under the Amended and Restated Fiserv, Inc. 2007 Omnibus Incentive Plan. The Plan is limited to a maximum of 1,800,000,000 shares. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards. Shareholders cannot tell from the plan what performance targets (if any) would be applied to the metrics selected by the Committee. Given that, there is no meaningful way that shareholders can approve or re-approve performance 'goals' of which they have scant prior knowledge. Accordingly, a vote to oppose is recommended.

### 3. *Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: CDC. Based on this rating, it is recommended that shareholders oppose.

Vote Cast: *Oppose*

### 5. *Shareholder Resolution: Executive Pay Confidential Voting*

**Proposed by:** Not Disclosed.

The Proponent requests for the Board of Directors to take the steps necessary to adopt a bylaw that prior to the Annual Meeting, the preliminary outcome of votes cast by proxy on certain executive pay matters, including a running tally of votes for and against, shall not be available to management or the Board and shall not be used to solicit votes. Certain matters include the topics of say on executive pay and management-sponsored or board-sponsored resolutions seeking approval of executive pay plans. This proposal would not prohibit management access to shareholder comments submitted along with shareholder meeting ballots. This proposal is limited to executive pay items. Shareholders could still waive the confidentiality of their ballots on executive pay items – for instance by checking a box on the ballot.

**Proponent's Supporting Argument:** The Proponent argues that management can now monitor incoming votes and then use shareholder money to blast shareholders with costly solicitations on matters where they have a direct self-interest such as the ratification of lucrative stock options and to obtain artificially high votes for their lucrative executive pay. The Proponent argues that management can now do an end run on the effectiveness of say on pay votes. Instead of improving executive pay practices in response to disapproving shareholder votes, management can efficiently manipulate the say on pay vote to a higher percentage. Without confidential voting management can simply blast shareholders by using multiple professional proxy solicitor firms at shareholder expense (no disclosure of the cost) with one-way communication by mail and electronic mail (right up to the deadline) to artificially boost the vote for their self-interest executive pay ballot items.

**Board's Opposing Argument:** The Board is against this proposal as it believes in open, transparent and informed dialogue with shareholders, including in the area of executive pay, is beneficial and a crucial component of the Company's continuing growth and success. The shareholder proposal would cut off a beneficial component of this transparency and would constitute a step backwards in communications and shareholder engagement. The Board and management believes that openness, not the selective secrecy espoused by the proposal, enables Fiserv to better understand its shareholders and their concerns and priorities and for shareholders to better understand Fiserv and its concerns and priorities. The board also believes that the proposal is unnecessary as a significant majority of shareholders already vote confidentially or have the means to do so. The significant majority of shares are held in street name through a broker, bank or other nominee and, as such, these shareholders already have the means to vote confidentially.

**PIRC Analysis:** The Proponent raises a fair point about the use of shareholder funds being used to lobby votes and it may be in the best interest of shareholders to prohibit management from using shareholder funds to solicit additional proxies. However prohibiting management from viewing proxy results is not deemed to be in the best interest of shareholders, as the Company is more likely to conduct engagement and seek the view of shareholders on matters which receive a poor vote in favour.

In certain circumstances (and favoured by companies) a shareholder's concern can be rectified by the Board before the annual meeting. The proposed resolution could result in greater shareholder dissent (in terms of votes), with little change in company engagement and outcome. On this basis, shareholders are advised to oppose.

### *5. Approval of the Brighthouse Financial, Inc. 2017 Stock and Incentive Compensation Plan*

The Board of Directors request shareholders approval of the Brighthouse Financial, Inc. 2017 Stock and Incentive Compensation Plan. The aim of the Employee Plan is to promote the success and enhance the value of the company and its affiliates by linking the personal interests of employees to those of Brighthouse's stockholders. The Employee Plan has a maximum share limitation of 7,000,000 Shares. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards. Shareholders cannot tell from the plan what performance targets (if any) would be applied to the metrics selected by the Committee. ### *6. Approval of the Brighthouse Financial, Inc. 2017 Non-Management Director Stock Compensation Plan*

The Board are requesting shareholders to approve the Brighthouse Financial, Inc. 2017 Non-Management Director Stock Compensation Plan. The aim of the plan is to provide the company with a means to pay stock-based compensation to independent, non-employee members of the Board of Directors. A total of 400,000 Shares will be made available under the Director Plan.

It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership through payroll deductions. However the Plan is not open to the majority of employees and the purchase price is not capped at 85% of fair market value, a vote in opposition is recommended.

Vote Cast: *Oppose*

Results: For: 95.6, Abstain: 0.7, Oppose/Withhold: 3.7,

### *7. Approve the material terms of the performance goals under the Temporary Plan*

The Board are requesting shareholders to approve the material terms of the performance goals under the Temporary Plan. The Temporary Plan was adopted to provide cash incentives to a select group of management or highly compensated employees. It is considered that, as performance conditions may be attached to awards at

the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, shareholders are recommended to oppose the resolution.

## **CAPGEMINI SE AGM - 23-05-2018**

### *O.4. Approve Compensation of Paul Hermelin, Chairman and CEO*

It is proposed to approve the remuneration paid or due to the Chairman and CEO with an advisory vote. The variable remuneration for the year under review amount at 228% of the fixed salary, which exceeds the guidelines. The Company has not disclosed the underlying targets or quantified performance criteria for its variable remuneration component. Although common practice in this market as this is deemed sensitive information, this may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

### *O.5. Approve Remuneration Policy of Chairman and CEO*

It is proposed to approve the remuneration policy for the CEO with an advisory vote. Total variable remuneration seems to be capped, however, there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these grounds, opposition is recommended.

*O.10. Elect Paul Hermelin as Director*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

Vote Cast: *Oppose*

*E.20. Authorise Board to Set Issue Price for 10 Percent Per Year of Issued Capital Pursuant to Issue Authority without Preemptive Rights Under Items 18 and 19*

The Board requests authority to issue capital related securities without adhering to the general pricing conditions. Under this authority, the company would be authorised to issues shares at a discount of 10% per year, up to a total amount of the issued share capital under resolutions 18 and 19, over each 12-month period. Given concerns over the level of discount and the amount of the authority, opposition is recommended.

*E.21. Authorise Board to Increase Capital in the Event of Additional Demand Related to Delegation Submitted to Shareholder Vote Above*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

*O.9. Approve Compensation of Jacques Aschenbroich, Chairman and CEO*

It is proposed to approve the remuneration paid or due to Mr Jacques Aschenbroich, Chairman and CEO with an advisory vote. The payout is in line with best practice under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to over-payment against under performance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

Vote Cast: *Oppose*

#### *O.10. Approve Remuneration Policy of Chairman and CEO*

It is proposed to approve the remuneration policy for the Chairman and CEO of the Company. Variable remuneration is consistently capped under 200% of fixed salary, according to best practise. In addition, the Company has not disclosed quantified targets for the performance criteria for its variable remuneration component, which as a consequence may lead to over payment against under performance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these grounds, opposition is recommended.

### **CHINA RESOURCES GAS GRP LTD AGM - 23-05-2018**

#### *3.1. Elect Du Wenmin*

Non-Executive Director. Not considered to be independent as he was previously an Executive of China Resources (Holdings) Company Limited, which owns 63.95% of the Company's share capital. There are serious concerns about his time commitments, in addition to which he has not attended a single board meeting nor his committee meetings during the period under review. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

#### *3.2. Elect Chen Ying*

Non-Executive Director. Not considered to be independent as he is the Chief Strategy Officer of China Resources (Holdings) Company Limited, one of the major shareholders of the Company. Additionally, there are concerns over the director's aggregate time commitments, he has failed to attend all four board meetings which took place during the period under review. There is also insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

#### *4. Appoint the Auditors and Allow the Board to Determine their Remuneration*

Deloitte proposed. There were no non-audit fees during the year under review, however non-audit fees represented 2.71% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### 5.A. *Approve General Share Issue Mandate*

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

Vote Cast: *Oppose*

### 5.C. *Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 5.A those shares repurchased under the authority granted by proposal 5.B. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

Vote Cast: *Oppose*

### 3.3. *Elect Wang Yan*

Non-Executive Director. Not considered to be independent as he was previously Deputy Director of China Resources (Holdings) Company Limited, the major shareholder of the Company. Additionally, there are concerns over the director's aggregate time commitments, he has attended one of the four board meetings and one of the three Audit and Risk Management Committee meetings. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

#### *O.13. Reelect Marie-Françoise Walbaum*

Non-Executive Director, not considered to be independent as she has been Head of Listed and Unlisted Equity Investments and Private Equity Portfolio Manager at BNP Paribas, Company's industrial partner. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

Results: For: 86.1, Abstain: 0.0, Oppose/Withhold: 13.9,

#### *O.14. Reelect Patrice Caine*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

Vote Cast: *Oppose*

Results: For: 90.4, Abstain: 0.0, Oppose/Withhold: 9.6,

#### *O.15. Approve Compensation of Patrice Caine, Chairman and CEO*

It is proposed to approve the remuneration paid or due to Patrice Caine, Chairman and CEO. The payout is in line with best practice, being under 200% of the fixed salary. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. On balance, abstention is recommended. However, as abstention is not a valid voting option for this meeting, opposition is advised.

Vote Cast: *Oppose*

Results: For: 58.8, Abstain: 0.0, Oppose/Withhold: 41.2,

#### *O.16. Approve Severance Payment Agreement with Patrice Caine*

Proposal to approve the compensation that may be payable to Mr Patrice Caine, Chairman and CEO, upon termination of his term of office as company representative (except in the case of resignation, serious misconduct or gross negligence). The amount of compensation that may be payable is set at 12 months of his reference salary (fixed and variable compensation paid over the last 12 months of activity, excluding long-term incentive plan). As the value of the proposed agreement does include variable remuneration, oppose is recommended.

Vote Cast: *Oppose*

Results: For: 58.2, Abstain: 0.0, Oppose/Withhold: 41.8,

#### *O.17. Approve Deferred Remuneration Agreement with Patrice Caine*

Proposal to approve the deferred incremental and conditional compensation to Patrice Caine.

The amount of this compensation is calculated based on the point allocation method identical to that used for employees entitled to the additional group retirement scheme applicable within Thales group. This deferred compensation is only deemed to have been acquired on condition that the Company representative has carried out a full term in office. Entitlement is subject to the same performance condition as for the termination. The payment will be made if the average rate of achievement of the annual operational profitability objectives is equal to or higher than 80% over the past three years.

Conditions are not considered sufficiently challenging, in particular the entry gate at 80% of the target. It is considered that CEOs should not receive such top-hat compensations. Therefore, oppose is recommended.

Vote Cast: *Oppose*

Results: For: 58.5, Abstain: 0.0, Oppose/Withhold: 41.5,

#### *O.18. Approve Unemployment Private Insurance Agreement with Patrice Caine*

Proposal to approve Unemployment Private Insurance Agreement signed for benefit of Patrice Caine, Chairman and CEO. It is set at 12 months of his reference salary (fixed and variable compensation paid over the last 12 months of activity, excluding long-term incentive plan). It is considered that shareholders should not pay for the unemployment of a CEO in either case of resignation or termination. In addition, it is considered excessive as included variable remuneration. Therefore, oppose is recommended.

Vote Cast: *Oppose*

Results: For: 58.5, Abstain: 0.0, Oppose/Withhold: 41.5,

#### *O.19. Approve Remuneration Policy of Chairman and CEO*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. On balance, abstention is recommended. However, as abstention is not a valid voting option for this meeting, opposition is advised.

Vote Cast: *Oppose*

Results: For: 59.0, Abstain: 0.0, Oppose/Withhold: 41.0,

#### *O.20. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

Results: For: 99.9, Abstain: 0.0, Oppose/Withhold: 0.1,

*E.26. Approve Issue of Shares for Contribution in Kind*

The Board requests authority to issue shares and capital securities in consideration for contributions in kind up to 10% of the issued share capital over a period of 26 months. The proposal is within legal limits but can be used in time of public offer. Opposition is recommended.

Vote Cast: *Oppose*

Results: For: 85.5, Abstain: 0.0, Oppose/Withhold: 14.5,

*E.25. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

Vote Cast: *Oppose*

Results: For: 84.7, Abstain: 0.0, Oppose/Withhold: 15.3,

*E.24. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

Vote Cast: *Oppose*

Results: For: 84.7, Abstain: 0.0, Oppose/Withhold: 15.3,

*E.23. Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for less than 10% of the current share capital. However, the duration of the authority exceeds 12 months. It is considered that shareholders should have the occasion to vote on such resolutions annually.

Vote Cast: *Oppose*

Results: For: 85.6, Abstain: 0.0, Oppose/Withhold: 14.4,

*O.30. Ratify Appointment of Delphine de Sahuguet Amarzit as Director*

Non-Executive Director, not considered to be independent as she is a representative of the Public Sector which has a controlling percentage of the company's share capital. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

Results: For: 86.8, Abstain: 0.0, Oppose/Withhold: 13.2,

**ALKERMES PLC AGM - 23-05-2018****1.1. *Elect Director Floyd E. Bloom***

Non-Executive Director. Not considered independent owing to a tenure of over nine years. There is insufficient independent representation on the Board.

*Vote Cast: Oppose*

**2. *Advisory Vote on Executive Compensation***

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: CCC. Based on this rating, it is recommended that shareholders abstain.

*Vote Cast: Abstain*

**4. *Appoint the Auditors***

PwC proposed. Non-audit fees represented 27.89% of audit fees during the year under review and 28.68% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Abstain*

**5. *Approve Alkermes plc 2018 Stock Option and Incentive Plan***

The Board is requesting for shareholder approval of the Alkermes plc 2018 Stock Option and Incentive Plan (the 2018 Plan). The awards aims to align the compensation of officers, employees, non-employee directors and consultants of the Company with the interests of the shareholders and serve as a tool in the recruiting and retention of these individuals. A maximum of 4,400,000 ordinary shares will be made under the plan. The 2018 Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Administrator retains the power to select employees to receive awards and determine the terms and conditions of awards. A vote in opposition is recommended.

*Vote Cast: Oppose*

**BAKKAVOR GROUP PLC AGM - 23-05-2018****1. *Receive the Annual Report***

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

## 2. Approve Remuneration Policy

This is the first remuneration policy the Company has put forward since the IPO and its listing on the Main Market of the London Stock Exchange on 16 November 2017.

Overall disclosure is satisfactory, although there is a lack of information on payments to directors in the event of a change of control. The pension contributions for the CEO and the limit set for newly appointed Executive are acceptable, however the entitlements for the CFO are considered excessive. A third of the annual bonus is deferred into shares for three years. Although share deferral is welcomed, the amount deferred is not considered adequate; it is recommended that at least half of the annual bonus is subject to share deferral. The Company uses more than one performance condition, though they do not operate interdependently. With regard to the LTIP the performance period is not considered to be sufficiently long-term at three years. However, a two year post-vesting holding period applies, which is welcomed. The Company uses more than one performance condition, though both are financial based and run independently; it is recommended that at least one non-financial KPI is used, and that performance conditions operate interdependently. Dividend equivalents may be accrued on vested share awards from the date of grant. Such rewards are not supported as they mis-align shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not.

Total potential variable pay is considered excessive at 350% of salary; it is recommended that total variable pay is limited to 200% of salary. However, currently the CEO is not entitled to awards under the LTIP, and the maximum opportunity set for his annual bonus awards is 80% of salary, which is commended. There is no time-frame set for Executive Directors to build up their shareholding requirements. It is recommended that for a requirement of 200% of salary, a time frame of 5 years maximum is set, or alternatively, if no time-frame is set, then for all share awards to be retained, rather than just half, which the Company has set.

With respect to termination payments, the Remuneration Committee can exercise upside discretion to dis-apply time pro-rating on annual bonus and LTIP awards, which is contrary to best practice. The Committee may also approve payments outside the proposed remuneration policy in order to satisfy legacy arrangements made to an employee prior to promotion to the Group Board, which is considered inappropriate.

Rating: BDD.

Based on this rating it is recommended that Central oppose.

Vote Cast: *Oppose*

Results: For: 99.6, Abstain: 0.1, Oppose/Withhold: 0.3,

## 3. Approve the Remuneration Report

Overall disclosure is adequate. Total variable pay for the year under review was not excessive for the CEO, amounting to 22.7% of salary, comprising of only the annual bonus and no LTIP, as there were no long-term incentive awards capable of vesting in relation to performance in the year. The ratio of CEO pay compared to average employee pay is not acceptable at 44:1. Payments made to the CFO, Peter Gates, are not considered appropriate. Firstly, the Company granted share options to Peter Gates under the Bakkavor Group Limited 2017 Long-Term Incentive Plan prior to Admission. Peter Gates was granted an award of 1,222,515 share options, with an exercise price of £0.764, amounting to approximately £934,001. In addition, Peter Gates was awarded a retention bonus of £200,000. Another concern is that Todd Krasnow was granted a cash bonus award in the amount of £500,000 payable immediately prior to Admission, pursuant to a pre-existing commitment with Bakkavor Holdings Limited. Such an award is considered excessive and inappropriate, particularly for a Non-Executive Director.

Rating: AE.

Based on this rating it is recommended that Central oppose.

## 4. Elect Robert Berlin

Non-Executive Director. Not considered independent as he was appointed pertaining to an agreement by the majority shareholder, the Baupost Group. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

Results: For: 99.6, Abstain: 0.0, Oppose/Withhold: 0.4,

#### 9. *Elect Lydur Gudmundsson*

Non-Executive Director. Not considered independent as he was the Chief Executive Officer from 1986 to 2006, and the Executive Chairman from 2006 to 2010. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.0, Oppose/Withhold: 0.3,

#### 10. *Elect Denis Hennequin*

Senior Independent Director. Considered independent.

He is chair of the Remuneration committee and the Remuneration policy received two DD's rating which does not meet Central guidelines.

PIRC issue: It is noted that the Company's remuneration during the year under review was unacceptable. As Chair of the Remuneration Committee, he harbours the responsibility to address issues relating to remuneration. However, the Company was a private company for all but 6 weeks of the year under review.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.2, Oppose/Withhold: 0.1,

#### 11. *Elect Todd Krasnow*

Non-Executive Director. Not considered independent as he was appointed by the Board.

He is chair of the Nomination Committee and less than 20% of the Board are women which does not meet Central guidelines.

PIRC issue: There is insufficient independent representation on the Board. In addition, he missed one out of seven Board meetings with no adequate justification provided. He is also sitting on the Audit and Remuneration Committees, which should be fully independent. Lastly, he also received a cash bonus, which is inappropriate given that he is a Non-Executive Director.

Vote Cast: *Oppose*

Results: For: 99.5, Abstain: 0.1, Oppose/Withhold: 0.4,

#### 13. *Re-appoint the Auditors, Deloitte LLP*

Deloitte proposed. Non-audit fees represented 225.00% of audit fees during the year under review. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.0, Oppose/Withhold: 0.3,

#### 17. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### 7.. *Appoint the Auditors*

PwC proposed. Non-audit fees represented 51.26% of audit fees during the year under review and 47.09% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### 10.. *Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 8 those shares repurchased under the authority granted by proposal 9. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 10% to 20% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

Vote Cast: *Oppose*

### 3.II. *Elect Thomas Hui To as Director*

Non-Executive Director. Not considered to be independent as he serves on the boards of Young Lion Holdings Limited, Young Lion Acquisition Co. Limited and Shaw

Brothers Limited, all of which are significant shareholders of the Company. There is also insufficient independent representation on the Board. An oppose vote is recommended.

**WILLIS TOWERS WATSON AGM - 23-05-2018****2. Ratify the Appointment of Deloitte & Touche LLP as Auditors and Deloitte LLP to audit the Irish Statutory Accounts, and Authorise the Board to Fix Their Remuneration**

Deloitte proposed. Non-audit fees represented 2.10% of audit fees during the year under review and 2.76% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**POLYPIPE GROUP PLC AGM - 23-05-2018****1. Receive the Annual Report**

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

## 2. Approve Remuneration Policy

**Disclosure:** The Company provides a good disclosure.

**Balance:** The Company uses more than one performance condition for the annual bonus. 25% of the annual bonus is subject to share deferral, which will vest after three years, which is considered inadequate as best practice requires that 50% of the bonus should be deferred. The Company's long-term incentive scheme is not linked to non-financial KPIs, which is not considered appropriate. However, there are more than one performance conditions used for the PSP. The performance period is three years, which is not considered sufficiently long-term. The Committee has flexibility at its discretion to add an additional holding period after a performance period before awards vest. This is not considered sufficient as a holding period of at least two years should apply. Total potential variable pay is considered excessive at 325% of salary.

**Contracts:** On termination, the Committee may determine that the Executive Director is eligible to receive a bonus in respect of the financial year in which they cease employment. This bonus would usually be prorated and may be settled wholly in cash. In determining the level of bonus to be paid, the Committee may, at its discretion, take into account performance up to the date of cessation or over the financial year as a whole based on appropriate performance measures as determined by the Committee. This is considered inappropriate as it could be performance not obtained by the Executive.

## 3. Approve the Remuneration Report

**Disclosure:** All elements of each director's fixed and variable remuneration are adequately disclosed. All share incentive awards are fully disclosed with award dates and prices.

**Balance:** The variable pay of the CEO for the year under review is not considered excessive at 83% of his salary. It is noted that no LTIP awards were due to vest during the year under review. The ratio of CEO pay compared to average employee pay is acceptable at 20:1. However, it is noted that certain buy-out arrangements have been agreed to partially compensate the new CFO Paul James, for bonus and long-term incentive awards that were forfeited when he left his previous employer, Dixons Carphone plc. The buy-out award (Long-Term Incentive) will vest on the same date that the original award would have vested, subject to continued employment but no further performance conditions. Buying out unvested awards without performance conditions is considered as a breach of best practice as it can lead to overpayment.

## 16. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice

would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### 3. *Amend Articles: Amend Charter*

It is proposed to amend and restate the current Charter to (i) eliminate the tracking stock capitalisation structure of the Company, (ii) reclassify each share of each series of existing QVC Group Common Stock into one share of the corresponding series of New Common Stock (the reclassification), and (iii) make certain conforming and clarifying changes in connection with the foregoing. The holders of Series A Common Stock, Series B Common Stock and Series C Common Stock will have equal rights, powers, and privileges, except as otherwise set forth in the restated charter. The holders of Series A Common Stock will be entitled to one vote for each share held, and the holders of Series B Common Stock will be entitled to ten votes for each share held, on all matters voted on by stockholders, including elections of directors. The holders of Series C Common Stock will not be entitled to any voting powers, except as required by Delaware law.

It is considered that the new class structure treats the majority of shareholders inequitably; the principle of one-share-one-vote is best practice and voting rights should be allocated equitably. An oppose vote is recommended.

## **MORGAN STANLEY AGM - 24-05-2018**

### *1d. Elect Director James P. Gorman*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

#### *O.13. Approve Remuneration Policy of CEO and Vice-CEO*

It is proposed to approve the remuneration policy of CEO and Vice-CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. As abstain is not a valid voting option, opposition is recommended.

Vote Cast: *Oppose*

#### *O.17. Approve the Overall Envelope of Compensation of Certain Senior Management, Responsible Officers and the Risk-takers*

This resolution is specific to the banking industry, and provides for a consultative vote on the overall compensation of any kind paid during 2017 to senior executives and certain categories of staff. The overall remuneration paid amounted to EUR 932 million. The payout is in line with best practice, under 200% of the fixed salary. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. #### *E.27. Amend Article 14.5 and 16.7 of Bylaws*

The Board proposes to amend the Articles 14.5 and 16.7 of Bylaws relating to the age limit of the Chairman, the Chief Executive Officer and the Chief Operating Officers. Proposal to raise the age limit of the Chairman of the Board of Directors to 72 years and the Chief Executive Officer to 65 years. It appears that these amendments may be proposed specifically as the Chairman and the CEO will soon reach the age of their retirement from the Board. It is considered that companies should not amend the Articles for the interest of one individual board member. Age can serve as a rotation factor, instead. Therefore, oppose is recommended.

Vote Cast: *Oppose*

#### *8a. Advisory Vote on Executive Compensation*

An advisory vote on executive compensation is proposed. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

**ERSTE GROUP BANK AG AGM - 24-05-2018**

*3. Approve Discharge of Management Board*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and

cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.2, Oppose/Withhold: 0.1,

### 2. *Approve the Remuneration Report*

**Disclosure:** Next year's fees and salaries are clearly disclosed as are performance conditions and targets for annual bonus and long term incentives. However, dividend accrual is not separately categorised.

**Balance:** Total realised rewards for the year under review are considered to be excessive at 294.66% of salary (Annual Bonus: 102.1% of salary - LTIP: 192.56% of salary). Also, the CEO's salary is above the upper quartile of a comparator group of sector peers which raises concerns over excessiveness. These concerns are

further advanced when considering the ratio of CEO pay compared to average employee pay which is also excessive at 47.1. However, the changes in CEO pay over the last five years are considered in line with the Company's performance over the same period. Over the five year period average annual increase in CEO pay has been approximately 11.44% whereas, on average, TSR has increased by 17.17%.

#### *17. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### **LLOYDS BANKING GROUP PLC AGM - 24-05-2018**

#### *14. Approve the Remuneration Report*

**Disclosure:** Overall disclosure is acceptable.

**Balance:** The changes in CEO pay over the last five years are in line with the changes in Company's TSR performance over the same period. The LTIP grant worth 300% of salary granted to the CEO during the year is considered excessive. Also, there are concerns over the level of variable pay of the CEO which represents 293% of the annual salary excluding the Fixed Share Allowance of £90,000, the use of which is not supported. The ratio of CEO to average employee pay has been estimated and is found excessive at 109:1.

Rating: AD.

Overall disclosure is adequate. The change in the CEO's salary is in line with the change in the salaries of the Company's UK employees, as the CEO's salary rose by 2%, while average pay of the Company's UK employees increased by 5%. However, the CEO's salary is in the upper quartile of the Company's comparator group. Changes in CEO pay in the last five years are not considered in line with changes in TSR during the same period. The CEO received 679% of salary in variable pay under the AIP and LTIP, which is considered highly excessive. Furthermore, the CEO received payment under the vesting of recruitment awards, which amounted to a further 440% of salary, leading to a total of 1119% of salary in variable pay. Such an amount is considered inappropriately excessive. The ratio of CEO pay compared to average employee pay is unacceptable at 121:1.

**REXEL SA AGM - 24-05-2018****O.6. *Approve Remuneration Policy of CEO***

It is proposed to approve the remuneration policy of the CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead

to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

#### *O.8. Approve Compensation of Patrick Berard, CEO*

It is proposed to approve the remuneration paid or due to Patrick Berard with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

#### *O.9. Approve Compensation of Catherine Guillouard, Vice-CEO until Feb. 20, 2017*

It is proposed to approve the remuneration paid or due to Catherine Guillouard with an advisory vote. There are concerns regarding excess as the total variable remuneration exceeded 200% of the salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. Furthermore, there are no claw back clauses in place, which is against best practices. Opposition is recommended.

#### *O.14. Appoint the Auditors*

KPMG and PwC proposed. No non-audit fees were reported during the year under review and constituted 2.97% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The Board requests authority to elect a substitute external auditor. The proposed auditor is considered to be connected to the Company, as their tenure will exceed ten years. Opposition is recommended.

*Vote Cast: Oppose*

#### *O.15. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

#### *E.17. Authorise up to 1.4 Percent of Issued Capital for Use in Restricted Stock Plans*

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives will be awarded options/rights to receive shares, which will start vesting after three years from the date of award. At this time, it seems that this plan will not be based on any performance criteria but only on the beneficiaries continued employment. As a result, they may receive bonuses unrelated to their performance or even the performance of the Company as a whole, which is considered a serious frustration of shareholder accountability.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

#### 5. *Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** Not Disclosed.

Shareholders request that the Board of Directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Increasing the rights of shareholders through written consent is all the more important since our stock fell from USD 50 to USD 42 in one year during a rising market.

**Board's Opposing Argument:** The Board is against this proposal as it believes that this proposal is unnecessary in light of the shareholders' ability to call special meetings. The Board believes that this proposal would unfairly enable shareholders to circumvent the protections, procedural safeguards and advantages provided to all shareholders through our existing shareholder meeting process in a way that may be detrimental to our shareholders. The Board also believes that the written consent procedure is more appropriate for a closely-held corporation with a small number of shareholders, and not for a widely-held public company such as Flowserve.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. An oppose vote is recommended.

### 4. *Shareholder Resolution: Written Consent*

**Proposed by:** John Chevedden and Myra K. Young.

The Proponent requests that the board of directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Taking action by written consent saves the expense of holding a special shareholder meeting.

**Boards Opposing Argument:** The Board argues that the proposal is contrary to the best interests of shareholders. The Board states that its current practices are designed to ensure that notice and the ability to be heard occur prior to shareholder votes, which enables a meaningful discourse before key decisions are made. The Board recommends shareholders oppose and argues that currently, shareholders of 20% of common stock have the right to call a special meeting which is an appropriate threshold, particularly when viewed together with the Company's robust corporate governance practices. The Board argues that adoption of the proposal could allow a relatively small minority of shareholders with narrow interests to call an unlimited number of special meetings to consider matters that may not be in the best interests of all of shareholders. Finally, the Board argues that its active engagement with shareholders and strong corporate governance practices make the proposal unnecessary.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders, regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

6. *Shareholder Resolution: Report on Charitable Contributions*

**Proposed by:** Mr. John Harrington.

The Proponent requests that the Company provide an annual report, omitting proprietary information and at reasonable cost, disclosing: the Company's standards for choosing recipients of company assets in the form of charitable contributions; the business rationale and purpose for each of the charitable contributions, if any; personnel participating in the decision to contribute; the benefits to society at-large produced by company contributions; and a follow-up report confirming the contribution was used for the purpose stated. The report should be published on the Company's website.

**Proponent's Supporting Argument:** The Proponent argues that without a system of accountability and transparency, some donated assets may be misused and potentially harm the Company's reputation and shareholder value. Current disclosure is insufficient to allow the Company's Board and shareholders to evaluate the use of corporate assets by outside organisations. For example, the Company donations towards the McTeacher's Nights program has been met with criticism by teachers'

unions, claiming that the McTeacher's Nights program exploits the trust families place in schools to promote junk food to children, undermining teachers' efforts to teach students healthy habits. Other school programs have faced similar criticisms. Fuller disclosure would provide enhanced feedback opportunities from which our company could make more fruitful decisions. Corporate philanthropy should be transparent to better serve the interests of the shareholders.

**Board's Opposing Argument:** The Company already provides detailed information about its core values and its most significant charitable contributions on the Company's website. While charitable initiatives vary country to country, the Company is globally aligned around two main giving priorities: improving the lives of children and their families primarily through support of Ronald McDonald House Charities and strengthening communities by addressing local needs. The Company has global compliance guidelines for approval of charitable contributions, which are designed to ensure that corporate funds are allocated appropriately, and that contributions are aligned with the Company's giving priorities, core values and Brand image. Furthermore, the Board's Sustainability & Corporate Responsibility Committee regularly reviews reports on the Company's charitable contributions and philanthropy initiatives. The requested report would do nothing to advance these philanthropic activities, and would provide immaterial incremental additional information. Finally, the report would have limited value to shareholders.

**PIRC Analysis:** It is considered that transparency and reporting is in shareholders' interests. However it is not clear how the requested information would provide significant additional information to shareholders. On this basis, shareholders are advised to oppose the resolution.

## *2. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: CEB. Based on this rating, it is recommended to oppose.

## *3. Appoint the Auditors*

EY proposed. Non-audit fees represented 16.19% of audit fees during the year under review and 8.96% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Oppose*

*Results: For: 97.0, Abstain: 0.2, Oppose/Withhold: 2.8,*

## *4. Shareholder Resolution: Written Consent*

**Proposed by:** Mr. John Chevedden

Shareholders request that the Board of Directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. More than 100 Fortune 500 companies provide for shareholders to call special meetings and to act by written consent.

**Board's Opposing Argument:** The Board is against this proposal as shareholders holding 25% of the outstanding shares of the Company's stock for at least one year may request a special meeting. The Board has demonstrated its commitment to active shareholder engagement and responsiveness to shareholder feedback.

The Company maintains a comprehensive engagement programme and reaches out to a wide variety of shareholders to learn their views. The Board adds that the transparency and fairness of the annual or special meeting process supports all shareholders' interests and offers important protections and advantages that are absent from the written consent process.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders; regardless of the method of communication chosen; there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the Company. On this basis shareholders are advised to oppose.

Vote Cast: *Oppose*

#### *5. Shareholder Resolution: Report on Plastic Straws*

**Proposed by:** Mr. Keith Schnip

Shareholders request that McDonald's Corporation ("McDonald's") issue a report to shareholders, to be prepared at reasonable cost and omitting confidential and proprietary information, regarding the business risks associated with its continued use of plastic straws, and the Company's efforts to develop and implement substitutes for plastic straws in its restaurants.

**Proponent's Supporting Argument:** The Proponent argues that a growing global consumer movement opposes the use of plastic straws because of their contribution to waste and deleterious impacts on marine life. McDonald's provides single-use plastic straws in its 36,000 restaurants in over 100 countries. The sustainability report of McDonald's says, "Our customers have told us that one of the most important environmental issues in our restaurants is waste and recycling. We agree that we must join together with our customers and crew to tackle this issue. . ." The Proponent adds that according to the Plastic Pollution Coalition, approximately 1,800 restaurants and institutions have eliminated plastic straws. Two cities in California have banned plastic straws. A ban on plastic straws will go into effect in Seattle, Washington in July 2018.

**Board's Opposing Argument:** The Board is against this proposal as it is committed to policies and programmes that minimise the environmental impact of McDonald's restaurants. The Company continues to work with suppliers and packaging specialists on packaging innovations (including straws) in order to reduce McDonald's sourcing footprint, reduce material volume where possible, design packaging to recapture the value of materials through recycling and reduce the costs and environmental impacts associated with its disposal. In furtherance of its recently announced packaging and recycling goals, the Company has formed a fast-action working group to explore ways to address the issue holistically and identify, research and pilot potential plastic straw substitutes. The working group includes employees from a number of global departments along with external packaging experts and suppliers. The Company has engaged in meaningful dialogue on this topic with the Proponent's representative and has provided access to McDonald's subject matter experts to address questions and concerns. It has been transparent about its progress and the challenges associated with addressing this important issue.

**PIRC Analysis:** It is considered that reporting on sustainability issues is in shareholders' interests both as a means of informing shareholders of potential risks and opportunities faced by the Company, but also as a means of ensuring that the management and Board of a company give due consideration to these issues. However, in light of current and on-going efforts by the Company on the issue, a vote to oppose is recommended.

## **ATOS SE AGM - 24-05-2018**

### *O.10. Advisory review of the compensation owed or paid to Mr Thierry Breton*

It is proposed to approve the remuneration paid or due to the Chairman and CEO with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. The Company has disclosed in the Reference Document all of the achieved goals with the underlying quantified targets. However, they only disclosed the achievement against the budget, they do not disclose the budget. There are therefore no means to verify whether the percentage achievement is in line with the actual measurable achievement, and whether the percentage is corresponding to fair pay-per performance. Opposition is recommended.

Vote Cast: *Oppose*

Results: For: 57.6, Abstain: 1.9, Oppose/Withhold: 40.5,

#### *O.11. Approve Remuneration Policy applicable to the CEO*

It is proposed to approve the remuneration policy applicable to the CEO with a binding vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not fully disclosed quantified targets or performance criteria for its entire variable remuneration component. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. The remuneration policy under the 2019 ambition increased the performance-based remuneration, whose amount on target will pass from approximately 260% of the fixed salary to 334% of the salary (which has also slightly increased). There do not seem to be claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

#### *E.15. Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for 10% of the current share capital. However, the duration of the authority exceeds 12 months. It is considered that shareholders should have the occasion to vote on such resolutions annually.

Vote Cast: *Oppose*

Results: For: 92.2, Abstain: 3.7, Oppose/Withhold: 4.1,

#### *E.16. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

Vote Cast: *Oppose*

Results: For: 88.2, Abstain: 4.3, Oppose/Withhold: 7.5,

#### *E.18. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

Vote Cast: *Oppose*

Results: For: 85.0, Abstain: 11.2, Oppose/Withhold: 3.8,

#### *E.21. Approve New Executive Share Option Plan*

Proposal to authorize for 38 months the Board to allot shares free of charge to employees and executives up to 0.9% of the share capital. Share issued under this authorization will not enjoy pre-emptive rights and will be attributed free of charge to management or employees. Targets and criteria are disclosed and quantified. Nevertheless, the performance period (three years) is considered to be short-term. In the event that the first two years are validated, and for the third year, only two Internal Financial Performance Indicators are fulfilled, and the third Internal Financial Performance Indicator for this last year reaches at least 85% completion, the grant of performance shares shall be reduced to 75% of the initially granted aggregate number. However it is still not completely satisfactory due to the short vesting period. On balance, abstention would be normally recommended, but, as abstain votes are not counted in European Companies (Societas Europaea, or SE), it is advised to oppose to this resolution.

## *2. Approve the Remuneration Report*

Overall disclosure is adequate. The CEO's salary is in line with the rest of the Company, as the CEO's salary did not change while the salary change for UK employees was an increase of 1%. However, the CEO's salary is in the upper quartile of the Company's comparator group. Changes in CEO pay in the last five years are not considered in line with changes in TSR during the same period. Total variable pay for the year under review was highly excessive at 551.6% of salary. The CEO's recruitment awards are considered inappropriate. The ratio of CEO pay compared to average employee pay is not acceptable at 35:1.  
rating: AE.

As the CEO's bonus exceeded his salary, it is recommended that Central oppose.

## *4. Re-elect Mr P S Aiken AM*

Incumbent Chairman. Independent upon appointment. He is also Chairman of Aveva Group plc, a FTSE 250 company. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company. In addition, he is the Chairman of the Nomination Committee and no target has been set to increase the level of female representation on the Board, which is currently insufficient at 12.5%.

Vote Cast: *Oppose*

Results: For: 88.2, Abstain: 1.7, Oppose/Withhold: 10.1,

## *7. Re-elect Mr I G T Ferguson CBE*

Senior Independent Director. Considered independent. The remuneration policy received significant opposition (22.81%) at last year's AGM. The Company has not disclosed the reasons for such significant opposition, and although there is evidence of shareholder engagement, there is no indication that the specific reasons behind the significant opposition were addressed. In addition, the Company's remuneration for the year under review is considered excessive. As Chair of the Remuneration Committee he harbours the responsibility to address these issues. An oppose vote is recommended.

## *14. Approve Political Donations*

Although the aggregate limit sought, £25,000, is within acceptable limits, the company has made donations in the US which are deemed to be political during the year. The Group made political donations of £19,306, the purpose of which have not been explained. This raises concerns about the potential donation which could be made by the Company under this authority.

## **SWATCH GROUP AG AGM - 24-05-2018**

### *2. Discharge of Board and Senior Management*

Standard proposal. It is considered that the governance structure of the Company may not provide the sufficient checks and balances, and may lead to unhealthy practice. The absence of a whistle-blowing hotline makes it more likely for wrongdoings to become public with a consequential increased reputation risk for the Company. Although no evidence of wrongdoing has been identified, opposition is recommended.

#### 4.3. *Approval of the Variable Compensation of the Executive Members of the Board of Directors for the Business Year 2017*

The Board of Directors recommends that the General Meeting approves a total amount of CHF 7.595.600 as variable compensation of the executive members of the Board of Directors for the business year 2017. This is within the amount approved at the last AGM. However, no quantified targets were disclosed in advance and as such it is impossible to see whether the proposed compensation links pay with performance effectively. Opposition is recommended.

#### 4.4. *Approval of the Variable Compensation of the Members of the Executive Group Management Board for the Business Year 2017*

The Board of Directors recommends that the General Meeting approves a total amount of CHF 18.661.814 as variable compensation of the Executive Group Management Board members for the business year 2016. This is within the amount approved at the last AGM. However, no quantified targets were disclosed in advance and as such it is impossible to see whether the proposed compensation links pay with performance effectively. Opposition is recommended.

#### 5.1. *Re-elect Nayla Hayek*

Executive Chairman. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. Combining the two functions in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal. #### 5.4. *Re-elect Georges Hayek*

CEO. The director is part of Hayek Pool, the controlling holding. The level of independence on the Board is not considered to be sufficient to offset the power of the

CEO who also has family connections on the Board. Where there is a controlling shareholder, it would be best practice to have an independent Board and independent Lead Director to offset the power of the controlling shareholder. As the Company does not abide by this practice, opposition is recommended.

### 1j. *Elect Director Thomas W. Toomey*

President, Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the three roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

### 2. *Appoint the Auditors*

EY proposed. Non-audit fees represented 11.03% of audit fees during the year under review and 15.33% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**WESTFIELD CORP REIT AGM - 24-05-2018****2. Approve the Remuneration Report**

It is proposed to approve the remuneration policy. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. Nevertheless, opposition is recommended based on potential excessive variable remuneration.

**7. Authorise use of Derivatives for the purpose of Share Repurchase under Resolution 6**

It is proposed to approve authority to use financial derivatives to repurchase and use capital stock within legal boundaries. Authority is sought for a period of four years until 30 of April 2022.

Within EU regulation, companies are required to maintain safe harbour conditions, which generally limit share buybacks with derivatives from within by limiting the possibilities of derivatives used. Given the concerns with the corresponding share repurchase resolution, opposition is recommended.

#### *12. Shareholder Resolution: Remove Stefan Simon from the Supervisory Board*

Proposed by: Riebeck-Brauerei

It is proposed the removal of the member of the Board Mr Simon from his position due to allegations for inconsistencies concerning the selection, appointment and election of him to the Board of Directors. The allegations are about the presentation of Mr Simon as a candidate by the Company and the Chairman of the Board. The Chairman of the Board Mr Paul Achleitner is also Chairman of the Nomination Committee and responsible for the evaluation of the Candidates according to the criteria set by the Committee. Although the Chairman of the Board informed the shareholders that the candidates were selected according to the Nomination Committee proposal and an external third party, it is considered that the Company failed to disclose a transparent recruitment process. Nevertheless, the candidate is considered independent and with the right knowledge for this sector. On balance, opposition is recommended.

#### 8. *Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive Directors. The Company discloses all elements of remuneration for Executives and Non-Executives. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely that shareholders reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

## SPIRE HEALTHCARE GROUP PLC AGM - 24-05-2018

### 3. *Approve Remuneration Policy*

**Policy Changes** No major policy changes were made for the new policy although the Company have introduced a two-year post-vesting holding period for the LTIP award which is welcome.

**Disclosure:** Overall disclosure is considered adequate.

**Balance:** The total potential awards made under all incentive schemes is considered excessive at 350% of base salary. Furthermore, pension contributions and entitlements are also considered excessive with a maximum opportunity of 25%. The performance period for the LTIP is three years which is not considered sufficiently long-term. However, as previously mentioned, from 2018 a further two year post-vesting holding period applies which is welcome. Currently at least one-third of the annual bonus is deferred for a period of three years with the Chief Executive Officer deferring one-half of any bonus which meets best practice. However, the performance metrics are not operating interdependently, such that vesting under the incentive plan is only possible where all threshold targets are met.

**Contracts:** The Policy tolerates recruitment payments which compensate external recruits for forfeit awards in circumstances where the performance period or holding period or the performance conditions for such awards haven't been fulfilled. The buying out of awards undermines any retentive effect such awards might have and distorts the market for executive talent. However, there is no 'Exceptional' limit for recruitment included in the policy which is welcome. Furthermore, the Company cannot make awards outside the policy limits. There are also concerns over the level of upside discretion afforded to the remuneration committee on determining termination payments on a change of control.

#### 9. *Re-elect Mr Garry Watts*

Chairman. Independent upon appointment. He is also Chairman of BTG plc a FTSE 350 company. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company.

There is no board level responsibility for ESG issues which does not meet Camden guidelines.

#### 17. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

## **WORLDLINE SA AGM - 24-05-2018**

### *O.8. Approve Compensation of Gilles Grapinet, CEO*

It is proposed to approve the remuneration paid or due to Giles Grapinet with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

Vote Cast: *Oppose*

### *O.9. Approve Remuneration Policy of CEO*

It is proposed to approve the remuneration policy with a binding vote. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. Nevertheless, opposition is recommended based on potential excessive variable remuneration.

### *O.10. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

### *E.13. Issue Shares for Cash*

Authority is sought to issue shares without pre-emptive rights to an amount of more than 10% of the share capital, which is deemed excessive. Opposition is recommended.

Vote Cast: *Oppose*

### *E.14. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 30% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

Vote Cast: *Oppose*

#### *E.16. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

*Vote Cast: Oppose*

#### *E.18. Approve Issue of Shares for Employee Saving Plan*

Authority for a capital increase for more than 2% of the share capital for employees participating to saving plans. The maximum discount applied will be 20% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the amount of the authorisation exceeds guidelines (2%). Opposition is therefore recommended.

*Vote Cast: Oppose*

#### *E.19. Authorise up to 0.9 Percent of Issued Capital for Use in Stock Option Plans*

It is proposed to approve a restricted stock option plan for employees and corporate officers. The Board would receive the authority to set beneficiaries and other conditions. After allotment, shares will be restricted for three years, which is not considered to be sufficiently long term. The Company states that exercise of shares will be based on targets, which at this time remain undisclosed.

Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clear performance criteria, targets and conditions. On balance, opposition is recommended.

*Vote Cast: Oppose*

**ALUMINA LTD AGM - 24-05-2018****2. Approve the Remuneration Report**

In accordance with Section 250R of the Australian Corporations Act, the directors are seeking approval of the remuneration report. The Act does not require directors to act on approval of the resolution and the vote is advisory.

The CEO's total fixed remuneration constitutes 76% of his total pay. Variable incentives awards are capped at less than 200% of his fixed remuneration as such they are considered to be within acceptable limits. The CEO did not receive their annual bonus during the year under review. He however received share based payments amounting to AUD 195,376. Features of the Long Term Incentive Plan are not considered adequate as awards are subject to one performance condition used on two different comparators. It is recommended that multiple interdependent performance indicators be used which include non-financial metrics. The three-year performance period is not considered sufficiently long term. In the event of a takeover, performance conditions and pro-rata for time in service may be waived which is against best practice. An oppose vote is recommended.

Vote Cast: *Oppose*

**3.C. Elect John Bevan**

**4. Approve Equity Grant to Executive Director**

The Board is seeking shareholder approval for the purposes of ASX Listing Rule 10.14 for the grant of performance shares to Mr Michael Ferraro, Chief Executive And Managing Director, under the Company's Long-term Incentive Plan. The Company offered 141,900 Performance Rights in June 2017 to Mr Ferraro on a pro rata basis on his appointment on 1 June 2017 and also offered 198,000 Performance Rights in January 2018. The proposed grant has a maximum value of AUD 450,000 as established within the Company's remuneration policy.

Awards are subject to one performance condition, the TSR. Whilst it is noted that two different comparator groups are used, it is recommended that multiple interdependent performance indicators be used which include non-financial metrics. LTI awards have a three-year performance period, which is not considered sufficiently long term. No holding period is used. Opposition is therefore recommended.

## **DASSAULT AVIATION SA AGM - 24-05-2018**

### *O.7. Approve 2018 Compensation Policy for the CEO*

It is proposed to approve the remuneration policy for the General Manager with a binding vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. The remuneration policy includes bonus shares worth EUR 750,000 which will vest after one year and have an additional holding period. However, the Company has not fully disclosed quantified targets for the bonus shares. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there do not seem to be claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

### *O.8. Approve 2018 Compensation Policy for the Deputy CEO*

It is proposed to approve the remuneration policy for the General Manager with a binding vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. The remuneration policy includes bonus shares worth EUR 675,000 which will vest after one year and have an additional holding period. However, the Company has not fully disclosed quantified targets for the bonus shares. #### *O.12. Approve Additional Pension Scheme Agreement with the Chairman and CEO*

Proposed retirement arrangement for Eric Trappier, the Chairman and CEO in compliance with the Macron Law.

Although it is welcomed that shareholder approval will be required for all new retirement agreements, it is believed that top hat retirement compensation are not an appropriate way of compensating executives, as they remunerate beyond the executive's term and are mostly unrelated to the impact on company value that the executive may have enhanced.

#### *E.15. Authorize up to 0.43 Percent of Issued Capital for Use in Restricted Stock Plans*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted stock options, each of which will give right to one share. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure. LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). ## 2. *Approve the Remuneration Report*

Overall disclosure is satisfactory. The CEO's salary is in line with the rest of the Company, as the CEO's salary did not change while employee salaries rose by 5.4%. The ratio of CEO pay compared to average employee pay is not acceptable at 27:1. Awards granted during the year under review are excessive, amounting to 225% of salary for the CEO. Total variable pay for the year under review was highly excessive at 2372% of salary. Legacy incentives, in the form of awards granted in 2014 under the Management Incentive Plan (MIP), amounted to £10,973,879 alone, representing 2310% of salary. Given that the recommended limit for total variable pay is 200% of salary, such a payout is considered excessive and inappropriate. The excessiveness of this award is not the only point of concern, as the Company reports that all conditions were met, leading to full vesting of the MIP interests. This suggests that the performance conditions and targets were not stretching, and were designed to not only lead to a large payout, but also be easily fulfilled rather than testing.

### **ENEL SPA AGM - 24-05-2018**

#### *O.5. Approve 2018 Long Term Incentive Plan*

The proposed LTI Plan consists of the award of a monetary incentive that may vary, depending upon the level of achievement of three-year performance objectives upon which the Plan is conditioned from 0 up to 180% of the base value (for Senior Managers) and 280% for the CEO/GM. The exercise of the LTI Plan is conditioned upon the achievement of specific performance objectives over three-year period 2018-2020, although deferral provides that payment is made in full after two years (30% of the payment in 2021 and 70% in 2022). The Company discloses fully quantified targets in advance, which is above average in this market. The vesting period is considered to be short-term, but there are excessiveness concerns, as it may range up to 280% of the fixed salary. Together with concerns over the ability to maintain variable remuneration under 200% of the fixed salary, opposition is recommended.

#### *O.6. Approve Remuneration Policy*

The 2018 remuneration policy takes into consideration the new legal and economic treatment granted to the Chairman and the Chief Executive Officer/General Manager. It is proposed to approve the remuneration policy with an advisory vote. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. In fact, although the increase of the maximum award level to 280% of the base award is consistent with the analysis of the European Peer Group referenced as benchmark in the Remuneration Policy, where the maximum award level stands at 250% at median and at 338% at the third quartile, it is still considered to be excessive. The CEO is entitled to severance indemnities equal to 2 years fixed compensation, in lieu of notice. Although it is still above what it is considered to be best practice, it is the average level in this market. There are claw back clauses in place over the

entirety of the variable remuneration, which is welcomed.

Despite potential excessiveness concerns, keeping variable remuneration under 200% of the salary was considered a decisive argument, when support was recommended, for ENEL's remuneration policy in the past. Accordingly, abstention is recommended at this meeting.

### 3. *Approve Remuneration Policy*

The shareholding guidelines will be altered so that Executives will be required to build a shareholding equal to the level of their largest outstanding LTIP award on a 1

for 1 basis. A two-year post-vesting holding period will apply to LTIP awards. Malus and clawback provisions. There will be an additional malus and clawback event referring to mathematical errors in calculating the incentive outcomes. The new policy provides further clarity on termination and change of control provisions and the specifying the terms for good leavers. Under the new policy, the Remuneration Committee has the power to exercise discretion to dis-apply time pro-rating on STIP and LTIP awards.

Overall disclosure is satisfactory. Pension contributions and entitlements are disclosed, although they are considered excessive. For the STIP, up to 100% of salary is paid in cash and 50% of salary deferred into equity in the Deferred Share Bonus Plan. This is not considered adequate, as it is recommended that at least half of the annual bonus is deferred into shares. At three years the performance period of the LTIP is not considered sufficiently long term. However, under the new policy a two year post-vesting holding period will be introduced, which is welcomed. The Company uses more than one performance condition, although they are both financial based and payout can be achieved if only one of the performance conditions is met. it is recommended that at least one non-financial KPI is used, and that performance conditions operate interdependently. Total potential variable pay is excessive at 350% of salary. The new shareholding guidelines are not welcomed. A clear guideline presented as a percentage of salary set against a time-frame is preferable. On termination the Committee may dis-apply time pro-rating on STIP and LTIP awards. Such use of upside discretion is considered inappropriate. Under the new policy there will be specified provisions for incentive awards in the event of a change of control. The new provisions allow the Committee to exercise upside discretion to dis-apply time pro-rating, which is contrary to best practice.

#### 4. *Approve the Remuneration Report*

Overall disclosure is satisfactory, although the Company has not disclosed the salaries of Executives for next year. The CEO's salary is in line with the rest of the Company, as the CEO's salary rose by 1% while the salaries of all colleagues, as reported by the Company, increased by 3.9%. The changes in CEO pay over the last five years are not considered in line with the changes in TSR performance over the same period. Total variable pay for the year under review is excessive at 386.5% of salary. The ratio of CEO pay compared to average employee pay is not acceptable at 35:1. The CEO's salary is in the upper quartile of the Company's comparator group.

The remuneration report received significant opposition (28.67%) at last year's AGM. Although there was shareholder engagement with regard to remuneration matters, there is no evidence that there was any shareholder engagement undertaken specifically to understand and address the concerns which led to the significant opposition.

Mr Mapp formerly served with Taylor & Francis Group plc, which merged with Informa in May 2004. There are concerns over the director's potential aggregate time commitments as he chairs the board of Mitie Group plc and Huntsworth plc in addition to his chairmanship at Informa plc. He is the Chairman of the Nomination Committee and no target has been set to increase the level of female representation on the Board, which is currently insufficient at 22%. Although there was shareholder engagement with regard to remuneration matters, there is no evidence that there was any shareholder engagement undertaken specifically to understand and address the concerns which led to the significant opposition. In addition, the Company's remuneration practices for the year under review are considered substandard. As Chair of the Remuneration Committee, he harbours the responsibility to address such issues. #### 18. *Amend the Informa 2014 Long-Term Incentive Plan*

Authority is sought to make the following amendments to the Company's long-term incentive plan: the introduction of a power to decide whether to time pro-rate awards on a change of control or when a participant leaves employment with the Informa group as a good leaver due to death, injury, ill-health, disability, redundancy, retirement, the employing company no longer being part of the Informa group or another reason permitted by the Informa board; and an increase in the aggregate maximum value of awards that may be granted to an executive Director in any financial year from 200% to 325% of base salary.

The proposed changes are contrary to best practice. The use of upside discretion to dis-apply time pro-rating is considered inappropriate. In addition, the increase in the maximum opportunity is considered excessive, as total variable pay under the policy already exceeds the recommended limit of 200% of salary. In light of the concerns raised, an oppose vote is recommended.

#### 20. *Approve Increase in Non-Executives Fees*

Authority sought to increase aggregate fees for Non-Executive Directors from £1,000,000 to £1,500,000. The Company's rationale is to increase the fees for existing Non-Executive Directors, to reflect the growth in the Informa group's size and complexity, as well as to provide flexibility for the Company to make additional appointments.

The change in the fee limit represents a 50% increase; such an increase is considered excessive, particularly when taking into consideration the significant headroom, which is currently at 29%. An oppose vote is recommended.

## **SYDNEY AIRPORT AGM - 25-05-2018**

### *1. Approve the Remuneration Report*

In accordance with Section 250R of the Australian Corporations Act, the directors are seeking approval of the remuneration report. The Act does not require directors to act on approval of the resolution and the vote is advisory.

STI awards are capped at 100% of fixed remuneration, however, potential awards for the CEO under all incentive schemes may exceed recommended limits as the LTI awards are not capped. It is noted that no LTI awards vested for the year under review. There are concerns over features of the Long Term Incentives (LTI) plan, as awards are based on performance conditions which are not applied interdependently. A third of the LTI awards vest based on the Board discretion. Performance conditions for this portion, if any, have not been provided. The three-year performance period is not considered sufficiently long term. It is unclear how outstanding LTI awards vest in the event of cessation of employment or takeover. An oppose vote is recommended.

Vote Cast: *Oppose*

### *5. Approve Equity Grant to Executive Director*

The Boards is seeking shareholder approval for the grant of 181,698 performance shares to Chief Executive Geoff Culbert, under the Company's Long-term Incentive Plan. The proposed grant has a value of AUD 1,200,000 which equates to 100% of his fixed remuneration.

Awards will vest based on performance conditions which are not applied interdependently contrary to best practice. The TSR vesting scales are not considered to be sufficient broad as they do not allow for three deciles between performance levels. Also, 50% of awards vest for threshold targets, for all performance conditions. This level is considered excessive. It is welcomed that a non-financial performance metric might be used, however, specific targets have not been disclosed. The awards have a three-year performance period, which is not considered sufficiently long term and no further holding period is used.

LTIP based schemes are inherently flawed. There is the inherent risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They are inherently acting as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure. Opposition is therefore recommended.

### *13. Approve the Ferrexpro Long Term Incentive Plan*

Shareholders are being asked to approve the Ferrexpro Long Term Incentive Plan. Under the LTIP, awards will take the form of either: a conditional right to receive ordinary shares in the Company or, alternatively, cash, which will be automatically transferred to the participant following vesting (a Conditional Award); or a nil or nominal-cost option over Shares, exercisable by the participant following vesting during a permitted exercise period. Features of the plan do not meet best practice.

The flexibility to grant awards in cash is not acceptable. The individual maximum award is 200% of salary normally and 300% in exceptional circumstances. The 200% limit is considered excessive given the existence of an annual bonus plan and the exceptional circumstances limit is not considered appropriate. The performance period is three years, which is not considered sufficiently long-term however a two year holding period is used. Award holders may receive a payment in cash or shares equal in value to any dividends that would have been paid. Such rewards misalign shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not. Furthermore LTIP based schemes are inherently flawed. There is a risk that they are rewarding volatility rather than the performance of the company. They can act as a complex and opaque hedge against absolute company under-performance and long term share price falls. They are also a significant factor in reward for failure. An oppose vote is recommended.

## **OLD REPUBLIC INTERNATIONAL CORPORATION AGM - 25-05-2018**

### *2. Appoint the Auditors*

KPMG proposed. No non-audit fees were paid to the auditors in the past three years. This approach is commended. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

### *3. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BCE. Based on this rating, it is recommended to oppose.

### *5. Appoint the Auditors*

PwC proposed. Non-audit fees represented 47.68% of audit fees during the year under review and 52.74% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

#### *6. Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights*

The authority sought is limited to 20% of the Company's issued share capital and expires at the next AGM. This exceeds the recommended acceptable threshold. An oppose vote is recommended.

*Vote Cast: Oppose*

#### *9. Approve New Executive Share Option Scheme/Plan*

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives will be awarded options/OR/rights to shares, which will start vesting after three years from the date of award. At this time, it seems that this plan will not be based on any performance criteria but only on the beneficiaries continued employment. As a result, they may receive bonuses unrelated to their performance or even the performance of the Company as a whole, which is considered a serious frustration of shareholder accountability.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

## HOCHSCHILD MINING PLC AGM - 25-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. Central Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

PIRC issue: However, it is noted that during the period under review there were two recorded fatalities. There were also two recorded fatalities shortly before the review period. These represent an increase over a five year average and raise concerns over health and safety policies.

Vote Cast: *Oppose*

Results: For: 99.7, Abstain: 0.1, Oppose/Withhold: 0.2,

### 2. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed as is the performance criteria and specific targets attached to the LTIP awards. However, dividend accruals are not separately categorised.

**Balance:** Total variable pay for the year under review was highly excessive, amounting to 525% of salary (Annual Bonus:125% of Salary & LTIP: 400% of salary). Furthermore, the balance of CEO realised pay with financial performance is not considered acceptable as the change in CEO total pay over the last five years is not aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 54.31% whereas, on average, TSR has increased by 43.93%. The CEO's salary is in the median range of the Company's comparator group. However, the ratio of CEO pay compared to average employee pay is 56:1, which is unacceptable.

Rating:BD

As the CEO's bonus exceeded his salary, it is recommended that Central oppose.

Vote Cast: *Oppose*

Results: For: 83.2, Abstain: 1.5, Oppose/Withhold: 15.2,

### 3. *Approve Remuneration Policy*

#### **Policy Changes**

The overall changes made to the remuneration policy are limited and therefore disappointing considering the magnitude of the remaining concerns. Although 50% of the LTIP award is now deferred for a further two years, this practice remains not aligned with market best practice. Pay-out under the annual bonus for 'threshold' and 'target' performance to be reduced to up to 50% and up to 75% of maximum opportunity, respectively. However, the metrics used for the Annual Bonus are not interdependent, best practice would see the bonus scheme only award directors if all performance conditions have been satisfied at their threshold levels, at minimum. Another change in the policy is that the use of the discretion granted under Listing Rule 9.4.2R is to be limited to the maxima set out in the Policy Table (unless in relation to a buy-out), and limited to recruitment. Whilst reducing the level of discretion able to be used is welcome, the buying out of awards undermines any retentive effect such awards might have and distorts the market for executive talent, therefore, this policy change is not considered sufficient.

**Disclosure:** Overall disclosure is considered adequate.

**Balance:** Total potential awards under all incentive schemes are considered excessive at 350% (417% in exceptional circumstances). Also, as stated previously, performance conditions for the Annual Bonus do not operate in an interdependent manner. There are also further concerns that annual bonus targets include health and safety targets, when ensuring the health and safety of colleagues should be a bare minimum and Executives should not be financially incentivised for achieving

this. The LTIP only utilises TSR as the sole metric. According to best practice, the scheme should operate at least two quantifiable performance metrics in an interdependent fashion. Furthermore, the LTIP should include non-financial indicators. The absence of Non-financial parameters to assess Executives' long-term performance is considered contrary to best practice as such factors allow the remuneration policy to focus on the operational performance of the business as a whole and the individual roles of each of the senior executives in achieving that performance. Financial parameters are generally beyond an individual director's control.

**Contracts:** On termination of employment, the policy on outstanding awards is that they vest on normal vesting date, although the Committee has discretion to accelerate, subject to satisfaction of the associated performance conditions and time-apportioned for the period worked. The policy also tolerates recruitment payments which compensate external recruits for forfeit awards in circumstances where the performance period or holding period or the performance conditions for such awards haven't been fulfilled.

#### 8. *Re-elect Eduardo Hochschild*

Chairman. Not considered independent upon appointment as he is the former executive Chairman. It is considered that a former executive may not have sufficient detachment to objectively assess executive management and strategy. Also, Mr Hochschild is the grand-nephew of the founder of the Company and the beneficial owner of 50.976% of the issued share capital. The Chairman should not be a controlling shareholder in order to protect the rights of the minority shareholders. Furthermore, he is the Chairman of the nomination committee and no target has been set to increase the level of female representation on the Board, which is currently insufficient at 12.5%.

### 16. *Approve the 2018 Hochschild Mining plc Long Term Incentive Plan*

Shareholders are being asked to approve the Hochschild Mining plc Long Term Incentive Plan. Maximum opportunity under the plan is 200% of salary (267% of salary in exceptional circumstances). Awards made under the LTIP have a performance and vesting period of at least three years. Vesting is based on the Company's TSR performance relative to specific sector-based comparator groups. 50% of vested awards is paid immediately on vesting in cash (less tax), and 50% after tax is invested in Company shares and normally required to be held for a further two years. We find the maximum opportunity to be excessive. Also, we would prefer to see 100% of the award deferred for at least two years. LTIP schemes are not considered an effective means of incentivising performance and are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company. They are acting as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure. ### 18. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

**BAYER AG AGM - 25-05-2018****2. Approve Discharge of Management Board**

In March 2017, the European Commission sent to Member States a draft regulation to ban all outdoor uses of neonicotinoids. This ban proposal was based on a November 2016 assessment from the European Food Safety Authority (EFSA). Since March 2017, the Commission's ban proposal was never voted upon by the EU Member States. Comitology is an informal way of describing the decision-making process of EU, where law-making is adjusted through committee work. The official name is 'committee procedure'. The wording appears to be also directly taken from an NGO press release. The result of that committee work is: During a commenting round, 11 Member States indicated their support, 11 Member States did not have a position and 6 Member States expressed comments against the current drafts. In February 2018, the EFSA published its scientific opinion on the new scientific data on the toxicity of neonicotinoids to bees. The EFSA stated that the validated data available so far did not allow to conclude that using such insecticides will lead to low or no risk to pollinators. The three so-called neonicotinoids have been partially banned since 2013. On 27 February, EU countries voted for a permanent ban on some of the most widely used pesticides linked to harming bees. It is expected to come into force by the end of 2018 and will mean they can only be used in closed greenhouse.

Bayer, a maker of neonicotinoids, disputed EFSA's findings, arguing that Neonicotinoids are systemic pesticides. Often, they are used to coat seeds to protect them when they are planted in the ground. After the seed germinates, the pesticide spreads throughout the growing plant and guards it against nibbling insects. But the insecticide is also present in the nectar and pollen, meaning pollinators get dosed, too.

Bayer declared there is no reason to believe that the restrictions on the use of neonicotinoids imposed within the EU will improve honey bee health. Colony losses in the first years following the imposition of restrictions do not indicate any improvement of honey bee health. Moreover, the loss of insecticidal seed treatments for major crops has led to more extensive use of foliar applications of insecticides, which may lead to an increased exposure of non-target organisms to crop protection products. There is also reason to fear that without seed treatments, the cultivation of some important bee forage crops, will no longer be profitable in some regions of Europe. As a result, farmers will turn to other crops that are not attractive to bees and that, in turn, might have a negative impact on bee forage availability.

The EFSA could not issue a conclusive statement regarding risk to pollinators, derived from the use of imidacloprid, clothianidin and thiamethoxam, while the explanation provided by the Company does not seem to address legal risk sufficiently. As a result, abstention on the discharge is recommended, as it is impossible to assess the potential impact on the Company, deriving from the enactment of the European Commission-proposed ban on the three substances (produced by Bayer)

**OLD MUTUAL PLC EGM - 25-05-2018****2. Approve the Quilter plc Performance Share Plan**

Shareholders are being asked to approve the rules of the Quilter plc Performance Share Plan (the "Quilter PSP"). Sufficient disclosure surrounding the nature of the plan has not been provided. The Company states that the awards granted to executive directors will be subject to the limits set out in the Quilter Directors' Remuneration Policy prevailing at the time of grant and so the maximum opportunity of the award has not been disclosed. Details of the specific performance conditions that will be attached to the plan have also not been disclosed. The Company has provided evidence that a post-vesting holding period of two years will be attached to awards made under the scheme which is in line with best-practice. Overall, LTIP schemes are not considered an effective means of incentivising performance and are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company. ## CONTOURGLOBAL PLC AGM - 25-05-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. The Company has not made a modern slavery statement. An oppose vote would normally be recommended in such a situation. However, this is the first financial year for the Company as a listed entity and the first year the Modern Slavery Statement requirement has applied. Furthermore, upon engaging with the Company it was revealed that the Company's drafted Modern Slavery Statement is due to go to the Board for final approval on 25th May 2018 and will be uploaded to the Company's website shortly thereafter and at the latest by 30th June 2018.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.9, Abstain: 0.0, Oppose/Withhold: 0.1,

### 3. *Approve Remuneration Policy*

This is the Company's first remuneration policy as a listed Company following the IPO on 14 November 2017. This remuneration policy took effect from the date of incorporation of 26th September 2017.

Disclosure is lacking with regard to performance conditions and targets for the LTIP, although the Company states that this is because the performance metrics for the initial awards have not yet been finalized. The performance period of the LTIP is not considered sufficiently long-term at three years, however the application of a two year post-vesting holding period is welcomed. The policy permits the payment of dividend equivalents on awards, which is not in line with best practice. Annual bonuses are payable in cash, with any bonus earned in excess of the target bonus deferred into shares which vest after at least two years subject to continued employment. The amount deferred into shares is not considered adequate, as it is recommended that at least half of the annual bonus is subject to share deferral. The Company uses more than one performance condition, although they do not operate interdependently. At 200% of salary, total potential variable pay is considered acceptable. The shareholding requirements set do not have a time-frame; for a shareholding guideline of 200% of salary, it is recommended that a time-frame of no longer than five years is set, or alternatively to hold all share incentive awards until the guideline is met, which is not the case for the Company as Directors are required to retain only half of share awards vesting. On termination the Committee can exercise upside discretion and dis-apply time pro-rating on LTIP and annual bonus awards, which is contrary to best practice. On a change of control the Committee may dis-apply time pro-rating on LTIP awards. The Company may make awards to certain members of the management (including the President and CEO) under the Private Incentive Plan (PIP), which was established by the majority shareholder in the Company prior to the IPO. Such legacy arrangements that are favourable to certain employees are not appropriate. On recruitment, the maximum opportunity under the annual bonus and LTIP can be increased to 150% and 200% of salary respectively; such an approach is considered inappropriate and can lead to excessive payouts.

### 4. *Approve the Remuneration Report*

Overall disclosure is lacking, as the Company has not disclosed the annual bonus targets for the year under review, stating that the targets were set in the context of the Company being a privately owned company and being unlisted for the vast majority of the financial year the full details of the actual targets are not disclosed. Total

variable pay for the year under review is acceptable, amounting to 74.8% of salary for the CEO. The ratio of CEO pay compared to average employee pay is acceptable, standing at 16:1. The CEO's salary is in the lower quartile of the Company's comparator group.

**15. Approve New Executive Share Option Scheme/Plan**

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

**2. *Approve the Remuneration Report***

Overall disclosure is adequate. The ratio of CEO pay compared to average employee pay is above the recommended ratio of 20:1, currently standing at 24:1. The change in the CEO's salary is in line with the rest of the Company, as the CEO's salary rose by 3.3% while the salaries of Spectris UK-based employees rose by 3.4%. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. Total variable pay for the year under review is acceptable, amounting to 140% of salary for the CEO.

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. Disclosure is substandard. The exact date for Executive LTIP awards granted has not been disclosed, the EBITDA targets for 2015 Standard Life Investment LTIP awards are not disclosed. In addition, Standard Life Investment annual bonus targets are not adequately disclosed.

The CEO's salary is in line with the rest of the Company, as the CEO's salary did not change while the change in the salaries of UK-based employees was an increase of 4.8%. The changes in CEO pay over the last five years are considered in line with the Company's TSR performance over the same period. Executive LTIP awards made during the year under review are excessive, amounting to 400% of salary for the CEO. In addition, the Company is planning to make further awards in 2018 also at 400% of salary. Total variable pay for the year under review is excessive at 307% of salary.

### *6. Approve Remuneration Policy*

Under the proposed policy there will be only one variable pay award, the Executive Incentive Plan (EIP), of which 75% is deferred in shares with no release of value to participants until the fifth year. There will be a scorecard for the initial determination of awards which measures performance over a backward looking period of one to three years; and the introduction of forward looking three-year underpin performance conditions for all deferred awards. Variable pay will overall cover a six-year period, and once the deferral and holding periods are taken into account, the total time horizons for awards extend to a period of up to eight years (up to three years trailing performance and 5 years vesting and holding period for deferred awards). The shareholding guidelines for the Co-CEOs will be 500% of salary, and 300% of salary for other Executives; the shareholding must be maintained for 12 months post departure from the Company.

Overall disclosure is satisfactory. Pension contributions and entitlements are disclosed and are not excessive. Under the Company's sole incentive plan, 75% is usually deferred into instruments (shares or fund units), which is considered adequate. The performance period is three years, which is not considered sufficiently long-term. However, there is a holding period as, where considered appropriate by the Committee, awards will be subject to a holding period to the end of the fifth anniversary of the grant date. Deferred awards will normally vest in equal tranches on the third, fourth and fifth anniversary of the grant date. Total variable pay is excessive at 700% of salary, which is the maximum opportunity for the Company's sole incentive plan. Moreover, current Executives may receive payment under legacy LTIP plans, which can potentially lead to excessive remuneration. The shareholding guidelines are considered adequate, however there is no time-frame set or specified.

In relation to contracts, rights to awards for good-leavers under the EIP will typically be pro-rated for time in service to termination as a proportion of the performance period and will, subject to performance, be paid at the normal time in the normal manner. However, the Committee can use upside discretion to dis-apply time pro-rating, which is contrary to best practice. Upside discretion can be exercised by the Committee in the case of legacy plans, as the Committee retains the discretion to dis-apply time pro-rating for good leavers and, in the case of the Group LTIP and Executive LTIP, performance pro-rating.

## POSTE ITALIANE SPA AGM - 29-05-2018

### O.3. *Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not fully disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. On balance, abstention is recommended.

Vote Cast: *Abstain*

### O.4. *Approve Equity-Based Incentive Plan Addressed to the Material Risk Takers of BancoPosta's Ring-Fenced Capital*

The Board proposes the approval of a new executive incentive plan. The Plan includes the following incentive schemes: 1) the Short-Term Incentive "MBO" scheme 2018; 2) the three-year Deliver Long Term Incentive scheme. The Plan includes incentive mechanisms for the Material Risk Takers of BancoPosta's Ring-Fenced Capital, with the award of 50% of such incentive in the form of phantom stocks (i.e., units tied to the value of Poste Italiane S.p.A. shares). Performance targets have not been fully quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

## ACCIONA SA AGM - 29-05-2018

### 4.1. *Re-elect Jose Manuel Entrecanales Domecq*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

Vote Cast: *Oppose*

#### 4.3. *Re-elect Javier Entrecanales Franco*

Non-Executive Director, not considered to be independent as he is representative of Tussen De Grachten, a significant shareholder. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

#### 4.4. *Re-elect Daniel Entrecanales Domecq*

Non-Executive Director, not considered to be independent as he is representative of Wit Europese Investerings, significant shareholder. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

#### 4.5. *Re-elect Ana Sainz de Vicuna Bemberg*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

Vote Cast: *Abstain*

#### 4.6. *Elect Javier Sendagorta Gomez del Campillo*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

Vote Cast: *Abstain*

#### 5. *Fix Number of Shares Available for Grants*

The Board proposes to amend the existing 2014-2019 share incentive plan. It is proposed to increase the maximum amount of available shares to 100,000. No other changes are proposed, and the Company has not disclosed quantified targets, which raises concerns the share incentive plan may lead to overpayments.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

#### 8. *Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive directors with an advisory vote. There are excessiveness concerns as the total variable remuneration exceeded 200% of the salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, opposition is recommended based on excessive remuneration.

**ABN AMRO GROUP NV AGM - 29-05-2018****7B. Authorise the Board to Waive Pre-emptive Rights**

The Board requests shareholder approval to exclude pre-emption rights on shares issued over a period of 18 months or until next AGM, proposed in the previous resolution. The corresponding authority for issuing shares without pre-emptive rights, requested in the previous proposal, does not exceed guidelines (10%). However it is considered that shareholders should be allowed to vote on such resolutions annually. Opposition is recommended.

Vote Cast: *Oppose*

**7C. Authorise Share Repurchase**

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

**FRAPORT AG FRANKFURT AIRPORT AGM - 29-05-2018****5. Appoint the Auditors**

PwC proposed. Non-audit fees represented 16.67% of audit fees during the year under review and 6.67% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Abstention is recommended.

Vote Cast: *Abstain*

#### 6.1. *Elect Uwe Becker*

Non-Executive Director, not considered to be independent as he is the City Treasurer of Frankfurt am Main, which holds a significant stake of the Company's issued share capital through Stadtwerke Frankfurt am Main Holding GmbH. There is insufficient independent representation on the Board. Opposition is recommended.

*Vote Cast: Oppose*

#### 6.3. *Elect Peter Feldmann*

Non-Executive Director, not considered to be independent as as the director is Lord Mayor of Frankfurt am Main which is a significant shareholder of the Company. There is insufficient independent representation on the Board. Opposition is recommended.

*Vote Cast: Oppose*

#### 6.4. *Elect Peter Gerber*

## ROYAL BANK OF SCOTLAND GROUP AGM - 30-05-2018

### 21. *Issue Shares with Pre-emption Rights in relation to the issuance of Equity Convertible Notes*

It is proposed to authorise the Board to grant rights to subscribe for or to convert any security into Ordinary Shares in the Company up to an aggregate nominal amount of £1.5 billion (which is equivalent to approximately 12.51% of the issued Ordinary Share capital of the Company as at 16 April 2018) in relation to one or more issues of Equity Convertible Notes (ECNs). This authority shall expire at the conclusion of the next Annual General Meeting of the Company, or 30 June 2019 (whichever is earlier).

In response to regulatory requirements and developments and to allow the Group to manage its capital in the optimal way, the Board has determined that the Group might wish to issue further loss-absorbing capital instruments in the form of ECNs when markets are favourable. The ECNs would convert into newly issued Ordinary Shares in the Company upon the occurrence of certain events (for example, the Group's capital ratios falling below a specified level), diluting existing holdings of Ordinary Shares. The Company issued ECNs in 2016 to the value of circa £2 billion equivalent to date at a £1.75 equivalent conversion price

This first resolution grants the Directors authority to allot Ordinary Shares or grant rights to subscribe for or to convert any security into Ordinary Shares up to an aggregate nominal amount of £1.5 billion, while the resolution 22 will allow to issue the same securities on a non-pre-emptive basis. Disapplying pre-emption rights may result in excessive dilution. The dilution involved for those shareholders not able to subscribe may significantly decrease their interest in the Bank.

The use of ECNs are not considered appropriate as they put investors at significant risk of dilution in the event that conversion occurs. ECNs are relatively new instruments and there are concerns that they may create a situation which whilst converting some debt to equity actually disincentivises equity investors from putting more new funds in to banks via rights issues, due to the dilutive effect of the conversion taking away much, or some, of the premium that would ordinarily accrue to shareholders. Recent events at Deutsche Bank has led to others voicing their concerns about the destabilising effect of ECNs on both the ECN price and the share price. Based on these concerns, an oppose vote is recommended.

### 2. *Approve the Remuneration Report*

**Disclosure:** Overall disclosure is considered acceptable.

**Balance:** The changes in CEO pay over the last five years are not considered in line with Company's TSR performance over the same period. The variable pay of the CEO represent 102.4% of his salary. While this is considered acceptable, the grant of an additional Fixed Share Allowance worth 100% is not supported. The ratio of CEO to average employee has been estimated and is found unacceptable at 53:1. The 2017 LTI award was granted at 287% of salary which is considered excessive, being over 200% of the CEO's salary.

### 20. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice

would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### **CELLNEX TELECOM S.A. AGM - 30-05-2018**

#### *4. Approve the Dividend*

Approve the distribution of a dividend charged to the share premium reserve to a maximum of EUR 63 million, payable in one or more installments during the years 2018, 2019 and 2020. Although legal in this market, it is considered that the share premium account should be moved into distributable reserves through a reduction of capital, and it should not be used as distributable reserve per se. As the Company proposes a direct distribution from the share premium account, opposition is recommended.

Vote Cast: *Oppose*

#### *5. Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria for its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these grounds, opposition is recommended.

#### *E.21. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

#### *E.21. Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for 10% of the current share capital. However, the duration of the authority exceeds 12 months. It is considered that shareholders should have the occasion to vote on such resolutions annually.

Vote Cast: *Oppose*

Results: For: 96.0, Abstain: 0.1, Oppose/Withhold: 3.9,

#### *E.22. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

#### *E.23. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

#### *E.24. Approve Issue of Shares Deviating from Price Fixing Conditions*

The Board requests authority to issue capital related securities without adhering to the general pricing conditions. Under this authority, the company would be authorised to issues shares at a discount of 10% up to a total of 10% of the issued share capital over a period of 12 months. Given concerns over the level of discount and the amount of the authority, opposition is recommended.

#### *E.26. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

Proposed authority to issue up to 10% of the share capital to be used in exchanges in times of public offer initiated by the Company. At this time, the Company has not disclosed specific plans to future exchange offers. As the proposed authority exceeds guidelines, and in absence of specific reasons, opposition is recommended.

#### *E.27. Authorize up to 3% of Issued Capital for Use in Restricted Stock Plans*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

#### *E.28. Approve Issue of Shares for Employee Saving Plan*

Authority for a capital increase for more than 2% of the share capital for employees participating to saving plans. The maximum discount applied will be 20% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. However, the amount of the authorisation exceeds guidelines (2%). Opposition is therefore recommended.

#### *E.29. Approve Issue of Shares for International Employee Saving Plan*

Authority for a capital increase for more than 2% (together with the previous resolution) of the share capital for international employees participating to saving plans. The maximum discount applied will be 20% on the market share price. It is considered that it is in the best interests of the company and its shareholders to provide employees with an opportunity to benefit from business success and increase their share ownership. ### **FIDELITY NATIONAL INFORMATION SERVICES INC. AGM - 30-05-2018**

#### *1f. Elect Director Gary A. Norcross*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

#### *2. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: CEC. Based on this rating, it is recommended that shareholders oppose.

At the AGM in 2017, this proposal received 17.2% votes against.

### 3. *Ratify KPMG LLP as Auditors*

KPMG proposed. Non-audit fees represented 5.26% of audit fees during the year under review and 10.85% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### 4. *Amend Omnibus Stock Plan*

The Board is seeking approval to the amendment and restatement of the FIS 2008 Omnibus Incentive Plan. The primary purpose of the amendment to the Omnibus Plan is to provide for the issuance of Employee Stock Purchase Plan ("ESPP") awards under the Amended Plan. The ESPP is a non-qualified plan, not a qualified employee stock purchase plan under Section 423 of the Internal Revenue Code. The Company provides matching contributions to employee contributions. There are concerns with the Plan as the it has various elements bundled together, and although parts of it can benefit the majority of employees, it can still be used as a vehicle for potentially excessive executive payments. As performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that the Committee will have considerable flexibility in the payout of discretionary awards and as a result awards may not be subject to robust enough performance targets, and be insufficiently challenging. In addition, maximum award limits are excessive. As a result, shareholders are advised to oppose.

### *5. Shareholder Resolution: Report on Risks of Doing Business in Conflict-Affected Areas*

**Proposed by:** Not Disclosed.

The Proponent requests that the Board publish a report six months following the 2018 annual general meeting evaluating the feasibility of adopting a policy of not doing business with governments that are complicit in genocide and/or crimes against humanity.

**Proponent's Supporting Argument:** The Proponent argues that human rights organisations documented egregious human rights abuses by Burmese troops employed to secure the Yadana pipeline area, including forcible relocation of villagers and use of forced labor. Also, the Proponent argues that the International Coalition for the Responsibility to Protect (ICRtoP) monitors countries worldwide for instances of serious crimes under international law and in this regard, ICRtoP lists several countries, cited by the United Nations and civil society organisations, in which the Company is currently producing oil and gas: Burma (Myanmar), Democratic Republic of Congo, and Nigeria.

**Board's Opposing Argument:** The Board recommends shareholders oppose and argues that the Company's Human Rights Policy clarifies and reinforces the Company's responsibility to respect human rights, focusing on areas most salient to the Company's business: employees, security, community engagement, and suppliers. The Board argues that the Company's Corporate Policy on Security of Personnel and Assets (SP&A) supplements and reinforces its Human Rights Policy. Also, the Board argues that for more than 20 years, the Company, through its subsidiary Unocal Myanmar Offshore Co, Ltd. (UMOL), has worked with its joint venture partners in Myanmar to promote economic growth and development and that the Company is committed to operating responsibly in Myanmar, in accordance with The Chevron Way values, which apply everywhere the Company operates.

**PIRC Analysis:** Reporting on human rights issues allows shareholders to make an informed judgement on social and ethical risks related to their investment. The Company would not dispute this and have developed policies and a reporting structure on human rights and security. However, the Proponent has not, on balance, demonstrated how the proposed report would improve on the Company's existing policy, practices and reporting. There are some concerns over the Company's existing policies. For example, the Company conducts assessments prior to commencing major new projects or entering into sensitive operating environments, but fails to address whether it conducts reviews on whether to cease operations once a project has begun owing to human rights violations. As resolutions can only be evaluated against the argument brought forward in this proposal, a vote to oppose is recommended.

**O.11. *Approve Compensation of David Meek, CEO***

It is proposed to approve the remuneration paid or due to David Meek, CEO with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

**O.13. *Approve Remuneration Policy of CEO and/or Executive Officer***

It is proposed to approve the remuneration policy of the Chairman and other Executives. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. #### *4. Amend Articles: Ratify Existing Ownership Threshold for Shareholders to Call Special Meetings*

The Board is seeking stockholder ratification of certain provisions of the Amended and Restated Certificate of Incorporation (the "Charter") and Bylaws that grant stockholders who own at least 25% of the Company's outstanding shares of capital stock and satisfy other requirements the ability to direct the Company to call a special meeting of stockholders. The Company received a stockholder proposal in accordance with Rule 14a-8 under the Securities Exchange Act of 1934, as amended, asking the Board to take the necessary steps to amend its governing documents to give holders of 10% of the Company's outstanding shares of common stock the right to call a special meeting. The Company omitted the Stockholder Proposal from the Proxy Statement based on the Company's plans to submit this management proposal seeking ratification of the Company's current Special Meeting Threshold and Special Meeting Provisions.

The right to call a special shareholder meeting provides shareholders with a way of communicating with the Board and debating and voting on issues with the rest of shareholders, which in itself enhances shareholders' rights. The 25% threshold employed by the Board is considerably higher than the 10% suggested by the shareholder proposal. An oppose vote is recommended on the basis that this proposal essentially ignores the shareholder proposal brought forward but not presented at the general meeting.

**NOKIA OYJ AGM - 30-05-2018****9. *Discharge the Board and the CEO from Liability***

Standard proposal. However, the financial results of the Company for the year under review and the last years are not positive and the Management does not seem capable to invert this trend. The loss for the year has increased 58% from 2016 and the share value has dropped in the last years. It is considered that the Board of Directors and the CEO may not be able to maintain the Company with ongoing concerns. On that basis, an abstention is recommended.

### *7. Approval of the Guidelines for Allocation of Options*

The Board proposes the renewal of the equity based incentive plan. Under the plan, the CEO and other executives will be awarded options/rights to receive shares, which will start vesting after four years from the date of award. At this time, it seems that this plan will not be based on any performance criteria but only on the beneficiaries continued employment. As a result, they may receive bonuses unrelated to their performance or even the performance of the Company as a whole, which is considered a serious frustration of shareholder accountability.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

### 13. *Re-elect Alberto Tiburcio*

Non-Executive Director. Not considered independent as he was Chairman and Chief Executive Officer of Mancera S.C., the Mexican firm of EY, the Company's auditors, in June 2013. The Company states that Mr Tiburcio was not involved in the provision of audit or any other services to the Company by Ernst & Young LLP prior to his retirement. It is also noted that Mr Tiburcio is a Non-Executive Director of Grupo Nacional Provincial, S.A.B. and Profuturo Afore, S.A. de C.V., which are companies within the BAL Group. There is insufficient independent representation on the Board.

PIRC issue: He is Chair of the Audit Committee, which should be fully independent.

Vote Cast: *Oppose*

Results: For: 99.5, Abstain: 0.0, Oppose/Withhold: 0.5,

### 16. *Approve Remuneration Policy*

The policy was put forward for shareholder approval at last year's AGM and was subsequently approved. Overall disclosure is acceptable. Under the policy, variable remuneration is capped at 50% of salary which is considered acceptable. No LTIP is in use which is in line with best practice. The policy on recruitment and termination does not raise concerns. Rating: ABB.

The policy is being put forward for shareholder approval at this year's AGM for the purpose of approving the following amendment: to enable a fee of £15,000 per annum to be paid to the Chairman of the Audit Committee (in addition to his normal director fees). The proposed fee represent approximately 35% increase in salary. Such an increase is considered excessive, particularly with no adequate justification provided.

Vote Cast: *Oppose*

Results: For: 99.4, Abstain: 0.0, Oppose/Withhold: 0.6,

### 17. *Appoint the Auditors*

EY proposed. Non-audit fees represented 1.91% of audit fees during the year under review and 0.98% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 99.6, Abstain: 0.0, Oppose/Withhold: 0.4,

### 21. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice

would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

#### *8. Approve Terms of Appointment for Yu Zheng*

Non-Executive Director. Not considered to be independent as he has been on the Board for over nine years. An annual remuneration of HKD 176,000 is proposed to be paid to the director. The service term of the director will be from the date of the AGM to the date of the AGM next year, which is expected to be no later than 31 May 2019. Although no serious concerns have been identified with either the fees or the term, there is insufficient independent representation on the Board. As this is a bundled item, an oppose vote is recommended.

*Vote Cast: Oppose*

#### *10. Appoint the Auditors*

Deloitte proposed. No non-audit fees were paid to the auditors in the past three years. This approach is commended. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

*Vote Cast: Oppose*

#### *11. Approve General Share Issue Mandate*

The authority expires at the next AGM and is limited to 20% of the share capital. This level exceeds recommended limits. An oppose vote is recommended.

*Vote Cast: Oppose*

#### *13. Extend the General Share Issue Mandate to Repurchased Shares*

The Directors seek authority to re-issue under the authority granted in proposal 11 those shares repurchased under the authority granted by proposal 12. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

### *2. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: CCB. Based on this rating, it is recommended that shareholders abstain.

*Vote Cast: Abstain*

### *3. Appoint the Auditors*

PwC proposed. Non-audit fees represented 23.02% of audit fees during the year under review and 24.47% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Abstain*

#### *4. Shareholder Resolution: Establish International Policy Board Committee*

**Proposed by:** Jing Zhao

The Proponent requests that Twitter, Inc. establish a Public Policy Committee of the Board of Directors to oversee Twitter's policies and practice that relate to public policy issues including human rights, corporate social responsibility, charitable giving, political activities and expenditures, foreign governmental regulations and international relations that may affect Twitter's operations, performance, reputations and stockholders value.

**Proponent's Supporting Argument:** The Proponent argues that Twitter has become the most used public policy platform in the US (such as @realDonaldTrump) and the world (including political dissidents in China even where Twitter is blocked to operate). There is not a committee to deal with public policy issues affecting the Company's business. Since "[d]uring fiscal 2016, our nominating and corporate governance committee held 1 meeting" (Notice of Annual Meeting of Stockholders 2017, p.17) only, the nominating and corporate governance committee did not deal with public policy issues. The Proponent adds that Twitter should establish a committee to deal with increasingly complicated public policy issues.

**Board's Opposing Argument:** The Board is against this proposal as it and management have devoted, and continue to devote, significant effort to ensure that it is aware of and able to properly address public policy issues of importance to its business. The Board of Directors, as assisted by its committees, has ultimate responsibility for the oversight of risk management, including the responsibility to satisfy itself that risk management processes are appropriate and functioning as designed, including with respect to strategic, financial, business and operational, legal and compliance, and reputational risks and exposures associated with business strategy, cybersecurity, privacy, product innovation and product road map, policy matters, significant litigation and regulatory exposures, significant transactions and other current matters that may present material risk to the Company's financial performance, operations, infrastructure, plans, prospects or reputation.

**PIRC Analysis:** The Proponent's request is considered overly prescriptive as it means the formation of a new standing committee. Also, it is considered that the Board has established a process for overseeing the Company's policies relating to corporate social responsibility. An oppose vote is recommended.

#### 13. Approve the Remuneration Report

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed as are the 2017 personal objectives targets under the annual bonus and performance conditions for both share incentive plans. It is also particularly welcome to see that dividend accrual has been separately detailed.

**Balance:** Total variable pay for the year under review is considered excessive, amounting to approximately 295.4% of salary (Annual Bonus:195.6% of salary & LTIP: 99.8% of salary). Also, the ratio of CEO pay compared to average employee pay is at an acceptable level, currently standing at 37:1. However, the balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over the last five years is aligned to the change in TSR over the same period. Over the five year period average annual increase in CEO pay has been approximately 18.8% whereas, on average, TSR has increased by 21%. Furthermore, the CEO's salary is considered to be in the median range when compared to salaries of CEO's operating in a similar sector and index.

Rating: AC.

**2. *Approve New Long Term Incentive Plan***

The Board is seeking approval of the 2018 Stock Incentive Plan. The plan authorizes the award of stock-based incentives to encourage eligible employees, officers, directors, and consultants. It is considered that, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, shareholders are recommended to oppose the resolution.

## 2. *Approve Remuneration Policy*

**Disclosure:** Disclosure is not in line with best practice.

**Balance:** Total potential rewards for the CEO under all incentive schemes are considered excessive at 700% of salary in exceptional circumstances and 375% of salary normally. For Executive Directors, it is expected that annual bonus above 100% will be deferred into shares for two years. There is no formal performance period for the LTIP. It is stated that performance conditions may be achieved, so that awards vest, before the third anniversary of the date of grant. However, vested shares will ordinarily, only be released to the Executive Directors so that they can dispose of them (other than sales to cover tax liabilities arising in relation to the award) before the fifth anniversary of the date of grant of the award if the Executive Director satisfies the shareholding guideline. LTIP's may be based on financial and strategic measures. However performance conditions are not stated. Two or more performance criteria operating interdependently are considered best practice. Malus and clawback provisions operate on the annual bonus and LTIP.

**Contract:** Maximum notice period cannot exceed one year in any circumstance. There is no evidence to suggest there are exceptional limits for recruitment included in the policy. However it is noted that the Remuneration Committee has discretion to include other elements of pay for new Executive recruits. In addition, the Remuneration Committee has significant discretion to alter terms of the bonus or LTIP upon recruitment. There is no evidence that upside discretion may not be exercised by the Committee for 'good leavers' and on a change of control. It is noted that the CEO's notice increases to 12 months on a change of control.

#### *17. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### **RAYTHEON COMPANY AGM - 31-05-2018**

#### *1f. Elect Director Thomas A. Kennedy*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

#### *3. Ratify PricewaterhouseCoopers LLP as Auditors*

PwC proposed. Non-audit fees represented 2.26% of audit fees during the year under review and 8.05% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**5. Appoint the Auditors**

PwC proposed. Non-audit fees represented 30.90% of audit fees during the year under review and 55.07% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**6C. Extend the General Share Issue Mandate to Repurchased Shares**

The directors seek authority to re-issue under the authority granted in proposal 6A those shares repurchased under the authority granted by proposal 6B. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

#### *7. Shareholder Resolution: Report on Gender Pay Gap*

**Proposed by:** Not disclosed.

The Proponent asks for the Board to prepare a report, omitting proprietary information and at reasonable cost, on the Company's policies and goals to reduce the gender pay gap. The report should include the percentage pay gap between male and female employees across race and ethnicity, including base, bonus and equity compensation, policies to address that gap, methodology used, and quantitative reduction targets.

**Supporting Argument:** The Proponent cites a number of statistics regarding the gender pay gap in the US generally and within the technology workforce more specifically. The Proponent also cites statistics that indicate gender diversity leads to better corporate financial performance. At Facebook, approximately 33 percent of the Company's employees are women, and women account for only 27 percent of the firm's leadership. S&P 500 peers companies including Intel, Apple, Expedia, Adobe, Amazon, Microsoft, and eBay have publicly reported and committed to gender pay equity.

**Opposing Argument:** The Board recommends a vote against the proposal. The Board states that the Company already publishes an annual report on its global workforce gender diversity and U.S. ethnic diversity, and that it has taken steps to increasingly diversify the workforce with respect to women and minorities, including partnerships with other technology companies. The Board also states that it has previously completed and shared a statistical analysis and conclusion that women and men performing similar work earn the same compensation at the Company.

**Conclusion:** A vote against the resolution is recommended. The Board has demonstrated that the existing disclosure regarding pay parity at the Company and its ongoing efforts in this regard adequately address the concerns identified by the Proponent.

## **CARD FACTORY PLC AGM - 31-05-2018**

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. However, it is noted that the Company paid a special dividend of 15p per share during the year and has not provided shareholders with an opportunity to approve said dividends. The vote by shareholders on the payment of a dividend on unqualified accounts, discharges the duties of the directors in tandem with the legal responsibilities of the auditors, and reaffirms the necessity of reliably audited accounts for financial governance to function properly. Given the lack of opportunity to approve the dividend, shareholders are recommended to oppose.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

### 10. *Approve Remuneration Policy*

**Policy Changes** On the whole, the proposed policy changes are welcome. The LTIP award is being replaced with a Restricted Shares. The introduction of this scheme will lower the overall quantum of the variable award opportunity which is welcome and, although no formal performance conditions are attached to the award, the Committee states it will consider financial and non-financial KPIs of the business as well as delivery against strategic priorities. The maximum pension opportunity is now 5% of salary which is not considered to be overly excessive. Furthermore, the policy will change so as to include more than one performance condition for the Annual bonus which is welcome. Also, the level of shareholding required to be built and maintained has increased from 200% and 150% of salary to 250% and 200% of salary for the Chief Executive and Chief Financial Officer, respectively which, although no time-limit has been applied to the requirement, further aligns directors objectives with those of the shareholder. Although the proposed changes are welcome, there remain some important concerns surrounding the new policy.

**Balance:** Total potential awards under all incentive schemes amount to 212.5% which slightly exceeds PIRC's best practice guideline of 200%. Also, there is no deferral period in place for the Annual Bonus, If participants have not met the minimum shareholding requirement, one third of the bonus (after payment of tax) must be used to acquire shares in the Company which must be held for three years, this approach is not in line with best practice as we would prefer to see at least 50% of the annual bonus deferred. Furthermore, the performance metrics are not operating interdependently, such that vesting under the incentive plan is only possible where all threshold targets are met.

**Disclosure:** Overall, disclosure is considered adequate.

**Contracts:** In the event of termination of employment, vesting of outstanding awards may be accelerated, fully. Also, the Committee has discretion to dis-apply the performance conditions and time pro-rata for time in service which is not considered appropriate.

Rating: BCC

Based on this rating it is recommended that Central abstain.

### 11. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed as are the future performance conditions and past targets for annual bonus.

However, dividend accrual is not separately categorised.

**Balance:** Increase in CEO salary (0.8%) is stated to be in line with the rest of the Company (3.8%). However, it is noted that only a proportion of permanent employees was used as baseline comparator group (90% of permanent employees) with CEO's salary. The use of a selected comparator base undermines the merit of this comparison. The ratio of CEO pay compared to average employee pay is considered excessive at 50:1. However, the CEO's salary is below the lower quartile of a peer comparator group. Also, the CEO's variable pay for the Year Under Review is well below the recommended limit of 200% of salary.

Darren Bryant stepped down as CFO and retired from the Board on 31 July 2017. As a good leaver he will, to the extent that they vest based on performance, receive his outstanding pro-rated LTIP awards at the normal vesting date which is appropriate. The Committee exercised its discretion to disapply any holding period on any future vesting LTIP awards. The use of discretion in this context is deemed to be acceptable. However, Kris Lee, the newly-appointed CFO, was awarded a like-for-like buyout of his forfeited bonus of £150,000. This award represented the the like-for-like buyout of the forfeited bonus he had earned (based on the actual business performance of his previous employer) and is therefore considered acceptable.

### 4.2. *Adopt Financial Statements and Statutory Reports*

Non-financial information has not been disclosed. The EU Non-Financial Reporting Directive stipulates that member states are required to disclose a non-financial statement containing relevant information as prescribed in the directive. Although companies are allowed to publish such statement until six months after the end of the financial year, it is considered that it should be disclosed to all shareholders in occasion of the annual general meeting. On this ground, abstention is recommended.

### 6. *Approve Restricted Stock Grants to President and CEO*

It is proposed to approve the grant to Mr. Jean-Marc Chery of up to a maximum number of 100,000 common shares, in the form of Unvested Stock Awards. The stock awards (if any) will vest 32% one year, a further 32% two years and the remaining 36% three years, respectively after the date of the grant as defined by the plan, provided that Mr. Chery is still an employee at such time. Performance criteria are not quantified, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

Results: For: 59.5, Abstain: 0.1, Oppose/Withhold: 40.4,

### 7. *Re-elect Nicolas Dufourcq to Supervisory Board*

Non-Executive Chairman. Not considered to be independent as he is CEO of the investment bank of the French State. The French State holds a significant shareholding of the Company's share through STMicroelectronics Holding N.V. There is sufficient independent representation on the Board. However, as there are concerns over the director's potential aggregate time commitments and he has not attended to 100% of the meeting of the Supervisory Board. Therefore, abstain vote is recommended.

### *7. Authorise Share Repurchase*

The board is seeking shareholder approval to repurchase ordinary shares. The Company will repurchase shares at its discretion in accordance with a repurchase program to be approved by the Board. The maximum aggregate number of ordinary shares that may be purchased pursuant to the Share Repurchase Agreements shall not exceed 20% of the total issued ordinary shares of the Company. There can be no assurance as to whether the Company will repurchase any of its shares or as to the amount of any such repurchases or the prices at which such repurchases may be made. The board has not set forth a clear, cogent and compelling case demonstrating how the authority would benefit long-term shareholders. A vote in opposition is recommended.

## **COCA-COLA EUROPEAN PARTNERS AGM - 31-05-2018**

### *2. Approve the Remuneration Report*

Overall disclosure is adequate. Total variable pay for the year under review was not excessive, amounting to 16.8% of salary for the CEO, which consisted of only the annual bonus, as no LTIP awards vested. However, LTIP awards granted during the year under review for the CEO amounted to \$10,102,372, representing 918% of salary. Such an award is considered highly and unnecessarily excessive, particularly when considering that the recommended limit for variable pay is 200% of salary.

#### 9. *Re-elect Mario Rotllant Solá*

Non-Executive Director. Not considered independent as he is the Vice Chair of Olive Partners, the controlling shareholder of the Company and has been nominated to the Board by Olive Partners. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

#### 12. *Approve Political Donations*

The proposed authority is subject to an overall aggregate limit on political donations and expenditure of £150,000. The Company did not make any political donations or incur any political expenditure and has no intention either now or in the future of doing so. However, the aggregate total amount exceeds recommended limits. An abstain vote is recommended.

Vote Cast: *Abstain*

#### 13. *Issue Shares with Pre-emption Rights*

The authority is limited to one third of the Company's issued share capital. This cap can increase to two-third of the issued share capital if shares are issued in

connection with an offer by way of a rights issue. This resolution is in line with normal market practice and expires at the next AGM. However, not all directors are standing for annual re-election. An abstain vote is recommended.

*Vote Cast: Abstain*

#### *14. Approve Rule 9 Waiver*

The company are proposing a Rule 9 waiver, which will exempt the obligation that may arise for Olive (as members of the Concert Party) from the requirement of the City Code that they make an offer for the entire share capital of the company. If the Company were to repurchase from persons other than the concert party all the ordinary shares for which it is seeking authority, their interest would increase from approximately 34.2479% to approximately 38.0532% of the issued share capital. This resolution is not supported unless the concert party has provided a clear commitment to not further increasing its existing holding level in the Company following the share repurchase, which has not been the case. An oppose vote is recommended.

*Vote Cast: Oppose*

#### *16. Authorise Share Repurchase*

The authority is limited to 10% of the Company's issued share capital and will expire at the next AGM. This resolution will not be supported unless the Board has set forth a clear, cogent and compelling case demonstrating how the authority would benefit long-term shareholders. As no clear justification was provided by the Board, an oppose vote is recommended.

*Vote Cast: Oppose*

#### *17. Authorise Off-Market Share Repurchase*

The authority is limited to 10% of the Company's issued share capital and will expire at the next AGM. The Company has put forward this resolution due to the New York Stock Exchange, Euronext Amsterdam and the Spanish Stock Exchanges not being recognised investment exchanges for the purposes of section 693(2) of the Companies Act 2006, and thus repurchases conducted on these exchanges do not qualify as 'on-market' purchases.

This resolution will not be supported unless the Board has set forth a clear, cogent and compelling case demonstrating how the authority would benefit long-term shareholders. As no clear justification was provided by the Board, an oppose vote is recommended.

The Board is seeking approval of an amendment to the Certificate of Incorporation to add a new Article Eleventh designating the Court of Chancery of the State of Delaware as the sole and exclusive forum for specified legal actions unless otherwise consented to by the Company.

It is considered that the Board should remain accountable to its shareholders, regardless of the location for legal actions, and that shareholders should have as wide a range of options for bringing grievances against the Company where appropriate. Also, it is considered that designating the Court of Chancery of the State of Delaware as the exclusive forum for the adjudication of certain legal actions involving the Company would constitute a weakening of shareholder rights. **AKAMAI TECHNOLOGIES INC AGM - 01-06-2018****3. *Advisory Vote on Executive Compensation***

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BCC. Based on this rating, it is recommended to abstain.

Vote Cast: *Abstain*

**4. *Appoint the Auditors***

PwC proposed. Non-audit fees represented 22.62% of audit fees during the year under review and 22.42% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

**WYNN MACAU LTD AGM - 01-06-2018****2.C. *Elect Maurice L. Wooden***

Non-Executive Director. Not considered to be independent as he is an executive of Wynn Las Vegas, LLC, which is a subsidiary of Wynn Resorts, Limited, the controlling shareholder of the Company. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

**4. *Appoint the Auditors and Allow the Board to Determine their Remuneration***

EY proposed. No non-audit fees were paid to the auditors in the past three years. This approach is commended. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

**6. *Approve General Share Issue Mandate***

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

Vote Cast: *Oppose*

**7. *Extend the General Share Issue Mandate to Repurchased Shares***

The directors seek authority to re-issue under the authority granted in proposal 6 those shares repurchased under the authority granted by proposal 5. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

#### **1I. *Elect Director Harris H. Simmons***

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

## **BOLLORE AGM - 01-06-2018**

### *O.1. Approve Financial Statements and Discharge the Board*

At this time, the Company has not published an English language version of the Reference Document, which is regrettable as the Company is a large entity as defined by the EU Audit Directive, which has legislative relevance for the European Economic Area (EEA). Although there is no legal obligation in this market, it is considered that larger entities should publish also an English language version of their annual report, for consideration by international investors. In addition, the discharge of directors is not required by law and is increasingly uncommon at French general meetings. Voting in favour of a discharge resolution may have legal consequences regarding the ability of shareholders to pursue subsequent actions against the Board. On this basis, opposition is recommended.

*Vote Cast: Oppose*

### *O.2. Approve Consolidated Financial Statements and Statutory Reports*

At this time, the Company has not published an English language version of the Reference Document, which is regrettable as the Company is a large entity as defined by the EU Audit Directive, which has legislative relevance for the European Economic Area (EEA). Although there is no legal obligation in this market, it is considered that larger entities should publish also an English language version of their annual report, for consideration by international investors. On this basis, abstention is recommended. However, as abstain is not a valid voting option for this meeting, opposition is recommended.

Vote Cast: *Oppose*

### *O.9. Reelect Hubert Fabri as Director*

Non-Executive Director, not considered to be independent as he serves on the Board of Financiere de l'Odet, the controlling shareholder. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

### *O.10. Reelect Dominique Heriard Dubreuil as Director*

Non-Executive Director, not considered to be independent as she was the Chairman of the Nomination Committee at Vivendi until the 2014 AGM. Bollore is a significant shareholder of Vivendi. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

### *O.11. Reelect Alexandre Picciotto as Director*

Non-Executive Director, not considered to be independent as he is a family member of Sebastien Picciotto, former executive of the Company and significant shareholder. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

### *O.12. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

### *O.13. Approve Compensation of Vincent Bollore, Chairman and CEO*

It is proposed to approve the remuneration paid or due to the Chairman and CEO with an advisory vote. Vincent Bollore has received only fixed remuneration, although it is above average of market peers. In addition, he is currently under investigation by French Police, for alleged corruption in Africa, by the Company. Although considered innocent unless proven otherwise, and while the Company denies any wrongdoing, it is considered that the approval of his remuneration should not be supported, as a cautionary measure. As abstention is not a valid voting option, opposition is recommended.

Vote Cast: *Oppose*

#### *O.14. Approve Compensation of Cyrille Bollore, Vice-CEO*

It is proposed to approve the remuneration paid or due to Cyrille Bollore, Vice-CEO with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

*Vote Cast: Oppose*

#### *O.15. Approve Remuneration Policy of Vincent Bollore, Chairman and CEO*

It is proposed to approve the remuneration policy of Vincent Bollore, Chairman and CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

#### *O.16. Approve Remuneration Policy of Cyrille Bollore*

It is proposed to approve the remuneration policy of Vincent Bollore, Chairman and CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. #### *E.2. Amend Article 19 of Bylaws to Comply with Legal Changes Re: Double-Voting Rights*

It is proposed to amend the Articles of Association in order to indicate the automatic implementation of double voting rights. It is considered that companies should abide by the one-share, one-vote principle, which is deemed to be best practice. Opposition is recommended.

*Vote Cast: Oppose*

### **HENDERSON LAND DEVELOPMT LTD AGM - 01-06-2018**

#### *3.1. Elect Lee Shau Kee as Director*

Combined Chairman and Chief Executive. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal. An oppose vote is recommended.

*Vote Cast: Oppose*

### *3.5. Elect Leung Hay Man as Director*

Non-Executive Director. Not considered to be independent as he was a former Executive on the Company until 2004. In addition he has served on the Board for more than nine years. There is insufficient independent representation on the Board. An oppose vote is recommended.

*Vote Cast: Oppose*

### *4. Appoint the Auditors and Allow the Board to Determine their Remuneration*

KPMG proposed. Non-audit fees represented 60.33% of audit fees during the year under review and 52.20% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

*Vote Cast: Oppose*

### *5.C. Approve General Share Issue Mandate*

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

## *5. Approve Discharge of Management Board*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

## *10. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: CDC. Based on this rating, it is recommended that shareholders oppose.

Vote Cast: *Oppose*

*11. Authorize Repurchase of Up to 10 Percent of Issued Share Capital*

Under Dutch law and the Company's Articles of Association shareholder approval is necessary to authorise the Management Board to repurchase shares. At the annual meeting in May 2017, shareholders authorized repurchases of up to 10% of the shares. As of April 6, 2018, we have repurchased an aggregate of approximately 8.3 million shares pursuant to this authorization. The authority sought is limited to one year. The Board has not provided a clear, cogent and compelling case demonstrating (1) how the authority would benefit long-term shareholders and (2) that the directors are not conflicted in recommending the authority. On this basis, shareholders are advised to oppose.

Vote Cast: *Oppose*

**TOWNGAS CHINA CO LTD AGM - 01-06-2018**

*2.A. Re-elect Chan Wing Kin, Alfred*

Executive Chairman. It is a generally accepted norm of good practice that the Chairman of the Board should act with a proper degree of independence from the Company's management team when exercising his or her oversight of the functioning of the Board. Holding an executive position is incompatible with this and a vote to oppose is recommended.

Vote Cast: *Oppose*

*2.C. Re-elect Kwan Yuk Choi, James*

Non-Executive Director. Not considered to be independent as he has previously served as a Executive Director for the Company in 2007. There is insufficient independent representation on the Board. An oppose vote is recommended.

### **XINYI SOLAR HOLDINGS LTD AGM - 01-06-2018**

#### **3.A.II. *Re-elect Lee Shing Put***

Non-Executive Director. Not considered to be independent as he is the son of Lee Yin Yee, the Chairman of the Board, cousin of Lee Yau Ching, the CEO, and nephew of Tung Ching Sai, the Executive Vice Chairman. He also was an executive of Xinyi Glass, a significant shareholder. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

#### **4. *Appoint the Auditors and Allow the Board to Determine their Remuneration***

PwC proposed. No non-audit fees was paid during the year under review, but it represented 34.69% of audit fees on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. ### **TITAN CEMENT CO SA AGM - 01-06-2018**

#### **3. *Approve Discharge of Board and Auditors***

In this market, auditors discharge prevents lawsuits or claims for activities carried out during the year relating to facts that have not been disclosed to shareholders. As a consequence, releasing auditors from liability will weaken the governance framework and introduce great risks for investors. On this basis, opposition is recommended.

Vote Cast: *Oppose*

#### *8. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

#### *9. Authorize Board to Participate in Companies with Similar Business Interests*

With this resolution, the Board is seeking authority that Members of the Board of Directors and to other Executives of the Bank may participate in the Boards of Directors and/or in the Management of companies of the Bank's Group, having similar purposes to those of the Company. This authority is not sought for defined appointments. As a consequence, if approved, this authority may lead to potential time commitment concerns. In addition, an excessive number positions within the same company may develop excessive familiarity and trust, which would eventually hinder an effective independent oversight by directors (while there is already insufficient independent representation on the Board). On these bases, opposition is recommended.

#### *E.15. Approve Issue of Shares for Private Placement*

Proposed authority to issue up to 39.5 % of the share capital to be used in exchanges in times of public offer initiated by the Company. At this time, the Company has not disclosed specific plans to future exchange offers. As the proposed authority exceeds guidelines, and in absence of specific reasons, opposition is recommended.

*Vote Cast: Oppose*

#### *E.16. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

*Vote Cast: Oppose*

#### *E.17. Authorize Capital Increase of up to 10 Percent of Issued Capital for Contributions in Kind*

The Board requests authority to issue shares and capital securities in consideration for contributions in kind up to 10% of the issued share capital over a period of 26 months. The proposal is within legal limits but can be used in time of public offer. Opposition is recommended.

*Vote Cast: Oppose*

#### *E.19. Approve All Employee Option/Share Scheme*

It is proposed to approve a restricted share plan for employees and corporate officers. The Board would receive the authority to set beneficiaries and other conditions. After allotment, shares will be restricted for three years, which is not considered to be sufficiently long term. The Company states that exercise of shares will be based

on targets, which at this time remain undisclosed.

Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clear performance criteria, targets and conditions. On balance, opposition is recommended.

Non-Executive Director. Not considered to be independent owing to a tenure of over nine years. There is insufficient independent representation on the Board. An oppose vote is recommended.

*Vote Cast: Oppose*

##### *7. Appoint the Auditors*

Mazars CPA Limited proposed. No non-audit fees were reported during the year under review and they represented 0.52% of the total audit fees on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

#### *8. Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights*

The authority sought is limited to 20% of the Company's issued share capital and expires at the next AGM. This exceeds the recommended acceptable threshold. An oppose vote is recommended.

*Vote Cast: Oppose*

#### *10. Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 8 those shares repurchased under the authority granted by proposal 9. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

#### *3.A.III. Elect Zhang, Jianxun*

Non-Executive Director. Not considered to be independent as the director is considered to be connected with a significant shareholder, PCM China. There is insufficient independent representation on the Board. An oppose vote is recommended.

*Vote Cast: Oppose*

#### *4. Appoint the Auditors and Allow the Board to Determine their Remuneration*

PwC proposed. Non-audit fees represented 55.76% of audit fees during the year under review. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

*Vote Cast: Oppose*

#### *5.A. Approve General Share Issue Mandate*

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

## **WH GROUP LTD AGM - 04-06-2018**

### *2.A. Elect Wan Long as Director*

Combined Chairman and Chief Executive. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal. An oppose vote is recommended.

Vote Cast: *Oppose*

### *3. Approve the Remuneration Report*

It is proposed to approve the remuneration policy. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria for its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these grounds, opposition is recommended.

Vote Cast: *Oppose*

### *4. Appoint the Auditors*

EY proposed. Non-audit fees represented 33.00% of audit fees during the year under review and 33.25% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor.

Vote Cast: *Abstain*

### *7. Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights*

The authority sought is limited to 20% of the Company's issued share capital and expires at the next AGM. This exceeds the recommended acceptable threshold. An oppose vote is recommended.

**HERMES INTERNATIONAL AGM - 05-06-2018*****O.3. Discharge of General Managers***

This proposal is not required by law and is increasingly uncommon at French general meetings. Voting in favour of a discharge resolution may have legal consequences regarding the ability of shareholders to pursue subsequent actions against the Board. On this basis, opposition is recommended.

*Vote Cast: Oppose*

***O.6. Authorise Share Repurchase***

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

***O.7. Advisory review of the compensation owed or paid to Mr Axel Dumas***

It is proposed to approve the remuneration paid or due to Axel Dumas. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

***O.8. Advisory review of the compensation owed or paid to Emile Hermes, Sarl***

It is proposed to approve the remuneration paid or due to Emile Hermes, Sarl. The payout is in line with best practice, under 200% of the fixed salary. ### *4. Amend Existing Omnibus Plan*

The Board is seeking shareholder approval of the Fortive Corporation 2016 Stock Incentive Plan to obtain authority to increase the number of shares that can be granted under the Plan. A total of 36,157,742 shares will be made available with a overhang of 9.4%. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards. A vote in opposition is recommended.

## **ALLEGION PUBLIC LIMITED COMPANY AGM - 05-06-2018**

### *1d. Elect Director David D. Petratis*

President, Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the three roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

Vote Cast: *Oppose*

### 3. *Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. There is insufficient disclosure of meeting materials in a timely manner to provide an informed vote. Support cannot be recommended.

Vote Cast: *Abstain*

### 9. *Appoint the Auditors*

PwC proposed. An adequate break-down of the nature of non-audit fees is not provided, which makes the assessment of auditor's independence based on the non-audit fee impossible. The date of appointment of the auditor is not disclosed, meaning that there are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. An oppose vote is recommended.

Vote Cast: *Oppose*

*14. Grant permission for board members to engage in commercial transactions with company and be involved with companies with similar corporate purpose*

With this resolution, the Board is seeking authority that Members of the Board of Directors and to other Executives of the Bank may engage in commercial transactions with the Company and/or participate in the Boards of Directors and/or in the Management of companies of the Bank's Group, having similar purposes to those of the Company. This authority is not sought for defined appointments. As a consequence, if approved, this authority may lead to potential time commitment concerns. In addition, an excessive number positions within the same company may develop excessive familiarity and trust, which would eventually hinder an effective independent oversight by directors. On these bases, opposition is recommended.

*Vote Cast: Oppose*

**FREEMPORT-MCMORAN INC. AGM - 05-06-2018**

#### 6. *Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** James McRitchie and Myra K. Young.

The Proponents request that the Board undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting.

**Proponent's Supporting Argument:** The Proponents argues that a shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Also, the Proponents argues that a shareholder right to act by written consent is one method to equalise the Company's limited provisions for shareholders to call a special meeting.

**Board's Opposing Argument:** The Board recommends shareholders oppose and argues that written consent can result in an unfair, secret and unsound process and is unnecessary given the ability of shareholders to call special meetings. The Board believes that action by written consent, where there is no open meeting, disclosure and debate, is an unfair, secretive and unsound process. Also, the Board argues that the Company's existing corporate governance practices and policies already ensure shareholder democracy and Board accountability.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result, shareholders could be prevented from voting, or even receiving accurate and complete information, on important pending actions. While it is considered that the Board should remain accountable to its shareholders, regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

### HELLENIC PETROLEUM SA AGM - 06-06-2018

#### 4. *Approve Discharge of Auditors*

In this market, board discharge prevents lawsuits or claims for activities carried out during the year relating to facts that have not been disclosed to shareholders. As a consequence, releasing auditors from liability will weaken the governance framework and introduce great risks for investors. On this basis, opposition is recommended.

Vote Cast: *Oppose*

#### 5. *Elect Directors*

All of the current Directors have been proposed for re-election with this bundled resolution. There is insufficient independent representation on the Board. Opposition is recommended.

Vote Cast: *Oppose*

#### 6. *Approve Director Remuneration*

It is proposed to approve the fees payable to the Non-Executive and the Executive members of the Board of Directors. The Non-Executive Directors have a fixed payment which is proposed to be increased from EUR 407,751 to EUR 500,000; in lack of an adequate justification of the Company, such increase is considered excessive. Executive compensation includes fixed and variable components, and amounted to EUR 1.7 million for the year under review. At this time, the Company has not disclosed the remuneration policy for executives. Based on this concerns opposition is recommended.

Vote Cast: *Oppose*

*7. Appoint the Auditors and Allow the Board to Determine their Remuneration*

EY proposed. No non-audit fees were paid to the auditors in the past two years. This approach is commended. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

*8. Elect Members of Audit Committee*

There are no information on the candidates for the audit committee. It is considered that when shareholders can elect members of the Audit Committee, this should include solely independent members. Currently, it is considered that there is no independent member on the Audit Committee. However, abstention is recommended based on the lack of disclosed candidate.

Vote Cast: *Abstain*

*9. Various Announcements*

The Company has provided insufficient information prior to the meeting in order for shareholders to make an informed assessment. Opposition is recommended.

**AMS AG AGM - 06-06-2018**

*6. Appoint the Auditors*

KPMG proposed. No non-audit fees were paid to the auditors in the past year. This approach is commended. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

*8. Issue Shares for Cash*

Authority to issue shares without pre-emptive rights is proposed for more than 10% of the current share capital, and the duration of the authority would exceed 12 months. It is considered that share issuances without pre-emptive rights should be limited to 10% of the issued share capital and shareholders should have the occasion to vote on such resolutions annually. Based on this opposition is recommended.

**8. Approve Cash Awards to Personnel and Board Members**

Proposal to distribute part of fiscal 2016 Net Income of the Company, up to a maximum amount of EUR 10.5 million, to the personnel and to members of the Board of Directors as reward and recognition for their contribution to the attainment of the year 2017 profitability. The Company does not offer its employees and executive management additional bonuses on a regular basis and it does not implement an incentive policy in the form of stock option. There are no clear metrics or targets behind this cash based award, nor has the exact proposed amount been disclosed. The major shareholder and most of the directors de facto coincide, which raises further concerns over the fairness of the bonus. Opposition is recommended.

### *3. Amend Articles: Authorise the Board of Directors to Alter, Amend, Add to or Repeal the Bylaws*

It is proposed to add a provision to the Company's Certification of Incorporation to provide the Board of Directors the authority to adopt, amend or repeal the Bylaws. Under Delaware law, a corporation's stockholders have the power to adopt, amend or repeal the Corporation's Bylaws. The Certificate of Incorporation may also confer that power concurrently upon the Board of Directors. The Board may however adopt non-ratified bylaw amendments at any time in the future, which is not in shareholders' best interests. An oppose vote is recommended.

*Vote Cast: Oppose*

### *4d. Amend Articles: Majority Voting*

Authority is sought of ratification of a bylaw amendment providing for majority voting for director nominees in uncontested elections and implementing procedures for incumbent directors who do not receive a majority vote. On June 3, 2015, the board adopted a bylaw amendment providing that a nominee for director will be elected to the board if the votes cast for that nominee's election exceed the votes cast against that nominee's election in uncontested elections. If an incumbent director fails to receive the required vote for re-election, then, within 90 days following certification of the stockholder vote, the board will act to determine whether to accept the director's resignation.

The 'majority plus' voting standard whereby a failed majority leads to the board determining whether to accept the director's resignation is not considered best practice, as it does not espouse the practices of a 'simple majority' standard. An oppose vote is recommended.

*Vote Cast: Oppose*

### *4e. Amend Articles: Adopt the Jurisdiction of Incorporation*

Authority is sought of ratification of a bylaw amendment selecting an exclusive forum for certain litigation. On June 3, 2015, the board adopted a bylaw amendment requiring that designated categories of corporate disputes be litigated exclusively in the Court of Chancery in the State of Delaware (or, if the Court of Chancery does not have jurisdiction, the federal district court for the District of Delaware). An oppose vote is recommended on the grounds that shareholders should be free to bring a lawsuit where it is most convenient for them, not the company.

*Vote Cast: Oppose*

### *5. Advisory Vote on Executive Compensation*

The Company has put forward a resolution on executive compensation practices, which is considered best practice. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, and the quantum of executive pay. Based on the concerns noted, an oppose vote is recommended.

### 7. *Shareholder Resolution: Written Consent*

**Proposed by:** John Chevedden.

The Proponent requests the Board of Directors to undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorize the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written

consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** The Proponent believes that written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent is a way to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Netflix shareholders approved annual election of each director at 4 Netflix annual meeting starting in 2012. The impressive yes-votes ranged from 75% to 88%. Yet Netflix directors ignored this overwhelming voice of its shareholders.

**Board's Opposing Argument:** The Board argues that the proposal is contrary to the best interests of shareholders. The Board states that its current practices are designed to ensure that notice and the ability to be heard occur prior to shareholder votes, which enables a meaningful discourse before key decisions are made. The Board believes that permitting action at a meeting (whether the annual meeting or a special meeting) is a fairer process than the action by written consent process as it provides all stockholders the opportunity to participate and vote. In addition, the action by written consent process could result in duplicative or contradictory written consents being circulated at the same time by multiple stockholder groups, creating substantial confusion and disruption among stockholders.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result, up to 49% of the Company's shareholders could be prevented from voting, or even receiving accurate and complete information, on important pending actions. While it is considered that the Board should remain accountable to its shareholders, regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

### *3. Ratify KPMG LLP as Auditors*

KPMG proposed. Non-audit fees represented 1.06% of audit fees during the year under review and 1.61% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Oppose*

### *4. Shareholder Resolution: Provide Right to Act by Written Consent*

**Proposed by:** Not Disclosed.

Shareholders request that the Board of Directors undertake such steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting.

**Proponent's Supporting Argument:** The Proponent argues that taking action by written consent in lieu of a meeting is a means shareholders can use to raise

important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are two complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle.

**Board's Opposing Argument:** The Board is against this proposal and states that the Proponent wrongly claims without explanation that Devon stockholders "do not have the full right to call a special meeting that is available under Delaware law." Devon stockholders, however, do have the right to call a special meeting at a 25% threshold, which is the most common threshold among S&P 500 companies that provide their stockholders with that right. This right to call a special meeting provides stockholders with the ability to raise important matters and propose actions for stockholder consideration outside the annual meeting process.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. As a result, shareholders could be prevented from voting or even receiving accurate and complete information on important pending actions. While it is considered that the Board should remain accountable to its shareholders regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the Company. On this basis shareholders are advised to oppose.

### *3. Amend Omnibus Stock Plan*

It is proposed to approve Alphabet's 2012 Stock Plan in order to (1) increase the maximum number of shares of Class C capital stock that may be issued under the Plan by 11,500,000 shares, and (2) prohibit the repricing of stock options granted under the Plan without stockholder approval. The Leadership Development and Compensation Committee administers the Plan in accordance with its terms. The Committee has full discretionary authority to administer the Plan, including without limitation, the authority to: (1) designate the employees and consultants of the Company and members of the Board of Directors who shall be granted incentive awards under the Plan and the amount, type and other terms and conditions of such incentive awards and (2) interpret and construe any and all provisions of the Plan and the terms of any incentive award (and any agreement evidencing the grant of an incentive award). The Leadership Development and Compensation Committee may exercise all discretion granted to it under the Plan in a non-uniform manner among participants. Any employee or consultant of, or person who renders services directly or indirectly to, the Company and any member of the Board of Directors is eligible for selection by the Leadership Development and Compensation Committee to receive an incentive award under the Plan. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power

to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

## **XL GROUP LTD EGM - 06-06-2018**

### *2. Advisory Vote on Executive Compensation in Connection with the Merger*

The Board is seeking shareholders' approval of the compensation payable to the Company's Named Executive Officers (NEOs) in connection with the Merger. It is considered that payments relating to merger and acquisition transactions have the potential to interfere with the exercise of objective judgement by the board responsible for making the decision in the best interests of shareholders. This is particularly the case where board members include NEOs who will receive such payments; but even where this is not the case the quantum of such payments can represent a conflict of interest in board deliberations of the relevant transaction. In considering whether NEO payments related to the Merger are appropriate it is considered to identify whether amounts normally payable to NEOs are enhanced as a result of the change in control and include elements that are not pro-rated against performance or earned by service prior to payment.

The company incorporates a 'double trigger' meaning that compensation will not be payable unless the named executive officer's employment is terminated by the employer without cause or by the named executive officer for good reason within twenty-four months following the closing of the merger.

*Vote Cast: Oppose*

### *3. Allow Proxy Solicitation*

The Board requests authority to adjourn the special meeting until a later date or dates, if necessary, in order to permit further solicitation of proxies if there are not sufficient votes at the time of the special meeting to approve the merger. An oppose vote is recommended to any adjournment or postponement of meetings if a sufficient number of votes are present to constitute a quorum. It is considered that where a quorum is present, the vote outcome should be considered representative of shareholder opinion.

**2. Approve the Remuneration Report**

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed. However, the future performance conditions for both the annual bonus and LTIP awards are not disclosed as the Committee are waiting until after the planned acquisition of Ladbrokes Coral. Furthermore, It is noted that over 43% of shareholders opposed the Remuneration Report at the last AGM and the Company have not disclosed any formal steps that are being taken to address these concerns.

**Balance:** The legacy LTIP awards granted to certain Directors of the Company during the year raise significant concerns. These are considered excessive as the CEO was awarded options with a face value of £44,912,173 while the chairman received a £22,479,079 award. These awards will vest gradually over a 30 month vesting period, based on company's relative TSR performance. The vesting is only based on achieving a TSR performance above median of the comparator group, which is not considered challenging. Furthermore, the Company state that to the extent that the TSR condition is not met at that time, it shall be tested in the next quarter and at the end of the 30-month vesting period which infers that the Company are affording directors who are in receipt of the legacy awards multiple opportunities at achieving the determined conditions. There are concerns that the annual bonus targets may not be sufficiently challenging given the maximum possible bonus was paid. This is of particular concern considering that the bonus for the CEO vested in full for the year under review, however, the policy enabling this award was brought into practice on 14 December 2017 meaning that the award was granted based on performance prior to the policy's existence. It is further noted that the policy vote providing the mandate to make the award received significant shareholder dissent (27.5%). Moreover, it is considered inappropriate that the remuneration committee would allow the annual bonus to be subject to only one financial performance condition (EBITDA) and vest in full considering the excessiveness of the legacy awards which were also subject to financial metrics. In order to mitigate against rewarding directors for the same performance, best practice would have seen the committee use its discretion to amend the performance conditions to reflect a variety of non-financial metrics. Also, the ratio between CEO pay and average employee pay is inappropriate at 83:1.

#### 5. *Re-elect Jane Ancombe*

Independent Non-Executive Director. This director is the Chairwoman of the remuneration committee. The remuneration report received over 43% opposition at the last AGM and sufficient steps have not been taken to address shareholder concerns. It is further noted that the updated policy put forward at the December 2017 General Meeting received 27.5% oppose, with the other resolutions on the annual bonus and LTIP receiving significant oppose votes at 26.37% and 12.13% respectively. Moreover, it is noted that annual bonus payments were made during the year under a policy that had not been approved at the 2017 AGM.

The Company has received an 'E' rating for Remuneration.

#### 9. *Re-elect Lee Feldman*

Chairman. Independent upon appointment. The Company stated that it is GVC's aim to have at least two women serving on the Board in the next 12 months. While this is welcomed, the target is considered insufficient and the level women on the Board is still a concern.

The Company does not have a board member or committee with responsibility for sustainability/ESG matters.

The Company has failed to disclose quantitative and qualitative information through CDP's climate change

The Company has received an overall 'E' rating.

PIRC issue: Furthermore, the remuneration practices of the Company regarding the non-executive chairman raise serious concerns. Mr Feldman received a £22,479,079 legacy award which vests based on achieving a TSR performance above median of the comparator group; Firstly, the performance conditions are not considered challenging; Secondly; a non-executive director who is in receipt of variable incentive awards is contrary to best-practice; and finally, a director with the level of financial vested interest in the Company may not have sufficient detachment to objectively assess executive management and strategy.

*4. Approval of the 2018 Incentive Stock Plan*

The Board requests for shareholders to approve the Ingersoll-Rand plc Incentive Stock Plan of 2018 (the 2018 Plan). The 2018 Plan is intended to serve as the successor plan to the Ingersoll-Rand plc Incentive Stock Plan of 2013. The total number of ordinary shares granted under the 2018 Plan is 23,000,000 shares. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards. A vote in opposition is recommended.

**14. Discharge the Board and the Statutory Auditor**

Standard proposal. No serious governance concerns have been identified. However discharging also the auditors would prevent shareholders from potential lawsuits in the future. In addition, the Ten Principles of Corporate Governance of the Luxembourg Stock Exchange (the local corporate governance code) do not mention discharge of auditors but only of directors. On this basis, opposition is recommended.

Vote Cast: *Oppose*

**10. Amend Existing Executive Share Option Scheme**

The Board proposes to amend incentive plan approved and implemented in 2012. Under the plan, the CEO and other executives will be awarded rights to shares, which will start vesting after three years from the date of award. At this time, it seems that this plan will not be based on any performance criteria but only on the beneficiaries continued employment. As a result, they may receive bonuses unrelated to their performance or even the performance of the Company as a whole, which is considered a serious frustration of shareholder accountability.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

*2. Approve the Remuneration Report*

Overall disclosure is adequate. The change in the CEO's salary is in line with the rest of the Company, as the CEO's salary rose by 2.6% while the average salaries of the Company's UK employee population increased by 2.8%. The changes in CEO total pay over the last five years are not in line with the changes in Company's TSR performance over the same period. The CEO received an LTIP award of approximately 200% of salary. Such legacy plan awards are considered inappropriate, as the Company replaced this plan with the ESIP, and should therefore cease to grant further awards under the old plan. Total variable pay for the year under review is

excessive at 432% of salary. The ratio of CEO pay compared to average employee pay is unacceptable at 50:1.

#### *O.4. Reelect Pierre-Andre de Chalendar as Director*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal. Opposition is recommended.

Vote Cast: *Oppose*

#### *O.6. Approve Compensation of Pierre-Andre de Chalendar, Chairman and CEO*

It is proposed to approve the remuneration paid or due to Pierre-Andre de Chalendar, Chairman and CEO with an advisory vote. There are concerns regarding excess as the total variable remuneration exceeded 200% of the salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. Furthermore, there are no claw back clauses in place, which is against best practices. Opposition is recommended.

*Vote Cast: Oppose*

#### *O.7. Approve Remuneration Policy of Chairman and CEO*

It is proposed to approve the remuneration policy of Chairman and CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to over payment against under performance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

#### *O.8. Approve Related Party Transaction*

It is proposed to approve the agreement with Mr Pierre-Andre de Chalendar , related to the severance payment. The shareholders are asked to approve three related party agreements that the Company has undertaken with him. Under this resolution, shareholders are asked to approve the severance package. This is capped at 12 months of total annual remuneration and twice the annual total remuneration (fixed and variable), in case the Chairman and CEO had been in office for at least three years. Mr. Chalendar started as CEO in 2007 and therefore the latter one applies. In addition, the agreement provides for a non-compete clause for a one-year term (which will disburse to the Chairman and CEO one year of basic salary) and for the Board to decide on discretion whether to maintain or to cancel rights to stock options and performance shares after termination. The proposed agreement exceeds severance guidelines (one year of fixed salary) and contains potentially excessive discretionary awards. Opposition is recommended on this basis.

*Vote Cast: Oppose*

#### *O.9. Approve Additional Pension Scheme Agreement with Pierre-Andre de Chalendar*

Proposed retirement arrangement for Pierre-Andre de Chalendar Chairman and CEO, in compliance with the Macron Law.

Although it is welcomed that shareholder approval will be required for all new retirement agreements, it is believed that top hat retirement compensation are not an appropriate way of compensating executives, as they remunerate beyond the executive's term and are mostly unrelated to the impact on company value that the executive may have enhanced. Opposition is recommended.

*Vote Cast: Oppose*

#### *O.11. Appoint the Auditors*

KPMG proposed. Non-audit fees represented 0.00% of audit fees during the year under review and 0.57% on a three-year aggregate basis. This level of non-audit fees

does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

*Vote Cast: Oppose*

#### *O.12. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

#### *E.13. Approve All Employee Option/Share Scheme*

It is proposed to approve a restricted share plan for employees and corporate officers for up to 0.04% of the share capital. The allocation may be to employees and officers, including saving plans or the stock option plans.

Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clear performance criteria, targets and conditions, or where the performance is assessed over a period considered to be short-term. On balance, opposition is recommended.

#### *6.II. Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 6.I those shares repurchased under the authority granted by proposal 5. ### 6. *Appoint the Auditors*

EY proposed. Non-audit fees represented 44.88% of audit fees during the year under review and 44.88% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The date of appointment of the current audit firm is undisclosed, meaning the length of tenure is not known. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Abstention is recommended.

Vote Cast: *Abstain*

### 7. *Approve Value Development Program 4, a Performance Remuneration Incentive Plan*

The Board proposes the approval of a new executive incentive plan. Under the plan, participants will be allotted shares or rights to shares. The performance is 50% of the SET Companies percentage and 50% of the WIG 20 percentage. The SET companies are peers to the Company and the WIG 20 are the twenty largest Companies listed in the Polish Stock Market. The Executive that will participate in the plan will be rewarded based on the following performance targets: 0% if the TSR of the Company is lower than 3 SET Companies, 50% if the TSR of the Company is in excess of the TSR of 3 SET Companies, 80% if the TSR of the Company is in excess of 4 SET Companies and 100% if the TSR is in excess of 5 SET Companies. The WIG20 follow a similar platform of which: 0% if the TSR is lower than the TSR of the median of the WIG 20, between 50% to 99.9% if the TSR of the Company is equal or in excess of the TSR of the median of the WIG20 and lower than the TSR of all WIG 20, 100% if the TSR of the Company is equal or in excess of the TSR of the WIG 20 which are in the fourth quartile of the WIG20 Companies. The Company has not disclosed quantified targets for the performance criteria of the program, which may lead to overpayment against underperformance.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company under performance and long-term share price falls. They are also a significant factor in reward for failure. Based on this opposition is recommended.

Vote Cast: *Oppose*

### 8. *Approve Performance Incentive Program V2, a Performance Remuneration Incentive Plan*

It is proposed to approve the performance remuneration plan for the motivations of employees or managers to become members of the Board. The plan is similar with the program 4 bis with the exception that the amount of shares that could be issued are until 1,000,000. The program V2 is having two financial based performance criteria the TSR compare to the TSR of a group of peers and the TSR compare with the TSR of the twenty biggest Polish Corporations listed in the Polish Stock Market (WIG20). As in the previous resolution the pay-out is: 0% if the TSR of the Company is lower than 3 SET Companies, 50% if the TSR of the Company is in excess of the TSR of 3 SET Companies, 80% if the TSR of the Company is in excess of 4 SET Companies and 100% if the TSR is in excess of 5 SET Companies. The WIG20 follow a similar platform of which: 0% if the TSR is lower than the TSR of the median of the WIG 20. Between 50% to 99.9% if the TSR of the Company is equal or in excess of the TSR of the median of the WIG20 and lower than the TSR of all WIG 20, 100% if the TSR of the Company is equal or in excess of the TSR of the WIG 20 which are in the fourth quartile of the WIG20 Companies. Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clear performance criteria, targets and conditions.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful

## **LAS VEGAS SANDS CORP AGM - 07-06-2018**

### *4. Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 10.07% of audit fees during the year under review and 8.75% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Abstain*

### *5. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: EED. Based on this rating, it is recommended that shareholders oppose.

Vote Cast: *Oppose*

### *6. Amend Existing Bonus Plan*

The Board is seeking approval of the material terms of the performance goals under the Las Vegas Sands Corp. Executive Cash Incentive Plan. The changes are in line with the Tax Cuts and Jobs Act which was enacted on 22 December 2017. Before the provisions of the act were effective, deductions for compensation paid to senior management in excess of \$1 million per year were disallowed. There are no concerns with the amendments made to the material terms of the performance goals. However, it is considered that, as performance conditions may be attached to awards at the Compensation Committee's discretion, there are concerns that awards under the Plan will not necessarily be subject to sufficiently robust performance targets (if any). As a result, shareholders cannot assess whether the Plan will operate to align participants' incentives with shareholders' interests. In addition, maximum award limits are considered excessive. Accordingly, shareholders are recommend to oppose the resolution.

### *VI. Approve Remuneration Policy*

It is proposed to approve the remuneration policy with a binding vote. For the Executive Chairman, the maximum overperformance is capped at approximately 129% of the target bonus, which would correspond to approximately 233% of his fixed salary. As it is considered that the variable component of executive remuneration should not exceed 200% of the fixed component, the proposed remuneration cap is considered excessive. In addition, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. Nevertheless, opposition is recommended based on potential excessive variable remuneration.

### *VII. Approve new long term incentive scheme*

The Board proposes the approval of a new executive incentive plan, consisting of the delivery of shares of Telefónica, S.A. The Plan will have a total duration of five years and will be divided into three mutually exclusive cycles of three years each. The maximum total number of shares of Telefónica, S.A. that are to be delivered to the Participants at the end of each of the cycles in implementation of the Plan will be the result of dividing the maximum amount allocated to each cycle by the average weighted listing price of the shares of Telefónica, S.A. The specific number of shares of Telefónica will be subject to and determined by the achievement of economic/financial objectives consisting of the creation of shareholder value and, if applicable, objectives linked to sustainability, the environment or corporate

governance. In the first cycle of the Plan, the number of shares to deliver will depend: 50% on achievement of the total shareholder return (hereinafter, as defined below, the "TSR") objective for shares of Telefónica, S.A. and 50% on the generation of free cash flow of the Telefónica Group (the "FCF").

Under the plan, participants will be allotted shares. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

*Vote Cast: Oppose*

#### *VIII. Approve share plans*

It is proposed to approve a restricted share plan for employees and corporate officers. The Board would receive the authority to set beneficiaries and other conditions. The Company states that exercise of shares will be based on targets, which at this time remain undisclosed.

Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clear performance criteria, targets and conditions. On balance, opposition is recommended.

*Vote Cast: Oppose*

#### *X. Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive Directors. The Company discloses all elements of remuneration for Executives and Non-Executives. The payout is in line with best practice, being under 200% of the fixed salary. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. On balance, abstention is recommended.

### **BOOKING HOLDINGS INC. AGM - 07-06-2018**

#### *2. Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 4.40% of audit fees during the year under review and 6.25% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Oppose*

### *3. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BCC. Based on this rating, it is recommended to abstain.

*Vote Cast: Abstain*

### *4. Amend Existing Omnibus Plan*

The Board of Directors are requesting that for shareholders to approve amendment to the Booking Holdings Inc. 1999 Omnibus Plan. The amendment will limit the total compensation of non-employee directors to USD 750,000 in any one calendar year. The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards. A vote in opposition is recommended.

*10. Approve Compensation of Gilles Gobin, General Manager*

It is proposed to approve the remuneration paid or due to Gilles Gobin with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. The Company has fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. However, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

## **SAMSONITE INTERNATIONAL SA EGM - 07-06-2018**

*1. Amend Annual Share Incentive Plan*

The Board proposes the to approve the renewal of the authorised share capital and to amend the company articles to extend the existing Share Award Scheme to 10 May 2021. Under the plan, the CEO and other executives will be awarded rights to shares, which will start vesting three years from the date of award. At this time, it seems that this plan will not be based on any performance criteria but only on the beneficiaries continued employment. As a result, they may receive bonuses unrelated to their performance or even the performance of the Company as a whole, which is considered a serious frustration of shareholder accountability.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful

- dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

### 12. Approve Remuneration Policy

**Disclosure:** Disclosure could be improved and in particular disclosure of applicable performance conditions for variable incentive plans. It is stated that the policy provides flexibility in terms of what may be used as different measures may be appropriate for different years. Measures for 2018 awards have been disclosed.

**Balance:** Total potential awards are considered excessive at 350% of salary normally and 400% exceptionally. Performance share awards have a three year performance period which is not sufficiently long-term however a two-year holding period is in place. It is difficult to gauge the appropriateness of the LTIP owing to limited disclosure surrounding its proposed operation. Variable award holders may receive a payment in cash or shares equal in value to any dividends that would have been paid. Such rewards misalign shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not.

**Contracts:** There are concerns over recruitment and termination arrangements.

Rating: BDD.

Based on this rating it is recommended that Central oppose.

Vote Cast: *Oppose*

Results: For: 99.5, Abstain: 0.0, Oppose/Withhold: 0.5,

### 13. Approve the Remuneration Report

**Disclosure:** Overall disclosure is acceptable.

**Balance:** It is noted that as a short-term measure, the Directors' remuneration arrangements, in place at the time of Admission, were adopted as the Directors' Remuneration Policy, which allowed the Executive Directors' existing remuneration packages to continue post Admission. The CEO's realised variable pay is not considered excessive at 177% of salary (Annual Bonus: 100%, Legacy incentive: 77%). The legacy incentive refers to the CEO's 2017 phantom share award vested prior to Admission and will be paid in three equal tranches in 2018, 2019 and 2020. The CEO received £132,225 for the year as it was subject to a potential downward adjustment determined by performance for the year ended 31 December 2017. However, the CEO also received a one-off cash bonus payable in October 2017 in respect of the Acquisition of control. Such one-off payments are not supported. The CEO's salary is considered as being in the upper quartile of the peer comparator group.

Rating: AC.

Based on this rating it is recommended that Central abstain.

### 14. Approve the RHI Magnesita Long Term Incentive Plan

Shareholders are being asked to approve the RHI Magnesita Long Term Incentive Plan. For the time being, it is intended to grant only conditional awards (or nil cost options) but the Plan provides flexibility to accommodate future changes in policy or local requirements. Features of the plan do not meet best practice. Initial performance conditions are slated to be relative total shareholder return (TSR), earnings per share (EPS) and reported earnings before interest and tax (EBIT) each for one-third of the award. Targets are not fully disclosed. The absence of non-financial parameters to assess Executives' long-term performance is considered contrary to best practice as such factors allow the remuneration policy to focus on the operational performance of the business as a whole and the individual roles of each of the senior executives in achieving that performance. Dividend equivalent payments are permitted under the plan. Such payments misalign shareholder and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not. The maximum possible limit is 250% (in exceptional circumstances such as for recruitment). This could lead to excessive rewards particularly when combined with the annual bonus. The performance period is three years, which is not considered sufficiently long term however a two year holding period is introduced. Overall, LTIP based schemes are inherently flawed. There is a risk that they are rewarding volatility rather than the performance of the company. They can act as a complex and opaque hedge against absolute company under-performance and long term share price falls. They are also a significant factor in reward for failure. An oppose vote is recommended.

#### *17. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### *12. Approve Fiscal Year 2019 Maximum Aggregate Compensation for the Executive Management*

It is proposed to approve the total prospective remuneration for members of the Executive Management of the Company, which means that the proposed amount will not be the actual amount to be paid, but only the total remuneration cap. The voting outcome of this resolution will be binding for the Company.

It is proposed to fix the remuneration of members of the Executive Committee until next AGM at USD 5.2 million (USD 5.1 million was proposed last year). Variable remuneration is not consistently capped, and the payout is in not line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed; however, in light of the excessive nature of stock awards, an oppose vote is recommended.

## **PHISON ELECTRONICS CORP AGM - 08-06-2018**

### *1. Approve Business Operations Report and Financial Statements*

Disclosure is considered adequate and was made available sufficiently before the meeting. However, there are concerns as the Corporation has been under statutory investigation since 5 August 2016 for an alleged violation of the Securities and Exchange Act. The Chairman, Mr. Khein Seng Pua, and others have been charged by the prosecutor in either deferred prosecution or dropping the claim for further prosecution. On this basis, opposition is recommended.

Vote Cast: *Oppose*

### *3. Approve Issuance of Shares via a Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 9.14% of the issued share capital over a period until the next AGM. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

### *2.B. Amend Remuneration of Patrick Drahi*

This agenda item will only be put to a vote if agenda items 6 and 8 of the 2018 AGM agenda are adopted. It is proposed to amend the remuneration of Patrick Drahi as follows: the share options plan (SOP) will correspond to Mr Drahi 10,619,468 stock options with an exercise price of EUR 7.0625 and a start of the vesting period on 31 January 2014. Because of the separation of the Company from its US department, the exercise price will be determined by the following formula: exercise price of the relevant Existing Stock Option converted into USD at an average USD/EUR exchange rate during the period starting as per the date of the announcement of the Separation (i.e. 8 January 2018), and ending as per close of market on the trading day preceding the ex-dividend date, multiplied by (1 - Average Ratio) and divided by 0.4163. The performance criteria are not quantified, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure. Based on this opposition is recommended.

This agenda item will only be put to a vote if agenda items 6 and 8 of the 2018 AGM agenda are adopted. It is proposed to amend the remuneration of Dexter Goei as follows: the share options plan (SOP) will be 10,619,468 stock options, with an exercise price of EUR 7.0625 and a start of the vesting period on 31 January 2014. Because of the separation of the Company by its US department, the exercise price will be determined by the following formula: exercise price of the relevant Existing Stock Option, converted into USD at an average USD/EUR exchange rate. During the period starting as per the date of the announcement of the Separation (i.e. 8 January 2018), and ending as per close of market on the trading day preceding the ex-dividend date, multiplied by (1 - Average Ratio) divided by 0.4163. . LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure. Opposition is recommended.

### *2.D. Amend Remuneration of Dennis Okhuijsen*

This agenda item will only be put to a vote if agenda item 6 of the 2018 AGM agenda is adopted. The share option plan (SOP) grant to Mr Okhuijsen 1,467,620 stock options with an exercise price of EUR 13.6275 and a start of the vesting period on 31 January 2015. The 1,467,620 stock options, will have an exercise price, which will be determined by exercise price for the Existing Stock Options multiplied by Average Ratio. LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure. Opposition is recommended.

### *3. Amend Remuneration of Michel Combes*

This agenda item will only be put to a vote if agenda items 6 and 10 of the 2018 AGM agenda are adopted. It is proposed to to amend the severance package of Mr. Michel Combes in connection with the share option plan (SOP), deriving from the separation of the US department of the Company. The proposed severance payment of Mr Combes is EUR 6,000,000 and vesting of 50% of the stock options granted on 31 January 2016 under the SOP (being 1,418,104 stock options, each for one Common Share A of the Company, with an exercise price of EUR 17 each), immediately after the AGM, and such stock options being exercisable until four years thereafter. The severance package of EUR 6 million is considered excessive, as it exceeds one year of his fixed salary. Therefore, opposition is recommended.

**INTERNATIONAL PUBLIC PARTNERSHIPS LTD AGM - 11-06-2018****2. Approve the Remuneration Report**

Shareholders are being asked to approve the Company's annual report on remuneration. Disclosure of figures and policy is not considered adequate. The total Director's remuneration for the 2017 financial year stands at £368,833, there is no evidence to suggest that an aggregate limit to Directors' remuneration was set in the year under review. Furthermore, a one-off fee of £10,000 was paid to each director with respect to the May 2017 share issue. Involvement in corporate actions are taken to be an implicit part of the boards responsibilities and therefore the one-off payment is deemed inappropriate. Based on these reasons, an oppose vote is recommended.

### COMCAST CORPORATION AGM - 11-06-2018

#### 2. *Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 4.10% of audit fees during the year under review and 3.96% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

### 7. *Advisory vote on the UK Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed as are the performance conditions and targets for the annual bonus and the PSP. However, dividend accrual is not separately categorised.

**Balance:** The CEO's salary increased by 1.2% during the year under review while the average employees (for the Swiss workforce) increased by 1.7% . Whilst the increase in salary is not considered excessive, the use of a selected comparator base undermines the merit of this comparison. Changes in the former CEO's pay in the last four years are not considered to be in line with changes in TSR during the same period. Over the four year period average annual increase in CEO pay has been approximately 119.19% whereas, on average, TSR has increased by 11.07%. It is noted that this is largely due to the accelerated vesting of Dimitris Lois's PSP awards upon his death. This should also be taken in to consideration when assessing the former CEO's total variable pay for the year under review which at 1630.95% of salary(Annual Bonus: 75.45% of salary, PSP: 1552.5% of salary & ESPP: 3%) is highly excessive. Furthermore, the ratio of CEO pay compared to average employee pay is not acceptable, standing at 86:1. In line with the provisions for death in service as set out in the relevant compensation plan policies no base salary in lieu of notice was paid out. The MIP award of 130% of base salary for the 2017 financial year, was pro-rated for time and performance up to 2 October 2017. This pro-rated payment of €643,208 (69% of base salary), made under the MIP, was paid in March 2018 to his heirs. The Remuneration Committee deemed it appropriate for all outstanding PSP awards (subject to performance and time) to vest immediately to Dimitris Lois' heirs which, although the Company have stated is mandated under Swiss law, we do not consider to be appropriate.

### 8. *Advisory vote on the Remuneration Policy*

#### **Policy Changes**

The Remuneration Committee has introduced two notable changes to the remuneration policy during the year under review; (i) The introduction of bonus deferral within the MIP, whereby the Chief Executive Officer will receive half of any bonus as deferred shares which will vest after three years, subject to continued service; and an additional holding period within the PSP whereby any vested shares held by the Chief Executive Officer are subject to a no-sale commitment for two years following the three-year performance period. Both of these changes are welcome.

**Disclosure:** Disclosure is considered adequate.

**Balance:** Total potential awards under all incentive schemes are considered excessive at 460% of salary normally and 580% in exceptional circumstances. During 2017 a holding period was introduced to the MIP which sees 50% of any award under the plan deferred for three years. This approach is in line with best-practice. However, the performance metrics are not operating interdependently, such that vesting under the incentive plan is only possible where all threshold targets are met. The performance period for the LTIP in operation, the Performance Share Plan is not considered adequately long-term at three years, however, any vested shares held by the Chief Executive Officer are subject to a no-sale commitment for two years following the three-year performance period. The LTIP is not linked to non-financial

performance conditions. Award holders may receive a payment in cash or shares equal in value to any dividends that would have been paid. Such rewards misalign shareholders and executive interests as shareholders must subscribe for shares in order to receive dividends whereas participants in the scheme do not.

**Contracts:** An exceptional limit for the recruitment purposes is permitted under the PSP. This is not considered appropriate. Furthermore, the change of control provisions included within the policy, which sees all unvested performance share awards vest immediately, is also not considered to be appropriate.

#### *9. Advisory vote on the Swiss Remuneration Report*

It is proposed to approve the remuneration report with an advisory vote. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceeds the recommended limit of 200% of the salary. The Company has disclosed quantified targets and performance criteria for its LTIP and there are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, an oppose vote is recommended based on potential excessive remuneration.

Vote Cast: *Oppose*

Results: For: 98.9, Abstain: 0.0, Oppose/Withhold: 1.0,

#### *10.2. Approve the Maximum Aggregate Amount of Remuneration for the Operating Committee*

The Board of Directors propose a maximum aggregate amount of compensation for members of the operating committee/executive directors in the amount of €35 million. Pay policies are explained in terms of the Company's objectives. Short term and long-term variable incentives are utilized and are performance based. However targets are not fully disclosed. Total target payments for the MIP amount to 49.79% of total salaries and total target payments for the PSP amount to 90.95% of salary. This is not considered excessive. However, payout under these schemes at maximum level will be considered excessive. Due to recommended opposition to the Company's long term incentives, an abstain vote is recommended.

Vote Cast: *Abstain*

Results: For: 98.5, Abstain: 0.2, Oppose/Withhold: 1.3,

#### *3c. Elect Li Man Bun, Brian David as Director*

Non-Executive Director. Not considered to be independent due to his connection to the controlling shareholder China State Construction Engineering Corporation (CSEC), a state-owned enterprise. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

#### *5. Approve PricewaterhouseCoopers as Auditor and Authorize Board to Fix Their Remuneration*

PwC proposed. Non-audit fees represented 8.04% of audit fees during the year under review and 26.56% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor.

*Vote Cast: Abstain*

#### *7. Approve Issuance of Equity or Equity-Linked Securities without Preemptive Rights*

The authority expires at the next AGM and is limited to 20% of the share capital. This level exceeds recommended limits. An oppose vote is recommended.

*Vote Cast: Oppose*

#### *8. Authorize Reissuance of Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 7 those shares repurchased under the authority granted by proposal 6. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

*Vote Cast: Oppose*

#### *9. Approve New Executive Share Option Scheme/Plan*

It is proposed to authorise the Board to issue shares under a new incentive plan. The CEO and other executives will be awarded shares or rights to receive shares: no performance conditions are disclosed at this time, and there is little disclosure over the features of the plan overall. LTIPs are not considered an effective means of incentivising performance. These schemes are not considered to be properly long term and are subject to manipulation due to their discretionary nature. Opposition is recommended.

*6. Approve Deloitte Touche Tohmatsu as Auditor and Authorize Board to Fix Their Remuneration*

Deloitte proposed. Non-audit fees represented 85.86% of audit fees during the year under review and 73.85% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

*7. Approve Grant of Options Under the Share Option Scheme*

It has been proposed to approve issuance of options under the Share Option Scheme and to allot and issue shares of the Company as and when any options are granted. The authority is valid for 12 months. The Company has not disclosed the maximum number of options it wishes to issue, and the rate could be highly dilutive. The Company has not disclosed any performance criteria or targets because of this shareholders are not able to assess the plan adequately. Also, Non-Executive Directors might participate in the plan, which is contrary to best practice, due to potential conflicts of interest. Additionally, the Remuneration Committee has a high level of discretion over the plan which negates the rules of the plan. It is advised not to support the resolution.

#### *5. Approve Director Liability Contracts*

It is proposed to renew for one year the Directors and Officers insurance, in place since 2005. The scope of D&O insurance is the protection of Directors & Officers, by means of integration to Deutsche Telekom AG's (DTAG) D&O Master Policy, which covers DTAG Group of companies. The Policy would cover directors from direct claims against them, which may be raised individually or collectively, as a result of wrongful act or omission while performing their administrative and managerial duties, for potential damage that they may incur to third parties. While D&O policies are considered reasonable for third-party damage, it is considered that shareholders should not pay for insurance against wrongful acts or omissions by directors. Opposition is recommended.

#### *8. Authorize Board or Directors to Participate in Companies with Similar Business Interests*

With this resolution, the Board is seeking authority that Members of the Board of Directors and to other Executives of the Company may participate in the Boards of Directors and/or in the Management of companies of the Group, having similar purposes to those of the Company. This authority is not sought for defined appointments.

As a consequence, if approved, this authority may lead to potential time commitment concerns. In addition, an excessive number positions within the same company may develop excessive familiarity and trust, which would eventually hinder an effective independent oversight by directors (while there is already insufficient independent representation on the Board). On these bases, opposition is recommended.

## **SONOVA HOLDING AG AGM - 12-06-2018**

*1.2. Approve the Remuneration Report*

It is proposed to approve the remuneration policy with an advisory vote. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, opposition is recommended based on potential excessive remuneration.

*Vote Cast: Oppose*

### *3. Discharge the members of the Board of Directors and the Management Board for the 2017 / 18 financial year.*

The Company has not appointed a Data Protection Officer although that is discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). The GDPR does not apply in this market but it is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

*Vote Cast: Abstain*

#### *4.1.1. Re-elect of Robert F. Spoerry as Member and as Chairman of the Board of Directors*

#### *4.4. Appoint the Auditors*

PwC proposed. Non-audit fees represented 4.26% of audit fees during the year under review and 11.21% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

*Vote Cast: Oppose*

### *5.2. Approve Maximum Aggregate Amount of Compensation of the Management Board*

It is proposed to approve the prospective remuneration for members of the Executive Management of the Company, which means that the proposed amount will not be the actual amount to be paid, but only the total remuneration cap. The voting outcome of this resolution will be binding for the Company.

It is proposed to fix the remuneration of members of the Executive Committee until next AGM at CHF 15.1 million. This proposal includes fixed and variable remuneration components. Although there are no clear guidelines with this respect, it would be preferred that the Company submitted two separate resolutions for executive's fixed

and variable remuneration components (which is the model that most companies adopted in this market). Nevertheless, the Company has submitted its compensation structure to an advisory vote, which is recommended by the local Corporate Governance Code.

Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration cap is higher than 200% of the salary. In addition, the Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, opposition is recommended based on potential excessive remuneration.

*5. Shareholder Resolution: Report on Integrating Risks Related to Drug Pricing into Senior Executive Compensation*

**Proposed by:** Azzad Asset Management.

The Proponent is asking the Compensation Committee to report annually to shareholders on the extent to which risks related to public concern over drug pricing strategies are integrated into Biogen's incentive compensation policies, plans and programmes (together, "arrangements") for senior executives. The report should include, but need not be limited to, discussion of whether incentive compensation arrangements reward, or not penalise, senior executives for (i) adopting pricing strategies, or making and honouring commitments about pricing, that incorporate public concern regarding the level or rate of increase in prescription drug prices; and (ii) considering risks related to drug pricing when allocating capital.

**Proponent's Supporting Argument:** The Proponent argues that senior executive incentive compensation arrangements should include metrics that reflect the key risks facing pharmaceutical companies, including action to lower the high drug prices. The Proponent commends the Company over its transparency on pricing, however there are concerns that the incentive compensation arrangements applicable to Biogen's senior executives may not encourage senior executives to take actions that result in lower short-term financial performance even when those actions may be in Biogen's best long-term financial interests. The Proponent believes that excessive dependence on drug price increases is a risky and unsustainable strategy, especially when price hikes drive large senior executive payouts. For example, media coverage noted that a 600% rise in Mylan's CEO's total compensation accompanied the 400% EpiPen price increase.

**Board's Opposing Argument:** The Board is against this proposal as it believes that the Compensation Committee have taken into account the most appropriate risks

faced by the Company and associated them into the senior executive incentive compensation arrangements. Annually, the Company establishes performance targets that are based on financial, market share, pipeline development and other goals that they deem relevant for creation of shareholder value. The Board believes that the report asked for by the Proponent would provide no material information that is not already evident from the information that they are required to disclose.

**PIRC Analysis:** In principle, the call for additional disclosure for the sake of transparency is welcomed. The recent hike in drug pricing strategies does present a potential long-term risk to the Company's shareholder value. However, based on our analysis over the compensation structure, the Company has provided sufficient disclosure with regards to specific targets on performance based rewards and detailed the risks factored in to the establishment of the policy. There was insufficient disclosure of individual performance targets, which does raise concern. Overall, it is difficult to ascertain whether or not the report would provide real value, whilst it does not appear that report would cause any significant disruption to the Company. On this basis, abstention is recommended.

## **GENERAL MOTORS COMPANY AGM - 12-06-2018**

### *1a. Elect Director Mary T. Barra*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

*Vote Cast: Oppose*

### *2. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: ADB. Based on this rating, it is recommended to oppose.

*Vote Cast: Oppose*

### *3. Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 42.31% of audit fees during the year under review and 32.97% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Abstain*

### *5. Shareholder Resolution: Written Consent*

**Proposed by:** John Chevedden.

The Proponent requests that the Board take the necessary steps as may be necessary to permit written consent by shareholders entitled to cast the minimum number of votes that would be necessary to authorise the action at a meeting at which all shareholders entitled to vote thereon were present and voting. This written consent is to be consistent with applicable law and consistent with giving shareholders the fullest power to act by written consent consistent with applicable law. This includes

shareholder ability to initiate any topic for written consent consistent with applicable law.

**Proponent's Supporting Argument:** This proposal topic won majority shareholder support at 13 major companies in a single year. This included 67%-support at both Allstate and Sprint. Hundreds of major companies enable shareholder action by written consent. Taking action by written consent in lieu of a meeting is a means shareholders can use to raise important matters outside the normal annual meeting cycle. A shareholder right to act by written consent and to call a special meeting are 2 complimentary ways to bring an important matter to the attention of both management and shareholders outside the annual meeting cycle. Taking action by written consent saves the expense of holding a special shareholder meeting.

**Board's Opposing Argument:** The Board has carefully considered the stockholder proposal asking that it take action to permit stockholders to act by written consent without a meeting. At this time, the Board recommends a vote against this stockholder proposal. The Company has a demonstrated commitment to corporate governance policies that are in the best interests of the Company and responsive to stockholder feedback and emerging governance best practice. The Company maintains a robust stockholder outreach program through which stockholders can communicate directly with the Board and the Board has taken actions to promote effective governance and accountability for stockholders, including: implementation of the right for stockholders representing 25% of the outstanding shares of the Company's stock for at least one year to call a special meeting, adoption of a proxy access bylaw provision that allows qualifying stockholders to include their director nominees in the Company's proxy materials, implementation of a shareholder engagement policy, and direct line of communication from shareholders to the board.

**PIRC Analysis:** Action by written consent would circumvent the important deliberative process of a shareholder meeting. While it is considered that the Board should remain accountable to its shareholders, regardless of the method of communication chosen, there are concerns that using written consent could lead to minority shareholders losing the ability to have their say on matters affecting the company. On this basis shareholders are advised to oppose.

## LIBERTY GLOBAL PLC AGM - 12-06-2018

### *2. Re-elect Paul A Gould*

Senior Independent Director. Not considered independent as he has served on the Board for more than nine years. It is considered that a Senior Independent Director should be independent, in order to fulfill the responsibilities assigned to that role. Furthermore, he chairs the Audit Committee, which should be comprised of independent Non-Executive Directors only. An oppose vote is recommended.

*Vote Cast: Oppose*

### *3. Re-elect John C Malone*

Incumbent Chairman. Not independent upon appointment as he was CEO of the Company's former parent, Tele-Communications, Inc. He beneficially owns ordinary shares of Liberty Global representing 28.0% of the voting power. There are also concerns over his aggregate time commitments.

*Vote Cast: Oppose*

### *4. Re-elect Larry E Romrell*

Non-Executive Director. Not considered independent as he has served on the Board of the Company and its predecessor for an aggregate term of over nine years. There is insufficient independent representation on the Board. Furthermore, he sits on the Remuneration Committee, which should be comprised of independent Non-Executive Directors only. An oppose vote is recommended.

*Vote Cast: Oppose*

#### *5. Approve the Remuneration Report*

Overall disclosure is satisfactory, although targets for annual cash incentives are not disclosed. Total variable pay for the year under review is highly excessive, amounting in total to \$13,873,228 (\$1,581,319 under stock awards, \$8,456,513 under option awards and \$3,835,396 under non-equity incentive plan compensation awards). The total variable pay represents 666.7% of salary; this is considered particularly excessive given that this far exceeds the recommended limit of 200% of salary. In addition there are concerns over the level of benefits received by the CEO during the year, amounting to \$548,735, with a significant portion, \$350,263, relating to the use of company plane and a sports box. The use of company funds to provide such benefits to executive directors is not supported. Furthermore, the change in the CEO's salary is not in line with the rest of the Company, as the CEO's salary rose by 2% while employees from the Company's chosen comparator group saw a 4% decrease in salaries.

*Vote Cast: Oppose*

#### *6. Re-appoint KPMG LLP (U.S.) as Auditor*

KPMG proposed. Non-audit fees represented 0.07% of audit fees during the year under review and 1.76% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Abstain*

#### *9. Authorise Share Repurchase*

The Company seeks authority to enter into forms of agreement (Master Put/Call Agreements) with any of Bank of America, Merrill Lynch, Barclays PLC, Credit Suisse Securities (USA) LLC, Deutsche Bank AG, Goldman Sachs & Co., HSBC Securities and J.P. Morgan Securities, LLC. Each Master Put/Call Agreement grants to the counterparty thereto the option to require the company to purchase, and grants to the company the option to require the counterparty to sell, shares of the company owned by it in consideration of the payment by the company to the counterparty of an amount in cash, which may include a premium over the price paid by such counterparty for such shares. The Master Put/Call Agreements permit multiple exercises of the options granted pursuant to it. The authority expires on the fifth anniversary of the Annual General Meeting.

There is a concern regarding the potential repurchase of shares during a closed trading period, as this off market authority may potentially allow for transactions to still occur. This resolution will not be supported unless the Board has set forth a clear, cogent and compelling case demonstrating how the authority would benefit long-term shareholders. As no clear justification was provided by the Board, an oppose vote is recommended.

### *3. Amend the 2013 Equity Incentive Plan*

The Board is seeking shareholder approval to amend the 2013 Equity Incentive Plan to increase the number of shares of common stock reserved for issuance under the 2013 Plan by an additional 40 million shares. The 2013 Plan will be awarded in the form of Stock options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. The 2013 Plan will automatically terminate 10 years from the date of its initial adoption by the Board, unless terminated at an earlier time by the Administrator.

The 2013 Plan is presented as a stock omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. However, it is noted that the Compensation Committee will have considerable flexibility in the payout of discretionary awards and as a result awards may not be subject to robust enough performance targets, and be insufficiently challenging. In addition, maximum award limits are excessive. A vote in opposition is recommended.

### *3. Approve the Remuneration Report*

Overall disclosure is satisfactory. However, the remuneration report received significant shareholder opposition at last year's AGM (20.79%). The Committee has included a statement which highlights the reasons for the significant level of shareholder opposition, and has highlighted shareholder engagement in the past which references the reason for the significant level of opposition.

The CEO's salary is in line with the rest of the Company, as the CEO's salary did not change while the change in employees' salaries was an increase of 1.8%. The CEO's salary is in the upper quartile of the Company's comparator group. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. EPSP awards granted during the year under review are highly excessive at 601% of salary for the CEO. Total variable pay for the year under review is highly excessive, amounting to 1060% of salary for the CEO; this considerably exceeds the recommended limit of 200% of salary. There was no pay-out under the STIP due to performance targets not being achieved. A significant portion of the CEO's variable pay for the year under review was paid in the form of dividend equivalents, which is contrary to best practice. Dividend equivalents amounted to £2,170,000 for the CEO - 188.9% of his salary. The ratio of CEO pay compared to average employee pay is unacceptable at 81:1. There is no mention of any termination payments that are planned or have been made to the recently departed CEO. However, upon engaging with the Company, it was revealed that Martin Sorrell will be treated as having retired on leaving the Company under the share scheme rules. Consequently, his outstanding share awards will be pro-rated for time in line with the plan rules and will vest over the next five years, to the extent performance targets are achieved. No discretion was exercised. He did not receive any compensation for loss of office and he will not be entitled to any future payments in lieu of notice following his retirement.

#### 4. *Re-elect Roberto Quarta*

Chairman. Independent upon appointment. Upon the departure of Sir Martin Sorrell, Roberto Quarta assumed the position of Executive Chairman on an interim basis. The appointment of a chairman in an executive capacity is considered to be an obstacle to independence. The Chairman should meet the definition of independence upon appointment in order to effectively fulfill his role. Given the role of the chair and non-executives in holding the executive management accountable, the Board Chairman should be a separate role to that of an Executive Director, who has operational responsibilities. Nevertheless, there is evidence of de facto division of responsibilities at the head of the Company, as the Company, upon engagement, made clear that Mr Quarta does not have the responsibilities of the Chief Executive, and that the running of the Company is undertaken by the joint Chief Operating Officers. Furthermore, the Company also states that the Board is conducting an internal and external review process on an expedited basis to confirm the appointment of the new CEO, at which point Mr Quarta will return to be the Non-Executive Chairman. Mr Quarta is Chairman of Smith & Nephew plc, a FTSE 100 company. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company. PIRC issue: Furthermore, there are concerns over the Company's succession planning, as is exemplified by the lack of planning in the aftermath of the CEO's departure. As Chair of the Nomination and Governance Committee, concerns are raised over Mr Quarta's oversight of succession planning in the Company.

#### 20. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a

specified capital investment. Such a proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### 5. *Shareholder Resolution: Amend Compensation Clawback Policy*

**Proposed by:** CtW Investment Group

The Proponent request the Compensation and Human Resource Committee of the Board of Directors to amend the Company's clawback policy to provide that the Committee will (a) review, and determine whether to seek recoupment of incentive compensation paid, granted or awarded to a senior executive if, in the Committee's judgment, (i) there has been conduct resulting in a material violation of law or Company policy that causes significant financial or reputational harm to Company, and (ii) the senior executive engaged in such conduct or failed in his or her responsibility to manage or monitor conduct or risks; and (b) disclose the circumstances of any recoupment if (i) required by law or regulation or (ii) the Committee determines that disclosure is in the best interests of Company and its shareholders.

**Supporting Argument:** The Proponent argues that this move would create a strong incentive for individuals to monitor the actions of their colleagues, and to call attention to any issues. The Proponent notes that cases such as \$60.0m class action settlement related to possible defects in the Company's emission control system for certain heavy duty diesel engines, are potentially linked to previous performance.

**Opposing Argument:** The Board believes that the proposal is unnecessary in light of the current clawback policy. The proponent's amendment to the current clawback policy would allow for unclear and imprecise standards by requiring recoupment if there has been conduct resulting in a "violation of law or Company policy that causes significant financial or reputational harm to the Company" or if he/she "failed in his or her responsibility to manage or monitor conduct or risks." There is no definition or measurable standard for what conduct qualifies or for calculating the recoupment amount resulting from such harm. The proposed amendment would undermine the effectiveness of the performance-based compensation, which is in place, by introducing discretionary and subjective evaluations that have been avoided under the current performance-based plans.

**PIRC Analysis:** The proposal raises some relevant points relating to holding the executives accountable for decisions that may lead to a loss of shareholder value in the future. However, the request lacks specified definitions for amendment to the current clawback policy. An abstain vote is recommended.

### *3. Amend Existing Omnibus Plan*

It is proposed to approve an amendment to the Company's 2013 Omnibus Incentive Plan to increase the number of shares available for issuance thereunder by 18,500,000 shares to a total of 81,775,000 shares. Currently, the 2013 Omnibus Incentive Plan provides that the maximum number of shares available for issuance pursuant to awards issued thereunder is 63,275,000 shares of common stock. Awards may be granted under the 2013 Omnibus Incentive Plan to officers, employees, consultants and advisors of the Company and its affiliates and to non-employee directors of the Company. The Board of Directors has the authority to administer the 2013 Omnibus Incentive Plan and to delegate its authority to administer the 2013 Omnibus Incentive Plan to a committee or subcommittee appointed by the Board. The Committee has the authority to select individuals to whom awards may be granted, the type of awards granted and the terms of any such awards (subject to the following limitations).

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

**2. Approve the Remuneration Report**

**Disclosure:** Performance conditions and targets for the annual bonus are disclosed as are the expected values for all share incentives for each director. It is noted that the Company received significant opposition at the last AGM to its remuneration report (45.57%). Whilst the Company has acknowledged shareholder concern

over the the level of stretch regarding the LTIP award, little has been attempted to address this dissent. The issue from PIRC's perspective is that the free cash flow figure used as the performance condition for the PSP is "adjusted". We consider that adjustments to cash flow for remuneration purposes are inappropriate. In this case, the company defines adjusted free cash flow as cash generated from operations, plus property disposal proceeds (excluding sale and leaseback) but less capital expenditure. This is not considered appropriate as defining cash flow in such narrow terms results in the basis of the PSP award failing to take into account free cashflow as a whole. This approach leaves the award vulnerable to artificial manipulation as a means to increase the overall quantum of director compensation.

**Balance:** The CEO's total realised variable pay is considered excessive at 555.4% of salary (Annual Bonus: 197.4% of salary, LTIP: 358% of salary). Also, the LTIP grant for the year is considered excessive at 300% of salary. Furthermore, the ratio of CEO to average employee pay has been estimated and is found unacceptable at 160:1. The CEO's salary is considered as being in the median range of a peer comparator group. The changes in CEO total pay are not considered in line with Company financial performance over the same period. Over the five year period average annual increase in CEO pay has been approximately 58.3% whereas, on average, TSR has increased by 3.71%

#### 5a. *Re-elect Antonio Vázquez Romero*

Incumbent Chairman. Not independent upon appointment as he was Executive Chairman of Iberia until the date of the merger. It is considered that a former executive

may not have sufficient detachment to objectively assess executive management and strategy. It is further noted that the termination provisions extended to this director amount to €2,800,000, which is in excess of one year's salary and benefits.

#### 4a. *Appoint the Auditors*

EY proposed. Non-audit fees represented 29.19% of audit fees during the year under review and 33.79% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

Results: For: 99.2, Abstain: 0.1, Oppose/Withhold: 0.7,

#### 6b. *Approve Remuneration Policy*

**Policy Changes** All of the proposed policy changes are welcome. Pension contributions for new externally recruited executive directors will be reduced from 25 per cent to 15 per cent of basic salary lowering the overall quantum of the remuneration structure. Also, the exceptional limit that currently applies to the PSP award is being removed and will now be capped at 200% of salary. Finally, the shareholding requirement will be increased to 350 per cent of salary (from 250 per cent of salary) for the CEO creating increased alignment with shareholders' interests. Despite the positive changes there remains some concern regarding the remuneration policy as a whole.

**Disclosure:** Disclosure is considered adequate.

**Balance:** The current pension contribution at 25% of salary for executive directors is considered excessive. However, it is noted that from 2018 the policy will limit pension contributions to 15% for newly-appointed directors. Whilst the operation of the annual bonus meets best practice the same cannot be said for the LTIP. There are concerns over the use of adjusted EPS because companies have failed, to date, to disclose the specific accounting items over which they have discretion to strip-out or include as one-time items. This highly discretionary methodology frustrates shareholder accountability. Also, none of the metrics used for these plans are non-financial indicators. The absence of non-financial parameters to assess Executives' long-term performance is considered contrary to best practice as such factors allow the remuneration policy to focus on the operational performance of the business as a whole and the individual roles of each of the senior executives in achieving that performance. Financial parameters are generally beyond an individual director's control. Furthermore, the performance metrics for the LTIP are not operating interdependently, such that vesting under the incentive plan is only possible where all threshold targets are met. It is further noted that total potential awards under all incentive schemes are considered excessive as the potential combined total is 400% of salary.

**Contracts:** Termination provisions for directors should not be in excess of one year's salary and benefits. Whilst contract provisions for executive directors are not considered excessive, and a mitigation statement is made, the Chairman is entitled to a lumpsum retirement benefit in an amount of €2,800,000 which far exceeds the recommended limit. Furthermore, the policy permits buy out awards which is not considered appropriate.

#### 6a. *Approve the Remuneration Report*

**Disclosure:** Past targets for the annual bonus are disclosed as are the performance conditions and targets for the LTIP awarded during the year under review. However, accrued dividends for vested share incentives are not separately categorised.

**Balance:** The CEO's salary is considered as being in the median range of a peer comparator group. The ratio of CEO to average employee pay has been estimated

and is found unacceptable at 57:1. Furthermore, the CEO's total realised rewards are considered excessive at 337.1% of salary (Annual Bonus: 185.8%, LTIP: 151.3%). The changes in CEO total pay over the last five years are considered in line with Company financial performance over the same period. Over the five year period average annual increase in CEO pay has been approximately 7% whereas, on average, TSR has increased by 38.5%.

## TECHNIPFMC PLC AGM - 14-06-2018

### 1. *Approve Financial Statements*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

Vote Cast: *Abstain*

### 3. *Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive directors. There are excessiveness concerns as the total variable remuneration exceeded 200% of the salary. The Company has disclosed past achievements and future targets along with quantified performance criteria consists of an annual bonus and long term incentive. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. However, opposition is recommended based on excessive remuneration.

Vote Cast: *Oppose*

#### *2. Advisory Vote to Ratify Named Executive Officers' Compensation*

It is proposed to approve the remuneration policy. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which may lead to overpayment against underperformance. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. Nevertheless, opposition is recommended based on potential excessive variable remuneration.

### **MERCADOLIBRE INC AGM - 15-06-2018**

#### *2. Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive directors with an advisory vote. There are excessiveness concerns as the total variable remuneration exceeded 200% of the salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely that shareholders reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

#### *3. Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 58.63% of audit fees during the year under review and 31.52% on a three-year aggregate basis. This level of non-audit fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. **CARREFOUR SA AGM - 15-06-2018****O.4. *Approve Related Party Transaction***

It is proposed to approve the agreements and commitments authorized during the past year referred to in Article L. 225-38 and following of the French Commercial Code.

The first agreement is with the company Kampos relating to a technical analysis in connection with the IPO of the Carrefour Group's Brazilian subsidiary.

Secondly, at the meeting on April 2017, the Board of Directors authorized a new syndicated loan agreement with a syndicate of banks, including BNP Paribas, for the amount of EUR 1.400 million and authorized a rider to the Renovation and Development agreement entered into between Carmila and the Company with a view to setting up in France, Spain and Italy, a common strategy to enhance the value and attractiveness of shopping centers jointly owned by Carmila (shopping centers) and the Carrefour Group (hypermarkets and car parks).

During the year under review have been authorized another agreement on the partial secondment of staff for four years under which Mr Jacques Ehrmann has been seconded of Carmila by the Company for 50% of his time to exercise his duties as Chairman and Chief Executive Officer of Carmila.

Mr Georges Plassar, Chairman and CEO until July 2017, has a non-compete obligation binding for an 18 month period. The non-compete agreements are against with the best practice market.

Mr Alexandre Bompard, Chairman and CEO since July 2017, signed two commitments. The first is concerning a supplementary defined benefit pension plan. The second is setting a payment of an amount equal to one year's fixed and target variable remuneration in the event that his duties are terminated. The severance package

incorporates elements of the variable remuneration which it is considered excessive.  
On balance, oppose is recommended.

Vote Cast: *Oppose*

*O.16. Advisory Vote on Compensation owed or due to Alexandre Bompard, Chairman and CEO since July 2017*

It is proposed to approve the remuneration paid or due to Alexandre Bompard with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

*O.17. Approve Remuneration Policy of Alexandre Bompard, Chairman and CEO*

It is proposed to approve the remuneration policy of Alexandre Bompard, Chairman and CEO. Although variable remuneration appears to be consistently capped, there are excessiveness concerns as the total potential variable remuneration exceed 200% of the salary. The Company has not disclosed quantified targets or performance criteria for its variable remuneration component, which may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these grounds, opposition is recommended.

Vote Cast: *Oppose*

*O.18. Advisory Vote on Compensation owed or due to Georges Plassat, Chairman and CEO until July 2017*

It is proposed to approve the remuneration paid or due to Georges Plassat with an advisory vote. There are concerns regarding excess as the total variable remuneration exceeded 200% of the salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. Furthermore, there are no claw back clauses in place, which is against best practices. Opposition is recommended.

## TESCO PLC AGM - 15-06-2018

### 2. *Approve the Remuneration Report*

**Disclosure:** Disclosure concerning the practices relating to director remuneration is adequate. Company's retrospective disclosure of annual bonus targets is welcomed and all share incentive awards are fully disclosed with award dates and prices. Although there was no salary increase awarded to the CEO in the year under review and the average increase for UK employees was 5.25% it is noted that the Company also has operations in Central Europe and Asia which are not included in the calculation. The use of a selected comparator base undermines the merit of this comparison and is not considered to be appropriate.

**Balance:** The salary of the CEO is considered to be the highest when compared to salaries of other CEOs in the peer group. This raises concerns about the potential excessiveness of the remuneration structure, as incentive awards are directly linked with salary levels. The changes in CEO pay over the last five years are not considered to be in line with changes in Company's TSR performance over the same period. Over the five year period average annual increase in CEO pay has been approximately 50.34% whereas, on average, TSR has decreased by 7.84%. Furthermore, the CEO's total realised reward under variable incentive schemes for the year under review is considered excessive at 259.68% (Annual Bonus: 182% of salary - LTIP: 77.68% of salary). The LTIP awarded during the year is also considered excessive at over 200% of salary. Finally, the ratio of CEO to average employee pay has been estimated and is considered unacceptable at 267:1.

Rating:AE

As the CEO's bonus exceeded his salary, it is recommended to oppose.

Vote Cast: *Oppose*

Results: For: 96.9, Abstain: 0.1, Oppose/Withhold: 3.1,

### 3. *Approve Remuneration Policy*

**Policy Changes:** The two financial metrics included within the Annual Bonus will change from 50/30 weighting to 40/40. From the 2018 grant onwards, PSP awards will be subject to a two-year holding period post vesting which is welcome. Also, pension provision will reduce from 25% to 15% of base salary for new appointments

which will reduce the overall quantum of the remuneration package available to directors. The shareholding requirement for directors will be extended so that senior management will need to retain all shares that vest to them, net of any tax liabilities, until the requirement is satisfied. 'Good leaver' treatment under the PSP will change so any subsisting PSPs will vest based on performance over the relevant performance period and will then be pro-rated for the portion of the performance period worked. This represents a change from the previous policy which would see PSP award lapse for the year of departure and the other two 'in flight' awards would vest at their usual vesting date. The PSP performance metrics have been reduced from three to two, meaning that the metrics now comprise EPS (50%) and a free cash flow metric (50%), the latter replaces the equivalent metric previously included within the Annual Bonus.

**Disclosure:** Disclosure is considered adequate.

**Balance:** Maximum potential awards under all incentive schemes is 600% of salary which is highly excessive. The vesting period for the PSP award is only three years which is not considered sufficiently long term. However, from 2018 PSP awards will be subject to a two-year holding period post vesting. It is disappointing to see that under the proposed policy Tesco has removed the non-financial element to achieving the award. The PSP is now based on the achievement of EPS and free cash flow targets. The absence of non-financial parameters to assess Executives' long-term performance is considered contrary to best practice as such factors are generally beyond an individual director's control. Non-financial parameters allow the remuneration policy to focus on the operational performance of the business as a whole and the individual roles of each of the senior executives in achieving that performance. Furthermore, for both the Annual Bonus and PSP the performance metrics are not operating interdependently, such that vesting under the incentive plan is only possible where all threshold targets are met. However, a group operating profit before exceptional items underpin applies to the Annual Bonus which is welcome.

**Contracts:** Duration of contracts and Company liabilities on termination are given and are in line with standard market practice. However, there are concern over the level of upside discretion given to the Board when determining severance payments under the different incentive plans. Also, the policy allows for the appointment of new executive with a notice period of 24 months reducing to 12 months after a year. The Company should aim to have notice period of no more than one year in any circumstance.

Rating: BDC

Based on this rating it is recommended that Central oppose.

#### *7. Re-elect John Allan*

Chairman. Independent upon appointment. He is also Chairman of Barratt Developments plc, a FTSE 100 company. It is considered that a chair cannot effectively represent two corporate cultures. The possibility of having to commit additional time to the role in times of crisis is ever present. Given this, a Chairman should focus his attention onto the only one FTSE 350 Company. Furthermore, he is also chair of the nomination committee, significant oppose votes were cast against several directors at the last AGM including Mr Allan (14%), shareholder dissent has not been addressed.

He is chair of the Nomination Committee and less than 25% of the Board are women which does not meet Camden guidelines.

#### 22. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### ZENKOKU HOSHO CO LTD AGM - 15-06-2018

#### 2.1. *Elect Ishikawa Eiji*

President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

#### 2.4. *Elect Asada Keiichi*

Newly nominated Executive Director. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

**RENAULT SA AGM - 15-06-2018****O.7. *Reelect Carlos Ghosn as Director***

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal. Opposition is recommended.

Vote Cast: *Oppose*

**O.8. *Approve Remuneration Policy of Chairman and CEO***

It is proposed to approve the remuneration policy of Chairman and CEO. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

**O.9. *Approve Compensation of Carlos Ghosn, Chairman and CEO***

It is proposed to approve the remuneration paid or due to Carlos Ghosn, Chairman and CEO with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

Vote Cast: *Oppose*

**O.10. *Approve Additional Pension Scheme Agreement with Carlos Ghosn, Chairman and CEO***

It is proposed to the General Meeting to approve the additional scheme agreement of Mr Carlos Ghosn, Chairman and CEO. The supplementary pension plan for the benefit includes, in addition to the collective supplementary pension scheme set up for members of the Group Executive Committee, a defined contribution scheme equivalent to 8% (5% paid by the Company and 3% by the beneficiary) of annual remuneration, comprised between eight and 16 times the upper earnings limit for social security contributions. This additional compensation to the Chairman and CEO is not linked to performance and raises excessiveness concerns regarding his total remuneration. In addition, there is insufficient independent representation on the Board, which raises concerns as to whether this pension agreement was submitted to the adequate independent review. On this basis, opposition is recommended.

Vote Cast: *Oppose*

**O.11. *Ratify Appointment of Thierry Derez as Director***

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. However, As abstention is not a valid voting option for this item, opposition is recommended.

Vote Cast: *Oppose*

*O.13. Reelect Patrick Thomas as Director*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. The Director has attended at the 75% of meetings of the Board. Since an abstain vote is not valid in this market opposition is recommended.

Vote Cast: *Oppose*

*O.14. Reelect Pascale Sourisse as Director*

Non-Executive Director, not considered to be independent as the Director is on the executive committee of Thalès, where the French State is the major shareholder as in the Company. There is insufficient independent representation on the Board. Opposition is recommended.

Vote Cast: *Oppose*

*O.16. Reelect Yasuhiro Yamauchi as Director*

Non-Executive Director, not considered to be independent as he is an Executive Director Nissan Motor Co. Ltd, a firm which is shareholder in the Company. There is insufficient independent representation on the Board. Opposition is recommended.

Vote Cast: *Oppose*

*O.17. Approve Fees Payable to the Board of Directors*

With this resolution, shareholders are not asked to approve the actual fees payable, but only the maximum amount. The voting advice will take into account year-on-year increase of the total payable amount.

It is proposed to set the maximum amount payable to the Board of Directors to EUR 1.5 million. Last year, the Board received approximately EUR 1.2 million. The increase proposed on the fees is of 25% and exceed guidelines while it has not been adequately justified by the Board? Individual directors' fees have been disclosed. Opposition is recommended.

Vote Cast: *Oppose*

*O.18. Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

*E.21. Authorise the Board to Waive Pre-emptive Rights*

It is proposed to exclude pre-emption rights on shares issued over a period of 26 months. The corresponding authority for issuing shares without pre-emptive rights, requested in a previous proposal, does not exceed guidelines 10%. However it is considered that shareholders should be allowed to vote on such resolutions annually. Opposition is recommended.

Vote Cast: *Oppose*

#### *E.22. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 5% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

Vote Cast: *Oppose*

#### *E.23. Authorize Capital Increase of Up to EUR 120 Million for Future Exchange Offers*

It is proposed to exclude pre-emption rights on shares issued over a period of 26 months. The corresponding authority for issuing shares without pre-emptive rights, requested in a previous proposal, does not exceed guidelines 10%. However it is considered that shareholders should be allowed to vote on such resolutions annually. Opposition is recommended.

### **JSR CORPORATION AGM - 15-06-2018**

#### *2.1. Elect Koshihara Mitsunobu*

President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

#### *2.4. Elect Miyazaki Hideki*

Newly appointed Executive Director. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

### **DEUTSCHE WOHNEN AG AGM - 15-06-2018**

#### *7. Issue Shares for Cash*

Authority is sought to issue shares without pre-emptive rights to an amount of more than 10% of the share capital, which is deemed excessive. Opposition is recommended.

## IP GROUP PLC AGM - 18-06-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 97.6, Abstain: 2.1, Oppose/Withhold: 0.3,

### 2. *Approve the Remuneration Report*

Overall disclosure is adequate. The change in the CEO's salary is not in line with the rest of the Company, as the CEO's salary rose by 15.9% while the salaries of UK employees rose by only 4.4%. Such a difference in the salary increases is considered inappropriate. LTIP awards granted during the year are excessive, amounting to 300% of salary for the CEO. However, the balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. Total realised variable pay for the year under review is acceptable, standing at 59.2% of salary for the CEO. Realised variable pay consisted only of the annual bonus, as no LTIP awards vested due to performance conditions not being met. The ratio of CEO pay compared to average employee pay currently stands at 7:1, which is acceptable. The CEO's salary is in the lower quartile of the Company's comparator group.

Rating: AC.

Based on this rating it is recommended that Central abstain.

Vote Cast: *Abstain*

Results: For: 98.2, Abstain: 0.5, Oppose/Withhold: 1.3,

### 11. *Re-elect Mr Mike Humphrey*

Incumbent Chairman. Independent upon appointment.

The Company has failed to disclose quantitative and qualitative information through CDP's climate change questionnaire.

PIRC issue: He is the Chairman of the Nomination Committee and no target has been set to increase the level of female representation on the Board, which is currently insufficient at 20%.

Vote Cast: *Oppose*

Results: For: 95.2, Abstain: 1.3, Oppose/Withhold: 3.5,

### 13. *Re-elect Dr Elaine Sullivan*

Independent Non-Executive Director. She was absent from a Board meeting, although she contributed by telephone. She missed one out of five Audit Committee meetings with no adequate justification provided. An oppose vote is recommended.

**CORP FINANCIERA ALBA AGM - 18-06-2018****5. Approve the Remuneration Report**

It is proposed to approve the annual report on remuneration of Executive and Non-Executive Directors. The Company discloses all elements of remuneration for Executives and Non-Executives. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely that shareholders reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

**6.1. Approve Remuneration Policy**

It is proposed to approve the remuneration policy. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria for its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these grounds, opposition is recommended.

Vote Cast: *Oppose*

**7. Approve Share Appreciation Rights Plan**

The Board proposes the approval of a new incentive plan. Under the plan, the CEO and other executives will be allotted 300,000 stock options, each of which will give right to one share. The plan will grant a compensation based on the share price change within three year. Share price is not considered to be a suitable measure, as it can be influenced by exogenous factors independent of company performance.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure. On this basis, opposition is advised.

Vote Cast: *Oppose*

**11. Authorise Share Repurchase**

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

**ISETAN MITSUKOSHI HOLDINGS AGM - 18-06-2018***1. Appropriation of Surplus*

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 6 yen per share is proposed, however, the Company made a net loss in the year under review. It is considered unwise to pay a dividend in this instance given the capital maintenance needs of the company.

*2. Ratify KPMG LLP as Auditors*

KPMG proposed. Non-audit fees represented 16.53% of audit fees during the year under review and 13.58% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

*3. Advisory Vote to Ratify Named Executive Officers' Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

### *2.2. Elect Oohashi Tetsuji*

President, Representative Director. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

### *2.7. Elect Ogawa Hiroyuki*

Newly nominated Executive Director. Executive Director. After this meeting, there will be no female directors on the Board. Regardless of the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

### *2.8. Elect Urano Kuniko*

Newly nominated Executive Director.. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

### *4. Payment of Bonus to Directors/Corporate Auditors*

The company proposes the payment of bonuses to directors and corporate auditors. Although shareholders are given an opportunity to vote at the Annual Meetings on bonus payments, outside directors are permitted to benefit from payment of a retirement allowance. As payment of outsiders represents a conflict in interest, an oppose vote is recommended.

Vote Cast: *Oppose*

**JAPAN AIRLINES CO LTD AGM - 19-06-2018****2.7. Elect Shimizu Shinichirou**

Newly nominated Executive Director. It is considered that the election of new executive directors, should not be supported, as their appointment to the Board would lead to a Board where independent directors comprise less than one-third of the whole board.

Vote Cast: *Oppose*

**QIAGEN NV AGM - 19-06-2018****8.B. Reelect Hakan Bjorklund to Supervisory Board**

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

Vote Cast: *Abstain*

**11.B. Authorise the Board to Waive Pre-emptive Rights**

The Board requests shareholder approval to exclude pre-emption rights on shares issued over a period of 18 months or until next AGM, proposed in the previous resolution. The corresponding authority for issuing shares without pre-emptive rights, requested in the previous proposal, exceeds guidelines for capital increase without pre-emptive rights. Opposition is recommended.

Vote Cast: *Oppose*

**12. Authorise Share Repurchase**

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

**EVRAZ PLC AGM - 19-06-2018****1. Receive the Annual Report**

The Strategic Review is considered adequate. There is clear disclosure of the company's strategy. Adequate environmental and employment policies are in place and relevant, up-to-date, quantified environmental reporting is disclosed. Concerns remain over the Health and Safety practices of the company as the total number of fatalities increased from six to ten during the year under review. It is further noted that the Company has not provided shareholders with an opportunity to approve dividends paid during the year. Given the lack of opportunity to approve the dividend, shareholders are recommended to oppose.

Vote Cast: *Oppose*

Results: For: 99.8, Abstain: 0.0, Oppose/Withhold: 0.2,

## 2. *Approve the Remuneration Report*

**Disclosure:** All elements of the Single Total Remuneration Table are adequately disclosed as are future performance conditions and past targets for the annual bonus.

**Balance:** Variable remuneration is solely comprised of an annual bonus, there is no equity-based/long-term incentive plan in operation. The balance of realised pay with financial performance is considered acceptable as changes in CEO total pay over the last five years are considered in line with changes in TSR performance during the same period. Over the five year period average annual increase in CEO pay has been approximately 9.4% whereas, on average, TSR has increased by 40.75%. The CEO's salary is considered to be the highest of a peer comparator group, which raises concerns over the excessiveness of his salary. Furthermore, the ratio of CEO pay compared to average employee pay is highly excessive at 419:1. There are further concerns over the discretionary element of the annual bonus with which the CEO was rewarded at the maximum level despite work-place fatalities increasing by 66.6% during the year. As a member of the Health, Safety and Environment Committee the CEO is directly responsible for the safety of the work force and it is therefore not appropriate that the discretionary element of the annual bonus was awarded in full.

Rating: AD

As the CEO's bonus exceeded his salary, it is recommended that Central oppose.

## 3. *To re-elect Alexander Abramov as a Director*

Incumbent Chairman. Not independent upon appointment. Mr Abramov founded EvrazMetall company, a predecessor of the Group in 1992. He was CEO of EVRAZ Group until 1 January 2006, and Chairman of the Board until 1 May 2006. He was later re-appointed Chairman of EVRAZ plc on 14 October 2011 by the majority shareholder, Lanebrook Ltd, pursuant to the terms of the relationship agreement. Mr Abramov also owns 21.09% of the share capital of the Company.

It is considered that the Chairman should not be connected to a controlling shareholder in order to protect the rights of the minority shareholders. Moreover, a former executive may not have sufficient detachment to objectively assess executive management and strategy.

The Company has answered 'No' to the CDP's question on whether it supports an international agreement on climate change

PIRC issue: This Director has also missed one of ten Board meetings that he was eligible to attend. A sufficient explanation has not been provided by the Company.

### 15. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment*

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

## **JAPAN DISPLAY INC AGM - 19-06-2018**

### 1.2. *Elect Tsukizaki Yoshiaki*

Newly nominated President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although newly appointed directors may not be held accountable for past appointments, it is considered that the election of new executives, should not be supported until gender diversity is introduced on the Board.

Vote Cast: *Oppose*

## **JAPAN POST BANK CO., LTD. AGM - 19-06-2018**

### 1. *Reduction of Statutory Reserve*

The board seeks shareholder approval for the reduction of statutory reserve. There is a reduction of the statutory reserve of JPY 796,285,955,819, down from JPY 4,296,285,955,819. The request for a reduction in the statutory reserve is being made with a commitment to facilitate a distribution to shareholders. An oppose vote is therefore recommended.

### 2. *Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: CED. Based on this rating, it is recommended that shareholders oppose.

Vote Cast: *Oppose*

### 3. *Ratify Deloitte & Touche LLP as Auditors*

Deloitte proposed. Non-audit fees represented 13.12% of audit fees during the year under review and 16.59% on a three-year aggregate basis. This level of non-audit

fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

## UK COMMERCIAL PROPERTY REIT LTD AGM - 20-06-2018

### 1. *Receive the Annual Report*

The company indicates that ESG matters are taken into account in investment decisions. There was no dividend or dividend policy put to vote although the company paid interim dividends during the year, which is considered inappropriate. The legal definition for investment companies permits payments of dividend regardless of capital reserves. It is therefore considered that shareholder consent to dividend is a necessary safeguard and should be sought accordingly. On this basis, an oppose vote is recommended.

## WORKDAY INC AGM - 20-06-2018

### 2. *Appoint the Auditors*

EY proposed. Non-audit fees represented 35.01% of audit fees during the year under review and 37.35% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Abstain*

### 3. *Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: EDC. Based on this rating, it is recommended to oppose.

Vote Cast: *Oppose*

### 4. *Amend Existing Omnibus Plan*

It is proposed to approve an amendment to the 2012 Equity Incentive Plan to provide that a newly appointed non-employee director may receive Awards representing up to USD 1,750,000 total value in the calendar year in which the director first becomes a non-employee director; provided that any initial Award granted to a non-employee director in connection with the commencement of his or her initial services as a non-employee director shall not exceed USD 1,000,000 in value. The Plan authorises the Award of stock options, RSAs, SARs, RSUs, performance awards and stock bonuses. The Plan is administered by the Compensation Committee, all of the members of which are outside directors as defined under applicable federal tax laws, or by the Board of Directors acting in place of the Compensation Committee. The Compensation Committee has the authority to construe and interpret the Plan, grant Awards, and make all other determinations necessary or advisable for the administration of the Plan.

Whilst the imposition of a limit is good practice, the Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

**4. Approve Equity Grant to Executive Directors**

It is proposed to grant performance shares to executive Directors. The Company requests the total grant to be capped at JPY 370,000,000 per year for the eligible directors. The performance measures for the plan will be consolidated sales amount and consolidated operating profit.

Performance targets have not been disclosed. The performance period for the plan will be three years. Based on the concerns related to lack of disclosure of performance targets, the insufficient performance period and the lack of clawback clauses. Opposition is therefore recommended.

Vote Cast: *Oppose*

**CREDIT SAISON CO LTD AGM - 20-06-2018****1. Appropriation of Surplus**

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 35 yen per share is proposed, and the dividend payout ratio is approximately 14.9%. which at less than 15%, is below what shareholders could reasonably expect.

### *4. Renew Appointment of Deloitte as Auditor for FY 2018*

Deloitte proposed. Non-audit fees represented 50.44% of audit fees during the year under review and 48.39% on a three-year aggregate basis. This level of non-audit

fees raises major concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Oppose*

#### *7.2. Elect Stephan Gemkow*

Non-Executive Director. Not considered to be independent as he formed part of the Amadeus Board of Directors from May 2006 to July 2013, as proprietary Director, representing Lufthansa. There is sufficient independent representation on the Board. However, as there are concerns over the director's potential aggregate time commitments, an abstain vote is recommended.

*Vote Cast: Abstain*

#### *7.3. Elect Peter Kurpick*

Independent Non-Executive Director. There are concerns over the director's potential aggregate time commitments. Therefore, an abstain vote is recommended.

*Vote Cast: Abstain*

#### *7.10. Re-elect Francesco Loredan*

Non-Executive Director. Not considered to be independent as he has been on the Board more than nine years. There is sufficient independent representation on the Board. However, as there are concerns over the director's potential aggregate time commitments, an abstain vote is recommended.

*Vote Cast: Abstain*

#### *8. Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive directors with an advisory vote. There are excessiveness concerns as the total variable remuneration exceeded 200% of the salary. In addition, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely that shareholders reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended. Opposition is recommended.

*Vote Cast: Oppose*

#### *9. Approve Remuneration Policy*

It is proposed to approve the remuneration policy. Variable remuneration does not seem to be consistently capped and as such there are excessiveness concerns as the total potential variable remuneration may exceed 200% of the salary. In addition, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which may lead to overpayment against underperformance. There are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Vote Cast: *Oppose*

#### 11.1. *Approve Performance Share Plan*

The Board proposes the approval of the Performance Share Plan, which comprises three independent three-year cycles, with a new cycle commencing every year. Under the plan, the CEO and other executives will be awarded rights to shares, which will vest depending on the achievement of some performance criteria. Performance targets are not quantified, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

Vote Cast: *Oppose*

#### 11.3. *Approve Share Matching Plan*

The Board is seeking approval for a new Company's Share Match Plan. The Plan is offered to all employees who decide to join the Plan, except members of the Board of Directors. The Share Match Plan is divided into three independent two-year cycles. The start date of the 2019 cycle is July 2019 and the end date will be June 2021. The shares purchased by the participants will be acquired at their market value in the Spanish stock exchange. The Company will grant one Matching Share for every two shares purchased by the participants who meet holding requirements. Dilution in aggregate with authorizations mentioned in proposals 11.1 through 11.3 corresponds to 2.0% of the Company's share capital.

The proposed Plan is open to all employees and the dilution is not considered material. However, a discount considered excessive (33%) would derive from matching shares. On this basis, opposition is recommended.

Vote Cast: *Oppose*

#### 12. *Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

Vote Cast: *Oppose*

#### 13. *Authorize Issuance of Convertible Bonds, Debentures, Warrants, and Other Debt Securities without Preemptive Rights*

Proposal to issue convertible debt for up to EUR 5 billion. Allocation of such instruments can take place without pre-emptive rights. As such, the cap to the authorized issuance (20% of the share capital) is considered to be excessive. Opposition is recommended.

#### *2.1. Elect Son Masayoshi*

President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

#### *2.9. Elect Sago Katsunori*

Newly appointed Executive Director. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

#### *2.10. Elect Yanai Tadashi*

Non-Executive Director, not considered to be independent. However, there are less than three outside directors on the Board and given that it is considered that there should be a minimum of three outside directors, opposition is recommended.

### **EXPEDIA GROUP INC AGM - 20-06-2018**

#### 2. *Appoint the Auditors*

EY proposed. Non-audit fees represented 0.91% of audit fees during the year under review and 1.15% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**ITOCHU TECHNO-SOLUTIONS CORP AGM - 20-06-2018****2.1. *Elect Kikuchi Satoshi***

President, from major shareholder, Representative Director. It is considered that it is the responsibility of the most senior Board members to ensure that there is appropriate outside oversight of Board decisions. As there is inadequate outside presence on the Board (less than three outside directors), an oppose vote on the most senior directors is recommended.

*Vote Cast: Oppose*

**2.8. *Elect Imagawa Kiyoshi***

Newly nominated Executive Director. It is considered that the election of new executive directors, should not be supported, as their appointment to the Board would lead to a Board where independent directors comprise less than one-third of the whole board.

**5. *Approve Granting of Restricted Stock to the Executive Directors***

It is proposed to grant restricted stock units to executive Directors. The Company requests the total grant to be capped at JPY 20,000,000 per year for the eligible directors. Fully quantified targets have not been disclosed for the grant.

Performance targets have not been disclosed. The performance period is also not disclosed and no further holding period is used. LTIP based schemes are inherently flawed. There is the inherent risk that they are rewarding volatility rather than the performance of the company (creating capital and - lawful - dividends). They are inherently acting as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure. Opposition is therefore recommended.

Vote Cast: *Oppose*

**6. Shareholders' Proposal: Determination of the amount of remuneration in the restricted Stock Compensation for Directors of the Board**

Proposed by: Not disclosed. The Proponents requests the Board to grant Restricted Stock Units to each of the Executive directors of the Board. The Proponents argue that the implementation of the Restricted stock program encourages long term alignment of interests of the Company and its management. The total grant will be capped at JPY 200,000,000. The Board supports the proposal and will implement the total cap of JPY 20,000,000 proposed in Resolution 5.

**TRIPADVISOR INC. AGM - 21-06-2018****3. *Approve Omnibus Stock Plan***

It is proposed to approve the Tripadvisor, Inc. 2018 Stock and Annual Incentive Plan for the purpose of providing sufficient reserves of shares of common stock to ensure the Board's ability to continue to provide new hires, employees and management with equity incentives. If approved, the number of shares reserved and available for issuance under the 2018 Plan would be 6,000,000 plus the number of shares available for issuance (and not subject to outstanding awards) under the TripAdvisor, Inc. Amended and Restated 2011 Stock and Annual Incentive Plan, or the 2011 Plan, as of the effective date of the 2018 Plan.

The 2018 Plan is administered by the Compensation Committees. The Compensation Committees have full power to select, from among the individuals eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to participants, and to determine the specific terms and conditions of each award, subject to the provisions of the 2018 Plan. The Compensation Committees may delegate to an officer of TripAdvisor the authority to grant awards to employees who are not subject to the reporting and other provisions of Section 16 of the Exchange Act, subject to certain limitations and guidelines. Persons eligible

to participate in the 2018 Plan are the directors, officers, employees, and consultants of TripAdvisor and its subsidiaries or affiliates as selected from time to time by the Compensation Committees in their discretion.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

**2. *Approve the Remuneration Report***

**Disclosure:** All elements of the Single Total remuneration table are disclosed as are the performance conditions and targets for long term incentives. However, dividend accrual is not separately categorised

**Balance:** The CEO's salary is in the median range of a peer comparator group and the increase in salary is in line with the rest of the Company. The changes in CEO total pay are considered in line with Company financial performance over the same period. Furthermore, total realised rewards under all incentive schemes were not excessive as, due to operational under-performance, no annual bonus was awarded and the LTIP vested at limited capacity equating to approximately 33.8% of salary. However, the CEO was granted an LTIP award of 200% of salary, which has the potential to lead to excessive rewards given the existence of the annual bonus. Also, the ratio of CEO pay compared to average employee pay is considered excessive at 35:1. It is noted the Company has disclosed the ratio as 34:1 to employee mean and 48:1 to employee median.

On 28 March 2018, the Company announced that Jonathan Hill, Chief Financial Officer, was to resign effective from September 2018. He will receive his current salary, benefits and pension up until he leaves the Company. Any awards held under variable incentive schemes which have not vested by the date of his cessation of employment will lapse. These leaving arrangements are considered appropriate.

### 3. Approve Remuneration Policy

#### Policy Changes:

On the whole, the changes made to the remuneration policy have been positive. The maximum value of the pension contribution allowance has been reduced from 20% to 15%, lowering the overall quantum of the remuneration structure. From 2018, LTIP awards will be subject to a two year holding period post vesting which is a welcome introduction. A new additional measure of Organic EPS for the LTIP has been introduced, as well as a reweighting of the performance measures to reflect the new EPS component. Also, the shareholding requirement has been increased from 200% of salary to 250% of salary which further aligns director performance with the shareholders. However, some important concerns with the policy remain.

**Disclosure:** Disclosure of the remuneration policy is adequate. The intended balance of the pay package is fully described and the Company has disclosed the recruitment policy for executives.

**Balance:** Total potential awards under all incentive schemes are considered excessive at 350% of base salary. Also, the deferral period for the Annual Bonus sees one third deferred into shares for three years. Whilst a deferral period is welcome, best practice would see at least 50% of the award deferred into shares. Furthermore, the performance measures are applied independently and can vest regardless of the performance in respect to other elements. With regard to the LTIP, the performance period is three years which is not considered sufficiently long-term. However, executives are required to hold their vested shares for at least Two years, which is welcomed. There are no non-financial performance measures attached to the LTIP and so the focus of remuneration policy is not the operational performance of the business as a whole or the individual roles of each of the executives in achieving that performance. Instead, the focus of the remuneration policy is financial KPIs, which mainly include factors beyond an individual director's control.

**Contracts:** The Policy tolerates recruitment payments which compensate external recruits for forfeit awards in circumstances where the performance period or holding period or the performance conditions for such awards haven't been fulfilled. The buying out of awards undermines any retentive effect such awards might have and distorts the market for executive talent. The Committee can also recruit Executives on an initial notice period of more than one year, reducing automatically to one year after a certain period of time, which is not considered best practice. Under the LTIP, when an employee is leaving, the committee may disapply the time prorata vesting if it considers it appropriate to do so. This is not considered an acceptable practice as directors should only be rewarded for the period served. Overall, upside discretion afforded by the remuneration policy raises concern.

### 17. Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

### *1. Approve Amended Joint Venture Agreement, Capital Increase Agreement and Related Transactions*

It is proposed to approve the framework agreement dated 23 April 2018 (the "Subscription Agreement") and entered into between the Company and Datang in relation to the supply of goods, rendering of or receiving services, leasing of assets, transfer of assets, provision of technical authorisation or licensing and provision of guarantee. Under the Subscription Agreement, an aggregate of principal amount of USD 20,000,00 will be issued pursuant to the exercise of China IC's pre-emptive right.

The Independent Financial Advisor is of the opinion that the transactions under the Joint Venture Agreement are fair and reasonable. However, such proposals are considered on the basis of whether they are deemed fair, whether they have been adequately explained, and whether there is sufficient independent oversight of the recommended proposal. The circular contains sufficient details of the transaction, but there is insufficient independence on the Board. In addition, Datang is a

substantial Shareholder of the Company, by virtue of their respective shareholding interest, with representatives of Datang sitting on the Board of Directors. A vote in opposition is recommended.

### *2.1. Elect Yamaura Yoshiyuki*

Executive Chairman. It is considered that it is the responsibility of the most senior Board members to ensure that there is appropriate outside oversight of Board decisions. As there is inadequate outside presence on the Board (less than three outside directors), an oppose vote on the most senior directors is recommended.

*Vote Cast: Oppose*

### *2.2. Elect Satou Yuuichi*

Newly nominated Executive Director. It is considered that the election of new executive directors, should not be supported, as their appointment to the Board would lead to a Board where independent directors comprise less than one-third of the whole board.

*Vote Cast: Oppose*

### *3.1. Elect Kitazawa Yoshimi*

Newly nominated Inside Corporate Auditor. Not considered to be independent. Opposition is recommended.

*Vote Cast: Oppose*

## **ACOM CO LTD AGM - 22-06-2018**

### *1. Appropriation of Surplus*

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 1 yen per share is proposed, and the dividend payout ratio is approximately 2.2%. which at less than 15%, is below what shareholders could reasonably expect.

*Vote Cast: Oppose*

### *2.1. Elect Kinoshita Shigeyoshi*

President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. *Vote Cast: Oppose*

## **TOBU RAILWAY CO LTD AGM - 22-06-2018**

### *3.1. Elect Nezu Yoshizumi*

President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

### *4. Adoption of Takeover Defense Measures*

The board is proposing the continuation of the companies anti takeover defence measures. The proposed countermeasures to large-scale acquisition are considered ineffective and there is no evidence they are in the best interests of shareholders. An oppose vote is recommended.

*Vote Cast: Oppose*

## **SEMICONDUCTOR MFG INTL CORP AGM - 22-06-2018**

### *2a. Elect Chen Shanzhi*

Non-Executive Director. Not considered to be independent as he is a representative of Datang, one of the Company's major shareholders. There is insufficient independent representation on the Board. An oppose vote is recommended.

*Vote Cast: Oppose*

### *2b. Elect Lu Jun*

Non-Executive Director. Not considered to be independent as he serves on the board of Sino IC-Leasing Co., Ltd and Sino IC-Capital Co., Ltd, which maintain material relation with the Company. There is insufficient independent representation on the Board. An oppose vote is recommended.

*Vote Cast: Oppose*

### *3. Appoint the Auditors*

Deloitte proposed. Non-audit fees represented 6.02% of audit fees during the year under review and 15.76% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Oppose*

### *4. Approve General Share Issue Mandate*

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

Vote Cast: *Oppose*

### *6. Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 4 those shares repurchased under the authority granted by proposal 5. The effect of the proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

Vote Cast: *Oppose*

Regardless of the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although newly appointed directors may not be held accountable for past appointments, it is considered that the election of new executives, should not be supported until gender diversity is introduced on the Board.

*Vote Cast: Oppose*

### *3.3. Elect Oogawara Masaki*

Newly appointed Executive Director. It is considered that the election of new executive directors, should not be supported, as their appointment to the Board would lead to a Board where independent directors comprise less than one-third of the whole board.

*Vote Cast: Oppose*

### *3.6. Elect Oonuki Tetsuo*

Newly appointed Executive Director. It is considered that the election of new executive directors, should not be supported, as their appointment to the Board would lead to a Board where independent directors comprise less than one-third of the whole board.

*Vote Cast: Oppose*

### *4. Election of Reserve Corporate Auditors*

The candidate is not independent, and is standing as a substitute corporate auditor and potential replacement for any candidate on the corporate auditor board. Should the candidate be required to serve as substitute for an incumbent, independent outsider, there will be a negative impact on the independence ratio, and therefore an oppose vote is recommended.

*Vote Cast: Oppose*

**5. *Shareholder Proposal: Amend Articles of Incorporation (Cancellation of Treasury Stock)***

The proponent requests that the Company amend article 19 and that articles from 19 onward will be incorporated under one article. The article 19 will be rewritten as: "In addition to matters as set forth in the Companies Act, the General Meeting of Shareholders may pass a resolution related to the cancellation of treasury stock (including the types of treasury stock to be cancelled, and the number of each type of treasury stock shares)" The reason for this proposal is based on the new policy of the Company which aim for a stable ROE of 13% or more. The shareholders filling that in order the already high ROE not to decline, an increase in profitability together with control of shareholder equity is necessary, and the acquisition of treasury stock is an important means for this. The proposed amendments do not have any adverse effect on shareholder rights, but the continue repurchase of shares in order to cancel them is a policy that has a serious adverse effect in shareholders stocks. Therefore, opposition is recommended

### 10. *Discharge the Management Board and the Supervisory Board*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Although applicable only from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

**CAPITA PLC AGM - 26-06-2018**

*1. Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation.

Central is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.9, Abstain: 0.0, Oppose/Withhold: 0.1,

*2. Approve the Remuneration Report*

Overall disclosure is satisfactory, however performance conditions and targets for LTIP awards to be granted in 2018 are not disclosed. The Company states that performance measures and targets will be set upon the completion of Jon Lewis' strategy review. The change in the CEO's salary is not in line with the rest of the Company, as the CEO's salary rose by 20.8%, while employees' salaries increased by only 3%. Such a large difference in the salary changes is inappropriate. However, the CEO's salary for the year under review is in the lower quartile of the Company's comparator group. The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. There was no payment under either of the variable pay plans, as the performance conditions and targets were not achieved. The ratio of CEO pay compared to average employee pay is acceptable at 17:1.

All of Chris Sellers' outstanding LTIP awards will vest, subject to the achievement of performance conditions and pro-rated for time. There is no mention of recruitment arrangements for the newly appointed CEO.

Rating: BC.

Based on this rating it is recommended that Central abstain.

### 8. *Re-elect John Cresswell*

Independent Non-Executive Director. The remuneration policy received significant shareholder opposition (10.75%) at last year's AGM. There is no evidence that the Company has engaged shareholders specifically to understand the reasons behind the high level of opposition, nor is there evidence that shareholder concerns have been addressed. As Chair of the Remuneration Committee Mr Cresswell harbours the responsibility to address such issues. An oppose vote is recommended.

Vote Cast: *Oppose*

### 9. *Re-elect Andrew Williams*

Independent Non-Executive Director. He missed one out of thirteen Audit and Risk Committee meetings, two out of ten Remuneration Committee meetings, and one out of six Nomination Committee meetings, with no adequate justification provided. In addition, there are concerns over a potential conflict of interest between his role as an Executive in a listed company (CEO of Halma plc) and membership of the Remuneration Committee.

Vote Cast: *Oppose*

Results: For: 99.5, Abstain: 0.0, Oppose/Withhold: 0.5,

### 11. *Appoint the Auditors*

KPMG proposed. Non-audit fees represented 18.00% of audit fees during the year under review and 29.57% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor.

PIRC issue: The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**MITSUI OSK LINES LTD AGM - 26-06-2018****1. *Appropriation of Surplus***

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 10 yen per share is proposed, however, the Company made a net loss in the year under review. It is considered unwise to pay a dividend in this instance given the capital maintenance needs of the company.

#### *8. Approve Provision of Condolence Allowance for Deceased Directors and Retirement Allowance for Retiring Corporate Auditors*

The company is seeking shareholder approval for retirement allowance to directors/corporate auditors. Retirement allowances to directors and corporate auditors are paid separate from monthly salary and annual bonus. Traditionally retirement allowance is viewed as a replacement for pension plan contributions and irrespective of individual or corporate performance. Although shareholders are given an opportunity to vote at the Annual Meeting on whether retirement allowance would be paid, outside directors are permitted to benefit from payment of a retirement allowance. It is considered that any payment other than fees for board duties gives rise to a conflict of interest for an outside director. Therefore, an oppose vote is recommended.

*Vote Cast: Oppose*

#### *9. Approve Special Payment in Connection with the Abolition of the Retirement Bonus System*

The board is seeking approval of retirement bonuses/special payments in connection with the abolition of the retirement bonus system. However, outsiders are included as recipients of bonuses which represents a conflict of interest and/or aggregate amount paid is not disclosed and/or it is not clear whether outsiders are included in the payments, which represents a conflict of interest. An oppose vote is therefore recommended.

### **POLSKI KONCERN NAFTOWY ORLEN AGM - 26-06-2018**

#### *15. Voting on resolutions to grant discharge to members of the Management Board for performance of their duties in 2017*

The Company has not appointed a Data Protection Officer or discussed the General Data Protection Regulation (GDPR). Under the GDPR, it is mandatory for certain controllers and processors to designate a Data Protection Officer (DPO). It is considered that boards should ensure that risk assessment (including data protection

and cyber risk) is complete for the entire organisation, and that appropriate security is provided for each type of data under use. Applicable from 25 May 2018, it is considered that directors should be considered accountable for this lack of discussion and relevant appointment: abstention to their discharge is recommended.

**2. *Approve the Remuneration Report***

Overall disclosure is satisfactory. However, share incentive awards granted during the year under review are not disclosed in the 2017 annual report, although they are disclosed in the previous year's annual report. It is recommended that awards granted are disclosed in the annual report for the relevant year. The change in the CEO's salary is in line with the rest of the Company, as the CEO's salary rose by 2% while average employee pay increased by 5.9%. The balance of CEO realized pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. Total variable pay for the year under review is not excessive, amounting to 161.3% of salary. The ratio of CEO pay compared to average employee pay is not acceptable at 115:1.

Rating: BC.

As the CEO's bonus exceeded his salary, it is recommended that West Midlands oppose.

**UBISOFT ENTERTAINMENT SA COMBINED - 27-06-2018*****O.5. Approve Compensation of Yves Guillemot, Chairman and CEO***

It is proposed to approve the remuneration paid or due to Yves Guillemot, Chairman and CEO with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

#### *E.18. Authorize up to 1 Percent of Issued Capital for Use in Stock Option Plans*

It is proposed to approve a stock option plan for employees and corporate officers for up to 1% of the share capital in aggregate. The Board would receive the authority to set beneficiaries and other conditions. After allotment, shares will be restricted for three years, which is considered not sufficiently long term. The Company states that exercise of shares will be based on targets, which at this time remain undisclosed. There seem to be no performance criteria besides employment and tenure. Plans to increase employee shareholding are considered to be a positive governance practice, as they can contribute to alignment between employees and shareholders. On the other hand, executives are also among the beneficiaries: it is considered that support should not be given to stock or share option plans that do not lay out clearly performance criteria and conditions. On balance, opposition is recommended.

*Vote Cast: Oppose*

#### *E.19. Authorize up to 0.2 Percent of Issued Capital for Use in Stock Option Plans Reserved for Executive Corporate Officers*

The Board proposes the approval for the use of 0.2% of issue Capital in the Stock Option Plan for the executives. Under the plan, participants will be allotted stock options, each of which will give right to one share. Performance targets have not been quantified at this time, which makes an informed assessment impossible and may lead to (partial) payment against (partial) failure.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure.

### **KANDENKO CO LTD AGM - 27-06-2018**

#### *2.2. Elect Ueda Yuuji*

Newly nominated Executive Director. After this meeting, there will be no female directors on the Board. Regardless of the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

#### *2.6. Elect Gotou Kiyoshi*

Chairman. After this meeting, there will be no female directors on the Board. Regardless of the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

### *5. Adoption of Takeover Defense Measures*

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 60 yen per share is proposed, and the dividend payout ratio is approximately 21.4%. This exceeds the minimum acceptable threshold of 15% and the Company did not make a loss during the year under review. Support is recommended.

## **GAS NATURAL SDG SA AGM - 27-06-2018**

### *6.1. Amend Article 1 Re: Company Name*

The Board proposes to amend the Article 1 of the Articles of Association with the aim to change the social name of the Company. At this time, the Company has not disclosed details regarding the amendment, among others, the reasons and the new name. Therefore, abstain is recommended.

*Vote Cast: Abstain*

### *9.1. Elect Francisco Reynes Massanet*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the company between the running of the board and the executive responsibility for the running of the company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

*Vote Cast: Oppose*

### *9.2. Elect Rioja Bidco Shareholdings SLU*

### *10.1. Amend Remuneration Policy for FY 2018, 2019 and 2020*

It is proposed to approve the remuneration policy for FY 2018, 2019 and 2020 with a binding vote. The approval of the policy will be valid for three years and in case of amendments, the policy should be submitted to shareholder vote for a further three year approval. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for its variable remuneration component, which may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

*Vote Cast: Oppose*

### *10.2. Ratify Remuneration Policy for FY 2015-2018*

It is proposed to approve the remuneration policy for FY 2015-2018 with a binding vote. The approval of the policy will be valid for three years and in case of amendments, the policy should be submitted to shareholder vote for a further three year approval. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for its variable remuneration component, which may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely for shareholders to reclaim that variable remuneration unfairly paid out. On these bases, opposition is recommended.

### *11. Approve the Remuneration Report*

It is proposed to approve the annual report on remuneration of Executive and Non-Executive Directors. The Company discloses all elements of remuneration for Executives and Non-Executives. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component, which makes it unlikely that shareholders reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

*7. Shareholders' Proposal: Set up Local Council to Consider Evacuation Plan in Case of Nuclear Plant Accident*

The Shareholders seek to add a chapter to the Articles of Incorporation, titled "Nuclear Emergency Crisis Emergency Evacuation Measures" with the purpose of establishing a permanent regional council for the purpose of overseeing evacuation measures. The shareholders reason that the Hamaoka Nuclear Power Plant is located in the assumed source region of the Nankai Trough earthquake. The shareholders state that in the event of an earthquake "about 950,000 people will have to be evacuated out of a 31km radius of the plant." The Board claims that the company has been working on earthquake and tsunami countermeasures already, and is implementing further safety improvement measures based on standards. The company also conducts regular education and training in order to improve effectiveness in the event of a resident evacuation. The company also claims it is regularly strengthening cooperation with local authorities. It appears that the company already meets the objectives that the resolution aims to achieve. As a result, opposition is recommended.

Vote Cast: *Oppose*

*9. Shareholders' Proposal: Prioritise the use of Natural Energy*

The Shareholders seek to establish a chapter in the Articles of Incorporation titled "Preferred Connection of Renewable Energy." The Shareholders state that with the "amount of electricity generated by renewable energy, especially solar power generation - greatly increasing" and the often congested power grid, many facilities are not being properly utilised. The shareholders propose that renewable energy sources should be connected to the power grid as a priority, lessening the dependence on non-renewable sources. The Board states that "regardless of the power supply type, in the rules of the power wide area management promotion organisation, we will accept in order of application for connection contract on a first-come-first-served basis." The Board also claims that it is trying to increase the amount of connectable renewable energy by "flexibly operating the electric power system." The Company cannot disregard its wider obligations as part of the local power area management organisation. Also, while it should be expected from the Company that they try to have supply from cheaper and renewable sources, it is not considered to be an appropriate addendum to the Articles, rather for a Company policy. For this reason, opposition is recommended.

### *3. Shareholders' Proposal (1)*

The Shareholders seek to amend the Articles of Incorporation by adding a clause to the Company Code of Ethics, stating that the Company will no longer use Nuclear Power Generation. The Shareholder argues that due to the increased emphasis on corporate social responsibility, Nuclear power no longer represents an improvement in corporate value. The Shareholders argue that this is due to "multiple litigation projects" with stakeholders, and damage to the corporate image in the "unlikely event of health and survival are threatened." The Board argues that in order to achieve the Company's fundamental mission of stably delivering high quality energy at a low cost, Nuclear power is an important energy source. The Board states that Company already strengthens its relationship with society, and has fulfilled its responsibility to wider society. On balance, an oppose vote is recommended.

*Vote Cast: Oppose*

### *4. Shareholders' Proposal (2)*

The Shareholders seek to amend the Articles of Incorporation, altering the General Provisions Article 2 (5) of Chapter 1, to include the business objectives: Development, sale and Transportation of Energy Resources, and Developing, promoting and expanding procurement of renewable energy. The shareholder reasons that renewable energy generates more than twice the electricity that nuclear power does globally, stating that the return on investment for nuclear power is much lower than that of renewable energy, and that the company should therefore rapidly expand emerging renewable energy operators, as the Company's distribution network is only operating at 80% capacity. The Board opposes the resolution, stating that the expanded use of renewable energy, specifically "sunlight, woody biomass fuels and hydroelectric power plants" are already detailed in the Articles of Incorporation. The Board also states in response to the issue of capacity, that it is the process of increasing the power supply to meet full capacity. The Board also states that in accordance with the guidelines for power distribution, all sources of power must be treated fairly. For this reason, an oppose vote is recommended.

*Vote Cast: Oppose*

### *5. Shareholders' Proposal (3)*

The Shareholders seek to amend the Articles of Incorporation, with the purpose of closing Ikata Nuclear Power Plant. The Shareholders reason that as the company recieved an order from the Hiroshima High Court to cease operations at Unit 3 of Ikata Nuclear Power Plant, due to large scale risks of potential eruptions of the nearby Mount Aso, that Nuclear Power has become a burden on the company. The Company has also received litigation for the decommissioning of other nuclear plants, which has damaged the Company's corporate image, according to the Shareholders. The Board opposes the proposal, stating that the Ikata Power Station is the basis for stable delivery of high-quality electricity at low cost for the Company. The Board also state that business execution decisions are handled by the Board of Directors, and adding the contents of this proposal to the Articles of Incorporation would decrease flexibility in the running of the Company. For these reasons, opposition is recommended.

#### 6. *Shareholders' Proposal (4)*

The Shareholders seek to Dismiss Chiba Akira and Saeki Hayato from the Board of Directors, due to a slump in stock price despite the Nikkei Stock Average rising, and the Directors' lack of engagement with renewable energy. The Board states that the Directors subject to dismissal are up for election in this meeting, and that the Directors in question have worked diligently and faithfully to carry out their duties in line with the law and company regulation. The Board feels there is no reason for the dismissal. As the Directors are up for election at this meeting, an oppose vote is recommended.

### **KYUSHU ELECTRIC POWER CO INC AGM - 27-06-2018**

#### 1. *Appropriation of Surplus*

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 10 yen per share is proposed, and the dividend payout ratio is approximately 11.4%. which at less than 15%, is below what shareholders could reasonably expect.

## **TOKYO ELECTRIC POWER CO INC AGM - 27-06-2018**

### 2. *Shareholders' Proposal: Partial Amendments to the Articles of Incorporation (1)*

The Shareholders seek to Amend to the Articles of Incorporation in order to withdraw from the spent nuclear fuel reprocessing business by implementing the following measures:

1. The Company shall not transport spent nuclear fuel to interim storage facilities on the premise of reprocessing.
2. The Company shall not transport spent nuclear fuel to reprocessing plants.
3. Regarding the storage of spent nuclear fuel at nuclear power stations, the Company shall establish a liaison council with the municipalities in whose jurisdiction the nuclear power stations are located and with other neighboring municipalities.
4. The Company shall set up a council with each business operator concerning the processing/disposal of spent nuclear fuel transported thus far, separated plutonium, etc., and high-level radioactive waste, etc.

The shareholders proposing this resolution claim that the current reprocessing business is contrary to "Japan's international commitments." The shareholder states that the company already holds eight tons of separated plutonium with no decided disposal method. The shareholder states that transport and storage of spent nuclear fuel will cost "huge amounts of money". The Board states that there is great significance in maximizing the efficient use of domestically obtained resources, and states it cooperates fully with Japan Nuclear Fuel Limited. The proposal appears too prescriptive, and the proponents have not laid out a clear counter business proposal, once the company has exited the spent fuel reprocessing business. As a result, an oppose vote is recommended.

Vote Cast: *Oppose*

*3. Shareholders' Proposal: Partial Amendments to the Articles of Incorporation (2)*

The shareholder seeks to add a chapter to the Articles of Incorporation titled "Prohibition of Investment in Nuclear Power-Related Companies." The shareholder proposal states that the company should not invest in overseas nuclear-power related companies, or nuclear power related companies with directors that used to be on the Tokyo Electric Power Co Inc board, as doing so may raise suspicions of conflict of interest. The shareholder reasons that due to maintenance and inspection work going undone, and slow progress on the decommissioning of the Fukushima Nuclear Plant, the company "cannot afford to waste any money" on investment in the nuclear power business. The Board argues that in order to meet its obligation to Fukushima it must improve profitability and enhancement of corporate value. The company aims to expand profits by investing in growing markets, including overseas nuclear power. While preventing conflicting business interests is a welcome proposal, as the purpose of the amendment is to increase available funds to allocate to immediate issues, it does not seem that an amendment to the Articles of Incorporation Prohibiting Investment in foreign nuclear power would achieve this goal. On balance, an oppose vote is recommended.

Vote Cast: *Oppose*

*4. Shareholders' Proposal: Partial Amendments to the Articles of Incorporation (3)*

The Shareholder seeks to make an Amendment to the Articles of Incorporation, adding a chapter titled "Preferential Connection of Natural Energy to Transmission Lines" The amendment states that the company shall connect renewable energy preferentially to TEPCO Power Grid Co, for the dissemination of energy. The Shareholder reasons that the company's transmission line utilization is 27%, and that there is enough capacity, and states that refusal to connect renewable sources is "harassment towards new energy." The Shareholder states that Renewable energy produces more electricity and is cheaper than nuclear power, and so the company should shift towards a policy of phasing out nuclear and thermal power generation. The Board states that in order to meet the guidelines put forward by the Organization for Cross-regional Coordination of Transmission Operators (OCCTO), the Company is required to treat all power generating facilities equally, regardless of their origin. The Board states that OCCTO is discussing similar proposals, but to be implemented in new OCCTO guidelines. The proposal also appears to be too prescriptive by making decisions in the Articles of Incorporation that should be left to the Board. For this reason, opposition is recommended.

Vote Cast: *Oppose*

*6. Shareholders' Proposal: Partial Amendments to the Articles of Incorporation (5)*

The Shareholder seeks to amend the Articles of Incorporation, adding a chapter titled "Investigation of the Impact of Radiation Released by the Fukushima Nuclear Station Accident". The Article added states that the Company shall establish a Radiation Impact Investigation committee, dedicated to looking into the Fukushima Daiichi Accident. The shareholder reasons that understanding the full impact of the radiation released is crucial for sincere compensation to those who have suffered. The Shareholder states that evacuation orders were cancelled in some areas despite radiation levels being much higher than the annual exposure limit of 1mSv. The proposal suggests the company should conduct investigations in areas where evacuation orders will be cancelled and make use of the information for just compensation. The Board states that the Company has cooperated fully with the national government and municipalities, and is cooperating with dosimetric measurements in areas with cancelled evacuation orders. It is considered that the Company should properly compensate those affected by the accident, though this should be done in accordance with the relevant judicial orders and external investigations, in order to ensure independence in the determination of the level of compensation required. Therefore an oppose vote is recommended.

Vote Cast: *Oppose*

### *7. Shareholders' Proposal: Partial Amendments to the Articles of Incorporation (6)*

The Shareholder seeks to amend the Articles of Incorporation, adding a chapter titled "Disclosure on the Fukushima Nuclear Power Station Accident Site", in order to make the current situation widely known to the world, and to serve as a cautionary tale to future generations, including the creation of an information disclosure facility at the Fukushima Daiichi Nuclear Power Station, to fully disclose details of investigations and disclose radiation data in order to minimize exposure to investigators and local residents. The Board states that multiple organizations, including regional and national governments have already been permitted to investigate the station. The company has also already disclosed information on its website, such as explaining progress on decommissioning work. As the proposed disclosure has already been made available, a vote in opposition is recommended, due to a lack of added value.

*Vote Cast: Oppose*

### *9. Shareholders' Proposal: Partial Amendments to the Articles of Incorporation (8)*

The Shareholder seeks to amend the Articles of Incorporation adding a chapter titled "Prohibition of Investment in and Guarantee of Debt of Japan Atomic Power Company" stating that the company shall not invest in Japan Atomic Power Company (JAPC) and dissolve all current investments as of the 31st of March 2018. The reason for this proposal is that as the largest shareholder of JAPC, the Company has paid 240.0 billion yen to JAPC in maintenance fees over the past six years, despite the company producing no electricity due to earthquakes and decommissioning. The Board states that Tokai 2, one of JAPC's power stations, is a promising low-cost low-CO2 power supplier, and that JAPC has important knowledge on decommissioning nuclear power plants that is useful to the Company. The Proposal is also considered to be too prescriptive, as decisions regarding specific investment is within the Board's prerogatives. On balance, an oppose vote is recommended.

### **WHITBREAD PLC EGM - 27-06-2018**

#### *1. Approve Remuneration Policy*

Shareholder approval is sought for the approval of the remuneration policy at this general meeting.

**Background:** On 25 April 2018, the Company announced Whitbread's intention to pursue a demerger of Costa, providing shareholders with investments in two distinct market-leading businesses. The process is expected to take up to 24 months. The Company states that in order to align incentives of management with the new strategy and appropriately incentivise them to complete the demerger in a way which optimises shareholder value, it is proposed to make changes to the policy. The remuneration committee currently believes that the majority of the current policy remains fit for purpose, including the Annual Incentive Scheme which remains unchanged. However they state that the long-term incentive component requires amendment in light of the strategic goals of the demerger. The Remuneration policy disclosure is considered adequate. The annual incentive scheme will have a maximum potential value of 167% of base salary with up to 50% of maximum paid in cash and the remainder will be paid in deferred shares which is in line with best practice. Including the proposed one-off grant, maximum potential award under all incentive schemes for the CEO is considered excessive as it amounts to over 500% of base salary, which is largely above the acceptable threshold of 200% of salary. The maximum potential value of the PSP in itself as a one-off grant at 400% of base salary for CEO and 350% for the executive directors is considered excessive. Awards will normally vest, subject to assessment of performance conditions, on the earlier of (i) the date on which the Committee determines that the Demerger is completed; and (ii) the date falling 24 months after the first date on which Awards are granted under the PSP. Awards may also vest earlier in circumstances, However, there is a two-year holding period post-vesting. Dividend equivalents may be provided during the holding period. While the policy utilises more than one performance metric to determine PSP payout, the metrics are not operating concurrently, such that vesting is only possible if each threshold performance is met. Malus provisions apply to the deferred share awards in the event of a material misstatement of results, with clawback provisions applying to cash awards. Upside discretion may be exercised by the committee as for the LTIP and PSP, it may dis-apply time pro-rating for good leavers and on a change of control, time and performance pro-rating. Overall, a change in remuneration policy to reward and incentivise management for a demerger cannot be supported. An oppose vote is recommended.

Vote Cast: *Oppose*

Results: For: 86.7, Abstain: 8.2, Oppose/Withhold: 5.1,

## *2. Approve the Whitbread Performance Share Plan*

Shareholders are being asked to approve the new Whitbread Performance Share Plan (the "PSP"). Sufficient disclosure surrounding the nature of the plan has been provided. The Company states that participants will be granted a one-off award over shares in Whitbread Plc. This would replace current Executive Directors' award under the Long-Term Incentive Plan (LTIP) for 2018 and 2019. The New Director's Remuneration Policy would permit awards to be made under the new PSP if approved and the total number of ordinary shares over which awards are granted will not exceed 500,000. Maximum potential value of the awards will be 400% of base salary for the CEO and 350% of salary for all other executive directors. The performance measures include strategic objectives: (40%), relative TSR (20%) and Costa and Premier Inn UK ROCE (40%). The awards will normally vest subject to assessment of performance conditions on earlier of the date on which the Committee determines that the de-merger is completed and the date falling 24 months after the first date on which awards are granted under the PSP. The Company has provided evidence that a post-vesting holding period of two years will attach to awards made under the scheme which is in line with best-practice. The comparator group will contain the constituent companies of the FTSE 350 Travel and Leisure and the FTSE 350 General Retailers indices and 20% of the maximum available under this component will vest for TSR performance equivalent to the median of the comparator group over the performance period with straight line vesting up to 100% for TSR performance equivalent to the upper quartile of the comparator group. The Company states that any participant whose award has vested and leaves employment for any reason other than summary dismissal for gross misconduct may exercise that award for six months from the date on which the holding period ends or on committees' discretion which is not considered appropriate. The Committee may also exercise upside discretion for good leavers and on a change of control. Overall, PSP schemes are not considered an effective means of incentivising performance and are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the company. They are acting as a complex and opaque hedge against absolute company underperformance and long-term share price falls. They are also a significant factor in reward for failure. An oppose vote is recommended.

### 1. *Appropriation of Surplus*

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 7 yen per share is proposed, however, the Company made a net loss in the year under review. It is considered unwise to pay a dividend in this instance given the capital maintenance needs of the company.

*Vote Cast: Oppose*

### *2.6. Elect Kouzai Yuuji*

Newly appointed Executive Director. After this meeting, there will be no female directors on the Board. Regardless of the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

## **NIPPON KAYAKU CO LTD AGM - 27-06-2018**

### *2.1. Elect Suzuki Masanobu*

President. After this meeting, there will be no female directors on the Board. Regardless of the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

### *2.8. Elect Ooizumi Masaru*

Newly nominated Executive Director. After this meeting, there will be no female directors on the Board. Regardless of the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

### *2.9. Elect Mikami Hiroshi*

Newly nominated Executive Director. After this meeting, there will be no female directors on the Board. Regardless of the level of independence, it is considered that the election of new executives should not be supported until gender diversity is introduced on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

### *3. Elect Yamashita Toshihiko*

Outside Corporate Auditor. Not considered to be independent. The corporate auditor board is less than 50% independent. Opposition is therefore recommended.

*Vote Cast: Oppose*

**TOSOH CORP AGM - 27-06-2018****1.1. *Elect Yamamoto Toshinori***

President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

**3.1. *Elect Reserve Corporate Auditor: Tanaka, Yasuhiko***

The candidate is not independent, and is standing as a substitute corporate auditor and potential replacement for any candidate on the corporate auditor board. Should the candidate be required to serve as substitute for an incumbent, independent outsider, there will be a negative impact on the independence ratio, and therefore an oppose vote is recommended.

*Vote Cast: Oppose*

**MEDIASET SPA AGM - 27-06-2018****3. *Approve Remuneration Policy***

It is proposed to approve the remuneration policy with an advisory vote. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. There are claw back clauses in place over the entirety of the variable remuneration, which is welcomed. The Company has disclosed quantified targets for its variable remuneration component, although there seems to be excessive reliance on financial indicators, and the performance of the LTIP is assessed over a three-year period, which is not considered sufficiently long term. On balance, abstention is recommended.

*Vote Cast: Abstain*

**4. *Approve Medium-Long Term Incentive and Retention Plan***

The Board proposes the approval of the Medium-Long Term Incentive and Retention Plan. The plan is intended for delegated bodies, key management personnel and executives. Under the plan, participants will be allotted stock options, each of which will give right to one share Mediaset S.p.A. The performance criteria are: for 50 % of the three-year cumulative net Group profit, and for 50% of the three-year cumulative Group Free Cash Flow. The medium-long term incentive system rewards a performance range between 75% and 100%, corresponding respectively to the vesting of 50% and 100% of the assigned rights. In the event of intermediate results, a share of the rights will vest while no rights will vest over 100% in case of over performance. The plan regulation includes a malus clause and claw-back clauses in the event that rights mature on the basis of data that turn out to be incorrect or forged, which is welcomed. However the vesting period is in three years for each circle, starting with the period 2018 to 2020, which is against best practice since a five year period is considered to be adequate.

LTIP based schemes are inherently flawed. There is the risk that they are rewarding volatility rather than the performance of the Company (creating capital and - lawful - dividends). They act as a complex and opaque hedge against absolute Company underperformance and long-term share price falls. They are also a significant factor in reward for failure. Based on this opposition is recommended.

*Vote Cast: Oppose*

### *7.2. Elect Directors List 2-majority shareholders.*

This list was presented by Fininvest (33.49% of the share capital): the slate of candidates consists of 15 candidates which are: Mr Fedele Confalonieri, Mr Pier Silvio Berlusconi, Mr Mauro Crippa, Mr Marco Giordani, Ms Gina Nieri, Mr Niccolo' Querci, Mr Stefano Sala, Ms Marina Berlusconi, Mr Danillo Pellegrino, Carlo Secchi, Marina Brogi, Francesca Mariotti, Andrea Canepa, Teresa Naddeo, Maria Mascherpa and Emanouella Bianchi. Out of 15 candidates five are considered independent. This list does not contain a sufficient independent representation. Opposition is recommended.

*Vote Cast: Oppose*

## **JTEKT CORP AGM - 27-06-2018**

### *2.1. Elect Sudou Seiichi*

Chairman. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

*Vote Cast: Oppose*

### *2.2. Elect Agata Tetsuo*

President. After this meeting, there will be no female directors on the Board. Regardless the level of independence, it is considered that it is the responsibility of the most senior Board members to ensure that there is adequate gender diversity on the Board. Although there are no specific legal requirements or recommendations in this market, it is considered that companies should not rely on minimum standards, but aim to best practice, including in gender diversity.

Vote Cast: *Oppose*

**CSR LTD AGM - 27-06-2018****3. Approve the Remuneration Report**

In accordance with Section 250R of the Australian Corporations Act, the directors are seeking approval of the remuneration report. The Act does not require directors to act on approval of the resolution and the vote is advisory.

The maximum potential award for the CEO under all incentive schemes is considered excessive as it can represent more than 220% of his salary. The variable remuneration of the CEO for the year under review is below 200% of variable remuneration, which is welcome. There are concerns over the features of the LTIP, which are not considered appropriate such as performance conditions not running interdependently and no non-financial performance conditions being used. Based on these concerns, opposition is recommended.

Vote Cast: *Oppose*

**4. Approve Equity Grant to Executive Director**

The Board is seeking shareholder approval for the purposes of ASX Listing Rule 10.14 for the grant of 294,577 performance shares to Rob Sindel, Chief Executive and Managing Director, under the Company's Long-term Incentive Plan. The proposed grant has an approximate value of AUD 1,543,760 which equates to 120% of his fixed remuneration.

Concerns over the plan are raised as the awards vest on a three-year performance period without additional holding period, which is not considered sufficiently long term. The performance conditions also do not run interdependently, which is contrary to best practice. Also, no non-financial performance metrics are being used. Lastly, there is no claw-back policy in place for LTI awards.

Vote Cast: *Oppose*

**MEGMILK SNOW BRAND CO LTD AGM - 27-06-2018****1.2. Elect Nishibaba Shigeru**

Newly appointed Executive Director. It is considered that the election of new executive directors, should not be supported, as their appointment to the Board would lead to a Board where independent directors comprise less than one-third of the whole board.

Vote Cast: *Oppose*

**2.1. Appoint a Director as Supervisory Committee Members Chiba Shinobu**

Executive candidate to Member of the Audit & Supervisory Committee (MASC). It is considered that the Committee should consist exclusively of independent director. Opposition is recommended.

Vote Cast: *Oppose*

**3.1. Election of Audit and Supervisory Committee Member: Omori Setsuya**

Non-Executive candidate to reserve Member of the Audit & Supervisory Committee (MASC). Not considered to be independent. At this time, it is impossible to assess the impact of a non-independent reserve MASC candidate on the future composition of the Committee. Opposition is recommended.

Vote Cast: *Oppose*

#### 4. *Adoption of Takeover Defense Measures*

The board is proposing the continuation of the company's anti takeover defence measures. The proposed countermeasures to large-scale acquisition are considered ineffective and there is no evidence they are in the best interests of shareholders. An oppose vote is recommended.

Vote Cast: *Oppose*

### **BOC HONG KONG HOLDINGS LTD AGM - 27-06-2018**

#### 3.A. *Re-elect Ren Deqi*

Non-Executive Director. Not considered to be independent as owing to a tenure of over nine years. There is insufficient independent representation on the Board. An oppose vote is recommended.

Vote Cast: *Oppose*

#### 4. *Appoint the Auditors*

EY proposed. Non-audit fees represented 39.29% of audit fees during the year under review and 47.56% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

Vote Cast: *Abstain*

#### 7. *Extend the General Share Issue Mandate to Repurchased Shares*

The directors seek authority to re-issue under the authority granted in proposal 5 those shares repurchased under the authority granted by proposal 6. The effect of the

proposal, if approved, would be to extend the limit for issuance of shares from 20% to 30% of issued share capital. Given the concerns over dilution of the shareholder rights, opposition is recommended.

Vote Cast: *Oppose*

## **SHUN TAK HOLDINGS LTD AGM - 27-06-2018**

### *5. Appoint the Auditors and Allow the Board to Determine their Remuneration*

PwC proposed. Non-audit fees represented 40.59% of audit fees during the year under review and 46.75% on a three-year aggregate basis. This level of non-audit fees raises some concerns about the independence of the statutory auditor. The current auditor has been in place for more than five years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor. Opposition is recommended.

Vote Cast: *Oppose*

### *7. Approve General Share Issue Mandate*

## JD SPORTS FASHION PLC AGM - 28-06-2018

### 1. *Receive the Annual Report*

Strategic report meets guidelines. Adequate employment and environmental policies are in place and relevant, up-to-date, quantified, environmental reporting is disclosed. The Company also disclosed the proportion of women on the Board, in Executive Management positions and within the whole organisation. However, there is no separation of Chief Executive and Chairman roles. No one individual should have unfettered powers of decision as the combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal. Furthermore, no Nomination Committee meetings took place during the year under review, which indicates that the aforementioned governance concerns are not being addressed.

It is recommended to oppose the report and accounts for the following reason: No trade union negotiating framework, works councils or similar strategic level procedures for information and consultation.

Vote Cast: *Oppose*

Results: For: 99.2, Abstain: 0.1, Oppose/Withhold: 0.7,

### 2. *Approve the Remuneration Report*

Overall disclosure is not acceptable. There is limited information provided regarding LTIP awards to be granted in the future. More noteworthy, however, is that the remuneration report received significant shareholder opposition (22.22%) at last year's AGM. There is no evidence that the Company engaged with shareholders in relation to the significant opposition, nor is there any evidence that concerns behind the opposition have been addressed.

The balance of CEO realised pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. Total variable pay is 200% of salary which is just on the limit of acceptable pay. However, this is due to the fact that only the annual bonus was rewarded. Any LTIP vesting would take the variable pay above the limit of 200% of salary, showing the level of annual bonus rewards. Given this level, there are concerns over how challenging the performance targets used are. The change in the Executive Chairman's salary is not in line with the rest of the Company, as the Executive Chairman's salary rose by 10.5% while the salary change for the average UK head office employee was an increase of only 4.4%. Such a difference in the salary changes between the two groups is considered inappropriate. The Executive Chairman's salary is in the upper quartile of the Company's comparator group. The ratio of the Executive Chairman's pay compared to average employee salary is unacceptable at 111:1, although it is noted that the Company is in the retail sector. Rating: CD.

As the Executive Chairman's bonus exceeded his salary, it is recommended that Central oppose.

Vote Cast: *Oppose*

Results: For: 84.7, Abstain: 0.4, Oppose/Withhold: 14.8,

#### 4. *Re-elect Peter Cowgill*

Executive Chairman. 12 months rolling contract. There is no evidence of de facto division of responsibilities as there is no separate Chief Executive. The Chairman should meet the definition of independence upon appointment in order to effectively fulfill his roles. Given his role, in holding the executive management accountable, the Board Chairman should be a separate role to that of an Executive Director, who has operational responsibilities. In the absence of de facto division of responsibilities, an oppose vote is recommended. Furthermore, he is Chairman of the Nomination Committee and no target has been set to increase the level of female representation on the Board, which is currently insufficient at 16.7%.

The Company has received an overall 'E' rating.

Vote Cast: *Oppose*

Results: For: 90.0, Abstain: 0.0, Oppose/Withhold: 10.0,

#### 6. *Re-elect Andrew Leslie*

Independent Non-Executive Director. He was previously not considered independent as he was, until 2008, an executive director of Pentlands Brands plc, a subsidiary of the ultimate parent company of Pentland Group plc, which is the majority shareholder. However, given that ten years has passed since he held that position, he is now considered independent.

It is noted that at least year's AGM the remuneration policy and report received significant shareholder opposition (22.46% and 22.22% respectively). There is no evidence that the Company engaged with shareholders in relation to the significant opposition, nor is there any evidence that concerns behind the opposition have been addressed. As Chair of the Remuneration Committee Mr Leslie harbors the responsibility to address such issues.

The Company has received an 'E' rating for Remuneration.

Vote Cast: *Oppose*

#### 10. *Appoint the Auditors*

KPMG proposed. No non-audit fees were paid during the year under review, and non-audit fees represented 5.08% of audit fees on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. However, the current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**3i GROUP PLC AGM - 28-06-2018****2. *Approve the Remuneration Report***

All elements of each director's remuneration are disclosed. Outstanding share incentive awards are disclosed with award dates and prices. However, the monetary value of the 2017 awards are not provided. The CEO's salary is considered to be in the upper quartile of PIRC's comparator group. The ratio of CEO pay compared to average employee pay is acceptable at 11:1. Furthermore, executive variable pay was above the acceptable limit of 200% of salary during the year under review. The CEO's overall pay totalled £6,847,000 and his variable pay for the year under review represents 1008% of his salary which is considered inappropriate. In addition, an LTIP award of 400% of salary is considered excessive.

**17. *Issue Shares for Cash for the Purpose of Financing an Acquisition or Other Capital Investment***

The Board is seeking approval to issue up to an additional 5% of the Company's issued share capital for cash for use only in connection with an acquisition or a specified capital investment. Such proposal is not supported as it is considered that the 5% limit sought under the general authority above is sufficient. Best practice

would be to seek a specific authority from shareholders in relation to a specific transactions if such situation arises. As this is not the case, an oppose vote is therefore recommended.

#### *4. Shareholder Resolution: Distribution of Dividends*

**Proposed by:** J.P. Morgan Chase Bank National Association (Beneficial Shareholder: British Empire Securities and General Trust PLC).

This Shareholder Proposal suggests that the 3,064,414 common shares of Tokyo Electron Limited (Tokyo Electron) owned by the company be distributed to the shareholders of the company as dividends in kind at a ratio of one share of Tokyo Electron stock per 57 common shares of the company in addition to the planned distribution of surplus funds by the company.

**Board's Opposing Argument:** The Board is against this proposal as the company intends to utilize Tokyo Electron shares in the future as appropriate when expanding investments in order to increase the value of the company. The company has a policy of utilizing Tokyo Electron shares when the occasion demands to provide resources for significant or hopeful investments during the execution of its medium term growth strategy, while responding to changes in the broadcasting environment.

**PIRC Analysis:** Deciding on whether to allocate capital, return it to shareholders or reserve it as a matter of prudence is one of the fundamental duties of directors. In exercising their discretion over capital allocation directors are bound by fiduciary duties to act for the benefit of the company as a whole. This resolution would in effect fetter the board's discretion and require them increasingly to return capital to shareholders even where the board considered that the capital might be better employed within the business or that it would be imprudent to make increased distributions. Therefore, a vote in opposition is recommended.

*1e. Elect Director W. Rodney McMullen*

Chairman and CEO. Combined roles at the head of the Company. There should be a clear division of responsibilities at the head of the Company between the running of the board and the executive responsibility for the running of the Company's business. No one individual should have unfettered powers of decision. Combining the two roles in one person represents a concentration of power that is potentially detrimental to board balance, effective debate, and board appraisal.

*Vote Cast: Oppose*

*1f. Elect Director Jorge P. Montoya*

Non-Executive Director. Not considered independent owing to a tenure of over nine years. There is insufficient independent representation on the Board.

## *2. Advisory Vote to Ratify Named Executive Officers' Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BCC. Based on this rating, it is recommended to abstain.

*Vote Cast: Abstain*

## *4. Amend Bylaws to Authorise the Board to Amend Bylaws*

It is proposed to approve an amendment to the Company's Regulations allowing the Board of Directors to adopt amendments to the Regulations to the extent permitted by Ohio law. Accordingly, if shareholders approve the Proposal, Article VII of the Regulations would be revised to allow the Board of Directors to amend the Regulations in the future to the extent permitted by Ohio law, which authority could not be delegated to a committee of the Board of Directors; and the Board would be able to amend, repeal and adopt new regulations to implement ministerial and other changes to the Regulations, other than with respect to the matters reserved for shareholders under Ohio law without the process of seeking shareholder approval.

As shareholder approval would not be granted in the event where the Board makes any substantial changes to the Regulations under this proposal, an oppose vote is recommended.

*Vote Cast: Oppose*

## *5. Ratify PricewaterhouseCoopers LLP as Auditors*

PwC proposed. Non-audit fees represented 0.02% of audit fees during the year under review and 0.19% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Oppose*

## *6. Shareholder Resolution: Report on Feasibility of Adopting Energy Efficiency and Renewable Energy Goals*

**Proposed by:** Not Disclosed.

Shareholders request Kroger produce a report assessing the climate change risk reduction benefits of adopting quantitative, enterprise-wide targets for increasing its renewable energy sourcing. The report should be produced at reasonable cost and exclude proprietary information. The report should also include discussion of the business risk Kroger faces from climate change; the potential for renewable energy procurement to reduce such risk; and options for increasing renewable energy adoption.

**Proponent's Supporting Argument:** The Proponent argues that in order to mitigate the worst impacts of climate change, global warming must not increase more than 2 degrees Celsius beyond pre-industrial levels. At the 2015 Conference of Parties in Paris, 195 countries agreed on a pathway to achieve a 2 degree limit. Despite its size and significant carbon impact, Kroger lags its peers in. Investors are concerned that Kroger's globally significant carbon emissions are not being adequately addressed. One meaningful way Kroger could reduce its carbon footprint is to expand its use of renewable energy.

**Board's Opposing Argument:** The Board is against this proposal as the Company has a history of reducing carbon emissions across the Company's footprint. Targets set out nearly 10 years ago have resulted in a nearly 10% intensity reduction (co2e/1000ft) since 2006, even as our company has grown in sales (74.4%) and square footage (25.6%). The Board states that the Company announced a set of 2020 Sustainability Goals, which goals addressing carbon emission reduction across the enterprise. Further, the Company has been publishing its annual Sustainability Report that highlights many of the Company's sustainability initiatives. The Company is also currently in the midst of conducting an analysis to develop a comprehensive carbon reduction plan that includes renewables.

**PIRC Analysis:** Whilst additional reporting is generally supported, the Company has demonstrated that it is currently working on a report, which will include an analysis on renewable energy. The Company has through a number of initiatives, worked on targets related to the reduction of its carbon footprint, which is a step towards the achievement of the 2 degree limit. We consider that the Company has substantially complied with the Proponents' requests, and an oppose vote is recommended.

## **MITSUBISHI UFJ FINANCIAL GRP AGM - 28-06-2018**

### *3. Shareholders' Proposal: Individual Disclosure of Compensation for Directors*

Proposed by: not disclosed. The Proponents request that the following clause shall be set forth in the Articles of Incorporation: "The Company shall mandatorily disclose the money amount and forms of compensation for each individual Director, together with the evaluated monetary value of all compensation in Japanese yen, in the business report and the annual securities report every year." The Proponents argue that generally, it is not the issue of concern in Japan that compensation for directors is high, but that the compensation system has no correlation with shareholder value in the medium to long term and if compensation is disclosed individually, the measurement of costs and benefits will become easier and clearer. The Board recommends shareholders oppose and argues that policy on compensation for Directors and the total amount of compensation for this fiscal year is as described on pages 68 to page 70 of the Business Report for the Thirteenth Fiscal Year. Also, the Board argues that the Company has disclosed individual compensation for directors (for those with a total amount of consolidated compensation of 100,000,000 or more) in accordance with the laws in the annual securities report, with three persons disclosed in fiscal year 2016: the Chairman, the Deputy Chairman, and the President.

The proposed additional disclosure on the level of individual payment is supported. However, it is not deemed appropriate to be added into the Company's Articles of Incorporation. Opposition is recommended.

*Vote Cast: Oppose*

### *5. Shareholder Proposal: Amend Articles to Require Company to Urge Subsidiaries Owning Shares in Allied Firms to Vote Shares Appropriately*

Proposed by: not disclosed. The Proponents requests that the following clause shall be set forth in the Articles of Incorporation: "The Company shall instruct the subsidiaries under its management control, such as banks and securities companies, to exercise the voting rights of shares held for the purpose of Strategic Shareholdings appropriately, such as by seeking the opinions of disinterested proxy advisors." The Proponents argue that with respect to the exercise of voting rights of shares held for the purpose of Strategic Shareholdings, measures that are remarkably lacking in economic rationality have been continuously taken; e.g., the Group has voted for the proposals of companies without criticism, even for listed companies whose return on equity (ROE) has remained low for a long time. The Board recommends shareholders oppose and argues that in order to ensure the appropriate exercise of voting rights of shares held for the purpose of strategic investment, the Company and the Group banks make comprehensive decisions on every proposal for the agenda of a shareholders meeting after confirming the following two points: i.) will it increase the medium- to long-term corporate value and lead to continuous growth of the relevant corporate business client; and ii.) will it increase the medium- to long-term economic profits of the Company and the Group banks.

The proposal represents an attempt to micro-manage the company which cannot be supported. An oppose vote is recommended.

*Vote Cast: Oppose*

### *6. Shareholders' Proposal: Dismissal of Director Nobuyuki Hirano*

Proposed by: Not disclosed. The Proponents request that Director Nobuyuki Hirano shall be dismissed from the position of Director. The proposal is deemed to be unnecessary as shareholders have the option to vote in favour/ against the election of a director annually. An oppose vote is recommended.

Vote Cast: *Oppose*

*7. Shareholders' Proposal: Partial Amendment to the Articles of Incorporation (Establishment of a Special Investigation Committee on the Overall Reconsideration of Business Relationship with Kenko Tokina Corporation)*

Proposed by: Not disclosed. The Proponent requests that the following clause shall be stated in the Articles of Incorporation: "The Company shall establish a special investigation committee to thoroughly reconsider the business relationship with Kenko Tokina Corporation through investigation on matters including the historical details and the answers by the management of the Company at the general meeting of shareholders." The Proponents argue that the Company was questioned about the appropriateness of transactions with an affiliated company of Kenko Tokina Corporation, on the ground that the representative of such company has committed the act of prostitution with hundreds of women annually, including minors and those who have suspected relationships with antisocial forces, and also paying money as return for intermediation, but the Company made false answer that it confirmed such facts did not exist. The Board recommends shareholders oppose and argues that since the Articles of Incorporation provide the basic policy of the company, it believes that it is not appropriate to prescribe the establishment of an investigative committee on individual events.

The Board does not respond to the part of the proposal which would require the Company to seek opinion of disinterested proxy advisors. Engagement is considered best practice and it would be welcomed that the Board committed to it. However, it is not considered within the scope of the Articles. On balance, opposition is recommended.

Vote Cast: *Oppose*

*8. Shareholders' Proposal: Partial Amendment to the Articles of Incorporation (Reconsideration of Customer Service for the Socially Vulnerable)*

Proposed by: Not disclosed. The Proponent requests the following clause to be implemented in the Articles of Incorporation: Driver's license shall not be requested indiscriminately, taking into consideration injured and sick people and people with disabilities, during customer service at all Group companies." The Proponent believes that requiring one to present a driver's license ("license") at the very beginning shows no consideration whatsoever for injured and sick people and people with disabilities who are unable to get a license. The Board believes that it is not appropriate to prescribe matters concerning individual business execution. The Board also states that the group appropriately carries out identification confirmation of customers using methods including the presentation by customers of a driver's license and/or passport, Individual Number Card and other identification documents stipulated by laws and regulations. The proposal is considered to be sound, in principle. However, the Company seems to not consider exclusively driver's license as the only identification. As such, an oppose vote is recommended.

Vote Cast: *Oppose*

*9. Shareholders' Proposal: Partial Amendment to the Articles of Incorporation (Disclosure of Reason upon Compulsory Termination of Account)*

Proposed by: Not disclosed. The Proponent is requesting the following clause to be added in the Articles of Incorporation: "Specific reasons shall be disclosed in the case of compulsory termination of a customer's account at Group companies." The proposal is deemed to be unnecessary as disclosure of terms is regulated by law, which would make any lower provision void. It is not considered appropriate that regulation of customer-company contracts be included in the Articles. Opposition is recommended.

**2. *Approve the Remuneration Report***

Overall disclosure is adequate. The change in the CEO's salary is in line with the rest of the Company, as the CEO's salary decreased by 2.7% while the salaries of all-employees increased by 7.8%. The balance of CEO realized pay with financial performance is considered acceptable as the change in CEO total pay over five years is commensurate with the change in TSR over the same period. LTIP awards granted during the year under review are excessive, amounting to 250% of salary for the CEO. Total variable pay for the year under review is also excessive, amounting to approximately 450% of salary for the CEO. The ratio of CEO pay compared to average employee pay is not acceptable at 96:1.

Rating: AD.

### **SINOPHARM GROUP CO AGM - 28-06-2018**

#### *8. Authorize Board to Approve Guarantees in Favor of Third Parties*

The Board proposes to seek the Shareholders' approval for delegation of the power to the Board to approve the guarantees in favour of third parties with an aggregate total value of not more than 30% of the latest audited total assets of the Company over a period of 12 months. It is considered that this delegation represents an excessive loss of shareholder input into transactions that could substantially affect Company value. Therefore, a vote in opposition is recommended.

Vote Cast: *Oppose*

#### *10. Approve General Share Issue Mandate*

The authority is limited to 20% of the share capital and expires at the next AGM. The authority exceeds recommended limits. An oppose vote is recommended.

Vote Cast: *Oppose*

#### *12. Approval of Debt Financing Instruments*

The Board are seeking shareholders approval to issue debt financing instruments with an aggregate limit of RMB 25 billion, with the aim to help the company to expand the financing channels and reduce the financing cost for the purpose of repaying financial institution loans and credit type maturity bonds. The company's current share capital is RMB 2.7 billion. A vote in opposition is recommended due to the excessive nature of the proposal.

**mitsui Mining & Smelting Co AGM - 28-06-2018***1. Appropriation of Surplus*

Japanese companies seek specific authority for the appropriation of any surplus in earnings and this authority includes any distribution of a dividend. The approach to such resolutions rests on the degree to which the dividend payout ratio is in line with the level of distribution which investors could reasonably expect. A dividend of 70 yen per share is proposed, however, the Company made a net loss in the year under review. It is considered unwise to pay a dividend in this instance given the capital maintenance needs of the company.

Non-Executive Director, not considered to be independent owing to a tenure of over nine years. There is insufficient independent representation on the Board. Opposition is recommended.

Vote Cast: *Oppose*

#### 9. *Grant Board Authority to Issue Ordinary and Preference Shares*

Authority is sought by the Board to issue ordinary shares without pre-emptive rights to an amount of 20% of the share capital and preference shares. The percentage of shares in relation to the share capital is more than 10% and consider excessive. On this ground, opposition is recommended.

Vote Cast: *Oppose*

#### 10. *Authorise the Board to Waive Pre-emptive Rights*

The Board requests shareholder approval to exclude pre-emption rights on shares issued over a period of five years, proposed in the previous resolution. The corresponding authority for issuing shares without pre-emptive rights, requested in the previous proposal, exceeds guidelines for capital increase without pre-emptive rights. Opposition is recommended.

Vote Cast: *Oppose*

#### 11. *Authorise Share Repurchase*

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital. As the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

**ORPEA AGM - 28-06-2018**

***O.8. Approve Compensation of Yves Le Masne, CEO***

It is proposed to approve the remuneration paid or due to Yves Le Masne, (CEO) with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On this basis, opposition is recommended.

Vote Cast: *Oppose*

***O.9. Approve Compensation of Jean-Claude Brdenk, Vice-CEO***

It is proposed to approve the remuneration paid or due to Jean-Claude Brdenk (Vice-CEO) with an advisory vote. The payout is in line with best practice, under 200% of the fixed salary. However, the Company has not fully disclosed quantified targets against which the achievements and the corresponding variable remuneration has been calculated. Although a common practice in this market as this is deemed to be sensitive information, it prevents an accurate assessment and may lead to overpayment against underperformance. #### *O.11. Approve Remuneration Policy of Yves Le Masne, CEO*

It is proposed to approve the remuneration policy. Variable remuneration appears to be consistently capped, and the payout is in line with best practice. However, the Company has not disclosed quantified targets for the performance criteria of its variable remuneration component, which as a consequence may lead to overpayment against underperformance. In addition, there are no claw back clauses in place over the entirety of the variable remuneration component which makes it unlikely that shareholders will be able to reclaim any variable remuneration unfairly paid out. On these bases, opposition is recommended.

Authority sought to allow the Board to repurchase and use capital stock within legal boundaries. The authority exceeds 5% of the share capital; as the Company has not duly provided an explanation regarding the rationale behind the proposal, opposition is recommended.

*Vote Cast: Oppose*

#### *E.17. Authorize Issuance of Equity or Equity-Linked Securities without Preemptive Rights up to Aggregate Nominal Amount of EUR 8,073,290*

Authority to issue shares without pre-emptive rights is proposed for more than 10% of the current share capital, and the duration of the authority would exceed 12 months. It is considered that share issuances without pre-emptive rights should be limited to 10% of the issued share capital and shareholders should have the occasion to vote on such resolutions annually. Opposition is recommended.

*Vote Cast: Oppose*

#### *E.18. Approve Issue of Shares for Private Placement*

The Board requests authority to approve a global authority for the issue of capital related securities without pre-emptive rights by private placement. The authorisation is valid up to 10% of the issued share capital over a period of 26 months. This authority is not requested in connection with a particular operation and has not been duly justified by the Company. Opposition is therefore recommended.

*Vote Cast: Oppose*

#### *E.19. Authorise the Board to Increase the Number of Shares Issued in case of Exceptional Demand*

In addition to the share issuance authorities sought above, the Board requests shareholder authority for a capital increase of additional 15%, in case of exceptional demand.

A green shoe authorisation enables an authorization of additional shares in the event of exceptional public demand. In this case, the authorization would increase allow the placement of up to 15% additional new shares within a thirty day period at a price equal to that of the initial offer. There are concerns with such authorities as they may potentially represent a discount superior to the discount to which the initial authorisation is limited due to a potential rise in share price in the period between original issuance and secondary issuance. Given the potential for inequitable treatment of shareholders, opposition is recommended.

Vote Cast: *Oppose*

*E.20. Authorize Board to Set Issue Price for 10 Percent Per Year of Issued Capital Pursuant to Issue Authority without Preemptive Rights*

The Board requests authority to issue capital related securities without adhering to the general pricing conditions. Under this authority, the company would be authorised to issues shares at a discount of 10% up to a total of 10% of the issued share capital over a period of 12 months. Given concerns over the level of discount and the amount of the authority, opposition is recommended.

Vote Cast: *Oppose*

*E.21. Approve Issue of Shares for Contribution in Kind*

The Board requests authority to issue shares and capital securities in consideration for contributions in kind up to 10% of the issued share capital over a period of 26 months. The proposal is within legal limits but can be used in time of public offer. Opposition is recommended.

Vote Cast: *Oppose*

*E.23. Authorize up to 1 Percent of Issued Capital for Use in Restricted Stock Plans*

Proposal to authorize for 26 months the Board to allot shares free of charge to employees and executives. Share issued under this authorization will not enjoy pre-emptive rights and will be attributed free of charge to management or employees. The Board would maintain full discretion over the beneficiaries. Incentives such as this are not related to performance and as such may reward the position of the recipient instead of performance. Opposition is recommended.

**IAC/INTERACTIVECORP AGM - 28-06-2018****2. Approve New Omnibus Plan**

It is proposed to adopt the IAC/InterActiveCorp 2018 Stock and Annual Incentive Plan (the "2018 Plan"). The 2018 Plan is administered by the Compensation and Human Resources Committee (or such other committee of the Board as the Board may from time to time designate, and for purposes of this summary, the "Committee"). Among other things, the Committee has the authority to select individuals to whom awards are granted, determine the types of awards granted, the number of shares of IAC common stock underlying awards and the terms and conditions of awards. Awards may be granted under the 2018 Plan to current or prospective officers, employees, directors and consultants of IAC and its subsidiaries and affiliates. The 2018 Plan provides that the aggregate number of shares of IAC common stock subject to grant under the 2018 Plan cannot exceed 10,000,000.

The Plan is presented as an omnibus plan, which means that bundled within the same official plan there are various incentive plan elements aimed at rewarding different groups of employees, officers and executives. These plans permit the granting of options, stock appreciation rights, restricted stock, restricted stock units, performance grants and dividend equivalents. However, it is noted that the Compensation Committee retains the power to select employees to receive awards and determine the terms and conditions of awards (and also note that 'management employees' appear most likely to be the principal beneficiaries of the Plan).

**3. Appoint the Auditors**

EY proposed. Non-audit fees represented 0.53% of audit fees during the year under review and 11.58% on a three-year aggregate basis. This level of non-audit fees does not raise serious concerns about the independence of the statutory auditor. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

**DR PEPPER SNAPPLE GROUP INC. AGM - 29-06-2018****3. Advisory Vote on Golden Parachutes**

The Board is seeking shareholders' approval of the compensation payable to the Company's Named Executive Officers (NEOs) in connection with the Merger. It is considered that payments relating to merger and acquisition transactions have the potential to interfere with the exercise of objective judgement by the board responsible for making the decision in the best interests of shareholders. This is particularly the case where board members include NEOs who will receive such payments; but even where this is not the case the quantum of such payments can represent a conflict of interest in board deliberations of the relevant transaction. In considering whether NEO payments related to the Merger are appropriate it is considered to identify whether amounts normally payable to NEOs are enhanced as a result of the change in control and include elements that are not pro-rated against performance or earned by service prior to payment. As the awards are based purely on the merger and do not have any concrete performance conditions attached, an oppose vote is recommended.

Vote Cast: *Oppose*

**4. Adjourn Meeting**

The Board requests authority to adjourn the annual meeting until a later date or dates, if necessary, in order to permit further solicitation of proxies if there are not sufficient votes at the time of the annual meeting to approve the merger. An oppose vote is recommended to any adjournment or postponement of meetings if a

sufficient number of votes are present to constitute a quorum. It is considered that where a quorum is present, the vote outcome should be considered representative of shareholder opinion.

*6. Appoint the Auditors*

Deloitte proposed. No non-audit fees were paid to the auditors in the past three years. This approach is commended. The current auditor has been in place for more than ten years. There are concerns that failure to regularly rotate the audit firm can compromise the independence of the auditor.

*Vote Cast: Oppose*

*7. Advisory Vote on Executive Compensation*

The Company has submitted a proposal for shareholder ratification of its executive compensation policy and practices. The voting outcome for this resolution reflects the balance of opinion on the adequacy of disclosure, the balance of performance and reward and the terms of executive employment. The compensation rating is: BCC. Based on this rating, it is recommended to abstain.

*Vote Cast: Abstain*

**ICADE EGM - 29-06-2018***5. Elect Guillaume Poitrinal*

Non-Executive Director, not considered independent as the director has a relationship with the Company, which is considered material. Mr. Poitrinal is an executive at ICAMAP S.à.r.l., which holds a 1.83% stake in Icade. There is insufficient independent representation on the Board.

Vote Cast: *Oppose*

**LG CORP EGM - 29-06-2018***1. Elect Koo Gwang-Mo as an Inside Director and Kim Sang Hun as an Outside Director*

Election of directors bundled in one resolution, which is not in line with best practice. The Board is considered less than half independent. Also, there is a lack of disclosure on directors' biographical details to provide an informed assessment. Therefore, an oppose vote is recommended.

Vote Cast: *Oppose*

*2. Elect Kim Sang Hun as an Audit Committee Member*

Non-Executive Director, committee member. Not considered to be independent due to a lack of disclosure. The Audit Committee should only comprise independent non-executive directors. An oppose vote is recommended.

*6. Approve Financial Assistance to Third Parties*

Proposal to consider and approve the authorisation on the Company and its majority-owned subsidiaries providing financial assistance to third parties.

The financial assistance proposed for authorisation refers to the actions of the Company and its majority-owned subsidiaries to provide funds or entrusted loans to third parties and the target of such financial assistance shall be an unconsolidated project company or a project company with no more than 50% of equity interest attributable to the Company, or a majority-owned subsidiary formed by the Company and its connected parties through investment. Majority-owned subsidiaries consolidated by the Company and with more than 50% equity interest attributable to the Company are excluded.

The total amount of the authorised financial assistance shall not exceed 50% of the Company's latest audited net assets attributable to the equity shareholders of the Company, that is RMB 66.338 billion. The amount of financing to a single project company shall not exceed 10% of the Company's latest audited net assets attributable

to the equity shareholders of the Company, that is RMB13.268 billion. Funds can be re-applied within the approved amount, provided that the balance of financial assistance does not exceed the amount of financial assistance approved at the AGM at any given time.

The Company undertakes that, in the 12-month period following the date on which financial assistance to third parties actually occurs, the Company will not use idle raised fund to temporarily replenish liquidity, or turn raised funds into permanent liquidity, or apply over-raised fund for replenishment of permanent liquidity or for repayment of bank loans.

The proposal holds the likelihood of raising potential conflicts of interest between the Company and its Directors. Also, there are concerns over the risk carried by the Company's shareholders in the event of a default of a loan or guaranteed credit made to a related company in which it holds less than 50% of the capital. Based on the above, opposition is recommended.

### **ALPHA BANK AE AGM - 29-06-2018**

#### *2. Discharge the Board of Directors and Auditors*

In this market, auditor discharge prevents lawsuits or claims for activities carried out during the year relating to facts that have not been disclosed to shareholders. As a consequence, releasing auditors from liability will weaken the governance framework and introduce great risks for investors. On this basis, opposition is recommended.

*Vote Cast: Oppose*

#### *5. Elect Mr. Johannes Herman Frederik G. Umbgrove in the Board of Directors and member of the Audit Committee*

Non-Executive Director, not considered to be independent as the director represents the Hellenic Financial Stability Fund which is a significant shareholder of the Company. There is insufficient independent representation on the Board. Opposition is recommended.

*Vote Cast: Oppose*

#### *7. Approve Termination Payments*

It is proposed for the Executive members of the Company a new severance policy that will include: for a member that serves in the Company between six and fifteen years a severance payment equally with eighteen months of gross salary. For a member that serves in the Company for sixteen years or more a severance payment equally with 24 months of gross salary. The proposed policy is against best practice since, it is considered that severance payments should not exceed 12 months of gross salary. Opposition is recommended.

*Vote Cast: Oppose*

#### *10. Authorize Board to Participate in Companies with Similar Business Interests*

With this resolution, the Board is seeking authority that Members of the Board of Directors and to other Executives of the Bank may participate in the Boards of Directors and/or in the Management of companies of the Bank's Group, having similar purposes to those of the Company. This authority is not sought for defined appointments. As a consequence, if approved, this authority may lead to potential time commitment concerns. In addition, an excessive number positions within the same company may develop excessive familiarity and trust, which would eventually hinder an effective independent oversight by directors (while there is already insufficient independent representation on the Board). On these bases, opposition is recommended.

*Vote Cast: Oppose*

#### *6.2. Re-elect Efthimios Vidalis as Director*

Non-Executive Director, not considered to be independent based on the Company's own assessment. There is insufficient independent representation on the Board. Opposition is recommended.

*Vote Cast: Oppose*

#### *6.5. Re-elect Vassilios Rapanos as Director*

**MYLAN NV AGM - 29-06-2018****1c. *Elect Robert J. Coury***

Non-Executive Chairman. Not considered independent as he is the former Chief Executive Officer of the Company from September 2002 until January 2012. There is insufficient independent representation on the Board. Furthermore, it is noted that the director may still receive equity awards as a non-executive, which is not in line with best practice. It is also noted that the director received 33.7% votes in opposition at last year's general meeting.

Vote Cast: *Oppose*

**1e. *Elect Neil Dimick***

Non-Executive Director. Not considered independent owing to a tenure of over nine years. There is insufficient independent representation on the Board. It is noted that the director received 49.74% votes in opposition at last year's general meeting.

#### *5. Instruction to Deloitte Accountants B.V. for the Audit of the Company's Dutch Statutory Annual Accounts for Fiscal Year 2018*

The Board proposes to appoint Deloitte Accountants B.V. to audit the Company's Dutch statutory annual accounts as required by Dutch law for the year ended 31 December 2017. As the firm has been in place for more than ten years, an oppose vote is recommended.

*Vote Cast: Oppose*

#### *6. Authorise Share Repurchase*

The Board is seeking a renewal of the general authority to repurchase the Company's shares for a period of 18 months from the upcoming Annual Meeting. This resolution is typical for Dutch companies. There is no proposed limit to the number of shares that may be repurchased by the Company, though it is noted in the disclosure that Dutch law requires that repurchases not exceed 50% of the issued capital. It is considered best practice for share repurchases to be limited to 10% of the issued capital of a company. As this limit is not included in the proposal, an oppose vote is recommended.

### **PIRAEUS BANK SA AGM - 29-06-2018**

#### *1. Approve Financial Statements*

Disclosure is adequate. The financial statements were made available sufficiently before the meeting and have been audited and certified. Nevertheless, the CET 1 at the Company is below 7% in adverse scenario of the 2018 stress test performed by the European Central Bank, which is considered to be an excessive level of common equity capital as a percentage of risk-weighted assets under CRD IV. As a consequence, the Company may need to perform a re-capitalisation in the short term. Properly run and transparent companies, including banks, should not require regulatory intervention in order to calculate the true value of loans properly, and potentially assessing the need for the raising of new capital. Because of this lack of transparency and inaction, opposition is recommended.

#### *3. Discharge the Board and the Auditors.*

In this market, Auditors discharge prevents lawsuits or claims for activities carried out during the year relating to facts that have not been disclosed to shareholders. As a consequence, releasing auditors from liability will weaken the governance framework and introduce great risks for investors. On this basis, opposition is recommended.
